**Self Defense for Children**  
*Ages 6 - 11*
If someone wants to hurt our children, they won’t choose a time or a place with witnesses. That means no parents, no teachers, no policemen, just our children and the predator. The safety of our children will depend on their ability to recognize a threat and respond effectively. These fun, interactive and age appropriate workshops teach essential, lifesaving information about the threats facing our children, strategies for prevention and real world techniques designed to reduce their risk of abductions, assaults and other forms of violence. But most of all, these programs teach students that they have the right to be safe, that no one has the right to hurt them and that their life is worth protecting.
