

These are handwritten survey notes for County Surveyor work. Survey dates include: John Fitzhugh from 1878 to 1882. George Fitzhugh from 1882 to 1886. Rolla Canfield from 1890 to 1892. John Fitzhugh again in 1893 to 1898. D. Cunniff Jr. from 1900 to 1908. These surveys appear to be cutting out private claims from the PLSS. Consequently, there is a lot of PLSS information, but a few checks show:

1. County Surveys Nos. 1 – 179. Survey numbers were re-started (No. 1) in 1890 with Rolla Canfield.
2. Surveys listed by: survey number, land owner's name, township, range, section and purpose.
3. Casual examination reveals:
 - Surveys to locate claims in the unsurveyed land.
 - Stubbed in corners
 - Establishment of various private property lines
 - Early PLSS retracement, perpetuation and witness objects.
 - Some of these surveys, John Fitzhugh notes are "imperfect."
 - Lots of old interesting references to early wagon roads, railroads, flumes, tunnels, tressels, and other features of historical interest.
 - A letter from the General Land Office instructing John Fitzhugh how to properly establish the Center $\frac{1}{4}$ corner, dated May 16, 1879. (Straight lines from the quarter section corners to the point of intersection.)

Survey to Locate reservoir ditches
Tunnel & constructed for mining purposes

Begin at the $\frac{1}{4}$ Sec. Cor. between Sec. 6
T. 36 S. R. 14 W & Sec. 1 T. 36 S. R. 15 W.

Thence North

North 2.50 Chs. Supply Stream of Reservoir Course West
" 5.62 " To a point on hillside

Thence West

West 1.70 Chs Buck Fence nearly N. & S.
" 4.00 " Enter Small Pine timber
" 8.26 " Point in a Wagon Road N. & S.

Thence $S 38^{\circ} 43' W$

$S 38^{\circ} 43' W$.57 lks A Gate in a fence E & W
" .77 " The Center of a small bridge over outlet of Reservoir

From the outlet of the Reservoir a ditch carries the water $N 87^{\circ} 30' W$ to the Entrance of a Tunnel through the Coast Sand ridge. The present level of the water at the outlet of the Reservoir is 8' 7" below the top of one of the old beeches upon which the original flume was placed. The Tunnel through the Coast Sand ridge bears $N 87^{\circ} 30' W$ to its outlet at the beach, and is immediately under the cut of the old ditch.

From a point $N 87^{\circ} 30' W$ of the outlet of the Reservoir on the Coast Sand ridge, run a base at Rt. angles ($N 23^{\circ} 30' E$) 95 lks - Angle at Reservoir $10^{\circ} 25'$ Making distance 5 Chains - Measure 50 lks to outlet of Tunnel which added gives 5.50 chs. from Reservoir to the Tunnel's discharge at the Beach. The Tunnel is about 65' higher than the ocean beach.

Township 36 South, Range 15 West

Bearings

Survey No. 11 (William Bagnell)

From the west end of the Tunnel
The old Fleming Cabin bears $S 13^{\circ} W$ about 150 chs

Line from the center of the bridge at the
Reservoir -

$S 22 \frac{1}{2}^{\circ} W$

4.70 chs Along the wagon road

$S 45^{\circ} E$

2.65 " To a ditch tapping the Stream
upon which the Reservoir is
located, and about 40' or 50'
higher than the outlet of
the Reservoir -

The general bearing of the ditch from
the road to the Reservoir beach is $S 45^{\circ} W$

From the Tunnel's discharge on the
beach, the head N. of Kelly's Cove bears
 $N 48^{\circ} W$ about 10 chains. Reef North
of Kelly's Cove $N 48^{\circ} W$ about 20 chs.

The Beach and Bluff S. of Kelly's
Cove bear $S 18^{\circ} 30' W$. Extremity of Otter
Point $S 23^{\circ} 30' W$. A rock on the beach
on the E & W line dividing Section 1 bears
 $S 38^{\circ} 30' W$

Re:

Washington, D. C. May 16th, 1879.

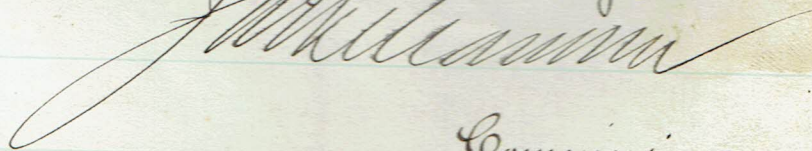

John Fitzhugh Esq.

Port Orford, Curry Co.,
Oregon.

Sir:

In reply to the inquiry in your letter of the 28th ultimus in regard to the proper method of subdividing Section 16. Township 36 South Range 14 West into quarter-sections I have to state that the course to be pursued is to run straight lines from the quarter-section corners to the opposite corresponding corners, and the point of intersection of the lines so run will be the legal centre of the section.

Very respectfully,

Commissioner.

T. 36 S. R. 15 W.

Survey No. 1.

Surveyed for Fred Hare, Jerry Huntley, Charley Winsor and Walter Sutton, Dec. 9th 1890.

This survey was for the purpose of locating and staking out a lot sold by Walter Sutton to Fred Hare, Jerry Huntley and Charley Winsor.

Preliminary to commencing this survey, I direct the telescope of my instrument due North by the solar apparatus and find that the needle varies $19^{\circ} 35' E.$ at this place.

I begin at a leaning spruce tree, 10 ins. diameter, which is situated between Jerry's Huntley's residence and the Postoffice. Thence I run $N. 46^{\circ} 30' E.$ 2.60 chains distant, to the N.E. corner of Walter Sutton's lot. At this corner I drive an iron pin 12 ins. long into the ground and bury a glass bottle 10 ins. in the ground alongside.

Thence I run $S 48^{\circ} 30' W.$ 50 feet distant to the N.E. corner of the lot sold by Walter Sutton to Fred Hare, Jerry Huntley and Charles Winsor. At this corner I drive a cedar stake 1 foot long and about $1\frac{1}{2}$ ins. square into the ground.

I continue this line $S 48^{\circ} 30' W.$ 50 feet further to the N.W. corner of said lot. At this corner I drive a cedar stake 1 foot long and about $1\frac{1}{2}$ ins. square into the ground.

Thence I run $S 48^{\circ} 30' E.$ 100 feet distant to the S.W. corner of said lot. At this place I drive a cedar stake 1 foot long and about $1\frac{1}{2}$ ins. square

T. 38 S. R. 14 W.

into the ground.

Thence from N. $48^{\circ} 30' E.$ 50 feet distant to the S. E. corner of said lot. At this point I drive a cedar stake 1 foot long and about $1\frac{1}{2}$ ins. in diam. into the ground.

Thence from N. $48^{\circ} 30' W.$ 100 ft. distant to the N. E. corner, the place of beginning, of said lot. Said lot lying in the town of Ellensburg Curry County Oregon, and situated in Seat 3. Sec. 36 T. 36 S. R. 15 W. Will. Mer.

Holla Canfield
County Surveyor.

Survey No. 2.

Surveyed for Theron Crook, December 11<sup>th</sup> 1890.

This survey was to establish the South bdy. of Sec. 16 T. 38 S. R. 14 W.

Theron Crook and W. W. Whiten were sworn in as chainmen.

Beginning at the S. W. cor. of Sec. 16, which point I find by measuring N. $20^{\circ} W.$ 35 lbs. dist. from a fir 50 ins. diam, the cor. post being washed away,

Thence East on South bdy. of Sec. 16.

N. $19^{\circ} E.$

Across prairie.

| | |
|------------|--|
| 12.50 chs. | Trail, course N. and S. |
| 25.50 " | Top of spur, course N. and S. |
| 26.00 " | Enter brush. |
| 40.80 " | White fir, a witness tree to the $\frac{1}{4}$ Sec. cor. bet. Secs. 16 and 21. |

T 38 S. R. 14 W.

This $\frac{1}{4}$ Sec. cor. is gone and the field notes furnished from the Surveyor General's office amite the notes of this corner.

57.79 " Top of sharp ridge, course N. and S. Here I triangulated across a steep canyon which is too steep to measure across with the chain.

I set flag on line on opposite ridge and measure a base N 93 lks. from which point the flag bears S $82^{\circ} 33'$ E, and distance across is tan. $82^{\circ} 33'$ x by base = 4.11 chs. and the whole distance from the cor. is 64.90 chs.

64.90 " Top of ridge course, N.W. and S.E.

81.56 " Intersect a point 50 lks S. of Cor. to Secs. 15, 16, 20 and 21, which is an alder tree 12 in diam. with appropriate marks in the bark, and witness trees agreeing with field notes of U. S. survey.

Rolla Canfield
County Surveyor

Survey No. 3.

Surveyed for Asa Crook December 13<sup>th</sup> 1890.

This survey was for the purpose of establishing the $\frac{1}{4}$ Sec. cor. bet. Secs. 28 and 33 T. 38 S. R. 14 W, and establishing the $\frac{1}{4}$ Sec. cor. between Will Crook and Joseph Class, in Sec. 28 in the same township.

Thomas Cahill and Theron Crook were sworn in as chainmen.

Beginning at the cor. to secs. 27, 28, 33 and 34, I offset South 5.28 chs., in order to have prairie to measure through, the sec. line running

T 39 S. R. 14 W.

through a dense undergrowth of brush.

Thence <sup>S. 89° 53'</sup> run West through prairie.

Va. 19° E

20.00 chs. Intersect wagon road, course S. E.

39.75 " To a point on the 1/4 Sec. line in Sec. 33 5.28 chs.
South of North boundary of said Sec.Thence run North 5.28 chs. and at this point
re-establish the 1/4 Sec. cor bet. Secs 28 and 33, by
erecting a mound of stone 3 1/2 foot base and 1 1/2 feet
high, there being no witness trees convenient, and
from which mound,

The top of Arch Rock bears S 53° 20' W.

The center of Joseph Closes house bears S 9° 20' E.

Thence due North.

Va 19° E.

And at 20.00 chs. set a cedar post 3 1/2 ft. long, 3 ins
square 12 ins. in the ground for 1/4 1/4 cor.
from which,A fir 18 ins. diam. bears S 30 1/2° W 60 lks.
dist. marked 1/4 1/4 S. B. I.A fir 30 ins. diam. bears N 47° W. 6 lks. dist.
marked 1/4 1/4 S. B. I.Rolla Canfield
County Surveyor.

Survey No. 4

Surveyed for John Cooley December 22, 1890.

This survey was for the purpose of finding
where the 1/4 Sec. line running South through

T. 38 S. R. 14 W.

Sec. 3 T. 39 S. R. 14 W. crosses the wagon road.
 & reestablish $\frac{1}{4}$ Sec. cor. on township line on North
 boundary of Sec. 3 T. 39 S. R. 14 W.

Thence South without measuring.

N. 19° E.

$\frac{1}{4}$ Sec. line crosses wagon road in prairie about
 20.00 chs. North of Riley Snodgrass' house.

Drove a fir stake into the ground about the wagon,
 where line crosses, and placed a rock over stake.

Rolla Canfield

County Surveyor.

Survey No. 5.

Surveyed for Clark and Miss Johnson, December
 22<sup>d</sup> 1890.

This survey was for the purpose of establishing
 the Sec. line between Miss Johnson's and Mr. Clark's
 claims, Miss Johnson's claim lying in Sec. 34, and
 Clark's in Sec. 33 T. 38 S. R. 14 W.

John and Othron Brook were sworn in as chain-
 men.

Commencing at a point 20.00 chs. West and
 5.28 chs. South of cor. to Secs. 27, 28, 33<sup>rd</sup> and 34,
 which point lies in the wagon<sup>road</sup>, running from
 Ellensburg to Cheto, and which was previously
 determined by me in Survey No. 3.

Thence southerly meandering wagon road.

N. 19° E.

20.00 Sec. line.

Set myrtle post 4 ft. long 4 ins. diam. marked $\frac{1}{4}/\frac{1}{4}$ S
on N. E. face. for $\frac{1}{4}/\frac{1}{4}$ sec. cor.

from which.

A white cedar bears $N 31\frac{1}{4}^{\circ} E$ 40 lks. dist marked
 $\frac{1}{4}/\frac{1}{4}$ S. B. T.

A sargent oak 14 ins. diam. bears $S. 9\frac{1}{2}^{\circ} E$ 17 lks. dist
marked $\frac{1}{4}/\frac{1}{4}$ S B. T.

Thence west without measuring

Va $20^{\circ} E$

Blazing line conspicuously, to Rogue river

Rolla Canfield,
County surveyor.

Survey No. 8.

Surveyed for See Southard May 8<sup>th</sup> 1891.
Survey was for the purpose of marking the east bdy of
See Southard's claim.

Reestablished $\frac{1}{4}$ Sec. cor. bet. Secs. 2<sup>nd</sup> and 35 on township
line, bet No. 35<sup>th</sup> and 36 S. Range 13 W. (see County Surveyor's
Record of Bearing Trees of U. S. Surveys, page 5)

From which $\frac{1}{4}$ Sec. cor. Φ run south without measuring.
Va $19^{\circ} 30' E$.

Blazing the line conspicuously to the N. bank of Rogue
river

Φ now return to $\frac{1}{4}$ Sec. cor. thence N.

Va. $19^{\circ} 30' E$.

0.77 chs Creek 6 ft. wide, course S.W.

ascend.

4.25 Sled road, course S.W.

8.25 Trail, course N.W. and S.E.

11.00 Same trail course N.E. and S.W.

19.50 Summit of spur, course S.E.

20.00 Marked a sargent oak 18 ins. diam. on S.W. side

$\frac{1}{4}/\frac{1}{4}$ S for $\frac{1}{4}/\frac{1}{4}$ cor.

from which,

A fir 24 ins diam. bears $S 9\frac{1}{2}^{\circ} E$ 27 ft. dist. marked
 $\frac{1}{4}/\frac{1}{4}$ S. B.T.

A sargent oak 10 ins. diam. bears $S. 85\frac{1}{4}^{\circ} W$
44 ft. dist. marked $\frac{1}{4}/\frac{1}{4}$ S B.T.

Rolla Canfield
County surveyor.

Survey No. 9

Surveyed for William Miller May 19<sup>th</sup> 1891.
Commenced at $\frac{1}{4}$ Sec. cor. bet. Secs. 28 and 33 T.
35 S. R. 13 W, thence west,
Va. $19^{\circ} 30' E$.

Through prairie.

- 1.48 chs. Fence, course, N & S, and enter field.
10.50 Leave field, and cross fence, course N W & S E.
20.00 Set temporary $\frac{1}{4}$ corner.
24.00 Enter timber and descend.
37.50 Trail, course N & S, newly made.
40.38 Intersect Sec. line 65 lks. north of Sec. cor.
Thence $89^{\circ} 4' E$ on a true line bet. Secs 28 and 33.
Va. $19^{\circ} 30' E$.
20.19 Set a fir stake $3\frac{1}{2}$ ft. long 3 in. diam marked " $\frac{1}{4}$ corner"
for a $\frac{1}{4}$ cor.
There being no witness trees near, raised a mound of
earth around post.

From the above $\frac{1}{4}$ cor. I run N.

Va. $19^{\circ} 30' E$

Ascend through prairie.

- 7.50 Enter brush.
19.00 Leave brush and enter prairie.
20.00 Drive a fir stake in the ground at cor.
Thence S $89^{\circ} 4' W$
Va. $19^{\circ} 30' E$.
1.00 Enter timber, and descend.
17.75 Newly made trail, course N & S.
20.00 Creek  wide course S.
20.19 Drive a stake in the ground at cor.
Thence N. retracing Sec. line,

Va. $19^{\circ} 30' E$

Up the bed of the creek.

4.00

Leave creek and ascend steep hill.

21.30

Enter at a point 12 lks. W. of $\frac{1}{4}$ Sec. cor. bet. Secs 29 & 28.

after diligent search I can
 not find the corner or witness
 trees or evidence sufficiently
 reliable to reestablish the
 corner.

I find a <sup>stump of a</sup> tree answering
 description in field notes that
 has apparently been killed by
 fire and is now so decayed
 that I could find no trace
 of scribe marks on it.

I find a piece of wood that
 appeared to have been part
 of a stake with one scribe
 mark on it, but it had been
 charred by fire, so the evi-
 -dence was not sufficiently
 positive to warrant reestab-
 -lishing the cor.

This piece of wood was
 20 S and 60 W of the true cor

Survey for

and Walker

Time set for Survey June 20, 08
being stormy, postponed until 21

I commence at witness Cor. (the
Cor being in a lagoon, 50 N

Off set - E to avoid lagoon there
N

off set - W to line

N enters $\frac{1}{4}$ Cor 19-20.

Substr. reference between witness Cor
and line Cor, 50 true dist. and
40 E bearing correct - so between
Cor N 34' E

I continue N on corrected course
N 34' E enters a fence referred
to be E + W line between Sec 20-17

I set a line flag at

I can find no reliable trace of Cor
Sec 19-20-17-18, nor testimony suf-
ficiently positive to establish the
Cor.

I go to Cor 16-17-20-21 there

W. enters $\frac{1}{4}$ Cor, 30 S at

W enters N + S 140 E at

and 1,32 S of a true line from
Cor from which I started to the $\frac{1}{4}$
Cor

I derive shortage and set
the Sec Co 66 N and 70 W
of the point where the two
corrected lines did intersect.
Given Course E to $\frac{1}{4}$ Cor
