### ADDITIONAL NOTES:

All fees must be paid at the time your application is filed. Staff will examine the application when filed to check for completeness and will not accept it if required items are missing. A final completeness check will be made prior to doing public notice regarding the pending decision. If it is determined to be incomplete or the findings are insufficient you will be notified and you must provide the required information in a timely manner to avoid denial of the request.

ORS 215.427 required the county to take final action on a land use application (except for plan/zone changes) including all local appeals within 120 days if inside an Urban Growth Boundary (UGB) or 150 days if outside a UGB once the application is deemed complete.

### PLOT PLANS:

All applications require that a plot plan of the subject property be included with the application form. The plot plan is an understandable may of your property and its relationship to adjacent properties. The plot plan must show certain essential information that is needed for the staff and the decision makers in the evaluation of your request. The plot plan is also incorporated into the public notice sent to adjacent property owners and affected agencies. The plot plan should be prepared on a single sheet of paper (preferable 8 ½ x 11") so copies can easily be reproduced for review.

An example plot plan is attached to this form to give you an idea of what information should be included on your plan and how it should be drawn. The plot plan <u>does not</u> have to be prepared by a surveyor or engineer, and can generally be prepared by the applicant from the Assessor map of the property. The dimensional information included on the plot plan must be accurate and drawn to scale so that the plot plan reasonably represents the subject property and any development therein. If your application is for a land partition or subdivision Oregon Statute required that plat maps must be prepared by a surveyor licensed by the state.
