RE: Time extension for processing modification of conditional use permit AD-1604 (Map/TL: 3215-00 tax lots 01502 & 01800) to include 12.5 adjacent acres for process water storage and stockpiling of aggregate materials.

Dear Ms. Crockett

In order to provide Staff the necessary time to review the application materials and prepare a decision and notice, Applicant grants the county an extension as needed. The new deadline for the county's final decision should be January 31st, 2022, however if additional time is needed especially in consideration of all the covid effects we can discuss another date.

Sincerely,

Knife River Materials,
