VARIANCES: The Board shall have the power to authorize, upon an appeal, specific variances from such requirements as lot areas and width regulations, building height regulations, yard and depth regulations, and off-street parking and loading space requirements provided it finds that all of the Basic Conditions and any one of the Specific Conditions are forth herein can be satisfied.

a. Basic Conditions: The Board shall find that a variance request meets all of the following conditions.

- 1) The requested variance shall not be contrary to the public interest or to the intent and purpose of this Ordinance.
- 2) The requested variance shall not permit the establishment within a district of any use which is not permitted by right within that zoning district, or any use or dimensional variance for which a special land use permit is required.
- 3) The requested variance shall not cause a substantial adverse effect upon properties in the immediate vicinity or in the district in which the property of the applicant is located.
- 4) The conditions or situations which necessitate the requested variance is not so general or of such recurrent nature as to make the formulation of a general regulation for such conditions reasonably practical.
- 5) The requested variance shall related only to property that is under control of the applicant.
- 6) The requested variance shall not be necessitated by any self-created condition or action taken by the applicant or property owner.
- 7) There is no reasonable alternative location on the parcel for the proposed improvements for which a variance is sought where such alternative location would eliminate the need for the requested variance or reduce the extent of the condition(s) necessitating the variance.

b. Special Conditions: When all of the foregoing basic conditions can be satisfied, a variance may be granted when any one of the following special conditions can be clearly demonstrated:

- 1) Where there are practical difficulties which prevent full compliance with the requirements of this Ordinance. Such practical difficulties shall be evaluated in terms of the use of a particular parcel of land. Neither the fact that the appellant could: (a) incur additional costs to achieve full compliance, or (b) receive additional income with less than full compliance shall be determined a practical difficulty for the purposes of this paragraph.
- 2) Where there are exceptional or extraordinary circumstances or physical conditions such as narrowness, shallowness, shape, or topography of the property involved, or to the intended use of the property that do not generally apply to other property or uses in the same zoning district.
- 3) Where such variation is necessary for the preservation of a substantial property right possessed by other properties in the same zoning district.

c. Rules: The following rules shall be applied in the granting of variances:

- 1) The Board may specify, in writing, such conditions regarding the character, location, and other features that will in its judgment, secure the objectives and purposes of this Ordinance. The breach of any such condition shall automatically invalidate the permit granted.
- 2) Each variance granted under the provisions of this Ordinance shall become null and void unless: The construction authorized by such variance has received a Township Land Use Permit within one year after the granting of the variance; and the occupancy of land, premises, or buildings authorized by the variance has taken place within two (2) years after the granting of the variance, unless an extension of time has been granted by the Zoning Board of Appeals.
- 3) No application for variance which has been denied wholly or in part by the Board shall be re-submitted for a period of one year from the date of the last denial, except on the grounds of newly discovered evidence of changed conditions found, upon inspection by the Board, to be valid. For such newly discovered evidence to be considered, an applicant shall submit a detailed description of such evidence to the Zoning Administrator who shall place it on the agenda of the Zoning Board of Appeals evidence and whether it maybe have been pertinent to the decision of the Zoning Board of Appeals. If the Zoning Board of Appeals determines that the newly discovered evidence would have been pertinent to its decision, it shall direct the Zoning Administrator to accept a new application for the previously denied variance. An application considered under the terms of this subparagraph shall be considered a new application and shall be subject to all sharing, notice and fee requirements of this ordinance.
