

PRIVATE ORDER DUST CONTROL ON PUBLIC ROADS

At the request of a resident(s), the Washtenaw County Road Commission will apply special order dust control on unpaved public roads for a nominal fee. If more than one resident on the same road desires to pay for private dust control, it may be more economical for the residents to join together and contract for a combined application, especially for adjoining property.

Please complete the attached form and provide a simple map of the location. Orders received by noon on Tuesday will be scheduled for the following Thursday. More than one application can be ordered and paid for at one time. We will keep your map and application on file. If at a later date you wish another application you can simply mail in a check with a note of the location.

2011 FEE SCHEDULE

For townships using contract brine:

Minimum order: \$109.00 for 300 feet
\$ 8.00 for each additional 100 feet

For townships using calcium chloride:

Minimum order: \$150.00 for 300 feet
\$ 21.00 for each additional 100 feet

Please keep in mind the following:

Weather and scheduling problems may alter the application date.

The Road Commission cannot guarantee that any private order for dust control will not conflict with grading, dust control or other work in connection with township agreements.

The Road Commission prefers that private orders for dust control be mailed or the form may be dropped off with the check at our offices at 555 North Zeeb, Ann Arbor, 48103.
