F) All ‘1) General Rules’ listed above are in force during this season.

8) **Decorations Are Removed By Cemetery Staff For The Following Reasons:**

A) Decorations that become unsightly, deteriorated, withered or are inappropriate are removed weekly on a regular schedule for the best appearance of your lot and the cemetery. Someone must make this decision, and we hope you will appreciate that we make it as carefully as we can. We have no desire to displease you, and we leave the decorations on as long as their appearance is presentable.

B) Decorations are removed when they fail to conform to size and / or material limitations stated herein.

C) Decorations are removed when there are several placed on a grave at one time.

D) Please remember that all cemetery rules exist to protect the conscientious lot holder. If there were no rules, both the cemetery and conscientious lot holder would find good effort useless. While we all cannot agree completely on every rule the city has tried to establish them fairly and uniformly.

Thousands of people visit the Fernwood Cemetery each year, hundreds may visit in a single day. Because the cemetery is open to the public it is very difficult to control the activity of every visitor. We regret that we cannot guarantee gravestones, markers, plaques and decorations will be protected from damage or disappearance.
