13. Submit a site drawing delineating the following:
  - a. Spectator area (required clearance is 75 feet from ground display; 70 feet per inch of internal mortar diameter from mortar discharge area.).
  - b. All structures in the area.
  - c. Any tents in the area (100 feet clearance from ground display required).
  - d. All adjacent public ways.
  - e. All public utilities.
  - f. All overhead obstructions.
  - g. Fireworks discharge area.
  - h. Down range, potential landing area.
14. Describe plans for site cleanup after the display is over as it would pertain to the fire works, etc. All debris shall be removed from the site on the evening of the event. Additionally, a follow-up inspection early the following morning is required of the entire site. Describe what provisions/plans have been made to remove from the Village of Glencoe, any misfires which may occur.

---

---

---

The above information will be required before any consideration of granting a permit will take place. The Public Safety Department will then perform a site inspection. If all plans appear to be in good order, a permit will be issued.

The Village of Glencoe refers all applicants to the following for use in planning any supervised public fireworks display:

- Glencoe Village Code, Chapter 17
- 1987 BOCA Fire Prevention Code, Article 27
- N.F.P.A. Pamphlets #1123, #1124 and #1126 (most recent editions), as well as related, published formal interpretations.
- Illinois Compiled Statutes (ILCS), Chapters 425 ILCS 30/1-26 and 425 ILCS 35/0.01-5

The most recent editions of these publications and codes will be used to interpret and guide Village of officials in considering applications for permits for such displays.
