Staff, please read the tile of Ordinance No. O-2019-01 ORDINANCE O-2019-01 AN ORDINANCE AMENDING THE COMPREHENSIVE PLAN AND ZONING MAP ON PROPERTY LOCATED AT 16935 SW 131 STREET FROM R-12 TO THE NMU (NEIGHBORHOOD MIXED-USED ZONE.)

Do any members of the City Council wish to abstain? None.

Do any members of the City Council wish to report any significant ex parte contact? If so, is there any members of the audience wish to comment or challenge that report? None.

Does any member of the audience wish to challenge the jurisdiction of the City Council to hear this matter? None. Does any member of the Audience wish to challenge the jurisdiction of the City Council to hear this matter? None.
Does any member of the Audience wish to challenge any individual member of the City Council? None.

For all those wishing to testify, please be aware that if you fail to raise an issue in person or by letter today, you will be unable to raise that issue at a subsequent item on appeal to the Land Use Board of Appeals. Failure to specifically address the approval criteria that staff will describe also precludes the raising of an issue related to those criteria on appeal.

At this time, I call for the staff to present the applicable approval standards.

Keith Liden – City Planner: The application consists of four parts that are summarized below.

Zone Change/Comprehensive Plan Amendment and Related Applications

The property is currently zoned R-12 – Attached Residential, which allows a variety of housing types with a maximum density of 12 units per acre. The applicant requests a change in the zoning to NMU – Neighborhood Mixed-Use, which allows the same residential uses as R-12 with the addition of neighborhood-scale commercial uses. The King City Comprehensive Plan provides criteria for evaluating changes in zoning.

Zone changes and plan amendments must be approved by the King City Council. The remaining elements of this application may be approved by the Planning Commission, and no City Council review is required (however, Planning Commission decisions may be appealed to the City Council). Therefore, the Planning Commission action had two parts: 1) recommendation to the City Council regarding the zone change; and 2) a decision pertaining to the subdivision, tree removal, and Goal 5 safe harbor review subject to City Council approval of the zone change.

The applicant received approval from the King City Planning Commission for a proposed subdivision of the property along with approval of related applications for tree removal and Goal 5 Safe harbor review pertaining to the drainageway located only the west edge of the property. The Planning Commission approved these three applications, subject to conditions and City Council approval of the zone change.

Community Meeting

Chapter 16.46 of the King City Community Development Code (CDC) requires applicants to hold a community meeting to introduce a development proposal to neighboring property owners prior to submitting a formal application. As described in the application, this meeting was held on January 8, 2018, in compliance with the requirements stipulated in Chapter 16.46

Agency Comments

No agency comments were received pertaining to the zone change.

FINDINGS AND CONCLUSIONS
The King City Comprehensive Plan contains the applicable evaluation criteria when considering a zone change in the Land Use Designations and Location Criteria section.

Land Use Designations and Location Criteria – Mixed Use (Comprehensive Plan)

The location criteria are intended to provide guidance for the Planning Commission and City Council when land use and zoning designations for specific properties are proposed to be amended. They describe the basic characteristics a property or properties should have to be eligible for a particular land use designation.

The NMU Zone is designed to allow for a mix of neighborhood-scale and medium density residential uses. Properties designated NMU should have six basic location characteristics:

1. The site shall have direct access to a collector or arterial street. Access to a collector or arterial street via a local street may be appropriate to comply with driveway access requirements and if it is found that adverse traffic impacts will not be created for surrounding properties, which are greater than what is possible under the existing zoning.

The property has access to SW 131st Avenue, which is designated as a collector street. The portion of SW Fischer Road, which abuts the property, is designated as a neighborhood collector. SW Fischer Road is designated as a collector to the east of the SW 131st Avenue intersection.

2. Sufficient facility and service capacity to accommodate this type of development. The important facilities and services to be considered include but are not limited to sewer, water, storm drainage, police and fire protection, health services, public transit, and street capacity.

The facilities serving the West King City area were designed to accommodate development of the properties including this one. The proposed zone change will affect the mix of uses on the property but the intensity of development and its potential demand on public facilities and services will remain comparable to the current R-12 Zone. Necessary public facilities and services can be provided.

3. Traffic congestion, parking, or safety problems shall not be created or exacerbated by commercial development on the site. This determination shall be based upon such considerations as street capacity, existing and projected traffic volumes, speed limits, number and type of turning movements, and the traffic generating characteristics of the potential commercial and residential activities on the site.

The potential traffic impacts of this development have been analyzed by a qualified traffic engineer. Given the comparable level of development allowed by the R-12 and proposed NMU zones, the traffic impact of the proposed zone change and resulting development is found to be a negligible difference from the existing R-12 zoning. The NMU Zone includes development limitations (Section 16.102.040) including 12 units per acre for residential development and a Floor
Area Ratio (FAR) of 1.5 to 1 to ensure that resulting development is consistent with surrounding residential neighborhoods. The applicant has demonstrated that functional and safe access can be provided.

4. No natural development limitations such as unstable soils or flooding that affect significant portions of the property.

The only development limitations are found in the extreme western portion of the property. This area will be protected, and no development is proposed for this area.

5. Opportunities will be available to achieve a compatible relationship with surrounding land uses including but not limited to:
   - The site configuration and characteristics that allow for the privacy of adjacent residential uses.
   - Commercial activities on the site that will not interfere with nearby residential uses.

SW 131st Avenue and SW Fischer Road provide physical separation from residences across the street, and street trees will provide some visual screening. The residences on the east side of SW 131st Avenue are oriented toward SW Carmel Street and have a solid fence and vegetative screening along the SW 131st frontage. The residences along the south side of SW Fischer on both sides of SW 131st, have a landscaped buffer between the homes and the street. The two recently completed three-story apartment buildings to the north have a landscaped buffer along the south property line. The single-family homes to the west are separated by the vegetated drainageway, which is protected from development.

As noted herein, the commercial uses allowed in the NMU Zone include a limited array of neighborhood-scale service, retail, and dining uses. Auto-oriented uses and drive-through windows are not permitted. The NMU Zone also features a full range of design requirements, such as maximum height limits, parking lots only to the rear or side of buildings, buffering from noise, lights, and limits on hours of operation, which are all designed to address potential compatibility issues. Finally, the future development of Lot 17 will be subject to site development review approval, where CDC requirements and a specific development proposal will be reviewed by the city, including a public hearing with the Planning Commission. The commission would have the authority to impose conditions of approval to further address specific compatibility issues.

6. Significant unique natural features on the site which can be maintained.

The significant natural resource area on the site is the drainageway on the western boundary of the property. As noted herein, it will be protected from development and preserved.

The applicable criteria in the Comprehensive Plan are satisfied, and the proposed zone change from R-12 to NMU should be approved.

Would the applicant please come to the podium, state your name, address and make any comments you may have for the Planning Commission.
Mark Dane – Mark Dane Planning: Was on the phone. He stated that he has been working on this project for about a year with the city. He also spoke about the neighborhood meeting. He also mentioned that he incorporated as much parking as he could.

Does any member of the audience wish to speak in favor of this application?
David Loprizi – 13521 SW Timara Lane: He is in support of the development. He also asked is there going to be a restaurant or a coffee shop? Mayor mentioned he said that is the plan.

Marc Manelis – 17454 SW 128th: He would like for the council to approve the zone change.

Does any member of the audience wish to speak in opposition to this application? None.

Does anyone wish to provide neutral comment?
John Walter – 16560 SW Monterey Lane: has concerns over traffic.

At this time, I call for the staff report and recommendation.
Keith Liden - Based upon the above facts, findings, and conclusions, the Planning Commission determined that it should RECOMMEND APPROVAL of the proposed zone change-plan amendment from R-12 to NMU to the King City Council.

Does the applicant have any rebuttal? No rebuttal.

If there are no further questions, I will entertain a motion to either close or continue the public hearing.
