**STATEMENT OF COMPLIANCE WITH ALABAMA STATE ENERGY CODES FOR  
THE INSTALLATION OF HEATING AND COOLING EQUIPMENT IN  
RESIDENTIAL BUILDINGS**

The 2009 International Energy Conservation Code, published by the International Codes Council, when used in conjunction with the State of Alabama Energy and Residential Codes, constitutes the official Alabama State Energy Code for Residential Buildings. Section M1401.3 of this code stipulates that it is **mandatory** for heating and cooling equipment to be sized based on the building loads calculated in accordance with the Air Conditioning Contractors of America's (ACCA) Manual J or other approved heating and cooling calculation methodologies.

*This form must be completed by a licensed HVAC Contractor or Professional Engineer, signed and submitted along with a copy of the "Manual J" calculations.*

JOB SITE ADDRESS: \_\_\_\_\_

CONTRACTOR/BUILDER: \_\_\_\_\_

I/we do certify by signature below that the heating and cooling equipment loads for the above permitted structure have been calculated in accordance with ACCA Manual J or other approved heating and cooling calculation methodologies. Based on these calculations the following heating and /or cooling systems are recommended.

<u>Type of System</u>	<u>Size of System</u>	<u>Number of Systems</u>
_____	_____	_____
