REPORT OF EXECUTIVE DIRECTOR:

Executive Director Adler reported:

Attorney Craney will be here later to report on the pending Granite City Regional Wastewater Treatment bill.

I would like to update the members on the Blue Waters and the pumps:

Superintendent Maeras reported pumping has been going on round the clock. We have rented a pump to remove the last 10 to 12 feet of water under the station, in an attempt to grease the gates and get them working.

The trash racks are not working; we had someone come out that can get us parts.

The #4 pump at North is scheduled to come in at the end of January from being repaired.

The finishing touches are being made on the website after Mr. Prenzler asked us to redesign it.

We are meeting with Waste Management to see if they will buy the fill as Superintendent Presswood cleans out the ditches.

Don Sawicki made a very nice financial summary

Commissioner Sawicki presented the following financial reports:
Executive Director Adler continued:

Johnson Controls is supposed to get back with me to meet sometime this month.

Cindy Worthen is working on expired Ordinances and will talk about this in her report.

I am waiting on Scheffel Boyle’s report. I will talk about this in the next Executive Session.

There is still a board member vacancy and Rosemarie Heath was interviewed yesterday, but it is still up the air as to who will fill the Madison County Board Member’s seat.

I had a meeting with a Trustee and a citizen from Washington Park. We talked about the rumor that their sewer system does not work because of Metro East Sanitary District (MESD). I explained how the MESD system works and made them aware that MESD has no responsibility for the internal sewer service of the city. I suggested they contact Charlie Juneau and Illinois Environmental Protection Agency (IEPA) to see if they could help them.

REPORT OF ENGINEER:

Mr. Juneau explained he has been receiving calls from Don Hill representing Tyson Foods. They are planning a major expansion to their facility. They are planning on increasing their flow by twenty five thousand (25,000) gallons a day. Mr. Hill wanted to ensure we can handle the increase. MESD can handle the increase but he will need to check with Caseyville. Mr. Hill was going to fill out IEPA forms for the larger connections, which will need to be signed by MESD, Caseyville and Granite City for the additional flow. It will be a huge increase and it will need to be individually metered. I have forwarded to Executive Director Adler some price quotes on the meters to be discussed at an upcoming meeting.

We have a meeting next week to get started on the preparation of the System Wide Improvement Framework (SWIF). The Corps has sent samples of various SWIF’s. This has to be turned into the Corps by April/May 2018.
REPORT OF LANSDOWNE OFFICE MANAGER:

Lansdowne Office Manager Cindy Worthen reported:

We have been working on the BOD/TSS testing. The total of income brought in last year from this testing was One hundred and ten thousand dollars ($110,000) last year. This income does not include the test fees which we also collect.

I have spoken with the Warden at the Southwestern Illinois Correctional Center. He is aware we are sending a shut off letter and will get back in touch with me when he hears from the State. He says the State does not have to pay penalties and will send paperwork to prove that rule. I will consult with our attorneys to look into that further.

Collections have been good. We are working on the Ordinance and the men are trained and on site to give me Longitude and Latitude. They also take pictures of any Marker and/or Landmarks they find at the site. The billing system is set up for Ordinance collections.

REPORT OF ATTORNEY:

Attorney Calvo reported that we have a Blue Waters Ditch meeting today with the Corps and Mayors to discuss the cost of the repairs to the Blue Waters Ditch Pump Station and gates.

Executive Director Adler, “We have been told that our levee system has failed due to the conditions of Blue Waters Ditch Pump Station. I went through the agreement and there is no question that we are responsible for the maintenance and upkeep of that station.”

Attorney Calvo said “The cost of the repairs needs to be reimbursed by the 5 entities. The problem we are having is the annual amount required. This amount needs to be adjusted in the future.”

Executive Director Adler, “We need about Two million, five hundred thousand dollars ($2,500,000.00) to get Blue Waters Ditch up to code.”

Commissioner Sawicki stated that the entities are not paying.

Executive Director Adler noted that we are going after the motor fuel tax of the entities that are not paying. These entities receive about Forty thousand dollars ($40,000.00) a month in motor fuel tax. We have spent a lot of time and money on this project, and my target date to have the Blue Waters Ditch Pump Station in operating condition is March 30, 2018.
