REPORT OF EXECUTIVE DIRECTOR:

Deputy Executive Director Sawicki reported:

We are 90% complete on the testing of Nameoki Ditch water. The beginning of the ditch has high fecal levels, as you continue down the ditch it is diluted. There is another spike at the one-mile mark which is around the twin 60’s, it is a small spike, but it still shows up. We are going to compile a report and send it off to the Environmental Protection Agency (EPA) to see what we need to do.

Executive Director Adler “The EPA has been notified about this several times. If I hear anything, I will let you know this is something that needs to be resolved.”

Superintendent Hillman presented his report:
Superintendent Fancher reported:

We are out mowing and have mowers in Hartford today. The front levee is finished, Nameoki ditch has been cut. We are waiting for the TK to be fixed. We are spraying and trimming every day.

Deputy Superintendent Irby reported:

We are grading roads and getting bids on fixing the cracks in the levee wall. We are trying to keep up with repairs on vehicles and equipment.

Superintendent Presswood reported:

We had a problem with the viaduct lift station both pumps cables broke the brackets broke. We have them up and running and waiting on different brackets.

Waiting on parts for pump #3 at Bremen.

Lansdowne Office Manager Roger Morthland reported:

I have contacted the prison; they are sending 2 more checks to catch up their bill. We are continuing to send out letters and turn over accounts to Local Debt Recovery. All Protest that came in have been settled. I put two new bridges up between the offices and they are working well. I was then able to remove the cellular routers we have been paying for through Verizon.

Executive Director Adler reported:

We had a meeting last week with FEMA about getting the reimbursement we requested. We continue to have high water that effects the budget.

We are looking into hiring some employees at Lansdowne to help the office with the shortage they are experiencing.

REPORT OF ATTORNEY:

Attorney Britt Donoho reported:

I have been working directly with David Wilson from DDI Media as well as Juneau Associates. I know the Board had some questions on how much money we potentially want for the easement. The issue I have been having is getting land description because they are requesting access to such a large parcel of land. The purpose behind this request is because they want to access their billboard in case of flooding. We are requiring them to carry insurance but if the Board has any further protection they want to include or how much you would like to charge including if it would be annual renewal. Once I have this information, we can try to get this finalized if the Board wants to provide this easement.

Attorney Craney reported:

We are final done with the United States Army Corps of Engineers (USACE) deep cut off wall. The work can proceed accordingly. Now we are working VEOIA project. We need more property rights agreements.

Executive Director Adler “USACE sent me an email. When the contractors are boring, if they dig up questionable materials, they are not required to report it.”

USACE signs agreements with local governmental entities like MESD and Woodriver Levee District and then say you are local partner. USACE then says you need someone to get all these easements and make the way for us. The government entities sign off on all these easements and USACE is watching over us and
telling us we can not put that into the agreement. If we tell USACE we need to be able to negotiate can we do this, the answer is no. They are inflexible.

The ADB issue, is whether MESD is required to participate in the JULIE system. If you read the statue MESD does not need to participate in JULIE because we fall into an exception. Now the question they will raise is our line adequately marked. Our markers are 500 feet apart and clearly visible.

Executive Director Adler “It is not only that, but they were only supposed to bore 7 or 8 feet and the hit a line at 24 inches under the ground.”

I will discuss more in Executive Session.

Attorney Calvo reported:

I just want to discuss page 7 paragraph 11-1A of the Ethics Ordinance. This addresses the incompatibility of the office of Mayor and District Commissioner. The Mayor can not serve in both position without a conflict of interest.

President Brinza “I have one question on page 5 article 5 it says Entity name shouldn’t Metro East Sanitary Districts name be there?”

Yes, MESD name should have been there.

President Brinza “Can I get a motion to amend the Ethics Ordinance page 5 article 5 to insert MESD name in lieu if name of entity and anywhere else it happens to be in the document.”

Motion Commissioner McCall; seconded Commissioner Dixon to amend the Ethic Ordinance 2019-0-010 to insert Metro East Sanitary District name in lieu of name of entity throughout the Ordinance.

Upon roll call, the motion carried by the following vote:

Ayes: Commissioners McCall, Brinza, Krekovich and Dixon
Nays: None.
Absent: Commissioner Darwin.

Attorney Calvo continued:

The only other business I wanted to discuss is that Executive Director Adler received a letter that the Teamsters Local 50 Union wanted to open negotiations. I thought I would be basically in charge except I would like a committee with Executive Director Adler and President Brinza and myself to meet with them and discuss changes.

CORRESPONDENCE:

A letter from Robert and Eileen Howard was presented:
Executive Director Adler “They have asked for relief on their bill. We typically amend these bills after Illinois American Water gives an adjustment and they have not adjusted their bill at this time.”

President Brinza “I want to wait on Illinois American Water.”

OLD BUSINESS:

Discussion and/or action on ABD Inc., regarding 24-inch sewer break.

It was discussed during the Attorney Report.

Discussion and/or approval of tuckpointing bid.
