## Application for Conditional Use

Name(s) of Applicant: Jennifer Barlow, Outside Influence llc

Address: 543 Clark Street

Milford, Ohio 45150

Telephone Number: 513-382-6051

Name(s) of Owner: Justin Saylor  
(if different from applicant)

Owner's Address: 5768 Shirl Bar Circle

Milford, Ohio 45150

Property Address (if assigned): 424 High Street Milford, Ohio 45150

Property Parcel ID number: 210731B535

Zoning of Property: R3

Proposed Use: Agriculture, Horticulture, Floraculture

Lot Size: \_\_\_\_\_

Provide a brief statement explaining how the proposed Conditional Use relates to the health, safety, convenience, comfort, prosperity or general welfare of the people of the City of Milford and how the proposed use is in conformity with good zoning practice (use a separate sheet if necessary):

My business is an urban friendly horticultural and agricultural business. There are no farm fields or grazing  
animals, but we beautify homes, businesses and communities by using plants as our canvas. Right now, there is a vacant  
church at 424 High Street and we propose to use that space to design beautiful landscapes and create colorful,  
seasonal container plantings. We would also make sure that the outside of this building reflects this aspect of our business in  
a way that would beautify the neighborhood.

Outside Influence will use the open concept of the former church to segment the four areas of our business which include  
designing and managing the installation of residential gardens/commercial landscapes, designing and planting custom  
containers, designing and staging porch makeovers and conducting the occasional garden inspired class.

---

---

---

---

Along with this application you must include the following:

1. A site plan of the property for the proposed Conditional Use.
2. A copy of the appropriate map on file with the County Engineer sufficient to show all properties within 200 feet of the exterior boundaries of the property for which the Conditional Use is proposed.
3. A list of names and addresses (obtained from the County Auditor) of all property owners who own property lying within 200 feet of the exterior boundaries of the property for which the Conditional Use is proposed.
4. A check made out to the City of Milford in the amount of \$300.00

# Nursery Dealer's Certificate

Certificate # 3668

Place of 543 CLARK ST (CLERMONT)

Business: MILFORD OH 45150-  
513-382-6051

This certifies that the individual or firm whose name appears hereon, having paid the sum of \$125.00 to the OHIO DEPARTMENT OF AGRICULTURE, and having complied with the provisions of Section 927.53 Revised Code of Ohio, is granted this certificate authorizing said party to act as a DEALER IN NURSERY STOCK procured from licensed nurserymen, dealers, or collectors.

OUTSIDE INFLUENCE LANDSCAPE  
DESIGN GROUP

Jennifer Barlow, Presidnet  
543 CLARK ST  
MILFORD OH 45150-

Void after: 12/31/2021

Date: 1/14/2021

This certificate may be revoked earlier for cause.

Dear Planning Commission Members,

I wanted to provide a short description of my company, along with how the former church on High Street would be ideal for accommodating all aspects of my business.

Outside Influence Landscape Design Group (OID) has been in business continually since 2008. Over most of that time, we have provided primarily landscape design services and managed the installation of our projects through landscape contractors with whom we've established relationships. Recently, we have become less involved in the installation except on a consultative basis at our clients' request, and expanded our business into other areas. Here are the four main functions of our business and how we would plan to divide the floor space of the church on High Street visually to accommodate each function:

#### **Landscape Design Services**

A portion of the main floor would be used as daily office space for me to work on computer aided design (CAD) layouts of projects. Over the course of the last year, most meetings with clients to review these designs have taken place online, but we could envision a time when we might have face-to-face meetings a few times per month where the design is reviewed on flat screen monitor. These meetings would typically be evening appointments, with just one client (usually a couple) and last approximately 1-2 hours.

#### **Container Planting**

OID creates and maintains container plantings for residential and commercial clients in the area. We would use a section of the new space to design and partially install the plants within these containers when appropriate. Most times the containers are on the customer's site and the design and installation takes place there, but sometimes, particularly in the spring and winter, we might plant in the office. The containers would then be delivered to the client directly by OID. There would be no client pick up.

#### **Porch Makeovers**

A fairly new segment of our business is porch makeovers, which might involve furniture, plants and rugs. OID would use a section of the new office to stage the porch layout prior to delivery to the client. We might keep some typical inventory for these projects on site, but no product sales of any kind would be conducted out of this space.

#### **Garden Inspired Classes**

We recently conducted a Wreath Building Class online. We plan to expand on these types of classes (Container Planting, floral arrangements, etc.) over time and while they will most likely be conducted online for the near future, we may use the new office to conduct some of these types of classes in the future.

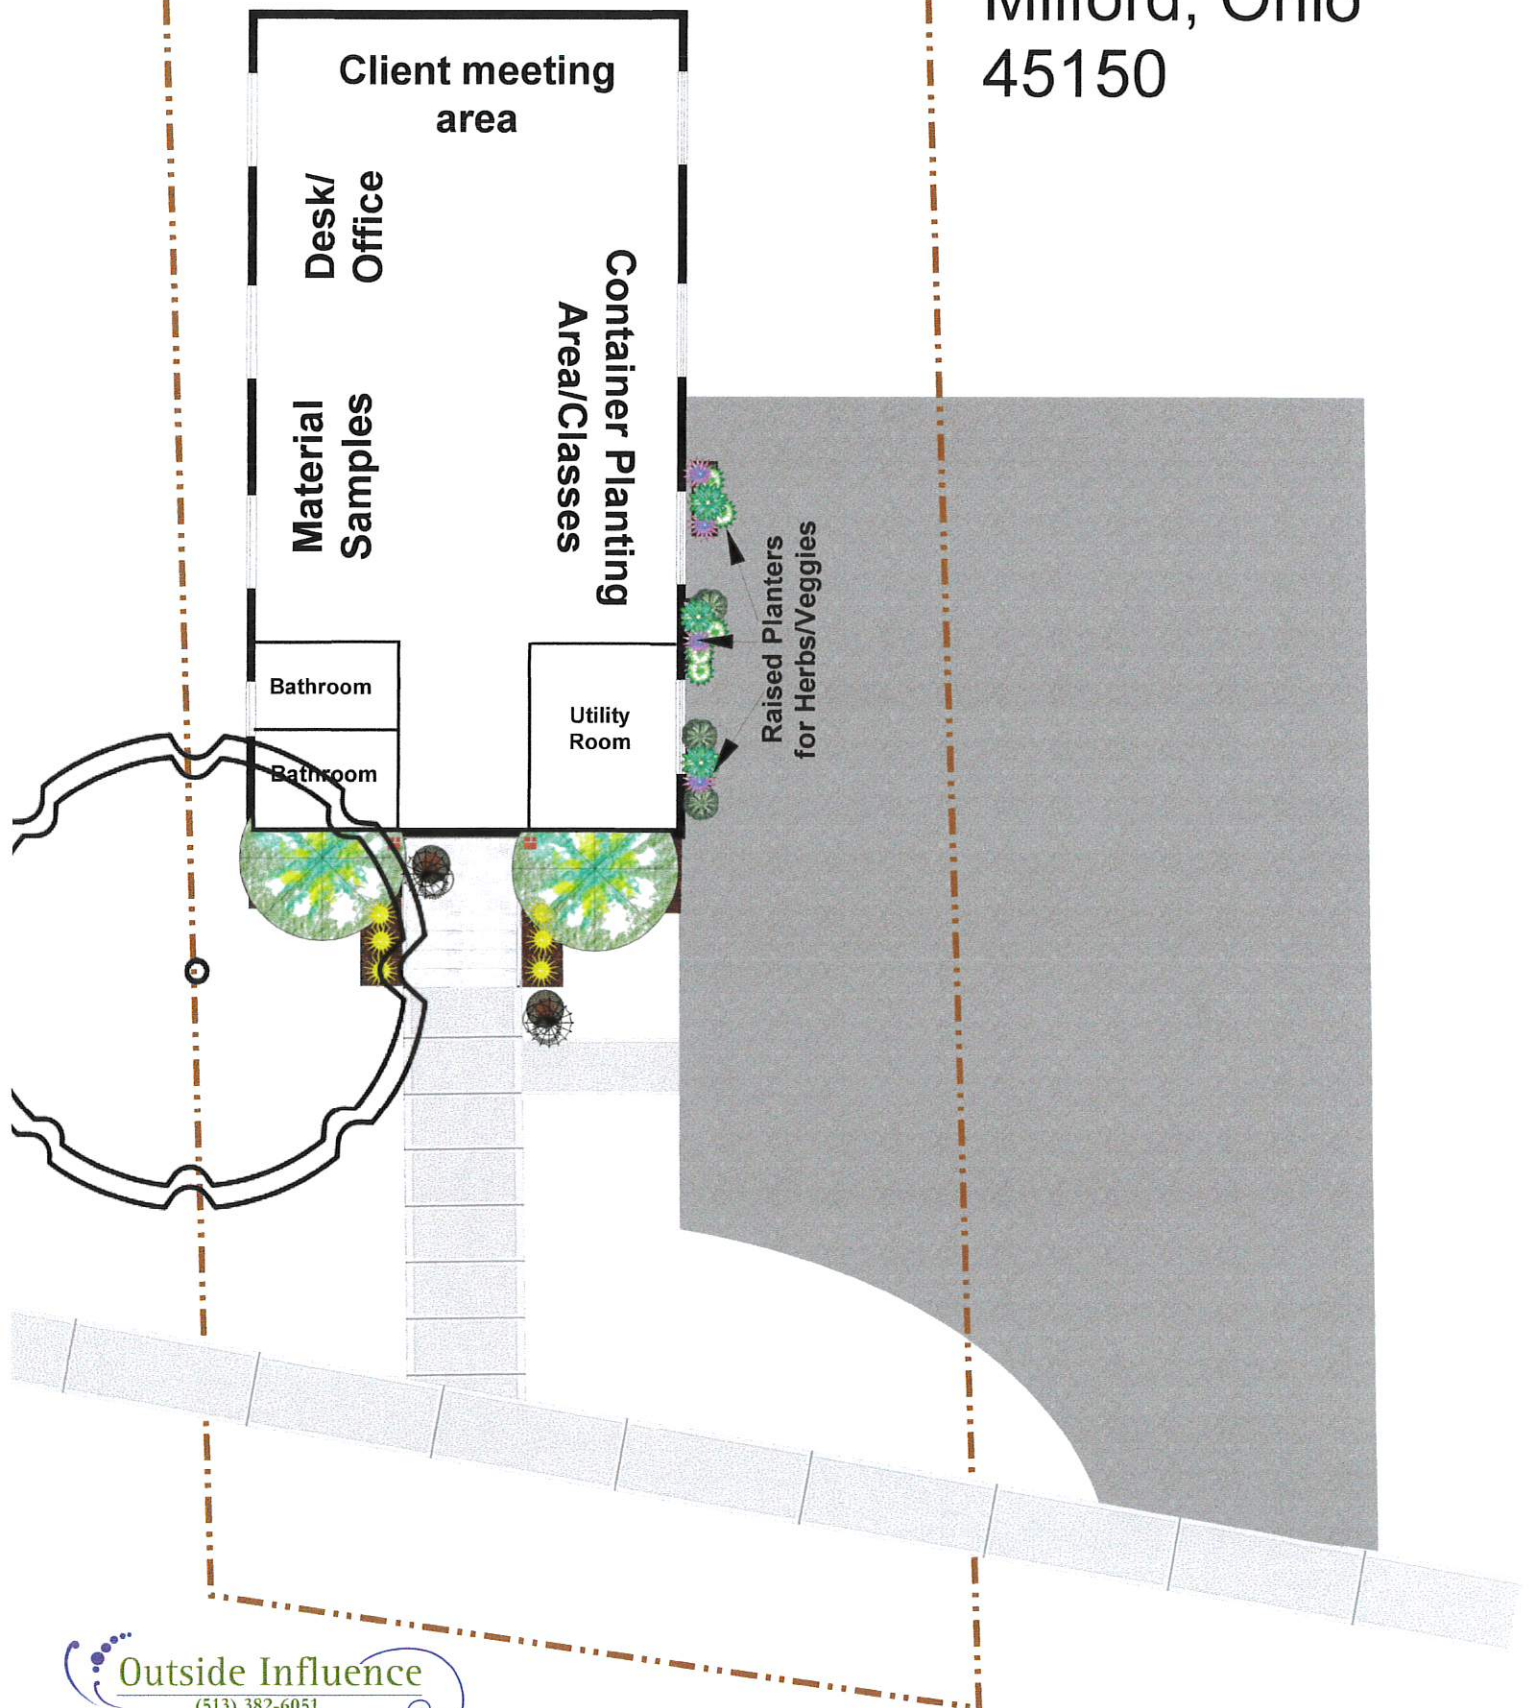

In short, the square footage of the former church on High Street will enable me to segment portions of my business in a way that will allow me to work on several projects concurrently. We will not be using the office as a retail outlet in any way, but rather as a staging and consultation space. I have been looking for the ideal space in and around Milford for a long time, and believe I have found it here.

Please let me know if you have any questions and thank you for your consideration.

Sincerely,

Jennifer Barlow, Outside Influence llc.

## CHAPTER 1123—DEFINITIONS

### 1123.01 DEFINITIONS

For the purpose of this Zoning Ordinance, the following definitions shall apply unless the context clearly indicates or requires a different meaning.

### 1123.02 ZONING TEXT INTERPRETATION

For the purpose of this Zoning Ordinance, certain terms or words used herein shall be interpreted as follows:

- A. The word "person" includes an individual, firm, association, organization, partnership, trust, company, corporation or any other similarly defined interest.
- B. The present tense includes the future;
- C. The singular includes the plural, and the plural number includes the singular.
- D. The word "shall" is mandatory; the word "may" is permissive.
- E. The words "used" or "occupied" includes the words "intended", "designed" or "arranged" to be "used" or "occupied".
- F. The word "lot" includes the words "plot" or "parcel".
- G. The word "building" includes the word "structure."

**1123.03 Accessory Building or Use** shall mean a use or structure situated on the same lot as the principal use or structure to which it is related, and which to its nature is customarily incidental and subordinate to the principal use or structure.

**1123.04 Agricultural Uses** shall mean any land used for agricultural purposes, including farming, dairying, pasturage, apiculture, horticulture, floriculture, viticulture, and animal and poultry husbandry, and accessory uses such as composting, packing, treating, storing or selling the produce; provided, however, that the operation of any such accessory uses shall be secondary to that of the normal agricultural activities.

**1123.05 Alley** shall mean any public or private right-of-way twenty (20) feet or less in width, and other public or private right of ways, not more than thirty (30) feet in width, whose primary function is to furnish access to the side or rear of properties having their main frontage on a street.

**1123.06 Animal/Veterinary Hospital** shall mean a building used for the medical treatment, housing or boarding of domestic, farm or exotic animals such as dogs, cats, rabbits, birds, horses, spiders, snakes, etc. by a veterinarian.

# Horticulture Overview

Model Program Base Info.

Degree Code

Duration: 4 Years

Total Credits: 120

Award: BS

The study of horticulture covers the growth, **distribution and utilization of ornamental plants**, fruits and vegetables. In courses offered by UC's College of Design, Architecture, Art, and Planning (DAAP), students learn the relationship between horticulture and ecological processes and develop a forward-looking approach toward the environment. The horticulture curriculum has been choreographed to support the traditional foundation in plant science, **landscape design**, and **landscape management**, with a commitment to advance contemporary and sustainable approaches to all facets of horticulture. UC's bachelor of science in horticulture program is designed with the non-traditional student in mind. Classes are held evenings and weekends on UC's main campus as well as several off-campus locations.

## Success

Successful horticulture students have a love of the outdoors and a deep commitment to all things that grow. Typically, they enjoy working with their hands and have the patience to wait for results that often take a year or more to unfold. Many are entrepreneurial and study business as well as horticulture.

## Career

Employment opportunities in the green industry include **landscape management**, commercial greenhouses, public and private parks management, and **garden design, construction, and management**.

Additional career options are listed on the [Center for Exploratory Studies](#) website.

## Minoring

A minor in horticulture is available, as are five certificate programs. The minor and certificates are available to individuals who desire to upgrade skills, enhance the marketability of a current degree, or to prepare for a career change. A certificate is awarded for successful completion of set courses in horticulture and landscape design ranging from 21 to 27 credit hours. All course work completed for the certificate applies toward the bachelor's degree, should a student decide to pursue it. Students must meet the minimum requirements for admission to the Horticulture program in order to pursue a minor or certificate.

Interested students should submit the application form available [here](#) to the DAAP Student Affairs Office, Aronoff 5470.

Available minor and certificates:

- The certificate and minor in horticulture introduces students to the various fields associated with horticultural science, including plant identification, growth, health, and reproduction.
- The certificate in green roofs addresses contemporary issues in living architecture, particularly in the vegetated urban roof, which supports environmental, economic, and social components of sustainable urban design.
- The certificate in sustainable landscape design expands basic knowledge of building design and landscape design to include a sustainable, integrated approach to the design of the built environment.
- The certificate in urban agriculture responds to contemporary issues in horticulture, urban design, livability and quality of life, food security, and sustainability.
- The certificate in urban landscapes expands basic knowledge of building and landscape design to address the role of plant life in the sustainable urban environment.

## Overview

The [Landscape Horticulture](#) program focuses on interior and exterior landscape design, installation, and management. Students complete foundation courses in horticulture, and then take additional technical courses in subject areas tailored to individual needs, including advanced landscape design, computerized landscape design, landscape construction, arboriculture, or greenhouse or nursery management. Core business courses prepare students for management positions.

## Career Outlook

**GRADUATES ARE PREPARED TO**

- Design landscapes
- Manage horticultural businesses
- Sell design and landscape services
- Build and install patios, decks, walls, and walkways
- Operate and maintain horticultural equipment.
- Properly install woody and herbaceous plants.
- Properly maintain plants, turf grasses, and grounds

**REPRESENTATIVE JOB TITLES FOR GRADUATES**

- Florist
- Horticulturist
- Instructor/Curator/Writer
- Irrigation Specialist
- Landscape Designer
- Landscape Construction Specialist
- Landscape/Grounds Manager or Foreman
- Nursery/Greenhouse/Retail
- Garden Center Manager

**GRADUATE EMPLOYMENT OUTLOOK**

Excellent. Green industry jobs are projected to increase significantly due to the advancement of new technologies. Graduate placement is extremely high because of a large number of existing employment opportunities. The U.S. Bureau of Labor Statistics predicts employment of landscape architects and grounds maintenance workers will grow by 13 percent through 2022.

## Division: A — Agriculture, Forestry, And Fishing

This division includes establishments primarily engaged in agricultural production, forestry, commercial fishing, hunting and trapping, and related services.

The classification of agricultural production covers establishments (e.g., farms, ranches, dairies, greenhouses, nurseries, orchards, hatcheries) primarily engaged in the production of crops, plants, vines, or trees (excluding forestry operations); and the keeping, grazing, or feeding of livestock for the sale of livestock or livestock products (including serums), for livestock increase, or for value increase. Livestock as used here includes cattle, sheep, goats, hogs, and poultry. Also included are animal specialties, such as horses, rabbits, bees, pets, fur-bearing animals in captivity, and fish in captivity. Agricultural production also includes establishments primarily engaged in the operation of sod farms, cranberry bogs, and poultry hatcheries; in the production of mushrooms, bulbs, flower seeds, and vegetable seeds; and in the growing of hydroponic crops.

Farms are the establishment units generally utilized for the purpose of industrial class

[Privacy & Cookies Policy](#)

production. A farm may consist of a single tract of land or a number of separate tracts which may be held under different tenures. For example, one tract may be owned by the farm operator and another rented. It may be operated by the operator alone or with the assistance of members of the household or hired employees, or it may be operated by a partnership, corporation, or other type of organization. When a landowner has one or more tenants, renters, croppers, or managers, the land operated by each is considered a farm.

The classification of agricultural services includes establishments primarily engaged in supplying soil preparation services, crop services, landscape and horticultural services, veterinary and other animal services, and farm labor and management services.

The classification of forestry covers establishments primarily engaged in the operation of timber tracts, tree farms, or forest nurseries; in the gathering of forest products; or in performing forestry services. Logging establishments are classified in Manufacturing, Industry 2411.

The classification of fishing and hunting and trapping covers establishments primarily engaged in commercial fishing (including shellfish and marine products); in operating fish hatcheries and fish and game preserves; and in commercial hunting and trapping.

Establishments which produce agricultural commodities and sell them directly to the general public for personal or household consumption are classified in Major Groups 01 and 02.
