Advanced Features**What is AutoPay?**

AutoPay is a convenient option in which bills will be paid automatically each billing cycle on the due date using your default credit card. This will avoid any late fees and free you from having to remember when to pay. Login to your account and click on AutoPay to enroll.

Can I cancel AutoPay?

Yes, simply login to your account and click on AutoPay. Next, select Edit and change the status to "No, I do not want AutoPay" and save.

The AutoPay date will not appear on the home page under Upcoming Scheduled Payments. However, when on the Scheduled Payments page, AutoPay will show.

Scheduled payments are individual payments that are scheduled for a specific date prior to the bill due date. Scheduled payments can be changed if it is before the date scheduled.

What is the difference between AutoPay and a scheduled payment?

AutoPay is an automated process which pays your balance in full each billing cycle. Scheduled payments are manually entered by you for the date you choose.

What is Account Linking?

Account Linking means that payers with multiple accounts can link, view and pay all open bills in a single transaction. When registering bills under the same email address, payers are given the option to link the related accounts within the service.

Multiple first email notifications scheduled for the same day are grouped into one email rather than sent separately. Payment receipts are sent individually. Editing account information such as changing an email or password will go across all linked accounts, however, changing settings such as AutoPay is only for the accessed account.

What is Pay by Text?

Pay by Text is a convenient way to pay your bill by text message. When signed up for Pay by Text, bill notifications will be sent by text message (this is in addition to email notifications) and you will then have the option to pay by text message with your default payment method with a quick reply. You may sign up for Pay by Text when making an online payment or by accessing your account and selecting the Pay by Text option. A confirmation text will be sent to complete enrollment.

Security

Is my information secure?

Invoice Cloud uses the highest standards in internet security. Account information displayed within the customer and biller portals is truncated to protect confidential data. Any information retained is not shared with third parties.

Is my credit card information safe when I pay online?

Absolutely. Invoice Cloud will safely store your financial information using Payment Card Industry (PCI) Compliant systems. This includes truncating (abbreviating) account numbers so that even the biller does not see your complete account information.

What is PCI Compliance and why is it so important?

PCI stands for Payment Card Industry, and compliance with the industry standards is a requirement for those that accept the major credit cards and for software providers who have applications which involve the transmission and/or storage of credit card information.
