	licensed extinguisher company in the past 12 months? Date of inspection	YES	NO	NA					
9.	Are all employees familiar with the use of portable fire extinguishers?	YES	NO	NA					
F.	HOUSEKEEPING								
	Are enclosed stairways and areas under open stairs kept free of all storage?	YES	NO	NA					
	Are enclosed stairways and areas under open stairs kept free of all storage? Are combustible and flammable liquids stored in approved safety containers or	YES	NO	NA					
2.	Are combustible and flammable liquids stored in approved safety containers or approved flammable liquid cabinets?	YES	NO NO	NA NA					
2.	Are combustible and flammable liquids stored in approved safety containers or approved flammable liquid cabinets? Are quantities of combustible and flammable liquids limited to only what it needed	YES							
2.	Are combustible and flammable liquids stored in approved safety containers or approved flammable liquid cabinets? Are quantities of combustible and flammable liquids limited to only what it needed to operate your business or maintain your equipment?								
2.	Are combustible and flammable liquids stored in approved safety containers or approved flammable liquid cabinets? Are quantities of combustible and flammable liquids limited to only what it needed to operate your business or maintain your equipment? Are chemicals stored in a cool, dry, well-ventilated area and are non-compatible	YES YES	NO	NA					
 3. 3. 	Are combustible and flammable liquids stored in approved safety containers or approved flammable liquid cabinets? Are quantities of combustible and flammable liquids limited to only what it needed to operate your business or maintain your equipment? Are chemicals stored in a cool, dry, well-ventilated area and are non-compatible chemicals separated from each other by space or partitions?	YES YES	NO NO	NA					
 3. 4. 	Are combustible and flammable liquids stored in approved safety containers or approved flammable liquid cabinets? Are quantities of combustible and flammable liquids limited to only what it needed to operate your business or maintain your equipment? Are chemicals stored in a cool, dry, well-ventilated area and are non-compatible chemicals separated from each other by space or partitions? Are solid chemicals stored on shelves above liquid chemicals?	YES YES YES YES	NO NO NO	NA NA NA					
 3. 4. 5. 	Are combustible and flammable liquids stored in approved safety containers or approved flammable liquid cabinets? Are quantities of combustible and flammable liquids limited to only what it needed to operate your business or maintain your equipment? Are chemicals stored in a cool, dry, well-ventilated area and are non-compatible chemicals separated from each other by space or partitions? Are solid chemicals stored on shelves above liquid chemicals? Are lint traps on clothes dryers cleaned daily to avoid build up of combustible lint?	YES YES YES YES	NO NO NO NO	NA NA NA NA					
 3. 4. 6. 	Are combustible and flammable liquids stored in approved safety containers or approved flammable liquid cabinets? Are quantities of combustible and flammable liquids limited to only what it needed to operate your business or maintain your equipment? Are chemicals stored in a cool, dry, well-ventilated area and are non-compatible chemicals separated from each other by space or partitions? Are solid chemicals stored on shelves above liquid chemicals? Are lint traps on clothes dryers cleaned daily to avoid build up of combustible lint? Is there 18" clearance between the top of merchandise or storage and sprinkler heads?	YES YES YES YES	NO NO NO	NA NA NA					
2. 3. 4. 5. 6. G.	Are combustible and flammable liquids stored in approved safety containers or approved flammable liquid cabinets? Are quantities of combustible and flammable liquids limited to only what it needed to operate your business or maintain your equipment? Are chemicals stored in a cool, dry, well-ventilated area and are non-compatible chemicals separated from each other by space or partitions? Are solid chemicals stored on shelves above liquid chemicals? Are lint traps on clothes dryers cleaned daily to avoid build up of combustible lint? Is there 18" clearance between the top of merchandise or storage and sprinkler heads? MISCELLANEOUS	YES YES YES YES	NO NO NO NO	NA NA NA NA					
2. 3. 4. 5. 6. G.	Are combustible and flammable liquids stored in approved safety containers or approved flammable liquid cabinets? Are quantities of combustible and flammable liquids limited to only what it needed to operate your business or maintain your equipment? Are chemicals stored in a cool, dry, well-ventilated area and are non-compatible chemicals separated from each other by space or partitions? Are solid chemicals stored on shelves above liquid chemicals? Are lint traps on clothes dryers cleaned daily to avoid build up of combustible lint? Is there 18" clearance between the top of merchandise or storage and sprinkler heads? MISCELLANEOUS If you have a generator to provide emergency power to your building, has it been serviced	YES YES YES YES	NO NO NO NO	NA NA NA NA					
2. 3. 4. 5. 6. G.	Are combustible and flammable liquids stored in approved safety containers or approved flammable liquid cabinets? Are quantities of combustible and flammable liquids limited to only what it needed to operate your business or maintain your equipment? Are chemicals stored in a cool, dry, well-ventilated area and are non-compatible chemicals separated from each other by space or partitions?
