

Life Saving Award Invite: On August 4, 2020, a crew from Fire Station 1 was called for an incident involving a full cardiac arrest. During the event, the patient's 16-year-old daughter was on scene when the incident occurred and performed CPR on her mother with guidance from a Tazewell County Consolidated Communications (TC3) dispatcher. The daughter continued CPR until personnel from the Pekin Fire Department and AMT could take over. The patient is alive and well today and her family wishes to do a press conference and give a lifesaving award to their daughter. The City Council is invited to this event that will take place on Tuesday August 25 at 11am at the Pekin Park Pavilion. Members from the various involved agencies will also be present, along with the media.
