

PRESS RELEASE

Commencing on June 1, 2022 the Village of Rouses Point Municipal Electric Department will again make available to residential customers of the system, who have a two (2) year clear record with the utility, the opportunity to pay their electric charges by a budget billing arrangement. Based upon previous years' usage and a projected per kilowatt hour cost including supplemental power charge, a customer's annual electric expense will be estimated and then paid in eleven (11) payments, with the remaining month (May) used to reconcile the underpayments or overpayments.

Anyone wishing to participate in this program should contact the Accounting Department at the Village Office by phoning 297-5502 (Ext 315) or (Ext 332) between the hours of 7:30 a.m. and 4:00 p.m. Monday through Friday, prior to May 31, 2022. After that date entry into the program will not be allowed until May 2023.

All customers presently on the program will remain with the Budget amount appearing in the equal payment amount line on the top portion of their bill commencing with the June bills.

This program is open to all residential customers who meet the above requirements.
