352A.1. General:

In order to allow for diversity and sustainability of agricultural uses and to preserve farm activity in Sherman, this section is intended to allow for the use of farm land as a normal part of a farm winery use and, therefore, allowed by Special Permit. All farm winery activities associated with the manufacture, storage, bottling, production, distribution or sale of wine, wine based, and winery distilled products shall be in accordance with all State and Federal laws or regulations governing such activities. In accordance with provisions of the approved statement of use submitted with a Farm Winery Special Permit application, or as modified by the Commission, a farm winery permit issued pursuant hereto shall authorize the permittee

2. to sell wine manufactured on the premises to a retailer in original sealed containers;

3. to sell or deliver such wine to persons outside the state;

4. to offer free samples of such wine to visitors and prospective retail customers for tasting and consumption on the premises;

5. to sell at retail from the premises sealed bottles or other sealed containers of such wine for consumption off the premises;

6. to sell at retail from the premises wine by the glass, bottle or other sealed container to visitors for consumption on the premises; and

7. to allow the sale and service of food prepared and consumed on the premises, as well as the accommodation of special group events such as public and outdoor events to be held on the premises when such activities are accessory to farm winery use and specified in the statement of use described below. No farm winery permitted hereunder may sell any such wine not manufactured in such winery.

ADD: 352A.3. Uses Permitted:

The following uses are permitted as accessory to a farm vineyard, if authorized by Special Permit in accordance with this Section.
