

Village to discuss cannabis options

Issued: Nov. 1, 2019

The Village will hold a Committee of the Whole meeting on Nov. 12 regarding the new state cannabis law and what potential actions the Village Board can take.

During the meeting, the Police, Community Development, Finance and Legal departments will give informational presentations to the board as they prepare to make a decision on whether or not to permit cannabis dispensaries and/or cannabis use on-premises. The meeting will be strictly an information-gathering opportunity; no vote will be taken.

Resident input will be an important part of the process. Residents can give input at the meeting or through an online survey the Village will issue on Nov. 13. A video presentation containing the discussion from the Nov. 12 meeting will be on the Village's YouTube channel the same day.

The Village Board will take a formal vote regarding the new cannabis law at a later date.

More information, including links to the survey and video, will be available in the coming weeks.
