

## **COVID-19 cases on the rise in Tinley**

Issued: Oct. 16, 2020

As is the case with a great number of municipalities across the country, Tinley Park is seeing an increase in its COVID-19 positivity rates in both the Cook and Will County portions of town.

In order to help make sure Tinley Park doesn't keep moving in the wrong direction, the Village strongly urges residents to wear proper face coverings and practice safe social distancing whenever possible. Also, please remember to avoid large groups and wash or sanitize your hands whenever possible.

For information on positivity rates and other COVID-19 information, please see the following:

- [Centers for Disease Control \(CDC\) website](#)
- [State of Illinois COVID-19 website](#)
- [Illinois Department of Public Health website](#)
- [Cook County Department of Public Health website](#)
- [Will County Health Department website](#)

Residents are also encouraged to check out the Village's own COVID-19 page, which is available at [TinleyPark.org/COVID-19](https://TinleyPark.org/COVID-19). Together we can help keep Tinley Park safe!
