

Prepare for severe weather this spring

Issued: March 11, 2022

In recognition of Severe Weather Preparedness Week, the Illinois Emergency Management Agency (IEMA) and the National Weather Service have developed a [Severe Weather Preparedness Guide](#) to help people prepare for potentially dangerous weather.

The guide will help people understand weather risks such as floods, tornadoes, severe thunderstorms and lightning, and provides tips for staying safe at home and in the car. It also includes lists of suggested items for home and vehicle emergency supply kits. For more information, please visit www.Ready.Illinois.gov/ready.
