

**TREE PLANTING PROGRAM
ENERGY EFFICIENCY**

An applicant is eligible for reimbursement of 50% of the cost of a tree(s) up to a maximum of \$200.00 per year per property. Applicant must place a flag/marking on the property where the potential tree will be located and return completed form.

The Bellevue Municipal Utility Superintendent will verify that the location and type of tree planted conforms to the objective of planting trees to improve energy efficiency. Generally, the tree should shade the residence and should *not* be planted on north side of the property.

Applicants must apply for rebates within six (6) months of the purchase date (as shown on the Applicant's invoice). Applicants whom have applied previously may apply again.

Tree specialist that can answer any questions related to the type of tree:

Don Cummings	817-798-6138
Bill Sieverding	563-451-8678

Date: _____

Applicant: _____

Address: _____

Phone #: _____

TYPE(S) OF TREE	QUANTITY	LOCATION
_____	_____	_____
_____	_____	_____
_____	_____	_____

I have reviewed the tree planting proposed by the applicant listed above and found that the location and type of tree conforms to the objectives of tree planting program.

UTILITY SUPERINTENDENT

DATE

The City of Bellevue & Bellevue Municipal Utilities shall have the right to plant, prune maintain and remove street trees as may be necessary to insure public safety. The City also has the right to remove any tree including but not limited to the following reasons: not properly permitted, planted not following the regulations, or moved from the original approved location
