

Water Service Line Inventory - SURVEY

The City of Bellevue/Bellevue Municipal Utilities is updating its records of water service lines as part of a IA DNR/State requirement. We need help from you, residents and business owners, to identify private service line material. Please fill out the short survey to help us complete our inventory in an efficient manner. Should you have any questions or if you are unable to check your meter yourself, then please call the Clerk's Office (x4456) or the Power Plant (x3357) and a BMU employee will be able to help. Thank you in advance for your help! As a reminder the property owner owns the water service line, which is the water line from the water main going into the person's property. *(Watch 5-minute City of Cedar Rapids YouTube video titled "Water Service Line Inventory — How To Video")*.

1. Property owner Information:

Name (First/Last) or Business Name: _____

Property Address: _____

Email Address: _____

Phone Number: _____

2. My water service line material is: (check one)

Lead

Galvanized (magnetic)

Copper (think of a penny)

Plastic

3. If you have any records of work on this service line, especially if the service line has ever been replaced, then please indicate the work performed and the approximate date.

4. Where is your water meter located in your house/building?

For example: basement south wall; basement northeast corner; or first floor utility closet south wall.

Return this form to City Hall, Clerk's Office (106 N. Third Street) as soon as possible.

Responses must be received from every property with a water meter.

If your response is not received, then you will continue to be contacted by a City employee.

THANK YOU for your help in providing your information!
