PUBLIC HEARING PROCESS

- 1. The Zoning Board of Adjustment is hearing your application as a quasi-judicial body. At your hearing, you will be asked (under oath) to describe to the Board the development and/or changes you propose to make and, if applicable, why you are entitled to relief according to law. The burden of proof is upon you, the applicant, to establish the elements of your case. The Board will reach a determination on your case based upon the finding of fact and, the proofs according to law. The meeting will be opened to the public in order to accept questions or comments on your application.**
- 2. You must appear in person and/or be represented by an Attorney at your public hearing(s). Any applicant, other than a corporation, may present their own matter without representation by an Attorney. However, applicants are cautioned that particularly with applications involving requests for use variances and conditional use permits, there are specific requirements imposed by the Laws of the State of New Jersey and you may wish to consider seeking adequate legal advice.**
- 3. When your application has been fully considered, the Board will make a determination based upon testimonies from the applicant, professionals and witnesses plus reports and review by various departments and outside agencies having jurisdiction over the matter. The Board Attorney will then be asked to prepare a Resolution of approval or denial. This Resolution will be memorialized (become valid) at the following meeting. You do not need to be present at the memorialization. Once you receive the signed Resolution it is at that time you can proceed with project, starting with the Zoning Permit.**

Due at the time of application are two checks. One check is a non-refundable application fee. The second check is an escrow fee. The fees due on your application should be noted on your Zoning Permit denial form. If the fees are not noted please contact the Board of Adjustment Secretary at 732-244-7400 x 249. The applicant is responsible for any and all fees that are charged that are above their initial ESCROW deposit. Section 35-16 "Procedure for Escrow Funds" reads in part, "No zoning permits, building permits, certificates of occupancy or any other types of permits may be issued with respect to any approved application for development until all bills for reimbursable services have been received by the municipality from professional personnel rendering services in connection with such application and payment has been made."
