FORECLOSURE SALES

Foreclosure sales are often considered invalid sales, and not applicable to use when adjusting AV to market value. But, with the recent increase in foreclosure sales, specific guidelines have been established by the Michigan Department of Treasury to determine if they can be considered arms length transactions and included in Assessed Value (AV) setting sales studies. See the following link for more details:

MARCH BOARD OF REVIEW & POVERTY EXEMPTIONS

If you believe the Assessed Value is more than half the value of your property or if you believe you qualify for a poverty exemption, you may appeal the Assessed and/or Taxable Values at the March Board of Review. You can obtain information about the specific meeting dates and schedule an appearance with the Board of Review by contacting your local assessing office. More information regarding the appeals process can be found at:

http://www.oakgov.com/mgtbud/equal/Pages/how_do_i/how_do_i.aspx

Examples - The following is a compilation of various assessment scenarios that could be similar to your particular situation:

You Purchased a New Home

Last year, you purchased a new home valued at $200,000 (true cash value) with Assessed Value (AV) and State Equalized Value (SEV) both at $100,000, and a Taxable Value (TV) of $80,000.

A study of sales in the neighborhood shows the true cash value of the property has decreased to $180,000 for the current year.

Current Year:
- Assessed Value (AV) is (1/2 of $100,000) .................. $50,000
- SEV (tentative) is ........................................ $50,000
- Value is "uncapped" the year following an ownership transfer (sale) of a property, the Taxable Value will be the same as the State Equalized Value.
- Taxable Value (TV) is ................................... $50,000

You Made No Changes to Your Property

Increased SEV/TV Increase

Last year, your home valued at $200,000 (true cash value) had a $100,000 State Equalized Value (SEV), and a Taxable Value (TV) of $80,000.

A study of sales in the neighborhood shows the true cash value of your property has increased to $220,000 for the current year.

Current Year:
- Assessed Value (AV) is (1/2 of $220,000) .............. $110,000
- SEV (tentative) is ........................................ $110,000
- Capped Value (CV) is ($80,000 x 1.016)* ................ $81,280
- Taxable Value, the lesser of SEV or CV, is .............. $81,280

Decreased SEV/TV Decrease

Last year, your home valued at $180,000 (true cash value) had a $90,000 State Equalized Value (SEV), and a Taxable Value (TV) of $80,000.

A study of sales in the neighborhood shows the true cash value of your property has decreased to $150,000 for the current year.

Current Year:
- Assessed Value (AV) is (1/2 of $150,000) .............. $75,000
- SEV (tentative) is ........................................ $75,000
- Capped Value (CV) is ($80,000 x 1.016)* ................ $81,280
- Taxable Value, the lesser of SEV or CV, is .............. $75,000

You Added a Family Room to Your Home

Current Year:
- Assessed Value (AV) is (1/2 of $240,000) .............. $120,000
- SEV (tentative) is ........................................ $120,000
- Capped Value (CV) is ($80,000 x 1.016)* + 50% of 40,000) ........ $101,280
- Taxable Value, the lesser of SEV or CV, is .............. $101,280

Decreased SEV/TV Increase

Last year, your home valued at $200,000 (true cash value) had a $100,000 State Equalized Value (SEV), and a Taxable Value (TV) of $80,000.

A study of sales in the neighborhood shows the true cash value of your property has decreased to $180,000 for the current year.

Current Year:
- Assessed Value (AV) is (1/2 of $180,000) .............. $90,000
- SEV (tentative) is ........................................ $90,000
- Capped Value (CV) is ($80,000 x 1.016)* ................ $81,280
- Taxable Value, the lesser of SEV or CV, is .............. $81,280

How Are Property Taxes Calculated?

Property Taxes = Taxable Value / 1,000 x Your Local Millage Rate

*The Inflation Rate Multiplier is determined annually by the State Tax Commission. A 1.016 multiplier (1.6% increase) has been used in the following examples.
**WHAT ARE PROPERTY TAXES BASED ON?**

On March 15, 1994, Michigan voters approved the constitutional amendment known as Proposal “A”. Prior to Proposal “A” property tax calculations were based on State Equalized Value (SEV). Proposal “A” established “Taxable Value” (TV) as the basis for the calculation of property taxes.

Increases in Taxable Value (TV) are limited to the percent of change in the rate of inflation or 5%, whichever is less, as long as there were no losses or additions to the property. The limit on TV does not apply to a property in the year following a transfer of ownership (sale).

**WHAT IS “CAPPED VALUE”?**

“Capped Value” is the value established when the TV of the prior year, with adjustments for additions and losses, is multiplied by the Inflation Rate Multiplier (IRM). The multiplier is capped and cannot be greater than 1.05 (1 + 5%). It represents the change in the rate of inflation during the previous year. The final product is Capped Value (CV).

\[
\text{Capped Value} = (\text{Prior TV} - \text{Losses}) \times (\text{IRM})^* + \text{Additions}
\]

* The Capped Value limitation on Taxable Value does not apply if you purchased your home last year.

**CALCULATING INFLATION RATE MULTIPLIER**

Based on this statutory requirement, the calculation for 2014 is as follows:

1. The 12 monthly values for October 2011 through September 2012 are averaged.
2. The 12 monthly values for October 2012 through September 2013 are averaged.
3. The ratio is calculated by dividing the average of column 2 by the average of column 1.

**WHAT IS STATE EQUALIZED VALUE (SEV)?**

The State Equalized Value (SEV) is the Assessed Value as adjusted following county and state equalization. The County Board of Commissioners and State Tax Commission must review local assessment jurisdictions and adjust (equalize) them so that they do not exceed 50%.

**WHAT IS “TAXABLE VALUE”?**

Taxable Value (TV) is the lesser of State Equalized Value (SEV) or Capped Value (CV) unless the property experienced a Transfer of Ownership in the prior year.

**WHAT HAPPENS WHEN YOU PURCHASE A HOME?**

When a property, or interest in a property, is transferred, the following year’s State Equalized Value (SEV) becomes the basis for the calculation of property taxes. The Taxable Value will then be “capped” for the second year following the transfer of ownership.

**NOTICE OF ASSESSMENT**

Each year, prior to the March meetings of the local boards of review, informational notices are mailed. The “Notice of Assessment, Taxable Valuation, and Property Classification” also includes State Equalized Value, the percent of exemption as a Principal Residence, Michigan Business Tax, or Qualified Agricultural Property, and if there was or was not a Transfer of Ownership.

**WHAT IS A PRINCIPAL RESIDENCE EXEMPTION?**

If you own and occupy your home as your principal residence, it may be exempt from a portion of local school operating taxes. On your “Notice of Assessment”, review your percentage of principal residence exemption.

To claim an exemption for the current year, you must own and occupy your home and file a “PRE Affidavit” with your city or township by June 1 for the immediately succeeding summer tax levy and all subsequent tax levies or by November 1 for the immediately succeeding winter tax levy and all subsequent tax levies.
