MESSAGE FROM THE CITY MANAGER

Spring is a time of renewal. As the snow melts away it provides the needed water to support the growth of plants as they push their way back out of the ground.

Spring can also be sloppy and muddy. The season can sometimes feel like it takes one step forward and two backward. It can be 60 degrees one day and then snow for three straight days. Yet, year after year, all lingering vestiges of the harshness of winter are put behind us and the summer sun shines once again to restore our energy.

Our community finds itself at a similar point in its cycle. Like the winter temperatures, our operating and public safety millage rates have fallen and need a spring-like restoration. In this metaphor, the voters of our community will have the opportunity to decide the outcome of the city's millage rate on May 2, 2023.

It is incredibly important to me that everyone is informed when they vote this coming May. We are asking the community for a reinvestment in the city funds that Berkley has lost over the past decade-plus due to the State's Headlee Amendment and Proposal A. This decision by voters would move the city's millage rate for our operating and police/fire from the 9.5419 mills we have now to 13 mills. A number that our founders and city charter originally allocated to run our city. This increase of 3.4581 mills would mean each individual home paying more but it would also mean \$2.5 million in revenues for just the first year which would be invested directly in our community.

We as an administration cannot advocate for an outcome but myself and the hardworking public servants who serve you can spend the next few months showcasing all that we have accomplished with the resources we have now and all that we could do with more. I kindly ask that you give us your time to make that case. Ultimately, the future of our community is always up to the residents. Our goal is to ensure that you are properly informed about what this millage request is and how it impacts you in all aspects of your life; in investments, in services, and in community satisfaction.

"It is incredibly important to me that everyone is informed when they vote this coming May... Our goal is to ensure that you are properly informedw about what this millage request is and how it impacts you in all aspects of your life"

BERKLEY HISTORICAL MUSEUM

Open Wednesdays 10 AM – 1 PM & Sundays 2 PM – 4 PM. 3338 Coolidge Hwy. Berkley, MI 48072 | **www.berkleymich.org/museum**

A PIECE OF BERKLEY SCHOOLS HISTORY

The Berkley Historical Museum recognizes the huge importance of the history of our schools. *Did you know that the school district was created years before Berkley became a village*? This helps to explain why the city boundaries and the school district boundaries are so different.

From the very beginning of the Berkley Historical Committee in the early 1970s the collection of historical photographs, articles, documents and school items has grown and grown.

In January we were proud to add the telephone booth, that stood in the hallway near the office at Pattengill Elementary until 1978, to our display. When it was removed the school secretary, Judy Barry, had it taken to her home. Her family moved several times over the years and always moved it with them.

We thank her for her gift and the Berkley Public Works Department for moving it from Brooklyn, MI to the museum.

Stop and see our collection dealing with our beloved schools.

MESSAGE FROM THE MAYOR

My name is Bridget Dean and I am honored and humbled to have the opportunity to succeed Mayor Dan Terbrack as Mayor of the City of Berkley.

As a resident, former business owner and member of City Council, I am well acquainted with the key issues that confront our city.

One of them is the impact of COVID-19 and the escalating costs of the essentials of city government. Last year alone we were forced to cut over 2 million dollars from our budget.

Such cuts translate into valued services going unfunded. For sometime now it has been clear to Council and City administration that a millage is required to maintain the quality of life we all enjoy.

Over the next few months as this community conversation unfolds, we will provide opportunities for every resident to have their questions and concerns addressed. Please take advantage of these opportunities so that your vote will be based on correct information.

Public service is not always easy and asking for a millage increase is no easy task. I know first-hand the demands made on our family budgets but I am committed to preserving the quality of life that makes us proud to call Berkley home.

Successive generations of residents invested in this City. They built the infrastructure we use every day. I'd like to thank each of my predecessors of the past 100 years for their service and loyalty to the City. Because of their leadership, we inherit a vibrant city. It remains the task of our leadership to work together and celebrate Berkley's uniqueness and embrace the opportunities that lie ahead.

"I am committed to preserving the quality of life that makes us proud to call Berkley home... It remains the task of our leadership to work together and celebrate Berkley's uniqueness and embrace the opportunities that lie ahead."

Branch Out Berkley Fall Tree Planting Program

The beauty of Berkley's tree-lined streets is a result of the successful Tree Planting Program.

The young trees that are planted are about 1½ inches in diameter and approximately 10 feet tall.

Public Works will be accepting orders between June 1 and August 1, 2023.

Trees are made available on a first-come, first-serve basis. There is a LIMITED number available.

Visit **www.berkleymich.org/trees** to learn more.

Paperless Water Bills Coming Soon!

We are excited to share with residents that our department is in the early development stages of being able to collect emails for paperless water bills!

We still have some technical kinks to work our with our IT department and the Treasury Department so stay tuned.

Public Works looks forward to being able to provide this service to the community.

National Public Works Week (NPWW)

The American Public Works Association celebrates and honors the importance of public works in our daily lives. NPWW will take place May 21-27, 2023.

LEAD SERVICE LINE VERIFICATION AND REPLACEMENT

The State of Michigan adopted new rules requiring the City to remove and replace all lead water service lines (the pipe that runs from the water main to the meter inside the house) at public cost.

This work must be completed by 2041.

PARTICIPATE IN THE LEAD SERVICE REPLACEMENT PROGRAM

The City of Berkley has implemented a lead service line replacement program, through which homeowners can have their lead or galvanized steel service line replaced at **no cost**.

We ask that all residents submit photos of their interior plumbing near the water meter to **publicworks@berkleymich.net**.

TIPS FOR PARENTS, GUARDIANS, AND KIDS

BICYCLE SAFETY

Bicycling is fun, healthy, and a great family activity. But a bicycle isn't a toy; it's a vehicle!

Some bike crashes can cause serious injuries and most are related to the behavior of you (the bicyclist) or the motorist. There are a number of things you can do to prevent a crash, and protect your brain if a crash occurs.

Safe Riding Tips

Before riding, make sure you, your family, and the bicycles are ready to ride. Be a "Roll Model" for other adults and children.

Remember to:

- Wear a Bicycle Helmet. Everyone at every age should wear bicycle helmets. For more guidance on fitting a helmet, see the National Highway Traffic Safety Administration's *Fitting Your Bike Helmet*.
- Adjust Your Bicycle to Fit. Stand over your bicycle. There should be 1 to 2 inches between the rider and the top tube (bar) if using a road bike and 3 to 4 inches if using a mountain bike. The seat should be level front to back, and the height should be adjusted to allow a slight bend at the knee when the leg is fully extended. The handlebar height should be level with the seat.
- Check Your Equipment. Before riding, inflate tires properly and check that the brakes work.
- See and Be Seen. Whether daytime, dawn, dusk, bad weather, or at night, make yourself visible to others. Wear neon, fluorescent or other bright colors when riding, to be most easily seen. Wear something that reflects light, such as reflective tape or markings, or flashing lights. Remember, just because you can see a driver doesn't mean the driver can see you.
- Control the Bicycle. Ride with two hands on the handlebars, except when signaling a turn. Place books and other items in a bicycle carrier or backpack.
- Watch for and Avoid Road Hazards. Look for hazards such as potholes, broken glass, gravel, puddles, leaves, and dogs. All these hazards can cause a crash.
- Use Verbal and Non-Verbal Communication. This includes eye contact with drivers, turn signals, pointing to road hazards for bicyclists behind you, and stating "passing on your left," or "on your left."
- Avoid Riding at Night. It's hard for road users to see bicyclists at dusk, dawn, and nighttime. Use reflectors on the front and rear of your bicycle. White lights and red rear reflectors or lights are required by law in all States.

Rules of the Road - Bicycling on the Road

In all States, bicycles on the roadway are considered vehicles, and bicyclists are the drivers, with the same rights and responsibilities as motorists to follow the rules of the road. When riding, always:

- Go With the Traffic Flow. Ride on the right in the same direction as other vehicles. Go with the flow not against it.
- Obey All Traffic Laws. A bicycle is a vehicle and you're the driver. When you ride in the street, obey all traffic signs, signals, and lane markings.
- Yield to Traffic. Almost always, drivers on a smaller road must yield (wait) for traffic on a major or larger road. If there is no stop sign or traffic signal and you are coming from a smaller roadway (out of a driveway, from a sidewalk, a bike path, etc.), you must slow down and look to see if the way is clear before proceeding. Yield to pedestrians in a crosswalk.
- Be Predictable. Ride in a straight line, not in and out of cars. Signal your moves to others.
- Stay Alert at All Times. Use your eyes and ears. Watch out for potholes, cracks, wet leaves, storm grates, railroad tracks, or anything that could make you lose control of your bike. Listen for traffic and avoid dangerous situations; don't use personal electronics when you ride.
- Look Before Turning. When turning left or right, always look behind you for a break in traffic, and then signal before making the turn. Watch for left- or right-turning traffic.
- Watch for Parked Cars. Ride far enough out from the curb to avoid the unexpected from parked cars (like doors opening, or cars pulling out).

Where to Ride Safely

- Use bike lanes or bike paths, if available.
 - While bicycles are allowed on many roads, riders may feel safer being separated from traffic. A lane or path is a safer choice than riding on a sidewalk.
 - Riding on sidewalks puts you in a place where cars do not look for or expect to see moving traffic.
 - Sidewalk riding puts you at risk for crashes at driveways and intersections.
- Children younger than 10 years old are not consistently able to make the decisions necessary to safely ride unsupervised in the street. Therefore, they are safer riding away from traffic.

For anyone riding on a sidewalk:

- Check the law in your State or jurisdiction to make sure sidewalk riding is allowed.
- Watch for vehicles coming out of or turning into driveways.
- Stop at corners of sidewalks and streets to look for cars and to make sure the drivers see you before crossing.
- Enter a street at a corner and not between parked cars. Alert pedestrians that you are nearby, saying, "Passing on your left," or use a bell or horn.

COMMUNITY DEVELOPMENT DEPARTMENT

Tips for Residents Hiring a Contractor for Home Improvement Projects

Verify Licenses and Insurance

be done by a licensed contractor. Request a copy of a contractor's builder's license, general liability insurance and workman's compensation insurance before signing up with anyone.

Unless it's being completed by a homeowner, any project costing more than \$1,600 should be performed by a contractor that holds a mechanical or alteration license or a licensed builder.

Set a Payment Schedule

Many home projects and remodels should Set a payment plan over the course of a project to hold your contractor accountable. Typically, a certain portion of the project would be put down as a down payment with incremental payments thereafter depending on the scope of the project. Full payment should be held until the job is completed.

Get Things in Writing

Draw up a contract with your chosen contractor that details every step of the project. This should include a payment schedule, start and completion dates and materials and products to be used.

Obtain Required Permits

While homeowners may pull permits for jobs they are working on themselves, if you've hired a professional, they should be applying for and receiving any required permits and permit fees should be included in your agreed upon contract and payment schedule.

Berkley's Millage Override equates to less than a dollar a day.
