All Town Employees are Essential Workers
For the Duration of the Covid-19 State Declared Emergency
And
Continuing Since June 21, 2021

It is appropriate for the Town Council to Resolve all Town Employees working through the period of the State Declared Covid-19 Emergency and continue to provide necessary and essential public services. Town Offices along with other supporting Departments have remained open and serving our Community and the Public in the face of a Public Health Emergency we have not seen the like of in over 100 years. Staff has continued to show up for work serving the Public in the face of the facts where to-date we have seen 1,147 Maine deaths and 72,649 confirmed cases statewide.

Therefore, the South Berwick Town Council acts to declare Town Employees Essential for purposes of application of a portion of ARPA funds and Recognition of their contributions to the public good during the Pandemic.
