

SUPERINTENDENT'S REPORT
May 13, 2019

Community:

Our Prosperous Places grant has been submitted. Notices of awards are expected by month's end. Adrienne and Guy are to be commended on their efforts in this project. CUPPAD has also provided invaluable assistance.

DPW:

Hazardous materials inspection of the foreclosed properties on Breitung Avenue is complete. We are waiting on the final report to determine the amount of abatement that will be required.

With road restrictions starting to be lifted, we are optimistic that the Hoadley Ave and Maple St projects will soon be underway.

The 2" water main going south from Jobe Way toward Aurora has been re-activated without any issues. Our crews will be actively monitoring this line for leaks.

The township cell phone plan is being deactivated. Those staff members who still had phones have been given the option of keeping their current numbers.

Mary Ann is all smiles on the new TORO mower; never has someone been so anxious to mow grass!

Planning and Zoning:

The zoning season is in full swing with another 13 permits since our last meeting.

The Zoning Board of Appeals will hold a public hearing for two garage setback variance requests on May 21st. Another Zoning Board of Appeals meeting is coming down the chute and will be scheduled for some time in June.

Assessing:

Progress continues to be made as our staffing transition moves forward. Technological hurdles are being overcome and communication efforts are being refined.

Acceptance of our AMAR corrective action plan has been received and is in the FYI section.

PA 660 compliance efforts continue.
