Hollister, CA, 95024

**Subject:        Formal Notification under Assembly Bill 52 for the 567 Airport Blvd Project in  
                     the City of San Mateo, San Mateo County**

Dear Ms. Sayers:

The purpose of this letter is to inform you of the 567 Airport Blvd Project (project). EW-PG Airport Owner (Project Sponsor) is proposing the redevelopment of 12.8 acres of land in the Bayfront area of Burlingame. The Project would include construction of an eight-story, 241,679 sf office/research and development (R&D) building and a 5.5-level parking structure on the site of an existing surface parking lot. No existing buildings would be demolished. The Project would also provide new landscaped areas, including promenades, outdoor seating areas, walkways, patios, look-outs, plazas, and stormwater treatment areas. It would require an area excavation within the building footprint that will reach a depth of up to 12 feet below the current surface, as well as utility trenching and surface grading. The project area lies on land reclaimed from the San Francisco Bay around 1970. These activities require analysis under the California Environmental Quality Act (CEQA).

The City of San Mateo is the lead agency under CEQA. Please consider this letter and preliminary project information as formal notification of a proposed project as required under CEQA, specifically Public Resources Code § 21080.3.1 and Chapter 532 Statutes of 2014 (i.e., Assembly Bill 52).

On February 11, 2021, the City's CEQA consultant, ICF, conducted a literature search at the Northwest Information Center (NWIC) of the California Historical Resources Information System (CHRIS). The NWIC literature search did not identify any previously recorded prehistoric archaeological sites within 0.5-mile of the project site (the project area).

ICF requested a search of the Native American Heritage Commission (NAHC) Sacred Lands File (SLF) on January 27, 2021. The SLF search did not identify any Native American cultural resources within the project area. The NAHC also provided your name as a representative of a California Native American Tribe who may have knowledge of cultural resources within or near the project area.

The City would like to provide you with an opportunity to communicate concerns you might have regarding places within the project area that may be important to your community. The City requests your participation in the identification and protection of cultural resources, sacred lands

or other heritage sites within the above described project area with the understanding that you or other members of the community might possess specialized knowledge of the area.

If you have any questions or concerns please feel free to contact me by phone, (650) 558-7256, or by email, [rhurin@burlingame.org](mailto:rhurin@burlingame.org). Thank you very much for your interest and assistance.

Sincerely,

Ruben Hurin  
Planning Manager  
City of Burlingame

**Re: Native American Tribal Consultation, Pursuant to the Assembly Bill 52 (AB 52), Amendments to the California Environmental Quality Act (CEQA) (Chapter 532, Statutes of 2014), Public Resources Code Sections 5097.94 (m), 21073, 21074, 21080.3.1, 21080.3.2, 21082.3, 21083.09, 21084.2 and 21084.3, 567 Airport Boulevard Project, San Mateo County**

Dear Dr. Wildt:

Pursuant to Public Resources Code section 21080.3.1 (c), attached is a consultation list of tribes that are traditionally and culturally affiliated with the geographic area of the above-listed project. Please note that the intent of the AB 52 amendments to CEQA is to avoid and/or mitigate impacts to tribal cultural resources, (Pub. Resources Code §21084.3 (a)) ("Public agencies shall, when feasible, avoid damaging effects to any tribal cultural resource.")

Public Resources Code sections 21080.3.1 and 21084.3(c) require CEQA lead agencies to consult with California Native American tribes that have requested notice from such agencies of proposed projects in the geographic area that are traditionally and culturally affiliated with the tribes on projects for which a Notice of Preparation or Notice of Negative Declaration or Mitigated Negative Declaration has been filed on or after July 1, 2015. Specifically, Public Resources Code section 21080.3.1 (d) provides:

*Within 14 days of determining that an application for a project is complete or a decision by a public agency to undertake a project, the lead agency shall provide formal notification to the designated contact of, or a tribal representative of, traditionally and culturally affiliated California Native American tribes that have requested notice, which shall be accomplished by means of at least one written notification that includes a brief description of the proposed project and its location, the lead agency contact information, and a notification that the California Native American tribe has 30 days to request consultation pursuant to this section.*

The AB 52 amendments to CEQA law does not preclude initiating consultation with the tribes that are culturally and traditionally affiliated within your jurisdiction prior to receiving requests for notification of projects in the tribe's areas of traditional and cultural affiliation. The Native American Heritage Commission (NAHC) recommends, but does not require, early consultation as a best practice to ensure that lead agencies receive sufficient information about cultural resources in a project area to avoid damaging effects to tribal cultural resources.

The NAHC also recommends, but does not require that agencies should also include with their notification letters, information regarding any cultural resources assessment that has been completed on the area of potential effect (APE), such as:

1. The results of any record search that may have been conducted at an Information Center of the California Historical Resources Information System (CHRIS), including, but not limited to:

- A listing of any and all known cultural resources that have already been recorded on or adjacent to the APE, such as known archaeological sites;
- Copies of any and all cultural resource records and study reports that may have been provided by the Information Center as part of the records search response;
- Whether the records search indicates a low, moderate, or high probability that unrecorded cultural resources are located in the APE; and
- If a survey is recommended by the Information Center to determine whether previously unrecorded cultural resources are present.

2. The results of any archaeological inventory survey that was conducted, including:

- Any report that may contain site forms, site significance, and suggested mitigation measures.

All information regarding site locations, Native American human remains, and associated funerary objects should be in a separate confidential addendum, and not be made available for public disclosure in accordance with Government Code section 6254.10.

3. The result of any Sacred Lands File (SLF) check conducted through the Native American Heritage Commission was negative.

4. Any ethnographic studies conducted for any area including all or part of the APE; and

5. Any geotechnical reports regarding all or part of the APE.

Lead agencies should be aware that records maintained by the NAHC and CHRIS are not exhaustive and a negative response to these searches does not preclude the existence of a tribal cultural resource. A tribe may be the only source of information regarding the existence of a tribal cultural resource.

This information will aid tribes in determining whether to request formal consultation. In the event that they do, having the information beforehand will help to facilitate the consultation process.

If you receive notification of change of addresses and phone numbers from tribes, please notify the NAHC. With your assistance, we can assure that our consultation list remains current.

If you have any questions, please contact me at my email address: [Sarah.Fonseca@nahc.ac.gov](mailto:Sarah.Fonseca@nahc.ac.gov).

Sincerely,

Sarah Fonseca  
Cultural Resources Analyst
