November 27, 2012

#### **Dear Honorable Mayor and City Council Members:**

The Comprehensive Annual Financial Report (CAFR) for the City of Troy, Michigan for the year ended June 30, 2012 is hereby submitted. The report represents a comprehensive and detailed picture of our financial transactions during fiscal year 2011/12 and the financial condition of the various funds as of fiscal year end. This report was prepared by a team of City staff led by Thomas E. Darling, CPA, Director of Financial Services. Troy's staff is responsible for the accuracy of data and completeness and fairness of the presentation, including all disclosures.

A Management's Discussion and Analysis Report (MD&A), as well as entity-wide, full accrual financial statements have been added to the front of the financial statement section. The fund statements have been altered to provide reporting under the "Major/Nonmajor Fund" concept. Reconciliation between the two presentations is included and the note disclosures have been expanded to provide appropriate information on both the entity-wide and fund financial statements.

The information presented is accurate in all material respects. Financial data presented is designed to provide the reader with information to assist in determining both the long-term fiscal health of the City of Troy and the City of Troy's ability to meet obligations on a short-term basis.

As required by Generally Accepted Accounting Principles (GAAP), these financial statements present the City of Troy and related component units. The individual component units are included in the City of Troy's reporting entity because of the significance of their operational or financial relationships with the City of Troy.

The financial reporting entity includes all of the primary government (the City of Troy as legally defined). The criteria used in determining the reporting entity are consistent with current GAAP guidelines. Based on these criteria, the various funds of the City are shown in the table of contents and are included in this report. We have addressed all component units.

The City of Troy was incorporated in 1955 and has always operated under the Council-Manager form of government. The Mayor and six members of the City Council are elected to staggered four-year terms.

The City Manager is appointed by a majority vote of the City Council and is responsible for all administrative functions. The City provides a full range of municipal services, including police, fire, water distribution, wastewater collection, street maintenance, public improvements, planning, zoning, recreation and general administration.

#### **ECONOMIC CONDITION AND OUTLOOK**

The economic condition of the City of Troy has reflected the slight uptick of the State and National economies to some degree. Our unemployment rate is well below the state and metro area average.

#### June 2012

Troy	7.7%
Oakland County	8.8%
Metro Area*	10.2%
Michigan	9.2%
National	8.4%

<sup>\*</sup>The Metro Area includes Lapeer, Livingston, Macomb, Monroe, Oakland, St. Clair and Wayne Counties

The City continues to experience a decline in taxable values indicative of the overall real estate market compared to the 1980s, 1990s and the highpoint in 2008. The decline, however, has flattened compared to recent prior years. The taxable value for the 2011 levy (to fund the 2012 fiscal year) decreased 8.2% or \$395 million. This compares to the prior 2010 levy (that funded 2011 fiscal year) which decreased 11.3% or \$616 million. For Michigan cities, Troy ranked third for the largest taxable values in the state. However, in this era of competition for business retention and attraction, we need to advance a preferred future in which residents and businesses continue to aspire to locate here.

The City has expanded upon its budgeting practices by including five-year budget projections and the adoption of a three-year budget. Our approach to funding major capital projects is to accumulate funds over a number of years to avoid the issuance of debt. The City has adopted a policy to maintain our Unassigned Fund Balance of the General Fund at 15% of General Fund Expenditures.

Other significant economic events occurring during the fiscal year include the following major initiatives, which more often than not span several years:

#### **Multi-Modal Transit Center**

The \$6.2 million Troy Multi-Modal Transit Facility will replace an outmoded Amtrak stop with an ADA compliant, safe and secure transportation center. The facility will strengthen mobility options through a centralized facility that will allow user access to intercity passenger rail service, regional bus routes, and taxi services. The facility will provide linkages to ground level intermodal facilities via ADA compliant sidewalks and a pedestrian bridge over the tracks to a new Amtrak platform on the west side of the tracks. The new facility will also provide a bus stop area sized to accommodate four full sized buses, a passenger drop off and pickup lane, and a taxi waiting area. Parking for all modes of travel will be provided in an improved parking area on the Troy side. The project broke ground in November of 2012 with completion scheduled for July of 2013.

#### **Alternative Automotive Technologies (AAT)**

AAT supplies contract manufacturing services to the automotive industry. The project includes the renovation of the former Saleen Motors and Stanley Door facility located at 1225 E. Maple Road. The 180,000 square foot facility will house approximately 48 employees initially, with a total of approximately 200 jobs expected in five years.

#### **United Shore Financial Services (USFS)**

USFS, a leading mortgage services company, will be moving its headquarters into 110,000 square feet of office space located at 1414 E. Maple Road. The company will add approximately 548 jobs initially, with a total of over 1,700 jobs expected in three years.

#### **Plex Systems**

Plex Systems Inc. is the developer of Plex Online, a Cloud ERP solution for the manufacturing enterprise. Plex is moving its headquarters to 900 Tower Drive. The new facility houses members of the management, marketing, sales, human resources, accounting and IT services groups — approximately 53-63 people. At 108,500 square feet, the new space can accommodate approximately 500 people.

#### Nexteer

Nexteer Automotive provides advanced steering and driveline solutions. The company opened its new customer service center in Troy. The 30,000 square foot facility will house at least 50 engineers to support the Big 3 automakers and customers worldwide. The Troy facility will allow Nexteer engineers to work on application engineering projects and to coordinate commodity strategies.

#### **Secrest Wardle**

Secrest Wardle specializes in defense litigation and counsel for insurance, municipal, and commercial clients. The firm recently consolidated its employees from two locations in Metro Detroit to its new headquarters at 2600 Troy Center. Secrest Wardle's 122 employees occupy a 47,868 square foot building in the heart of Troy's business and financial center.

#### **Old Dominion**

Old Dominion Freight Lines has redeveloped a formerly vacant industrial site at 1310 E. Big Beaver into a new transportation service center. The \$6 million project includes a 23,500 square foot warehouse and 10,550 square foot maintenance facility on approximately 16 acres of land.

#### **Mahindra Technical Center**

Mahindra inaugurated its new Technical Center in Troy. This facility is the company's first technical center in the USA and will leverage Michigan's large automotive talent pool to provide design and consulting services for Mahindra's automotive customers in the region. This new facility will initially employ 25 engineers and has been designed to accommodate double that number in the future. The Technical Center is located at 1960 Technology Drive.

#### **Fisher Dynamics Metal Forming**

Fisher Dynamics Metal Forming is a paramount manufacturer of high strength, tight tolerance stampings, complex fine blankings and precision broachings. Fisher provides many types of safety-critical precision metal parts for many applications for customers located in North America, Europe, and Asia. The company has occupied a 77,000 square foot facility at 1625 W. Maple Road. The company will employ approximately 60 people at the 3.43 acre site.

#### FINANCIAL INFORMATION

Management of the City is responsible for establishing and maintaining internal control designed to ensure that the assets of the City are protected from loss, theft, or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control is designed to provide reasonable, but not absolute, assurance that these objectives are met.

The concept of reasonable assurance recognizes that: 1) The cost of a control should not exceed the benefits likely to be derived; and 2) The valuation of costs and benefits requires estimates and judgments by management.

#### **Single Audit**

As a recipient of Federal, State, and local financial assistance, the City is also responsible for ensuring that adequate internal control is in place to ensure and document compliance with applicable laws and regulations related to these programs. This internal control is subject to periodic evaluation by management and the independent auditors of the City.

As a part of the single audit process, tests are made by the auditors to determine the adequacy of the internal control structure, including that portion related to Federal financial assistance programs, as well as to determine that the City has complied with the applicable laws and regulations.

#### **Budgeting Controls**

The object of budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the City Council.

Activities of the General and Special Revenue Funds are included in the annual appropriated budget. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established by function for the General Fund and function level for special revenue funds.

#### **General Government Functions**

Generally accepted accounting standards require that management provide a narrative introduction, overview and analysis to accompany these basic financial statements in the form of the MD&A.

This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City of Troy's MD&A can be found immediately following the report of the independent auditors. Since the MD&A focuses on the government-wide financial statements, the balance of this letter will be directed at the fund or activity level.

The General Fund receives all City of Troy revenues not designated for special uses by statutes or the City Charter and accounts for most of the services provided to residents. Overall General Fund revenues decreased by \$2.3 million or 4.6% from the prior year. Of this decrease, property taxes in the General Fund accounted for \$2.1 million, a decrease of 6.5% compared to the prior fiscal year.

State sources increased by \$0.5 million to a total of \$6.2 million. State shared revenue is the major source of revenue, which is a return to local governments of a portion of state sales tax and is not restricted to use.

Federal revenues decreased by \$0.5 million due to a one-time block grant received in the prior year. This was offset by an increase in licenses and permits of \$0.4 million generated primarily from renovation projects as opposed to new construction.

Total General Fund operating expenditures decreased by \$7.9 million or 14.8%. This reduction was achieved primarily through payroll and related benefit decreases through employee layoffs, wage concessions and early retirement incentive programs.

#### **General Fund Balance**

Fund balance of the General Fund increased by \$6.4 million to a balance of \$33.9 million. Of this amount, \$3.6 million is nonspendable for such items as inventory and prepaid items; \$1.5 million is restricted for budget stabilization, \$1.5 million has been committed to the subsequent years budget and Volunteer Firefighters Incentive Reserve, and \$3.7 million has been assigned for insurance claims and tax appeals. The \$23.6 million remaining unassigned amount represents 51.6% of General Fund expenditures. This amount exceeds our 15% goal and is considered adequate to provide funds for unforeseen future negative events, and any upcoming budget shortfalls.

#### **Special Revenue Funds**

Special Revenue Funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes. The Special Revenue Funds of the City include:

Major Street Fund – Gas and weight tax revenues received in this fund from the State of Michigan are used for repairs, maintenance, snow and ice removal, and construction of all streets classified as "major" within the city.

Local Street Fund – Gas and weight taxes as well as a transfer of funds from the Major Street Fund to finance the repairs, maintenance, snow and ice removal, and construction of all streets classified as "local" within the city.

Refuse Fund - This fund has been established to account for property tax revenues restricted for rubbish and garbage collection and service charges for recycling.

Library Fund - This fund accounts for a special millage designed to fund operations and materials of the local city library.

Community Development Block Grant – This fund accounts for grant revenues from the Department of Housing and Urban Development to be used for residential and other capital improvements. Major activities in this fund include minor home chore program for seniors and infrastructure improvements.

#### **Enterprise Operations**

The City operates five separate enterprise operations: Water Fund, Sanitary Sewer Fund, Aquatic Center Fund, Sylvan Glen and Sanctuary Lake Golf Course Funds.

Water Fund - Operating revenues increased by \$1.8 million compared to the prior fiscal year to \$15.9 million in total. Operating expenses also increased by \$1.5 million compared to the prior fiscal year to \$13.9 million in total. The economy and weather conditions can have a significant effect on our water consumption.

Sanitary Sewer Fund - Generated \$13.2 million in operating revenues as compared to \$11.9 million in the prior year due to an increase in sewage disposal fees. Operating expenses increased proportionally with revenues totaling \$11.8 million, compared to \$10.4 million last fiscal year. These rates are reviewed annually during budget time to ensure proper funding for operations and maintenance and improvements to the system.

Aquatic Center - The operating income of \$9,500 shows improvement compared to an operating loss of \$62,000 last fiscal year. Operating revenues increased \$74,000 compared to prior year due to favorable weather conditions for this activity. Operating expenses remained level at \$568,000.

Sylvan Glen Golf Course Fund - Ended the year with an increase in net position of \$234,000. This amount compares to an increase of \$14,000 last fiscal year.

Sanctuary Lake Golf Course Fund - Ended the year with a decrease in net position of \$379,000 compared to a \$583,000 decrease in net position last fiscal year. Steps continue to reduce the loss, including the contracting of Billy Casper Golf to manage and operate both golf courses.

#### **Internal Service Funds**

Internal Service Funds are used to account for the financing of goods or services provided by one department to other departments of the government, on a cost reimbursement basis.

Compensated Absences Fund – This fund accounts for the charges to other departments based on sick and vacation accruals. The expenses of accumulated sick pay and vacation pay are then recorded in this fund.

Unemployment Compensation Fund – This fund accounts for the charges to other departments and the expenses to provide unemployment compensation insurance.

Custodial Services Fund – This fund charges other departments on a square footage basis to account for the custodial services and maintenance provided to all City-owned buildings.

Information Technology Fund – This fund accounts for charges to other departments based on the number of workstations to cover the expenses for providing computer services, including support, training and replacement.

Motor Equipment Fund – Rental charges of City-owned equipment to other City departments are accounted for in this fund. The fund provides maintenance, insurance and replacement of all City-owned vehicles.

Workers' Compensation Fund – Departments are charged a percentage of payroll based on premiums established by our provider to account for pooled insurance expenses.

#### **Fiduciary Funds**

Fiduciary Funds are established to account for assets held by the governmental unit in a trustee capacity or as an agent for individuals, private organizations, and other governmental units and/or funds.

Pension Trust – Employees' Retirement Fund – This fund is used to account for the accumulation of resources for pension benefit payments to qualified general and public safety employees. The Employees Retirement Fund reported end-of-the-year net position held in trust for pension and health care benefits of \$176.4 million compared to the beginning amount of \$180.9 million. As of December 31, 2011, the fund is 94.8% funded.

Pension Trust – Discretionary Fire Incentive Reserve Fund – This fund is used to account for accumulation of resources for incentive payments to qualified volunteer firefighters.

Retiree Health Care Trust Fund - The Retiree Health Care Trust Fund was established in fiscal year 2006 to account for medical benefits provided to employees during retirement. This fund will accumulate revenue until the reserves are depleted in the employee's retirement fund. This plan and trust is created under the authority of the Public Employee Health Care Fund Investment Act, Public Act 149 of 1999.

Agency Fund – This fund is used to account for taxes collected on behalf of other governmental units and contractors' performance deposits.

#### **Component Units**

Component units, as defined by GASB No. 14, are so classified due to their relationship with the primary government relative to financial accountability of the reporting agency.

Downtown Development Authority Fund – The Authority generates revenue from property value increases within the district compared to the initial taxable value established in 1993. These funds are used for the purpose of providing for the construction and financing of necessary improvements to prevent further deterioration of the development area while preserving and promoting economic growth.

Brownfield Redevelopment Authority – This fund was established in 2002 to account for projects that will improve environmentally distressed areas within the City of Troy.

Local Development Financing Authority – This fund was established to capture tax increment revenues in the Automation Alley Smart Park, to encourage local development, to prevent conditions of unemployment and to promote economic growth. The purpose of the authority is to provide for the construction and financing of public facilities within the City of Troy necessary for the project.

#### **Tax Rate Limitations**

The City Charter provides tax rate limitations for general operations. In addition, the City of Troy may levy taxes in excess of the Charter limitation for refuse collection and debt service.

Purpose	Authority	Rate \$1,000 of Taxable Value
General operating Refuse collection and	City Charter Act 298, P.A. of Michigan 1917 as	\$8.10 \$3.00
Disposal	Act 296, P.A. of Michigan 1917 as  Amended  Article IX, Section 56 of Michigan	φ3.00
Library aparations	Constitution	Φ0 <b>7</b> 0
Library operations Debt Service	Voter approved – 5 years City Charter	\$0.70 Amount necessary for debt payment

#### OTHER INFORMATION

#### **Independent Audit**

The City Charter and State statutes require an annual audit of all accounts of the City by certified public accountants. The accounting firm of Rehmann Robson, was selected by the City Council. The City received an "unqualified opinion" from Rehmann Robson, which is the best opinion that an organization can receive on its financial statements. It indicates that the auditor's examination has disclosed no conditions that cause them to believe that the financial statements are not fairly stated in all material respects.

Additionally, during the current year an audit was performed in accordance with the requirements of the Single Audit Act Amendments of 1996 (P.L. 104456). The auditor's reports related to the single audit are issued as a part of this report.

#### **Awards**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Troy, Michigan for its CAFR for the fiscal year ended June 30, 2011.

This was the fifteenth consecutive year that the City has achieved this prestigious award. In order to be awarded a certificate of achievement, a government must publish an easily readable and efficiently organized CAFR. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A certificate of achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The City has also received the GFOA Award for Outstanding Achievement in Popular Annual Financial Reporting (PAFR).

#### **Acknowledgements**

The timely preparation of the CAFR was made possible by the dedicated service of the entire staff of the Finance Department. Each member of the department has our sincere appreciation for the contributions made in preparation of this report.

#### INDEPENDENT AUDITORS' REPORT

November 27, 2012

To the Honorable Mayor and City Council City of Troy, Michigan

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the *City of Troy, Michigan* (the "City"), as of and for the year ended June 30, 2012, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the management of the City of Troy, Michigan. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to previously present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Troy, Michigan as of June 30, 2012, and the respective changes in financial position and cash flows, where applicable, thereof and the budgetary comparison for the general fund, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 27, 2012, on our consideration of the City of Troy, Michigan's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the Schedules of Funding Progress and Employer Contributions for the pension and other postemployment benefit plans as identified in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, and is also not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory section and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Rehmann Loham

MANAGEMENT'S DISCUSSION AND ANALYSIS

#### Management's Discussion and Analysis

As management of the City of Troy (the "City"), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2012. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found as listed in the table of contents of this report.

#### Financial Highlights

- The City's assets exceeded its liabilities at the close of the most recent fiscal year by \$405.6 million (net position). Of this amount \$96.1 million represents unrestricted net position which are economic (not total cash) resources which may be used to meet the City's ongoing obligations to residents and creditors.
- The City's total net position increased \$10.6 million because of increased revenues while reducing the costs of governmental operations.
- In the City's governmental activities, revenues generated \$72.5 million. This is an increase of approximately \$0.5 million compared to the prior year. Expenses totaled \$65.6 million. This is a reduction of \$5.7 million compared to prior year amounts.
- In the City's business-type activities, revenues generated \$32.8 million. This is an increase of approximately \$3.7 million compared to the prior year. Expenses totaled \$29.1 million. This was an increase of \$3.2 million compared to prior year amounts.
- At the close of the current fiscal year, the City's governmental funds reported combined fund balances of \$52.7 million, an increase of \$5.9 million in comparison with the prior year. Approximately 44% of the amount (\$23.3 million) is available for spending at the City's discretion (unassigned fund balance).
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$23.3 million, or approximately 50.9% of total general fund expenditures.

#### Overview of the Financial Statements

The discussion and analysis provided here are intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements consists of three components. The first component, *Governmental-Wide* financial statements, includes two financial statements, the *Statement of Position* and the *Statement of Activities*, these provide information about the activities of the City of Troy as a whole and present a longer-term view of the City's finances.

The second component, Fund financial statements, includes financial statements of governmental funds, proprietary funds, and fiduciary funds which focus on how City services were financed in the short term, as well as what remains for future spending. Fund financial statements report the City of Troy's operations in more detail than the government-wide financial statements.

The third and final component of the City's basic financial statements include notes that explain and provide more detailed data about some of the information found in the *Government-Wide* and *Fund* financial statements. The basic financial statements are followed by a section of supplementary information that further explains and supports the information in the basic financial statements. Information in the supplementary section include combining statements that provide details about our nonmajor governmental, nonmajor business-type, internal service, and fiduciary funds, each of which are added together and presented in single columns in the basic financial statements.

#### Management's Discussion and Analysis

#### **Government-wide Statements**

The government-wide statements report information about the City of Troy as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the change in the difference between the City's assets and liabilities. This change in net position is an indicator of whether the City's financial health is improving or deteriorating. In order to assess the overall health of the City, you need to consider additional non-financial factors such as changes in the City's property tax base and the condition of the City's roads and other infrastructure.

The government-wide financial statements of the City of Troy are divided into two activities:

Governmental Activities - Most of the City's basic services are included here, such as police, fire, public works, parks and recreation, and general administration. Property taxes, state shared revenue, and charges for services finance most of these activities.

Business-type Activities - The City charges fees to customers to help cover the cost of certain services it provides. The City's business-type activities include water, sanitary sewer, Aquatic Center, and two public golf courses.

The government-wide financial statements include not only the City itself (known as the *primary government*), but also the legally separate entities of the *Downtown Development Authority*, *Local Development Financing Authority* and the *Brownfield Redevelopment Authority* for which the City is financially accountable. Financial information for these component units is reported separately from the financial information presented for the primary government itself.

The government-wide financial statements can be found as listed in the table of contents of this report.

#### **Fund Financial Statements**

The fund financial statements provide more detailed information about the City's most significant funds, not the City as a whole. Funds are accounting devices that the City uses to keep track of specific sources of funding and spending for particular purposes.

The City of Troy has three types of funds:

Governmental Funds - Most of the City's basic services are included in governmental funds, which focus on how cash, and other financial assets that can readily be converted to cash, flow in and out. The funds also show the balances left at year-end that are available for spending.

The governmental fund statements focus on a short-term view rather than the long-term focus of the government-wide statements, so additional information is provided after the governmental fund statements that explain the relationship or differences between the fund and government-wide statements.

*Proprietary Funds* - Proprietary funds are used to report services where the City charges customers a fee for services rendered. Proprietary funds provide both long- and short-term financial information. The two types of proprietary funds are enterprise and internal service funds:

- Enterprise funds and business-type activities are the same, but the fund statements provide more detail and additional information such as cash flows.
- Internal Service funds are used to report activities that provide supplies and service for the City's other programs. Examples of internal service funds would be Motor Equipment and Information Technology.

#### Management's Discussion and Analysis

Fiduciary Funds - The City of Troy is trustee for its employee pension and other postemployment benefits plans. The City is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the City's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. These activities are excluded from the City's government-wide financial statements because the City cannot use these assets to finance operations.

#### Government-wide Overall Financial Analysis

#### Statements of net position

As noted earlier, net position over time, may serve as a useful indicator of a government's financial position. In the case of the City, assets exceeded liabilities by \$405.6 million, at the close of the most recent fiscal year.

The table on the following page shows the comparison of total assets, total liabilities, and total net position (in millions of dollars) in a condensed format as of June 30, 2012 to the prior year.

	Governmental Activities					Business-type Activities				Total			
		2012		2011		2012		2011		2012		2011	
Assets:													
Current and other assets	\$	73.8	\$	68.3	\$	52.5	\$	48.6	\$	126.3	\$	116.9	
Capital assets		200.5		202.4		128.1		127.9		328.6		330.3	
Total assets		274.3		270.7		180.6		176.5		454.9		447.2	
Liabilities:													
Long-term debt outstanding		30.1		32.5		9.9		10.3		40.0		42.8	
Other liabilities		4.3		5.8		5.0		3.5		9.3		9.3	
Total liabilities		34.4		38.3		14.9		13.8		49.3		52.1	
Net position: Net investment in													
capital assets		175.3		174.6		118.2		117.6		293.5		292.2	
Restricted		16.1		19.4		-		-		16.1		19.4	
Unrestricted		48.5		38.4		47.5		45.1		96.0		83.5	
Total net position	\$	239.9	\$	232.4	\$	165.7	\$	162.7	\$	405.6	\$	395.1	

By far, the largest portion of the City's net position (72.4%) reflects its investment in capital assets (e.g., land, buildings, machinery, equipment, vehicles, and infrastructure), less any related outstanding debt that was used to acquire those assets. The City uses these capital assets to provide a variety of services to its residents. Accordingly, these assets are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources used to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City's net position (6.7%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of \$96.0 million is unrestricted and may be used to meet the City's ongoing obligations to its residents and creditors.

At the end of the current fiscal year, the City is able to report positive balances in all reported categories of net position, both for the City as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the prior fiscal year.

#### Management's Discussion and Analysis

The City's overall net position increased \$10.5 million from the prior fiscal year. The reasons for this overall increase are discussed in the following sections for governmental activities and business-type activities.

#### Statements of activities

The following table shows the comparison of the change in net position (in millions of dollars) as of June 30, 2012 to the prior year, in a condensed format:

	Governmen	tal Activities	Business-typ	oe Activities	Total			
	2012	2011	2012	2011	2012	2011

Net position, end of year	\$	239.9	\$	232.4	\$	165.7	\$	162.7	\$	405.6	\$	395.1

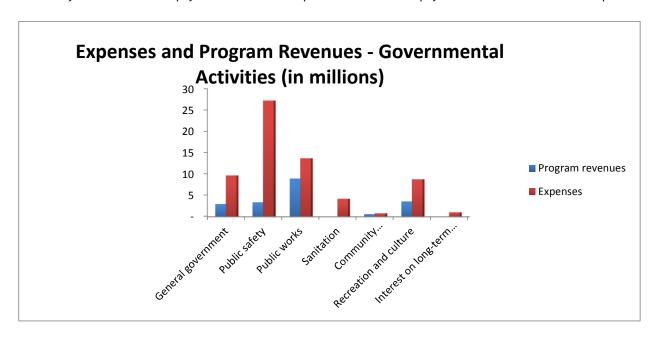

#### **Governmental Activities**

During the current fiscal year, net position for the City's governmental activities increased \$7.5 million from the prior fiscal year.

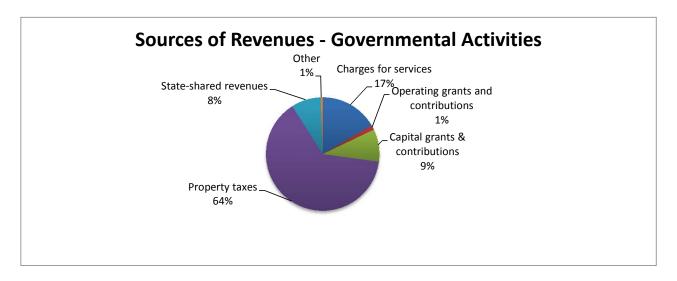

Total governmental revenue is reported at \$72.5 million, an increase of \$0.3 million from the prior year. The increase is primarily attributable to an increase in charges for services and state shared revenues that are slightly offset by reductions in grants and investment earnings.

Total governmental expenses are reported at \$65.6 million, a decrease of \$5.7 million from the prior year. The decrease is primarily attributable to wage and benefit savings recognized from prior early retirement incentives and normal employee turnover in which the limited remaining positions available were not staffed until subsequent to the current fiscal year.

During the year the City continued meeting the actuarial required contributions for the defined benefit pension system and the discretionary fire incentive reserve fund as well as pre-funding retiree healthcare benefits. This is important for the City because future taxpayers should not be required to fund benefit payments that were earned in the past.

#### Management's Discussion and Analysis

#### **Business-type Activities**

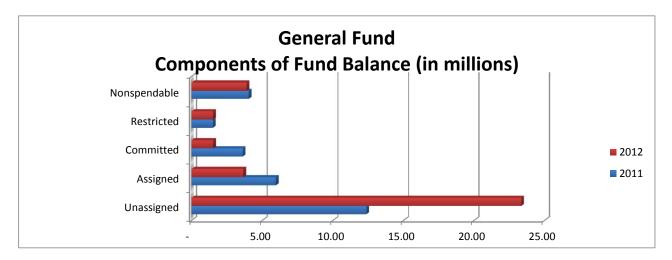

The City of Troy's business-type activities consist of water supply, sanitary sewer, aquatic center, and two municipal golf courses. Water and sanitary sewer services, classified as Major Funds, are provided to City residents through the Detroit water system and Oakland County sewerage treatment plants. Change in net position for business-type activities increased by \$3.1 million. The Water and Sewer Fund increased by \$2.2 million and \$1.0 million respectively. This was primarily due to the increase in demand of approximately 17 mcf's from the prior year or 18%. The City's two golf courses recorded a net decrease in net position of \$0.1 million primarily due to interest costs associated with debt financing.

#### Financial Analysis of Governmental Funds

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the City's net resources available for discretionary use as they represent the portion of fund balance which has not yet been limited to use for a particular purpose by either an external party, the City Council or management.

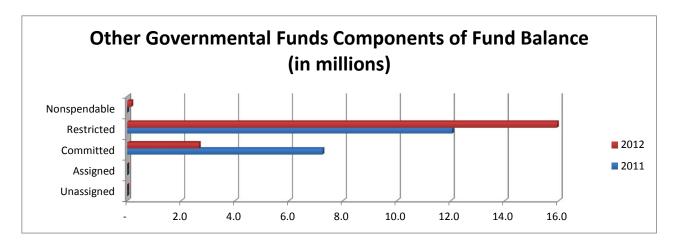

The City's governmental funds reported combined fund balances of \$52.7 million, an increase of \$5.9 million compared to the prior year. Approximately 44% of this amount (\$23.3 million) constitutes *unassigned fund balance*, which is available for spending at the City's discretion. The remainder of the fund balance is either *nonspendable*, *restricted*, *committed*, *or assigned* to indicate that it is 1) not in spendable form, 2) legally required to be maintained intact, 3) restricted for particular purposes, 4) committed for particular purposes, or 5) assigned for particular purposes.

#### Management's Discussion and Analysis

The general fund is the chief operating fund of the City. At the end of the current fiscal year, unassigned fund balance of the general fund was \$23.3 million, while total fund balance increased \$6.4 million to \$33.9 million. As a measure of the general funds liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total general fund expenditures. Unassigned fund balance represents approximately 50.9% of total general fund expenditures, while total general fund balance represents approximately 74.1% of the same amount.

As mentioned, total general fund balance increased by \$6.4 million in the current fiscal year. Total revenues decreased by approximately \$2.3 million primarily due to a reduction in property tax revenues as a result of the continued decline in taxable property values. This was offset by a decrease in expenditures of \$7.9 million primarily due to staff wage and benefit concessions, early retirement incentives, staff reductions and the delay of filling the remaining available open positions.

The capital projects fund, a major fund, had a decrease in fund balance of \$1.2 million during the current year. This resulted in a total fund balance of \$11.4 million at the close of the current fiscal year.

The decrease in fund balance of \$1.2 million is primarily due to the decrease in tax revenues of \$4.8 million as a result of continued declines in taxable values. This was offset by a reduction in capital outlay expenditures for equipment, vehicles and particularly infrastructure of \$3.1 million.

#### Management's Discussion and Analysis

#### Financial Analysis of Proprietary Funds

The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

The unrestricted net position of the water fund was \$20.0 million and sewer fund \$29.4 million at the end of the current fiscal year. The Water and Sewer Fund net positions increased by \$2.2 million and \$1.0 million respectively. This was primarily due to the increase in demand of approximately 17 mcf's from the prior year or 18%.

#### General Fund Budgetary Highlights

Over the course of the year, City Council amended the budget to take into account events during the year. These amendments from the original budget were minimal for both revenues and expenditures.

Overall actual revenues were in line with amended budget amounts showing a slight increase over budget of \$2.0 million or 4.3%. The increase in revenues was due to a one time increase from state shared revenues of \$0.9 million and increased charges for services from CATV franchise fees and engineering fees. Expenditures for the City were \$10.0 million or 17.9% under amended budget amounts due to a conservative spending policy, delays in filling vacant positions, staff reductions, reduction in benefit levels for new hires and 10% wage reductions in the form of furlough days, employee concessions and early retirement incentives for several employee groups.

#### Capital Asset and Debt Administration

At the end of 2012, the City of Troy had \$328.6 million invested in a broad range of capital assets including land, buildings, police and fire equipment, water and sewer lines, roads, sidewalks, and other infrastructure, net of debt. The decrease in capital assets compared to the prior year was attributable to a decrease in acquisition of new infrastructure items such as streets, drains and water/sewer systems under the recognition of depreciation.

The City of Troy's debt rating is excellent. The City maintains a AAA rating on unlimited tax general obligation bonds by Standard and Poor's. The City of Troy's bond indebtedness totaled \$40.0 million at June 30, 2012, a decrease of \$2.9 million from the prior year resulting from debt retirement payments.

Additional information about the City's capital assets and debt administration is presented in the notes to financial statements.

#### **Current Economic Events**

The following economic factors currently affect the City and were considered in developing the 2012/2013 three year fiscal budget.

- The millage rate for the 2012/2013 fiscal year increase by 0.29 mils due to funding requirements for debt service and sanitation services. The increase in mils assists to offset the decrease in taxable values.
- General operating and capital improvement millage rates remained unchanged at 6.50 and 1.53 mils respectively.
- General fund property tax revenues are expected to decrease \$0.3 million from current year amounts due to the decrease in taxable values.
- General fund expenditures are budgeted to decrease by \$4.7 million (6.38%) from the current year budget due to reductions in staffing levels, employee wage concessions and delays in staff replacements.

#### Management's Discussion and Analysis

- The City purchases its water and sewer services from the City of Detroit. Historically, we have passed along the full water and sewer rate increase or decrease to our customers. The City's rate structure enables us to provide water and sewer service to our citizens as well as pay for operations, maintenance and improvements to the system.
- The City still prides itself on having one of the lowest combined water and sewer rates of any southeastern Michigan community.

#### Contacting the City of Troy's Management

This financial report is intended to provide our citizens, taxpayers, customers and investors with a general overview of the City of Troy's financial condition.

If you have questions about this report or need additional information, we welcome you to contact the administrative offices at City Hall, 500 W. Big Beaver, Troy, MI. 48084. Additional information can be obtained at the City of Troy's web site, www.troymi.gov.

#### Reconciliation

Fund Balances for Governmental Funds to Net Position of Governmental Activities June 30, 2012

Fund balances - total governmental funds

52,670,310

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.

Add: capital assets not being depreciated	51,381,761
Add: capital assets being depreciated	357,807,356
Deduct: accumulated depreciation	(211,198,726)

Contributions to Trust Funds in excess of actuarially required amounts create an asset that can be applied to future required contributions in the statement of net position but are not financial resources and therefore are not reported in the funds.

Add: other postemployment benefits asset 762,129

Because the focus of governmental funds is on short-term financing, some assets will not be available to pay for current-period expenditures. Those assets (such as certain receivables) are offset by deferred inflows in the governmental funds, and thus are not included in fund balance.

Add: deferred inflows 195,731

Internal service funds are used by management to charge the costs of certain equipment usage, public service department and retiree health care costs to individual governmental funds. A portion of the assets and liabilities of the internal service funds are included in governmental activities in the statement of net position.

Add: net position of governmental activities accounted for in the internal service funds.	14,913,718
Add: due from business-type activities for internal service fund activities	89,132

Certain liabilities, such as bonds payable, are not due and payable in the current period and therefore are not reported in the funds.

Deduct: accrued interest payable	(234,817)
Deduct: bonds payable	(25,247,312)
Deduct: claims incurred but not reported	(1,223,902)

Net position of governmental activities \$ 239,915,380

Fund balances, beginning of year	27,465,155	12,542,798	6,750,451	46,758,404
Fund balances, end of year	\$ 33,911,184	\$ 11,360,951	\$ 7,398,175	\$ 52,670,310

#### Reconciliation

Net Changes in Fund Balances of Governmental Funds to Change in Net Position of Governmental Activities For the Year Ended June 30, 2012

Net change in fund balances - total governmental funds

\$ 5,911,906

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Add: capital outlay

Add: capital outlay 11,130,331

Deduct: depreciation expense (12,450,789)

Deduct: book basis of capital assets sold (208)

Pension contributions in excess of actuarially determined amounts are reported as expenditures. However, these expenditures are not recognized until they are actuarially required in the statement of activities.

Add: net difference in other postemployment benefits asset

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds, but rather are deferred inflows to the following fiscal year.

Deduct: net difference in deferred inflows (154,296)

Bond proceeds provide current financial resources to governmental funds in the period issued, but issuing bonds increases long-term liabilities in the statement of net position. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.

Add: principal payments on long-term liabilities

2,536,167

480,942

Internal service funds are used by management to charge the costs of certain equipment, public service department and employee insurance costs to individual governmental funds. The net revenue attributable to those funds are reported with governmental activities.

Add: net gain from governmental activities in the internal service funds

340,365

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the funds.

Add: decrease in accrued interest expense 18,289

Deduct: increase in accrued claims payable (276,527)

Change in net position of governmental activities \$ 7,536,180

NOTES TO FINANCIAL STATEMENTS

#### **Notes to Financial Statements**

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Troy, Michigan have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The following is a summary of the significant accounting policies:

#### Description of government-wide financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the City and its component units. All fiduciary activities are reported only in the fund financial statements. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

#### Reporting Entity

The City of Troy, Michigan was incorporated in 1955, and was formerly known as Troy Township since it was organized in 1821. The City is governed by an elected mayor and six-member council.

As required by generally accepted accounting principles, these financial statements present the City of Troy and its component units, entities for which the government is considered to be financially accountable.

#### **Component Units**

Blended Component Units. Although legally separate entities, are in substance, part of the governments operations and so data from these units are combined with data of the primary government. The Troy Municipal Building Authority is included within the reporting entity as a blended component unit. The governing body of this authority is appointed by City Council. It's budget and any bond issuance authorizations also are approved by the City Council and the legal liability for any general obligation debt remains with the City. There have been no assets, liabilities, equity (beginning or ending) or financial transactions during the year ended June 30th. Accordingly, this blended component unit is not represented for financial reporting purposes.

Discretely presented component units. Are also legally separate entities, but are not in substance part of the government operation. The City of Troy has three component units, the Downtown Development Authority, Brownfield Redevelopment Authority and the Local Development Financing Authority, which meet the criteria for discretely presented component units. The Authorities are also reported in a separate column in the government-wide financial statements to emphasize that they are legally separate from the City. Financial statements for each of the individual component units are included in the supplemental information section as listed in the table of contents of this report. Separately issued audited financial statements are not available.

The purpose of the Downtown Development Authority is to issue bonds and use tax increment financing in the accomplishment of specific Downtown Development improvements to City-owned facilities and infrastructure, which are contained in the locally adopted development plan. The Downtown Development Authority may participate in projects for private development as long as it is for a public purpose. The Authority's governing body, which consists of thirteen individuals, is selected by the City Council. In addition, the City Council sets the annual budget.

#### **Notes to Financial Statements**

The purpose of the Brownfield Redevelopment Authority is to provide assistance for the redevelopment of abandoned, idled, or under-utilized industrial or commercial properties, which are complicated by real or perceived environmental contamination. The Authority's governing body, which consists of seven individuals, is selected by the City Council. In addition, the City Council sets the annual budget for the Authority.

The Local Development Financing Authority is a multi-jurisdictional authority that was established to encourage local development in order to prevent conditions of unemployment and to promote economic growth. The Authority's governing body, which consists of five individuals, is selected by the City Council. In addition, the City Council sets the annual budget.

#### Basis of Presentation - Government-Wide Financial Statements

The statement of net position and the statement of activities are prepared using the *economic resources* measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets, and liabilities resulting from non-exchange transactions are recognized in accordance with the Governmental Accounting Standards Board Statement No. 33.

The statement of net position and the statement of activities display information about the City as a whole. The statements include all funds of the primary government and its component units, except for its fiduciary funds. Those funds are reported in the statements of fiduciary net position and changes in fiduciary net position.

The statement of net position and the statement of activities are presented to distinguish between governmental and business-type activities of the City. Governmental activities are financed through taxes, intergovernmental revenues and other non-exchange revenues. These activities are reported in governmental and internal service funds. Business-type activities are financed by fees charged to external parties for goods or services. These activities are reported in the City's enterprise funds.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Capital assets are reported in the government-wide statements at historical cost. Capital assets include land, improvements to land, buildings, building improvements, vehicles, machinery, equipment, library collection, infrastructure and all other tangible or intangible assets that are used in operations and have initial useful lives beyond a single reporting period. Infrastructure assets are long-lived capital assets that normally can be preserved for a significantly greater number of years than most capital assets.

Capital assets that are being depreciated are reported net of accumulated depreciation in the statement of net position. Capital assets not being depreciated, such as land and construction in progress, are reported separately.

#### **Notes to Financial Statements**

Capital assets are depreciated over their estimated useful lives. Depreciation expense is reported in the statement of activities by allocating the net cost over the estimated useful life of the asset. Assets are depreciated on an individual basis for equipment and buildings. Roads are depreciated as a class with each class containing items based on their date of construction or reconstruction. Sidewalks are depreciated by class with each class containing items based on the year of construction.

#### **Basis of Presentation - Fund Accounting**

The accounts of the City are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures, or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the government's water and sewer function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

#### **Governmental Funds**

The City reports the following major and nonmajor governmental funds:

#### Major Governmental Funds

*General Fund.* The general fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

Capital Project Fund. The capital projects fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds).

#### Nonmajor Governmental Funds

Special Revenue Funds. Special revenue funds are used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditures for specified purposes.

*Debt Service Funds.* Debt Service Funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

*Permanent Funds.* Permanent funds are used to account for the resources that are legally restricted to the extent that only earnings, and not principal, may be used for the benefit of the government or its citizenry. The City has one permanent fund for cemetery perpetual care.

#### **Notes to Financial Statements**

#### **Proprietary Funds**

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water and sewer funds, Aquatic Center, golf course funds and the City's internal service funds are charges to customers for sales and services. Operating expenses for the enterprise funds and internal service funds include the cost of sales and service, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. Proprietary funds focus on limitations on the use of net position, rather than on the source of those assets.

The following proprietary funds are reported:

#### Enterprise Funds

Enterprise Funds are used to account for City operations which are similar to those often found in the private sector, where the determination of net income is necessary or useful to sound financial administration.

The City reports the following major enterprise funds:

Water Fund. The water fund accounts for the operation and maintenance of the City's water supply system, capital additions and improvements.

Sanitary Sewer Fund. The sanitary sewer fund accounts for the operation and maintenance of the City's sewage disposal system, capital additions and improvements.

Sanctuary Lake Golf Course. The Sanctuary Lake golf course fund accounts for the operations of the new 18-hole links style course with practice facility.

#### Internal Service Funds

Internal Service Funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the City or other governments, on a cost-reimbursement basis.

The City operates six internal service funds. The unemployment and workers' compensation funds account for insurance costs provided to and charged to other departments. The compensated absences fund accounts for the accrual of sick and vacation by all departments. The information technology fund provides computer services, training and equipment to all departments on a cost reimbursement basis. The motor equipment fund rents vehicles and equipment to departments on a cost reimbursement basis. The custodial services fund provides services to all funds on a cost reimbursement basis.

#### **Notes to Financial Statements**

#### Fiduciary Funds

Pension and Other Postemployment Benefits Trust Funds

Pension Funds are used to account for assets held by the City in a trustee capacity for the benefit of retirees and their beneficiaries. These include the employees' retirement system trust fund, the retiree health care trust fund and the discretionary fire incentive reserve fund. These funds are accounted for in essentially the same manner as proprietary funds, since capital maintenance is critical. They accumulate resources for benefits to qualified employees and volunteers during retirement.

#### Trust and Agency Fund

The trust and agency fund is custodial in nature (assets equal liabilities) and does not involve measurement of results from operations. Fund activity includes tax collections for other taxing jurisdictions for which the City collets taxes and contractors performance deposits.

#### Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources* measurement focus and the *full accrual* basis of accounting. Revenues are recorded when earned and expenses are recorded when al liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

All governmental fund financial statements are reported using the *current financial resources* measurement focus and the *modified accrual* basis of accounting. Their revenues are recognized when they become measurable and available.

Revenues are generally considered available when they are received in cash (unless legally restricted to some future period) or when earned and expected to be collected soon enough after year end to pay liabilities of the current period. For this purpose, the City generally considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. The exception to this is state shared revenues and expenditure driven grants in which revenues are recognized if received within 90 days and one year of the end of the fiscal period, respectively. Significant revenues susceptible to accrual include reimbursement grants, state shared revenues and charges for services.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred provided the liability normally would be liquidated with expendable available financial resources. The major exception to this general rule is principal and interest on general long-term debt which is recognized when due.

Certain indirect expenditures are included in the program expense reported for individual functions and activities.

#### **Notes to Financial Statements**

All governmental funds are accounted for on a spending or "current financial resources" measurement focus. This means that generally only current assets and current liabilities are included on their balance sheets. Their reported fund balance (net current assets) is considered a measure of "available spendable resources". Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financial uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during a period.

All proprietary funds, pension and retiree health care trust funds and the trust and agency fund are accounted for using the *full accrual* basis of accounting. Their revenues are recognized when they are earned, and their expenses are recognized when they are incurred. Unbilled water and sewer fund utility service receivables are recorded at year-end.

All proprietary funds, pension and retiree health care trust funds are accounted for on a cost of services or "economic resources" measurement focus. This means that all assets and all liabilities (whether current or noncurrent) associated with their activity are included on their statements of net position. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in total net position.

#### **Budgetary Information**

The City is legally subject to the budgetary control requirements of the State of Michigan P.A. 621 of 1978 (the Uniform Budgeting Act). The following is a summary of the requirements of this Act according to the State Treasurer's "Bulletin for Audits of Local Units of Government in Michigan" dated April 1984:

- 1. Budgets must be adopted for the general fund and special revenue funds.
- 2. The budgets must be balanced.
- 3. The budgets must be amended when necessary.
- 4. Public hearings must be held before budget adoptions.
- 5. Expenditures cannot exceed budget appropriations.
- 6. Expenditures must be authorized by a budget before being incurred.

The City adopts its budget by function, which is in accordance with the State's legal requirement and is the level of classification detail at which expenditures may not legally exceed appropriations.

The City follows these procedures in establishing the budgetary data reflected in the financial statements.

- 1. On or before the third Monday in April, the City Manager submits to the City Council a proposed budget for the fiscal year commencing the following July 1<sup>st</sup>. The operating budget includes proposed expenditures and the means of financing them.
- 2. A public hearing on the budget is held before its final adoption.
- 3. As provided for by the City Charter, on or before the third Monday in May, the budget is legally adopted and by resolution designates the sum to be raised by taxation.
- 4. The City Manager is authorized to transfer budgeted amounts within budgetary functions; however, any revisions that alter the total expenditure of any budgetary function must be approved by the City Council.

#### **Notes to Financial Statements**

Budget amounts of the revenues and expenditures presented for the governmental funds are a summarization of the budgeted amounts as originally adopted or as amended by the City Council. Individual amendments were not material in relation to the original appropriations that were adopted, for the general and special revenue funds. Budget appropriations lapse at year end. During the current year, the budget was amended in a legally permissible manner. Budgets have been prepared on a basis consistent with generally accepted accounting principles (GAAP).

#### Assets, liabilities, deferred outflows/inflows of resources, and net position/fund balances

#### Cash and Investments

The City maintains an investment pool for all City funds. Each fund's portion of the investment pool along with any individual fund investments are displayed on the statements of net position or balance sheet as "cash and investments".

Cash and cash equivalents include cash on hand, demand deposits, and short-term investments with a maturity date of three months or less at the date acquired by the City.

Investments are stated at fair value. For fair value, securities traded on a national exchange are valued at the last reported sales price.

The investment policy adopted by the Troy City Council, in accordance with Public Act 201 of 1943, as amended, authorizes investments in all of the investment vehicles noted above with the provision that authorized depositories shall be designated by the Troy City Council.

The pension and retiree health care trust funds are authorized by Michigan Public Acts 314 of 1965, Public Act 485 of 1996 and Public Act 149 of 1999 to invest in certain reverse repurchase agreements, real estate leased to public agencies, stocks, diversified investment companies, annuity investment contracts, mortgages, certain state and local government obligations, and certain other specified investment vehicles.

#### Inventories and Prepaid Items

Inventory is stated at cost determined on a first-in, first-out basis which approximates market value. Inventories in the governmental funds are recorded as expenditures when the inventory item is consumed. Inventories are equally offset by a nonspendable fund balance designation which indicates that such amounts do not constitute "available spendable resources".

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than purchased.

#### Capital Assets

Capital assets, which include property, buildings, equipment and infrastructure assets (e.g., roads, bridges, sidewalks and similar items), are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation and infrastructure acquired prior to fiscal year ended June 30, 1980 is not reported in capital assets.

#### **Notes to Financial Statements**

Capital assets are depreciated using the straight-line method over the following useful lives:

Assets Classification	Estimated Useful Life
Buildings Water and sewer transmission and	50 years
distribution system	50 years
Service connections	20 years
Infrastructure	20 - 25 years
Land improvements	10 years
Building improvements	20 years
Golf course equipment	3 - 10 years
Furniture and fixtures	3 - 10 years
Vehicles and miscellaneous	2 - 20 years
equipment	

#### Accrued Vacation and Other Compensated Absences

The City maintains an internal service fund to account for the accumulation of resources for, and the payment of, vacation, compensatory time, holiday and sick pay. These amounts along with the associated benefit costs are fully accrued in the compensated absences fund. Departments are charged by the internal service fund when the benefits are earned and a liability incurred.

#### Long-Term Obligations

In the government-wide financial statements and the proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund-type statement of net position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of material bond premium or discount. Material bond issuance costs are reported as deferred outflows and amortized over the term of the related debt.

#### Deferred Outflows/Inflows of Resources

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts and issuance costs are reported as debt service expenditures.

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expenditure/expense) until then.

#### **Notes to Financial Statements**

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The City has only one type of item, which arises only under a modified accrual basis of accounting, that qualifies for reporting in this category. Accordingly, the item, *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from only one source: delinquent personal property taxes. This amount is deferred and recognized as an inflow of resources in the period that the amount becomes available.

#### Net Position Flow Assumption

Sometimes the City will fund outlays for a particular purpose from both restricted and unrestricted resources. In order to calculate the amounts to report as *restricted - net position* and *unrestricted - net position* in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider *restricted - net position* to have been depleted <u>before</u> *unrestricted - net position* is applied.

#### Fund Balance Flow Assumption

Sometimes the City will fund outlays for particular purpose from both restricted and unrestricted resources (i.e. committed, assigned and unassigned). In order to calculate the amounts to report as restricted, committed, assigned and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

#### Fund Balance Policies

Governmental funds report nonspendable fund balance for amounts that cannot be spent because they are either (a) not in spendable form (i.e. inventory or prepaid expenditures) or (b) legally or contractually required to be maintained intact (i.e. corpus of permanent funds). Restricted fund balance is reported when externally imposed constraints are placed on the use of resources by grantors, contributors, or laws or regulations of other governments. Committed fund balance is reported for amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority, the City Council. A formal resolution of the City Council is required to establish, modify, or rescind a fund balance commitment. The City reports assigned fund balance for amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed. The City Manager is authorized to assign fund balance as authorized under the current financial policies. Unassigned fund balance is the residual classification for the general fund.

The City has established a policy to maintain a minimum unassigned fund balance for the General Fund at a level of 15% of annual expenditures. This is to provide sufficient cash flow for City operations and minimize the potential for short term tax anticipation borrowing. The City has not currently established a policy to reinstate unassigned fund balance should the amount fall below target levels.

#### **Notes to Financial Statements**

#### 2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

#### **State Construction Code Act**

The City oversees building construction, in accordance with the State Construction Code Act, including inspection of building construction and renovation to ensure compliance with the building codes. The City charges fees for these services. The law requires that collection of these fees be used only for construction code costs, including an allocation of estimated overhead costs.

A summary of the current year activity and the cumulative shortfall generated since July 1, 2001 is as follows:

Shortfall at July 1, 2011		\$ (6,707,216)
Current year building permit revenue	\$ 1,707,554	
Related expenses:		
Direct costs	1,331,547	
Estimated indirect costs	106,524	
Total construction code expenses	1,438,071	
Net surplus for the year ended June 30, 2012		269,483
Cumulative shortfall at June 30, 2012		\$ (6,437,733)

#### **Expenditures in Excess of Appropriations**

For the year ended June 30, 2012, expenditures exceeded appropriations in the building inspection and historic village functions (the legal level of budgetary control) by \$131,913 and \$1,950 respectively. Although the building inspection overspending is a direct result of contractor fees generated by the increase in permit revenues received by the city, it is nevertheless considered a budgetary violation.

#### 3. DEPOSITS AND INVESTMENTS

#### Statutory Authority

State statutes authorize the City to make limited investments of non-pension surplus funds authorized by Michigan Public Act 20 of 1943, as amended), and may invest in the following:

- a. Bonds, securities, other obligations and repurchase agreements of the United States, or an agency or instrumentality of the United States.
- b. Certificates of deposit, savings accounts, deposit accounts or depository receipts of a qualified financial institution.
- c. Commercial paper rated at the time of purchase within the two highest classifications established by not less than two standard rating services and that matures not more than 270 days after the date of purchase. Not more than fifty percent of any fund may be invested in commercial paper at any time.
- d. Bankers acceptances of United States banks.
- e. Obligations of the State of Michigan or any of its political subdivisions that, at the time of purchase are rated as investment grade by at least one standard rating service.

#### **Notes to Financial Statements**

- f. Mutual funds registered under the Investment Company Act of 1940 with the authority to purchase only investment vehicles that are legal for direct investment by a public corporation.
- g. External investment pools as authorized by Public Act 20, as amended.

The investment policy adopted by the Troy City Council, is in accordance with Public Act 20 of 1943, as amended. The provisions of the act and the City's investment policy include a statement of purpose, scope, objectives, delegation of authority to make investments, safekeeping and custody, prudence, and authorizes investments in all of the above investment vehicles with the following provision: Authorized Depositories shall be designated by the Troy City Council.

The pension and retiree health care trust funds are also authorized by Public Acts 314 of 1965, as amended, Public Act 485 of 1996 and Public Act 149 of 1999 to invest in stocks, annuity investment contracts, mutual funds, commercial paper, corporate bonds, instrumentalities of the United States, real estate (limited to five percent of the trust funds assets), certain state and local government obligations, and certain other specified investment vehicles.

#### Summary of Deposit and Investment Balances

The following is a reconciliation of deposit and investment balances segregated by cash and cash equivalents and investments as of June 30, 2012.

Cash and Investments	Deposits	Investments	Cash on Hand	Total
Government-wide			-	_
Cash and equivalents	\$ 67,099,751	\$ 3,211,112	\$ 15,000	\$ 70,325,863
Investments	3,702,621	34,120,090		37,822,711
Fiduciary funds				
Cash and equivalents	24,522,259	-		24,522,259
Investments	-	186,830,513		186,830,513
Component units				
Cash and equivalents	7,124,649			7,124,649
Total	\$102,449,280	\$224,161,715	\$ 15,000	\$326,625,995

#### **Deposit and Investment Risk**

#### **Deposits**

Custodial Credit Risk - Deposits. Custodial credit risk is the risk that in the event of a bank failure, the City of Troy deposits may not be returned. State law does not require and the City's investment policy does not directly address a deposit policy for custodial credit risk. At year end, \$59,512,217 of the City of Troy's bank deposits (certificates of deposit, checking, and cash) of \$104,503,471 was exposed to custodial credit risk because they were uninsured and uncollateralized. The City believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all deposits. As a result, the City evaluates each financial institution with which it deposits funds and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

#### **Notes to Financial Statements**

#### Investments

Interest Rate Risk. Interest rate risk is the risk that the value of fixed income investments will decrease as a result of a rise in interest rates. State law limits the allowable investments and the maturities of some of the allowable investments. The City of Troy's investment policy does not have specific limits in excess of state law on investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

At year end, the average maturities of fixed income security investments are as follows:

Investment	Fair Value	Average Maturity
Government-wide		
US Government or agency bond/note	\$ 26,221,176	Over 10 years
Municipal bonds	9,417,286	Over 10 years
Fiduciary funds		
US Government or agency bond/note	14,243,176	Over 10 years
Municipal bonds	1,728,189	9.2 years
Corporate bonds	9,325,864	Over 10 years

Credit Risk. State law limits investments to specific government securities, certificates of deposits and bank accounts with qualified financial institutions, commercial paper with specific maximum maturities and ratings when purchased, bankers acceptances of specific financial institutions, qualified mutual funds and qualified external investment pools. The City of Troy investment policy does not have specific limits in excess of state law on investment credit risk. As of year-end, the credit quality ratings of fixed income securities are as follows:

	G	Primary Government		Fiduciary Funds		Total
AAA	\$	126,330	\$	1,670,324	\$	1,796,654
AA to AA- A to A-		28,162,348 7,349,784		14,128,760 5,590,026		42,291,108 12,939,810
BBB to BBB- BB to BB-		-		2,050,714 385,700		2,050,714 385,700
B to B- CCC or below		-		990,815 480,890		990,815 480,890
Total	\$	35,638,462	\$	25,297,229	\$	60,935,691

Custodial Credit Risk - Investments. For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the City of Troy will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. State law does not require and the City of Troy does not have a policy for investment custodial credit risk. At year end none of the City's investments were subject to custodial credit risk due to one of the following:

- Investments were part of an insured pool
- Investments were book-entry only in the name of the City and were fully insured
- Investments were part of a mutual fund
- Investments were held by an agent in the City's name

#### **Notes to Financial Statements**

Concentration of Credit Risk. In compliance with State law, the City's investment policy limits investments to the top two ratings issued by nationally recognized statistical rating organizations. Through its investment policy, the City places a five percent limit on the amount the City may invest in any one issuer.

#### 4. RECEIVABLES

Receivables, which include amounts due from other governments at June 30, 2012, are summarized as follows:

Primary Government		
Governmental Activities		
Delinquent personal property taxes (net)	\$	195,731
Billed accounts receivable		769,963
Special assessments		212,989
Due from Oakland County		280,564
Due from State of Michigan		3,249,378
Due from U.S. Government		415,505
Other receivables		290,563
Total governmental activities		5,414,693
Business-type Activities		
Billed accounts receivable		2,423,083
Unbilled accounts receivable		7,496,773
Contracts receivable		549,651
Other receivables	_	32,322
Total business-type activities		10,501,829
Total primary government	\$	15,916,522
Component Units		
Downtown Development Authority		
Delinquent personal property taxes (net)	\$	52,440

### **Notes to Financial Statements**

### 5. CAPITAL ASSETS

Depreciation expense was charged to functions/programs of the primary government as follows:

Depreciation of governmental activities by function	
General government	\$ 3,912,786
Public safety	653,702
Public works	7,919,043
Community and economic development	32,292
Recreation and culture	 812,715
Total depreciation expense - governmental activities	\$ 13,330,538

#### **Notes to Financial Statements**

Depreciation of business-type activities by function	
Water	\$ 2,128,153
Sanitary Sewer	1,241,037
Aquatic Center	167,213
Sylvan Glen Golf Course	146,997
Sanctuary Lake Golf Course	298,695
Total depreciation expense - business-type activities	\$ 3,982,095

#### 6. INTERFUND ADVANCES AND TRANSFERS

The amounts of interfund advances transfers are as follows as of June 30, 2012:

	Advanced to Other Funds	Advanced from Other Funds
General Fund Enterprise Funds	\$ 3,174,584	\$ -
Aquatic Center Fund	-	180,302
Sanctuary Lake Golf Course Fund	-	5,172,512
Sylvan Glen Course Fund	2,178,230	
Total	\$ 5,352,814	\$ 5,352,814

Advances represent cash flow assistance from mainly the general fund and sylvan glenn golf course to meet operating and/or debt service requirements of the sanctuary lake golf course and aquatic center. The aquatic center is expected to continue to decrease the interfund advance, however, the advance to sanctuary lake golf course is not expected to be reduced in the subsequent year.

Interfund transfers reported in the fund statements are as follows as of June 30, 2012:

	Transfers In									
Transfers Out	General Fund		eneral Fund Capital Projects Fund		Nonmajor Governmental		Internal Service Funds		Totals	
Capital projects fund Nonmajor governmental	\$ 356	,000	\$	-	\$	-	\$	11,615	\$	367,615
funds	2,756	,806	•	1,817,911		3,276,068		-		7,850,785
Sewer Fund	596	,316						-		596,316
Total	\$ 3,709	,122	\$ 1	,817,911	\$ 3	3,276,068	\$	11,615	\$	8,814,716

### **Notes to Financial Statements**

#### Nonmajor Governmental Funds

Major streets fund transfers to the general fund are for routine road maintenance in the amount of \$1,857,806. Major streets fund transfers to the capital projects fund of \$1,350,000 represents funding of road improvements. Major streets fund transfer to the local streets fund of \$224,080 represents allowable redirection of state funding. Local streets fund transfer to the general fund are for routine road maintenance in the amount of \$930,101. Library fund transfers to the capital projects fund of \$467,911 represent book and other capital purchases. General debt service fund transfers to Proposal A, B, and C debt service funds in the amount of \$3,051,988 are for principal and interest payments on outstanding debt.

#### Capital Projects Fund

Transfers to general fund represent reimbursement for special assessment expenditures. Transfers to internal service funds represent reimbursements for capital expenses incurred for information technology.

#### Sewer Fund

Transfers to the general fund represent reimbursements for storm sewer operating expenditures.

#### 7. OPERATING LEASES

The City leases copy machines and telephones which are being treated as operating leases. The leases have various terms of three to four years and the future minimum lease payments remaining on these leases are as follows:

Year Ended June 30,	P	mount
2013	\$	42,732
2014		37,923
2015		31,581

Lease costs for the year ended June 30, 2012, were \$47,228.

# **Notes to Financial Statements**

## 8. LONG-TERM LIABILITIES

#### **Primary Government**

The following is a summary of long-term liability transactions of the City for the year ended June 30, 2012:

	Beginning Balance	Additions	Deductions	Ending Balance	Due Within One Year
Primary Government					
Governmental Activities					
General obligation bonds					
Proposal A - streets	\$ 7,405,000	\$ -	\$ (555,000)	\$ 6,850,000	\$ 625,000
Proposal B - public safety	10,945,000	-	(1,060,000)	9,885,000	1,035,000
Proposal C - community ctr.	5,895,000	-	(520,000)	5,375,000	535,000
County contract bonds					
Public drains	2,863,479	-	(201,167)	2,662,312	206,776
MTF Street bonds	675,000	-	(200,000)	475,000	225,000
Total debt obligations	27,783,479	-	(2,536,167)	25,247,312	2,626,776
Accrued compensated absences	3,839,315	3,456,390	(3,639,084)	3,656,621	1,936,556
Estimated self-insurance claims	947,375	4,092,611	(3,816,084)	1,223,902	595,486
Total governmental activities	\$ 32,570,169	\$ 7,549,001	\$ (9,991,335)	\$ 30,127,835	\$ 5,158,818
Business-type Activities					
General obligation bonds					
Golf course series 2002	\$ 10,300,000	\$ -	\$ (400,000)	\$ 9,900,000	\$ 400,000

Compensated absences are liquidated through the Internal Service Fund and incurred but not reported insurance claims are generally liquidated through the General Fund.

# **Notes to Financial Statements**

Debt issues outstanding are as follows:

				Amount
	Maturity Date	Original Issue	Interest Rate	Outstanding
Primary Government				
Governmental Activities

2018		2,649,269		427,666		500,000		364,248		3,941,183
2019		2,834,959		315,284		600,000		339,123		4,089,366
2020		2,876,159		192,185		600,000		310,999		3,979,343
2021		3,010,977		74,254		600,000		282,124		3,967,355
2022		201,424		15,665		600,000		252,500		1,069,589
2023		164,082		10,127		700,000		220,000		1,094,209
2024		166,837		5,752		700,000		185,000		1,057,589
2025		16,111		1,320		800,000		147,500		964,931
2026		16,477		960		800,000		107,500		924,937
2027		14,551		590		850,000		66,250		931,391
2028		14,531		250		900,000		22,500		937,281
2029		9,727		-		-		-		9,727
Total	\$	25,247,312	\$	4,751,378	\$	9,900,000	\$	4,444,582	\$	44,343,272

It is the intent of the City that all payments relating to primary government obligations will be made from revenues generated from operations of the respective funds. The City has pledged its full faith and credit for the debt if revenues are insufficient to meet the obligations of all general obligation bonds.

### **Component Units**

The following is a summary of long-term liability transactions of the City's component units for the year ended June 30, 2012:

Component Units  Downtown Development Auth.	Beginning Balance	Additions		tions		Additions Deductions		Deductions		iding Balance	Due Within One Year	
General obligation bonds						_		_		_		
Big Beaver - Series 2001	\$ 7,825,000	\$		-	\$	(805,000)	\$	7,020,000	\$	850,000		
2001 Refunding	5,405,000			-		(560,000)		4,845,000		590,000		
Community Ctr-2002	5,725,000			-		(600,000)		5,125,000		625,000		
Community Ctr (Jr.)-2003	3,075,000			-		(250,000)		2,825,000		300,000		
Total component units	\$ 22,030,000	\$		-	\$	(2,215,000)	\$	19,815,000	\$	2,365,000		

General obligation bonds are backed by the full faith and credit of the component unit and not the primary government.

### **Notes to Financial Statements**

Component unit debt issues outstanding are as follows:

Component Units				Amount
Downtown Development Authority	Maturity Date	Original Issue	Interest Rate	Outstanding
General obligation bonds				
Big Beaver series 2001	2019	\$ 14,255,000	4.0-5.5%	\$ 7,020,000
2001 Refunding series 1995	2019	9,745,000	4.0-5.5%	4,845,000
Community center series 2002	2019	9,700,000	2.05-5.0%	5,125,000
Community center (jr. lein) series 2003	2019	4,025,000	2.5-4.25%	2,825,000
Total component units		\$ 37,725,000		\$ 19,815,000

The annual debt requirements to maturity for all component unit long-term debts outstanding as of June 30, 2012 are as follows:

Component Units  Downtown Development Authority							
Year Ending							
June 30,		Principal		Interest		Total	
2013	\$	2,365,000	\$	888,601	\$	3,253,601	
2014		2,490,000		772,869		3,262,869	
2015		2,650,000		648,951		3,298,951	
2016		2,815,000		515,813		3,330,813	
2017		3,005,000		376,638		3,381,638	
2018		3,175,000		231,600		3,406,600	
2019		3,315,000		78,450		3,393,450	
	\$	19,815,000	\$	3,512,922	\$	23,327,922	

#### **Special Assessment Bonds**

In the event that special assessment collections are insufficient to meet debt service costs of such issues, the City has pledged its full faith and credit as additional security for payment of related principal and interest.

#### Advance Refunding/Defeased Debt

The City has had no advance refundings during the fiscal year. Prior years advance refundings have exercised the callable components of the respective original issuance. Accordingly, there are no amounts defeased at the end of the fiscal year.

### **Notes to Financial Statements**

#### 9. NET POSITION/FUND BALANCE CLASSIFICATIONS

#### **Net Position**

Net position has been restricted for (a) debt service, based upon bond indenture agreements and the City's understanding that bond proceeds generated by these funds are only to be spent on specified construction or the retirement of related debt, (b) replacements and extensions based upon bond indenture agreements or the limited purpose for which a fund was established, and (c) capital assets net of any outstanding debt.

#### Restricted for Pension and Other Employee Benefits

The related amount restricted in the Fiduciary Fund reserve is largely comprised of equity recorded in the pension trust fund. In addition, equity is set aside to pay for sick pay and vacation pay in the internal service funds.

#### **Fund Balance**

As noted in Note 1 - "Summary of Significant Accounting Policies", The City classifies fund balance by level of constraints imposed on resources by either external or internal factors or the form in which the resources exist.

# **Notes to Financial Statements**

The following is a summary of these constraints on fund balances:

	General Fund	Capital Projects Fund	Nonmajor Funds	Total
Nonspendable				
Inventory & prepaids	\$ 710,102	\$ -	\$ -	\$ 710,102
Permanent fund corpus		-	158,200	158,200

Total fund balances	\$ 33,911,184	\$ 11,360,951	\$ 7,398,175	\$ 52,670,310

#### **Notes to Financial Statements**

#### 10. RISK MANAGEMENT

The City has entered into a Public Entity Risk Pool with other Michigan units of government as an individual member for its general liability, property damage insurance including auto and public officials liability and contractors equipment. The City's maximum deductible for property coverage is \$11,000 per occurrence. The liability maximum self-insured retention is \$500,000 per occurrence with an aggregate stop loss of \$1,000,000 per policy year for both property and liability.

The City accounts for transactions related to these risks in accordance with GASB No. 10, *Accounting and Financial Reporting for Risk Financing and Related Insurance Issues*, which states that a liability for claims must be reported if information prior to the issuance of the financial statements indicates it is probable that a liability has been incurred at the date of the financial statements, and the amount of the loss can be reasonably estimated.

No settlements have exceeded insurance coverage during the last three years. The City has made no significant reductions in insurance coverage during the year. The City has received no indication that any significant losses exist at June 30, 2012.

The following are the changes in Incurred But Not Reported (IBNR) estimates:

Year Ending June 30,	Beginning Balance		J		Deductions	Ending Balance	
2011 2012	\$	926,999 947,375	\$	5,610,540 4,092,611	\$ (5,590,164) (3,816,084)	\$	947,375 1,223,902

The City has also entered into a public entity risk pool with other Michigan units of government for its workers compensation insurance.

#### 11. LITIGATION AND CONTINGENT LIABILITIES

#### Litigation

The City is a defendant to various claims, legal actions and complaints arising in the ordinary course of business. The City of Troy denies the allegations and plans a vigorous defense. In the opinion of legal counsel, all such matters as indicated above are adequately covered by insurance, or if not so covered, are without merit or of such kind, or involve such amounts that an unfavorable disposition would not have a material effect on the financial position of the City.

#### Tax Appeals to the Michigan Tax Tribunal

The City has several outstanding property tax assessment appeals totaling approximately \$170,344,389 (taxable values) to the Michigan Tax Tribunal. If the City is not successful with a portion of these appeals, the City of Troy's share of the tax to be refunded would be the levied rate (approximately \$10 per thousand of assessed value) plus interest. The amount of refund (if any) cannot be determined as of June 30, 2012.

#### **Notes to Financial Statements**

#### 12. PROPERTY TAXES

Property taxes are recorded on the modified accrual basis of accounting and are levied, and become a lien on July 1<sup>st</sup> on the taxable valuation of the property located within its boundaries as of the preceding December 31<sup>st</sup>. Taxable value is determined by the prior year's taxable value plus 5% or the Consumer Price Index whichever is less, starting with the 1994 state equalized value as the base taxable value. Assessed values are equalized by the State, to closely approximate fifty percent of estimated current market value. The final taxable value of real and personal property subject to property tax within the City for the fiscal 2011-2012 levy was \$4,333,141,674. The City's operating tax rate was 6.50 mills for the same year with additional mills of .96, .70, 1.53 and .50 levied to fund refuse removal and disposal, library operations, capital outlay expenditures and debt service obligations, respectively.

In addition to collecting their own taxes, the City also acts as collection agent for all overlapping governments and school districts within its boundaries, which includes seven school districts, two intermediate school districts, a community college, and Oakland County.

City taxes are received in one installment, collectible from July 1<sup>st</sup> to September 1<sup>st</sup>. Any real property taxes not paid by March 1<sup>st</sup>, following the due date, are reimbursed by the County. The County Treasurer takes over collection responsibility at that date, as well as delinquent personal property taxes.

The City is occasionally ordered by the Michigan Tax Tribunal to refund taxes already collected and recorded into revenue. It is, therefore, the City's policy to compensate for doubtful accounts, as well as refunds of taxes already collected through use of an allowance for doubtful taxes receivable and as assigned general fund balance.

#### 13. RETIREMENT SYSTEM AND PLAN

#### **Employee Retirement System**

The City of Troy, Michigan, under the authorization of the City ordinance, maintains employee retirement plans covering all full-time employees. The single-employer defined benefit plan provides retirement benefits based on credited service time and average compensation with death and disability benefits, and under some circumstances, payments to dependents. Normal retirement age is 65 with provisions for early and late retirement. Participants under such plan are required to contribute a fixed percentage of their total compensation, with the City's contribution being an amount sufficient to cover current service costs and prior service costs which are being funded and charged to operations over the average expected active future working life time. The plan is closed to new participants. Current membership in the system is as follows:

	December 31,
Group	2011
	200
Retirees and beneficiaries currently receiving benefits	322
Vested terminated employees	11
Active employees	70

#### **Notes to Financial Statements**

The employee retirement system financial statements are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions to each plan are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan.

The City's funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll, are designed to accumulate sufficient assets to pay benefits when due. The normal cost and amortization payment for the year ended June 30, 2012 were determined using the aggregate cost method. Unfunded actuarial liabilities were amortized as a level percent of payroll on an open basis over the expected future service and pay for service of active members.

For the year ended June 30, 2012, contributions totaling \$11,289,970 (\$2,195,476 employer and \$9,094,494 employee) were made in accordance with contribution requirements determined by an actuarial valuation of the plan as of December 31, 2010, which was net of the amortization of assets in excess of unfunded actuarial accrued liability. Employer and employee contributions were based on 26.6 percent and 1.5 to 4.0 percent, respectively, of covered payroll in the amount of \$7,094,490 for the year then ended. All contributions pertain to the pension plan only.

Significant actuarial assumptions are (a) a 6.5% investment return compounded annually, (b) salary increases of 3.5% per year compounded annually (c) additional projected salary increases of 0.0%-2.5% attributable to seniority/merit, and (d) no cost of living adjustments after retirement. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility over a five year period.

Three-Year Trend Information								
Employee Retirement System (\$ Amounts in Thousands)								
Fiscal Years Ended June 30,	Actuarial Valuation Date December 31,	Pen	innual sion Cost (APC)	Percentage of APC Contributed	Net Pension Obligation			
2010 2011 2012	2008 2009 2010	\$	1,361 2,484 2,195	100% 100% 100%	\$ - - -			

Funded Status and Funding Progress. As of December 31, 2011, the most recent actuarial valuation date, the Plan was 95 percent funded. The actuarial accrued liability for benefits was \$153,564,000, and the actuarial value of assets was \$145,523,000, resulting in an unfunded actuarial accrued liability (UAAL) of \$8,041,000. The covered payroll (annual payroll for active employee covered by the Plan) was \$5,428,000 and the ratio for the UAAL to the covered payroll was 148.1%.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits. Because the system uses the aggregate cost method which does not identify or separately amortize unfunded actuarial accrued liabilities, funded status and funding progress are reported using the entry age actuarial cost method and the information presented is intended to serve as a surrogate for the funded status and funding progress of the plan.

### **Notes to Financial Statements**

#### Incentive Plan for Volunteer Firefighters

The City of Troy has a noncontributory discretionary incentive plan established by resolution of the City Council covering its volunteer firefighters. The single-employer plan benefits are determined based on annual contribution amounts for each year of incentive service. The normal cost and amortization payment for the year ended June 30, 2012 was determined using an individual entry age funding method. At January 1, 2012, the benefit payment amount was \$605 per year for incentive service. Participants are eligible for payments at age 55 with ten or more years of volunteer service, age 50 with 25 years of service or 30 years of incentive service regardless of age. The City's contribution to the plan for the year ended June 30, 2012, was \$873,354. The volunteer firefighters are not paid any remuneration for their service. Unfunded actuarial liabilities were amortized as a level dollar amount on a closed basis over 25 years.

Group	December 31, 2011
Retirees and beneficiaries currently receiving benefits	79
Vested terminated employees	26
Active employees	146

Significant actuarial assumptions used include a 6.5 percent investment rate of return. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility over a four year period.

Three-Year Trend Information										
Incentive Plan for Volunteer Firefighters (\$ Amounts in Thousands)										
	Actuarial									
	Valuation	Α	nnual	Percentage of						
Fiscal Years Ended	Date	Pension Co		Pension Cost APC						
June 30,	December 31,	(APC)		Contributed	Obligation					
2010	2008	\$	864	100%	\$ -					
2011	2010		874	100%	-					

Funded Status and Funding Progress. As of December 31, 2011, the most recent actuarial valuation date, the Plan was 47 percent funded. The actuarial accrued liability for benefits was \$13,476,000, and the actuarial value of assets was \$6,357,000, resulting in an unfunded actuarial accrued liability (UAAL) of \$7,119,000.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits. The plans do not issue a separate financial report.

#### **Notes to Financial Statements**

#### 14. DEFINED CONTRIBUTION PLAN

The City maintains a defined contribution plan (DCP) administered by the International City Manager's Association Retirement Corporation (ICMARC), which qualifies under the Internal Revenue Code Section 401(a). Classified, Exempt and Fire Staff Officers in the City's Employees Retirement System were given the option to transfer to the DCP by December 31, 1997. Employees who elected to transfer to the DCP had their individually actuarially determined earned retirement benefits in the Employees Retirement System determined as of the date of election to transfer to the DCP. In 1998, the City afforded the option to AFSCME members of the Employees Retirement System to elect a transfer to the DCP, of which 41 employees elected such transfer. In 1999, the City afforded the option to MAP members of the Employees Retirement System to elect a transfer to the DCP, of which 29 employees elected such transfer. In 2000, the City afforded the option to TCOA members of the Employees Retirement System to elect a transfer to the DCP, of which 20 employees elected such transfer. In 2002, the City afforded the option to TPOA members of the Employees Retirement System to elect a transfer to the DCP of which 19 employees elected such transfer. The DCP is also in effect for all new full-time employees. Total membership in the DCP as of June 30, 2012 was 254.

The DCP maintains a schedule of vesting as follows: participants who transferred from the Employees Retirement System are fully vested. For new hires the following schedule applies: 50% vested after 3 years, 75% vested after 4 years and 100% vested after 5 years. Employees contribute 3 to 6 percent of their salary, while the employer contributes 10 to 13 percent. All employees are able to contribute up to 10 percent of their salary on a voluntary after-tax basis. All contributions are remitted to a third-party plan administrator.

The DCP was established by City Council resolution and any amendments to the plan would require City Council approval.

The City's payroll for employees covered by the DCP for the year ended June 30, 2012, was \$15,913,982. The required contributions, which matched those actually made, were \$715,875 by employees and \$1,732,681 by the City, representing 4.5 percent and 10.9 percent of covered payroll, respectively.

#### 15. RETIREE HEALTH CARE TRUST FUND

#### Plan Description

The City provides certain healthcare benefits for retired employees in accordance with the bargaining group agreements and other requirements. Substantially all of the City's full-time employees may become eligible for those benefits if they reach normal retirement age while working for the City. The City's contribution for healthcare benefits is accounted for in the Retiree Health Care Trust Fund. The employer's contribution of \$3,349,151 represented the required contribution of \$2,787,081 or 13.81% of covered payroll totaling \$20,181,615. During the current year, healthcare benefits paid for 335 retirees totaled \$3,893,023, which was paid out of the Employees Retirement System. It should be noted that although healthcare benefits are paid out of another fund, they do not qualify as required contributions, as healthcare assets in the Employees Retirement System are considered when actuarially determining required contributions. Future payments will be made by the Employees Retirement System until the reserves that have accumulated there are exhausted.

This is a single employee defined benefit plan administered by the City. The Plan does not issue a separate stand-alone financial statement. Administrative costs are paid by the plan through employer contributions.

### **Notes to Financial Statements**

#### **Funding Policy**

For current employees not covered by the Retiree Health Savings Account Plan, the City includes retirees and their spouses in its healthcare plan, with no contribution required by participants if they retire with 25 or more years of service. If under 25 years of service, the City contributes 4% per year of service, or \$400 per month, whichever is greater.

#### **Funding Progress**

For the year ended June 30, 2012, the City has estimated the cost of providing retiree healthcare benefits through an actuarial valuation as of December 31, 2010. The valuation computes an annual required contribution, which represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

The valuation's computed contribution and actual funding are summarized as follows:

Annual required contribution Interest on net OPEB asset - 6.5%	\$ 2,787,081 (18,277)
Adjustment to annual required contribution	21,373
Annual OPEB cost (expense) Contributions made	2,790,177 (3,271,118)
(Increase) in net OPEB asset Net OPEB (asset), beginning of year	(480,941) (281,188)
Net OPEB (asset), end of year	\$ (762,129)

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2012 and the two preceding years were as follows (dollar amounts in thousands):

Three-Year Trend Information										
Fiscal Year			Percentage of	Net OPEB						
Ended June	Ann	ual OPEB	AOC	Obligation						
30,	Cost (AOC)		Contributed	(Asset)						
2010	\$	3,698	103%	\$	52					
2011		3,546	100%		(281)					
2012		2,790	117%		(762)					

#### **Notes to Financial Statements**

#### **Actuarial Methods and Assumptions**

In the December 31, 2010 actuarial valuation, the individual entry age normal actuarial cost method was used. The actuarial assumptions include an assumed rate of return of 6.5% and projected salary increases of 3.5%-8.0%. An annual healthcare cost trend of 8.25% was used in fiscal year 2012 decreasing to 3.5% by 2020. The unfunded actuarial accrued liability (UAAL) is being amortized as a level percent of payroll on a closed basis. The remaining amortization period as of December 31, 2010 was 28 years.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the health care cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of the benefit costs between the employer and plan members to that point.

The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Funded Status and Funding Progress. As of December 31, 2010, the most recent actuarial valuation date, the Plan was 67 percent funded. The actuarial accrued liability for benefits was \$89,952,000, and the actuarial value of assets was \$60,360,000, resulting in an unfunded actuarial accrued liability (UAAL) of \$29,592,000. The covered payroll (annual payroll for active employee covered by the Plan) was \$25,951,000 and the ratio for the UAAL to the covered payroll was 114%.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

#### 16. DEFICIT NET POSITION

The Sanctuary Lake golf course fund has a net position deficit of \$4,956,653 at June 30, 2012.

The Sanctuary Lake golf course completed its seventh year of operations with operating income of \$105,436 including depreciation expense of \$298,695. Nonoperating expenses including interest expense of \$484,069 resulted in a decrease change in net position of \$378,633. This compares to a decrease change in net position of \$582,841 last fiscal year. Cash flows from operations were positive in the amount of \$376,756. As such, the deficit is a result of operating income insufficient to meet the debt funding requirements. The fund has incurred advances from primarily the general fund and sylvan glenn golf course fund to meet its cash debt financing requirements.

The City turned over operations and management of both the sanctuary lake and sylvan glen golf courses on June 15, 2010 to Billy Casper Golf with a strategic plan of eliminating the deficit in the next few years.

The Downtown Development Authority (component unit) reported a net position deficit of \$13,665,551 compared to \$12,683,589 last fiscal year. This deficit is attributable to recognizing outstanding long-term debt to be financed with future tax increment revenues from the district.

#### **Notes to Financial Statements**

#### 17. BUDGET STABILIZATION FUND

The City has established a budget stabilization fund by adopting a City ordinance in accordance with PA 30 of 1978 - MCL 144.441. The City Council may appropriate all or part of a surplus in the General Fund to the Budget Stabilization Fund. The amount in the Budget Stabilization Fund shall not exceed 15% of the City's most recent General Fund budget as originally adopted or 15% of the average of the City's five most recent General Fund budgets, as amended, whichever is less. Appropriations from the Budget Stabilization Fund may be used to cover any General Fund deficit, prevent a reduction in the level of services when revenues are not being collected in a sufficient manner or when the subsequent year budget indicates a shortfall, and to cover expenses arising from a natural disaster unless federal or state funds are received to offset the appropriation. In accordance with *Governmental Accounting Standards Board (GASB)* Statement number 54, the Budget Stabilization Fund has been included as part of the General Fund for reporting purposes. Any residual fund balance is reported as restricted in the General Fund.

#### 18. SUBSEQUENT EVENTS

On September 6, 2012, the City advance refunded the golf course series 2002 general obligation bonds. The City issued \$9,655,000 of general obligation refunding bonds to provide resources to purchase U.S. government securities that were placed in an irrevocable trust for the purpose of generating resources for all future debt service payments of the refunded debt. As a result, the refunded bonds will be considered to be defeased and the liability will be removed from long-term debt in the subsequent year. This advance refunding was undertaken to reduce total debt service payments over the next fifteen years by \$965,191 and to obtain an economic gain (difference between the present value of the debt service payments of the refunded and refunding bonds) of \$879,368.

# COMBINING AND INDIVIDUAL FUND FINANCIAL STATEMENTS AND SCHEDULES

#### SPECIAL REVENUE FUNDS:

*Major Streets Fund* - Accumulates resources from state funding sources for the maintenance and construction of the City's major streets system.

Local Streets Fund - Accumulates resources from state funding sources for the maintenance and construction of the City's local streets system.

Refuse Fund - Accumulates resources from a dedicated tax millage for sanitation collection and disposal services.

*Library Fund* - Accumulates resources from a dedicated tax millage for providing public library services to the community.

Community Development Block Grant - Accumulates resources for the administration of federal funded projects designed to address a wide-range of community needs in low income areas.

#### PERMANENT FUND

Cemetery Perpetual Care - Accumulates resources from plot and burial fees for the perpetual care of cemetery grounds.

#### DEBT SERVICE FUNDS

*Debt Service Funds* - Accumulate resources from a dedicated tax millage for the debt service financing requirements of major voter approved capital projects.

#### NONMAJOR ENTERPRISE FUNDS

*Sylvan Glen Golf Course* - Accumulates resources from user fees to the operation and maintenance of a municipal golf course.

Aquatic Center - Accumulates resources from user fees for the operation and maintenance of the City's municipal water park.

continued...

# COMBINING AND INDIVIDUAL FUND STATEMENTS AND SCHEDULES (concluded)

#### **INTERNAL SERVICE FUNDS**

Compensated Absences Fund - Accumulates resources from interdepartmental charges for funding employee earned vacation and sick pay benefits.

*Unemployment Compensation Fund* - Accumulates resources from interdepartmental charges for City unemployment insurance premiums and obligations.

Custodial Services Fund - Accumulates resources from interdepartmental charges for the custodial services to city buildings.

Information Technology Fund - Accumulates resources from interdepartmental charges for the maintenance and improvements of the City's computer and software requirements.

*Motor Equipment Fund* - Accumulates resources from interdepartmental charges for the maintenance and capital investment of City owned vehicles.

Worker's Compensation Fund - Accumulates resources from interdepartmental charges for insurance premium and City obligations for worker's compensation claims.

#### Reconciliation

Fund Balances for Governmental Funds to Net Position of Governmental Activities Downtown Development Authority June 30, 2012

Fund balances - total governmental funds

\$ 6,245,406

Amounts reported for *governmental activities* in the statement of net position are different because:

Because the focus of governmental funds is on short-term financing, some assets will not be available to pay for current-period expenditures. Those assets (such as certain receivables) are offset by deferred inflows in the governmental funds, and thus are not included in fund balance.

Add: deferred inflows 52,440

Certain liabilities, such as bonds payable, are not due and payable in the current period and therefore are not reported in the funds.

Deduct: accrued interest payable

Deduct: bonds payable - current portion

Deduct: bonds payable - long-term portion

(148,397)

(2,365,000)

(17,450,000)

Net position of governmental activities \$(13,665,551)

#### Reconciliation

Net Changes in Fund Balances of Governmental Funds to Change in Net Position of Governmental Activities Downtown Development Authority For the Year Ended June 30, 2012

Net change in fund balances - total governmental funds

\$ (3,174,424)

Amounts reported for *governmental activities* in the statement of activities are different because:

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds, but rather are deferred inflows to the following fiscal year.

Deduct: net difference in deferred inflows

(39,506)

Bond proceeds provide current financial resources to governmental funds in the period issued, but issuing bonds increases long-term liabilities in the statement of net position. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.

Add: principal payments on long-term liabilities

2,215,000

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the funds.

Add: decrease in accrued interest expense

16,968

Change in net position of governmental activities

STATISTICAL SECTION

#### **Statistical Section Table of Contents**

This part of the City's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

Contents		Page
Financial Trends	These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.	118 - 123
Revenue Capacity	These schedules contain information to help the reader assess the City's most significant local revenue source, the property tax.	124 - 127
Debt Capacity	These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	128 - 133
Demographic and Economic Information	These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.	134 - 135
Operating Information	These schedules contain serve and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.	136 - 142
Continuing Disclosure	Information contained herein complies with Rule 15c2-12, a federal regulation promulgated by the Securities and Exchange Commission, designed to improve disclosure practices in the municipal bond market.	143 - 144

Sources: Unless otherwise noted, the information in these schedules is derived from the Comprehensive Annual Financial Report for the relevant year. The City implemented GASB Statement No. 34 in the fiscal year ended June 30, 2003; schedules presenting government-wide information include data beginning in that year.

Source: City of Troy Assessing records

Note: The estimated assessed value is calculated using a 12-month sales study updated annually.

Proposal "A", as passed by the citizens of Michigan, took effect in 1994. This Proposal created two new categories for tax and assessment purposes (taxable value and capped value). Assessed value was unchanged by the Proposal, and remains at 50% of the market value of a property.

Taxable value is the amount upon which millage rate (taxes) are now levied. Taxable value is defined as the lesser of assessed value or capped value

Capped value is calculated by taking the previous year's taxable value, minus any losses in value, multiplied by the inflation rate or 5% (whichever is less) plus any new construction.

This Proposal also mandated that the taxable value and assessed value were to be equal for the year following a transfer of ownership (as defined by the statutes), and then the capping process would begin anew.

The taxable and assessed valuation of taxable property is determined as of December 31st of each year.

#### Computation of Legal Debt Margin

June 30, 2012

Assessed Valuation at December 31, 2010

\$ 4,540,412,680

		Legal Margin						
	Annual Net Debt	Percentage of State Equalized Valuation	Amount	Legal Debt Margin				
General obligation debt	\$ 32,010,000	10.0%	\$ 454,041,268	\$ 422,031,268				
Emergency bonds	-	37.5%	1,702,654,755	1,702,654,755				
Special assessment bonds		12.0%	544,849,522	544,849,522				
Total debt	\$ 32,010,000		\$ 2,701,545,545	\$ 2,669,535,545				

The statutory debt limits of net bonded indebtedness incurred for all public purposes shall not at any one time exceed 10% of the assessed valuation of taxable property in the City (\$4,540,412,680), except that this limit may be exceeded by 3/8ths of 1% in case of fire, flood or other calamity. This limitation does not include bonds issued in anticipation of the payment of special assessments, nor bonds issued pursuant to court order for sewage or garbage disposal systems.

The Michigan State Bond Act provides that the total debt in special assessment bonds, which would require that the City pledge its faith and credit, shall not exceed 12% of the assessed valuation of taxable property of the City, nor shall such bonds be issued in any calendar year in excess of 3% unless voted.

- (1) Capitalized Interest 2003, 2004.
- (2) Fifty percent of state gas and weight taxes can be used for debt payments.
- (3) Customers may choose to make special assessment payments up-front to avoid paying interest to the City, which creates uneven payment streams over the life of the assessment.

#### Notes to Schedule of Expenditures of Federal Awards

#### 1. BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal grant activity of the City of Troy, Michigan (the "City") under programs of the federal government for the year ended June 30, 2012. The information in this schedule is presented in accordance with the requirements of the Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations.* Because the schedule presents only a selected portion of the operations of the City, it is not intended to and does not present the financial position, changes in net position or cash flows of the City.

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the accrual basis of accounting, which is described in Note 1 to the City's financial statements. Such expenditures are recognized following the cost principles contained in OMB Circular A-87, Cost Principles for State, Local, and Indian Tribal Governments, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Pass-through entity identifying numbers are presented where available.

#### 3. PASS-THROUGH AGENCIES

The County receives certain federal grant as subawards from non-federal entities. Pass-through entities, where applicable, have been identified in the Schedule with an abbreviation, defined as follows:

Pass-through Agency Abbreviation	Pass-through Agency Name
MDOT OAK	Michigan Department of Transportation County of Oakland, Michigan

# INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

November 27, 2012

To the Honorable Mayor and City Council City of Troy, Michigan

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the *City of Troy, Michigan* (the "City"), as of and for the year ended June 30, 2012, which collectively comprise the basic financial statements of the City, and have issued our report thereon dated November 27, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

#### Internal Control Over Financial Reporting

Management of the City of Troy, Michigan is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the City of Troy, Michigan's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Troy's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City of Troy, Michigan's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City of Troy, Michigan's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, the City Council, others within the organization, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

# INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

November 27, 2012

To the Honorable Mayor and City Council City of Troy, Michigan

#### **Compliance**

We have audited the *City of Troy, Michigan's* compliance with the types of compliance requirements described in the OMB Circular A-133 Compliance Supplement that could have a direct and material effect on each of the City of Troy, Michigan's major federal programs for the year ended June 30, 2012. The City of Troy, Michigan's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the City of Troy, Michigan's management. Our responsibility is to express an opinion on the City of Troy, Michigan's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations.* Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City of Troy, Michigan's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit and the reports of the other auditors provide a reasonable basis for our opinion. Our audit does not provide a legal determination of the City of Troy, Michigan's compliance with those requirements.

In our opinion, the City of Troy, Michigan complied, in all material respects, with the requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2012.

#### **Internal Control Over Compliance**

Management of the City of Troy, Michigan is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the City of Troy, Michigan's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City of Troy, Michigan's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, the City Council, others within the organization, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, it is a matter of public record, and its distribution is not limited.

**SECTION II - FINANCIAL STATEMENT FINDINGS** 

None reported

SECTION III - FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

None reported

### **Summary Schedule of Prior Audit Findings**

For the Year Ended June 30, 2012

Finding 2011-1 - Reporting - Immaterial Noncompliance - CFDA # 81.128 - Energy Efficiency and Conservation Grant

At year-end there were four instances where the City submitted their reports late to the U.S. Department of Energy. One instance was with the Federal Financial Report, two instances were with the Progress Reports and one instance was with the ARRA Section 1512 reports. This finding was corrected.
