November 26, 2014

Dear Honorable Mayor and City Council Members:

The *Comprehensive Annual Financial Report* (CAFR) for the City of Troy, Michigan for the year ended June 30, 2014 is hereby submitted. The report represents a comprehensive and detailed picture of our financial transactions during fiscal year 2013/14 and the financial condition of the various funds as of fiscal year end. This report was prepared by a team comprised of executive members, financial staff and department leaders of the City. Troy's staff is responsible for the accuracy of data and completeness and fairness of the presentation, including all disclosures.

A *Management's Discussion and Analysis Report* (MD&A), as well as entity-wide, full accrual financial statements have been added to the front of the financial statement section. The fund statements have been altered to provide reporting under the "Major/Nonmajor Fund" concept. Reconciliation between the two presentations is included and the note disclosures have been expanded to provide appropriate information on both the entity-wide and fund financial statements.

The information presented is accurate in all material respects. Financial data presented is designed to provide the reader with information to assist in determining both the long-term fiscal health of the City of Troy and the City of Troy's ability to meet obligations on a short-term basis.

As required by Generally Accepted Accounting Principles (GAAP), these financial statements present the City of Troy and related component units. The individual component units are included in the City of Troy's reporting entity because of the significance of their operational or financial relationships with the City of Troy.

The financial reporting entity includes all of the primary government (the City of Troy as legally defined). The criteria used in determining the reporting entity are consistent with current GAAP guidelines. Based on these criteria, the various funds of the City are shown in the table of contents and are included in this report. We have addressed all component units.

The City of Troy was incorporated in 1955 and has always operated under the Council-Manager form of government. The Mayor and six members of the City Council are elected to staggered four-year terms.

The City Manager is appointed by a majority vote of the City Council and is responsible for all administrative functions. The City provides a full range of municipal services, including police, fire, water distribution, wastewater collection, street maintenance, public improvements, planning, zoning, recreation and general administration.

ECONOMIC CONDITION AND OUTLOOK

The economic condition of the City of Troy has reflected the slight uptick of the State and National economies to some degree. Our unemployment rate is well below the metro area, state and national average.

June 2014

Troy	5.9%
Oakland County	6.8%
Metro Area*	7.1%
Michigan	6.7%
National	6.3%

*The Metro Area includes Lapeer, Livingston, Macomb, Monroe, Oakland, St. Clair and Wayne Counties

The City reached the low point in taxable value in the 2013 fiscal year at \$4.246 billion after Michigan Tax Tribunal and Board of Review adjustments. The 2014 fiscal year remained flat compared to the 2013 fiscal year. While the City experienced an increase of 2.3% in the residential taxable value, it was offset by continued decreases in commercial and industrial values. For Michigan cities, Troy ranked fourth for the largest taxable values in the state. However, in this era of competition for business retention and attraction, we need to advance a preferred future in which residents and businesses continue to aspire to locate here.

The City adopts a three year budget that is nationally recognized. Our approach to funding major capital projects is to accumulate funds over a number of years to avoid the issuance of debt. The City has adopted a policy to maintain our Unassigned Fund Balance of the General Fund at a minimum 20% to 30% of General Fund Expenditures. Actual results outside these parameters requires a financial plan proposed by the city manager.

Other significant economic events occurring during the fiscal year include the following major initiatives, which more often than not span several years:

Multi-Modal Transit Center

The \$6.2 million Troy Transit Center opened to the public on October 14, 2014. The facility replaces an outmoded Amtrak stop with an ADA compliant, safe and secure transportation center. The facility strengthens mobility options through a centralized facility that allows user access to intercity passenger rail service, regional bus routes, and taxi services. The Troy Transit Center provides linkages to ground level intermodal facilities via ADA compliant sidewalks and a pedestrian bridge over the tracks to a new Amtrak platform on the west side of the tracks. A bus stop area sized to accommodate four full sized buses, a passenger drop off and pickup lane, and a taxi waiting area are nearby. A parking lot is provided.

S&P Data, LLC

After a thorough site selection process, S&P Data has located its first Michigan call center facility at 340 E. Big Beaver Road (formerly occupied by Flagstar operations). S&P Data is a provider of contact center solutions to Fortune 500 companies offering multiple channel support including phone, chat, e-mail and social media channels. The \$4.4 million project is expected to create 421 jobs over three years.

Molina

Molina Healthcare is a FORTUNE 500, multi-state health care organization. Molina purchased the formerly vacant, 195,447 square foot office building located at 880 W. Long Lake Road in the North Troy Corporate Park area. Molina currently has 312 employees in Troy, but this new facility will add approximately 337 new employees in the next three years.

Unified Business Technologies

Unified Business Technologies - UBT, founded in Troy in 1997, provides manufacturing, engineering, IT, telecommunications, and professional services to federal, state and local government agencies and the private sector. The company has been awarded a new contract by the U.S. Army and plans to expand its operations in the City of Troy. The project will generate a total capital investment of \$17.2 million and create 171 jobs. Troy was chosen over competing sites in Alabama, Texas, Kentucky and Tennessee. UBT is located at 315 Indusco Court.

NS International

NS International has moved into the old Magna location at 600 Wilshire Drive. NSI's Grand Opening took place on September 11, 2014. Approximately 175 employees work in the building with continued growth expected.

DMC Children's Hospital

The Groundbreaking Ceremony for the new out-patient facility, located at 350 W. Big Beaver, took place on September 18, 2014. The \$42 million, 70,000 square foot project is expected to employ approximately 100 people.

Mahindra

Mahindra opened its new North American Technical Center at 1055 W. Square Lake Road. The former Hi-Lex Building had been vacant for several years. The 30,000 square foot facility houses approximately 50 employees with 100 employees expected.

Modern Dental Laboratory USA

Modern Dental is the world's largest producer of dental prosthetics and associated products from traditional dental restorations, to high precision custom made implant supported structures. Its new U.S. Digital Production Center is located at 500 Stephenson Highway - a 70,000 square foot building. Approximately 100 employees are expected to work at the facility.

AkzoNobel

AkzoNobel will be relocating its North American Automotive & Aerospace Coatings Vehicle Refinishes Headquarters from Georgia to its 1845 Maxwell Street location in Troy. The project is expected to add about 60 new jobs to the facility when it opens in the spring of 2015.

Toyoda Gosei

Toyoda Gosei will be expanding its North American Headquarters located at 1400 Stephenson Highway. The expansion will create approximately 51 jobs and will result in an investment of \$7.9 million. The Troy facility focuses on sales, engineering and administration for its subsidiaries engaged in research and design, and manufacturing operations throughout North America.

MJR Troy Grand

This new 74,000 square foot theater complex consists of 16 state-of-the-art movie theaters with 3,200 seats. The project, located at 100 E. Maple Road, replaced a vacant Kmart department store. Approximately 70 new jobs were created.

Walsh College Expansion

Walsh College, located at 3838 Livernois, broke ground for its \$15 million expansion and renovation on September 5, 2014. The project includes a 27,000 s.f. renovation and addition to the original campus. The addition will encompass distinct pavilions with a business-communication focused student success center, a student lounge, and a "one-stop" student services center. Construction is expected to take 18 months. Walsh's student body now totals more than 4,000.

Field & Stream Store

The Oakland Mall Circuit City store, located at 750 W. Fourteen Mile Road, has been demolished, and a new Field & Stream Specialty Store will be taking its place. The new 50,000 s.f. store will carry the best brands that meet the evolving needs of hunters, anglers and outdoorsmen. The store, expected to open in the spring of 2015, will be the first one built in Michigan.

FINANCIAL INFORMATION

Management of the City is responsible for establishing and maintaining internal control designed to ensure that the assets of the City are protected from loss, theft, or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal controls are designed to provide reasonable, but not absolute, assurance that these objectives are met.

The concept of reasonable assurance recognizes that: 1) The cost of a control should not exceed the benefits likely to be derived; and 2) The valuation of costs and benefits requires estimates and judgments by management.

Single Audit

As a recipient of Federal, State, and local financial assistance, the City is also responsible for ensuring that adequate internal controls are in place to ensure and document compliance with applicable laws and regulations related to these programs. These internal controls are subject to periodic evaluation by management and the independent auditors of the City.

As a part of the single audit process, the auditors considered the internal control structure to develop audit procedures over compliance that would have a direct and material effect on each major federal program and compliance with OMB Circular A-133, but not to issue an opinion on the effectiveness of internal controls over compliance.

Budgeting Controls

The object of budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the City Council.

Activities of the General and Special Revenue Funds are included in the annual appropriated budget. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) are established at the functional level for the General Fund and fund level for special revenue funds.

General Government Functions

Generally accepted accounting standards require that management provide a narrative introduction, overview and analysis to accompany these basic financial statements in the form of the MD&A.

This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City of Troy's MD&A can be found immediately following the report of the independent auditors. Since the MD&A focuses on the government-wide financial statements, the balance of this letter will be directed at the fund or activity level.

The General Fund receives all City of Troy revenues not designated for special uses by statutes or the City Charter and accounts for most of the services provided to residents. Overall General Fund revenues had a small increase compared to prior year, an increase of \$711 thousand or 1.5%. However, property taxes, the General Fund's largest revenue source, remained flat at \$29.6 million. Property taxes remained flat despite a small increase in residential taxable value of 2.3% due to continued declines in the commercial/industrial sectors. Increased revenues came in the form of additional license and permit revenues \$175 thousand, state shared revenues \$157 thousand and charges for services \$229 thousand.

State sources totaled \$6.5 million. State shared revenue is a major source of revenue, which is a return to local governments of a portion of state sales tax and is not restricted to use.

Total General Fund operating expenditures increased by \$2.6 million or 5.5%. The increase was primarily in the area of roads and streets of \$1.4 million due to increased road maintenance and snow and ice control, engineering of \$275 thousand for contracted road engineering services, and building inspection of \$385 thousand for increased building permit activity.

Other financing sources included additional transfers in of \$2.3 million primarily from major and local street special revenue funds to reimburse the general fund for additional road and street maintenance. Transfers out increased \$2.4 million primarily to the capital projects fund to finance the city's major road construction program "Troy Roads Rock".

General Fund Balance

Fund balance of the General Fund increased by \$833 thousand to a balance of \$37.6 million. Of this amount, \$4.4 million is nonspendable for such items as inventory and prepaid items; \$1.5 million is restricted for budget stabilization, \$6.6 million has been committed to the subsequent years budget and Volunteer Firefighters Incentive Reserve, and \$3.2 million has been assigned for insurance claims and tax appeals. The \$21.9 million remaining unassigned amount represents 44.4% of General Fund expenditures. This amount exceeds the city's 20% to 30% target range but has been addressed in the city's subsequent three year budget.

Special Revenue Funds

Special Revenue Funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes. The Special Revenue Funds of the City include:

Major Street Fund - Gas and weight tax revenues received in this fund from the State of Michigan are used for repairs, maintenance, snow and ice removal, and construction of all streets classified as “major” within the city.

Local Street Fund - Gas and weight taxes as well as a transfer of funds from the Major Street Fund to finance the repairs, maintenance, snow and ice removal, and construction of all streets classified as “local” within the city.

Refuse Fund - This fund has been established to account for property tax revenues restricted for rubbish and garbage collection and service charges for recycling.

Transit Center Fund - This fund has been established to track costs of Transit Center operations that are reimbursable by the city's contract with Amtrak and other sponsorship revenues.

Drug Forfeiture Fund - This fund has been established to account for resources provided from court ordered forfeitures in which City police officers participate in local, state and federal drug enforcement operations and which such resources can only be appropriated for approved drug enforcement expenditures.

Library Fund - This fund accounts for a special millage designed to fund operations and materials of the local city library.

Community Development Block Grant - This fund accounts for grant revenues from the Department of Housing and Urban Development to be used for residential and other capital improvements. Major activities in this fund include minor home chore program for seniors and infrastructure improvements.

Enterprise Operations

The City operates five separate enterprise operations: Water Fund, Sanitary Sewer Fund, Aquatic Center Fund, Sylvan Glen and Sanctuary Lake Golf Course Funds.

Water Fund - Operating revenues are down \$887 thousand (5.5%) compared to the prior fiscal year to \$15.1 million in total. This is directly due to the decrease in sale volumes from 538 thousand mcf (thousand cubic feet) to 455 thousand mcf. The drop in volume is attributable to prior year summer conditions coupled with a prolonged winter. Conversely, water operating expenses increased \$1.1 million due to an increase the variable rate (rate per mcf consumed) from \$10.80 to \$11.93 (an increase of \$1.13 per mcf or 10.5%) and an increase in fixed fees of \$413 thousand or 10.5%. The net effect was a reduction in net position of \$132 thousand for the fiscal year. The economy and weather conditions can have a significant effect on water consumption.

Sanitary Sewer Fund - Generated \$12.5 million in operating revenues as compared to \$13.0 million in the prior year (a decrease of \$527 thousand or 4.1%). This decrease was due to a reduction in volume sales as noted in the Water Fund section above. Accordingly, operating expenses, prior to depreciation, decreased \$675 thousand or 6.1%. Total operating costs were \$12.9 million. The net effect was a reduction in net position of \$153 thousand. These rates are reviewed annually during budget time to ensure proper funding for operations and maintenance and improvements to the system.

Aquatic Center - Operating revenues increased \$51 thousand or 10.6% from the prior year to \$532 thousand. Expenses decreased by \$16 thousand to \$526 thousand. Accordingly, the Center recognized operating income of \$6 thousand for the 2014 fiscal year.

Sylvan Glen Golf Course Fund - Revenues decreased by \$189 thousand compared to the prior fiscal year for a total of \$985 thousand. This again is due to the prolonged winter and frigid ice that caused significant green damage resulting in temporary greens and decreased play until June 2014. Operating expenses increased \$41 thousand or 3.9% compared to the prior year totaling \$1.1 million. Accordingly, the Course experienced an operating loss of \$106 thousand for the fiscal year.

Sanctuary Lake Golf Course Fund - Operating revenues increased by \$44 thousand compared to the prior fiscal year for a total of \$1.3 million. Part of the increase was due to the re-direction of golf play from Sylvan Glen that suffered green damage. Operating expenses increased \$151 thousand compared to the prior fiscal year for a total slightly above \$1.4 million. The course had an operating loss of \$68 thousand before the cost of interest on debt of \$328 thousand. Steps continue to reduce the loss, including the contracting of Billy Casper Golf to manage and operate both golf courses.

Internal Service Funds

Internal Service Funds are used to account for the financing of goods or services provided by one department to other departments of the government, on a cost reimbursement basis.

Compensated Absences Fund - This fund accounts for the charges to other departments based on sick and vacation accruals. The expenses of accumulated sick pay and vacation pay are then recorded in this fund.

Unemployment Compensation Fund - This fund accounts for the charges to other departments and the expenses to provide unemployment compensation insurance.

Custodial Services Fund - This fund charges other departments on a square footage basis to account for the custodial services and maintenance provided to all City-owned buildings.

Information Technology Fund - This fund accounts for charges to other departments based on the number of workstations to cover the expenses for providing computer services, including support, training and replacement.

Motor Equipment Fund - Rental charges of City-owned equipment to other City departments are accounted for in this fund. The fund provides maintenance, insurance and replacement of all City-owned vehicles.

Workers' Compensation Fund - Departments are charged a percentage of payroll based on premiums established by our provider to account for pooled insurance expenses.

Fiduciary Funds

Fiduciary Funds are established to account for assets held by the governmental unit in a trustee capacity or as an agent for individuals, private organizations, and other governmental units and/or funds.

Pension Trust - Employees' Retirement Fund - This fund is used to account for the accumulation of resources for pension benefit payments to qualified general and public safety employees. The Employees Retirement Fund reported end-of-the-year net position held in trust for pension and health care benefits of \$211.5 million compared to the beginning amount of \$189.5 million. As of December 31, 2013, the fund was 101.0% funded.

Pension Trust - Discretionary Fire Incentive Reserve Fund - This fund is used to account for accumulation of resources for incentive payments to qualified volunteer firefighters. The fund reported end-of-year net position held in trust for benefits of \$5.4 million. As of December 31, 2013, the fund was 38.1% funded after taking into consideration new benefit levels.

Retiree Health Care Trust Fund - The Retiree Health Care Trust Fund was established in fiscal year 2006 to account for medical benefits provided to employees during retirement. This fund will accumulate revenue until the reserves are depleted in the employee's retirement fund. This plan and trust is created under the authority of the Public Employee Health Care Fund Investment Act, Public Act 149 of 1999. The fund reported net position held for benefits of 46.1 million. As of December 31, 2012, the last reported actuary valuation, the fund was 59.2% funded.

Agency Fund - This fund is used to account for taxes collected on behalf of other governmental units and contractors' performance deposits.

Component Units

Component units, as defined by GASB No. 14 and updated by GASB No. 61, are so classified due to their relationship with the primary government relative to financial accountability of the reporting agency.

Downtown Development Authority Fund - The Authority generates revenue from property value increases within the district compared to the initial taxable value established in 1993. These funds are used for the purpose of providing for the construction and financing of necessary improvements to prevent further deterioration of the development area while preserving and promoting economic growth.

Brownfield Redevelopment Authority - This fund was established in 2002 to account for projects that will improve environmentally distressed areas within the City of Troy.

Local Development Financing Authority - This fund was established to capture tax increment revenues in the Automation Alley Smart Park, to encourage local development, to prevent conditions of unemployment and to promote economic growth. The purpose of the authority is to provide for the construction and financing of public facilities within the City of Troy necessary for the project.

Tax Rate Limitations

The City Charter provides tax rate limitations for general operations. In addition, the City of Troy may levy taxes in excess of the Charter limitation for refuse collection and debt service.

Purpose	Authority	Rate Per \$1,000 of Taxable Value
General operating	City Charter	\$8.10
Refuse collection and disposal	Act 298, P.A. of Michigan 1917 as Amended Article IX, Section 56 of Michigan Constitution	\$3.00
Library operations	Voter approved - 5 years	\$0.70
Debt service	City Charter	Amount necessary for debt payment

OTHER INFORMATION

Independent Audit

The City Charter and State statutes require an annual audit of all accounts of the City by certified public accountants. The accounting firm of Rehmann Robson, was selected by the City Council. The City received an “unmodified opinion” from Rehmann Robson, which is the best opinion that an organization can receive on its financial statements. It indicates that the auditor’s examination has disclosed no conditions that cause them to believe that the financial statements are not fairly stated in all material respects.

Additionally, during the current year an audit was performed in accordance with the requirements of the *Single Audit Act Amendments of 1996 (P.L. 104456)*. The auditor’s reports related to the single audit are issued as a part of this report.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a *Certificate of Achievement for Excellence in Financial Reporting* to the City of Troy, Michigan for its CAFR for the fiscal year ended June 30, 2013.

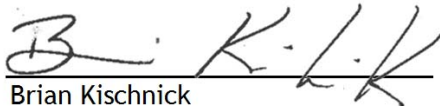

This was the seventeenth consecutive year that the City has achieved this prestigious award. In order to be awarded a certificate of achievement, a government must publish an easily readable and efficiently organized CAFR. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A certificate of achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The City has also received the GFOA *Award for Outstanding Achievement in Popular Annual Financial Reporting* (PAFR) and the GFOA *Distinguished Budget Presentation Award* for the city's three year budget.

Acknowledgements

The timely preparation of the CAFR was made possible by the dedicated service of the entire staff of the Finance Department. Each member of the department has our sincere appreciation for the contributions made in preparation of this report.

INDEPENDENT AUDITORS' REPORT

November 26, 2014

To the Honorable Mayor and City Council of the
City of Troy, Michigan

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the *City of Troy, Michigan* (the "City"), as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Independent Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to previously present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Troy, Michigan, as of June 30, 2014, and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparison for the general fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Implementation of GASB Statement No. 67

The City implemented the provisions of GASB Statement No. 67, *Financial Reporting for Pension Plans*, in the current year. While there was no effect on the amounts reported in the financial statements themselves, there were substantial changes to the disclosures found in Note 13 to the financial statements, including the calculation of the City's net pension liability, which will be required to be recorded by the City in its next fiscal year. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the schedules for the pension and other postemployment benefit plans listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual fund financial statements and schedules and the introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 26, 2014, on our consideration of the City of Troy, Michigan's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

CITY OF TROY, MICHIGAN

Management's Discussion and Analysis

As management of the City of Troy, Michigan (the "City"), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2014. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found as listed in the table of contents of this report.

Financial Highlights

- The City's assets exceeded its liabilities at the close of the most recent fiscal year by \$427.0 million (*net position*). Of this amount \$114.6 million represents unrestricted net position which are economic (not total cash) resources which may be used to meet the City's ongoing obligations to residents and creditors.
- The City's total revenues of \$123.3 million were in excess of total expenses of \$117.0 million resulting in an increase of net position in the amount of \$6.3 million.
- The City's governmental activities incurred expenses of \$85.3 million. These expenses were covered by program revenues totaling \$38.2 million and general revenues (including taxes, state shared revenues and other non-restrictive grants and contributions) of \$54.2 million resulting in an increase of net position of \$7.1 million.
- Governmental activity expenses increased by \$20.5 million due primarily to the recognition of assuming the refinance of DDA debt of \$14.9 million. However this is offset by the recognition of DDA pledged revenues for the same amount in program revenues.
- The City's business-type activities incurred \$31.7 million in expenses. These expenses were paid by program revenues, primarily in the form of user charges, of \$30.6 million and other general revenues of \$316 thousand. This resulted in a decrease of net position of \$747 thousand.
- At the close of the current fiscal year, the City's governmental funds reported combined fund balances of \$62.6 million, an increase of \$4.1 million in comparison with the prior year. Approximately 35% of the amount (\$21.9 million) is available for spending at the City's discretion (*unassigned fund balance*).
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$21.9 million, or approximately 44.4% of total general fund expenditures.

Overview of the Financial Statements

The discussion and analysis provided here are intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements consists of three components. The first component, *Governmental-Wide* financial statements, includes two financial statements, the *Statement of Position* and the *Statement of Activities*, these provide information about the activities of the City of Troy as a whole and present a longer-term view of the City's finances.

The second component, Fund financial statements, includes financial statements of governmental funds, proprietary funds, and fiduciary funds which focus on how City services were financed in the short term, as well as what remains for future spending. Fund financial statements report the City of Troy's operations in more detail than the government-wide financial statements.

The third and final component of the City's basic financial statements include notes that explain and provide more detailed data about some of the information found in the *Government-Wide* and *Fund* financial statements. The basic financial statements are followed by a section of supplementary information that further explains and supports the information in the basic financial statements. Information in the supplementary section include combining statements that provide details about our nonmajor governmental, nonmajor business-type, internal service, and fiduciary funds, each of which are added together and presented in single columns in the basic financial statements.

Government-wide Statements

The government-wide statements report information about the City of Troy as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the change in the difference between the City's assets and liabilities. This change in net position is an indicator of whether the City's financial health is improving or deteriorating. In order to assess the overall health of the City, you need to consider additional non-financial factors such as changes in the City's property tax base and the condition of the City's roads and other infrastructure.

The government-wide financial statements of the City of Troy are divided into two activities:

Governmental Activities - Most of the City's basic services are included here, such as police, fire, public works, parks and recreation, and general administration. Property taxes, state shared revenue, and charges for services finance most of these activities.

Business-type Activities - The City charges fees to customers to help cover the cost of certain services it provides. The City's business-type activities include water, sanitary sewer, Aquatic Center, and two public golf courses.

The government-wide financial statements include not only the City itself (known as the *primary government*), but also the legally separate entities of the *Downtown Development Authority*, *Local Development Financing Authority* and the *Brownfield Redevelopment Authority* for which the City is financially accountable. Financial information for these component units is reported separately from the financial information presented for the primary government itself.

The government-wide financial statements can be found as listed in the table of contents of this report.

Fund Financial Statements

The fund financial statements provide more detailed information about the City's most significant funds, not the City as a whole. Funds are accounting devices that the City uses to keep track of specific sources of funding and spending for particular purposes.

The City of Troy has three types of funds:

Governmental Funds - Most of the City's basic services are included in governmental funds, which focus on how cash, and other financial assets that can readily be converted to cash, flow in and out. The funds also show the balances left at year-end that are available for spending.

The governmental fund statements focus on a short-term view rather than the long-term focus of the government-wide statements, so additional information is provided after the governmental fund statements that explain the relationship or differences between the fund and government-wide statements.

Proprietary Funds - Proprietary funds are used to report services where the City charges customers a fee for services rendered. Proprietary funds provide both long- and short-term financial information. The two types of proprietary funds are enterprise and internal service funds:

- Enterprise funds and business-type activities are the same, but the fund statements provide more detail and additional information such as cash flows.
- Internal Service funds are used to report activities that provide supplies and service for the City's other programs. Examples of internal service funds would be Motor Equipment and Information Technology.

Fiduciary Funds - The City of Troy is trustee for its employee pension and other postemployment benefits plans. The City is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the City's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. These activities are excluded from the City's government-wide financial statements because the City cannot use these assets to finance operations.

Government-wide Overall Financial Analysis

Statements of net position

As noted earlier, net position over time, may serve as a useful indicator of a government's financial position. In the case of the City, assets exceeded liabilities by \$427.0 million, at the close of the most recent fiscal year.

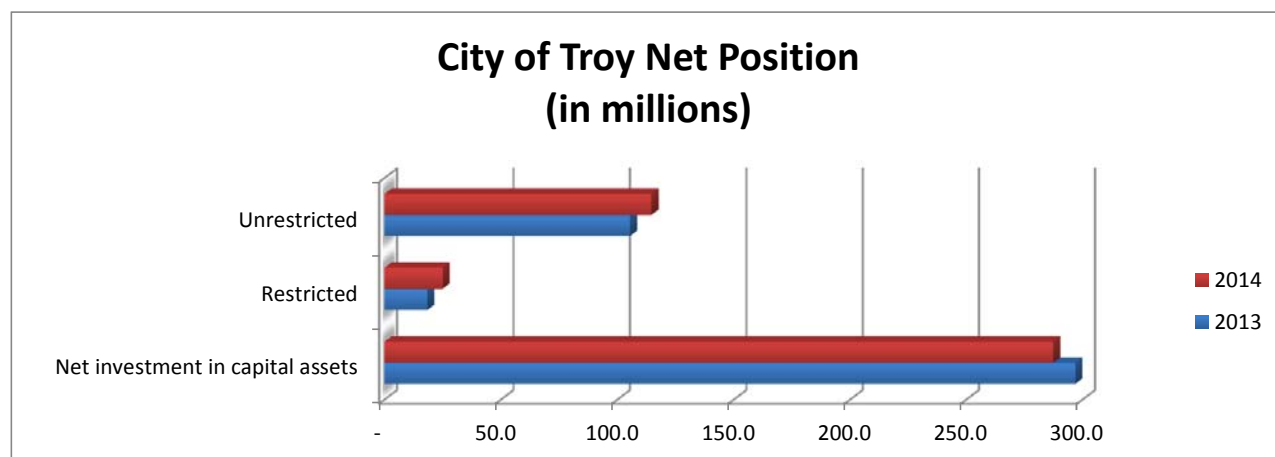

The table on the following page shows the comparison of total assets, total liabilities, and total net position (in millions of dollars) in a condensed format as of June 30, 2014 to the prior year.

	Governmental Activities		Business-type Activities		Total	
	2014	2013	2014	2013	2014	2013
Assets:						
Current and other assets	\$ 101.6	\$ 84.5	\$ 54.1	\$ 53.7	\$ 155.7	\$ 138.2
Capital assets	204.3	202.2	128.5	128.5	332.8	330.7
Total assets	305.9	286.7	182.6	182.2	488.5	468.9
Deferred outflows	-	-	0.9	1.0	0.9	1.0
Liabilities:						
Long-term debt outstanding	40.4	27.4	10.7	11.2	51.1	38.6
Other liabilities	6.0	7.0	5.3	3.7	11.3	10.6
Total liabilities	46.4	34.4	16.0	14.8	62.4	49.2
Net position:						
Net investment in capital assets	168.7	179.6	118.7	117.3	287.4	296.9
Restricted	25.0	18.4	-	-	25.0	18.4
Unrestricted	65.7	54.3	48.9	51.1	114.6	105.4
Total net position	\$ 259.4	\$ 252.3	\$ 167.6	\$ 168.4	\$ 427.0	\$ 420.7

By far, the largest portion of the City's net position (67.3%) reflects its investment in capital assets (e.g., land, buildings, machinery, equipment, vehicles, and infrastructure), less any related outstanding debt that was used to acquire those assets. The City uses these capital assets to provide a variety of services to its residents. Accordingly, these assets are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources used to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City's net position (5.9%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of \$114.6 million (26.8%) is unrestricted and may be used to meet the City's ongoing obligations to its residents and creditors.

At the end of the current fiscal year, the City is able to report positive balances in all reported categories of net position, both for the City as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the prior fiscal year.

The City's overall net position increased \$6.3 million from the prior fiscal year. The reasons for this overall increase are discussed in the following sections for governmental activities and business-type activities.

Statements of activities

The following table shows the comparison of the change in net position (in millions of dollars) as of June 30, 2014 to the prior year, in a condensed format:

	Governmental Activities		Business-type Activities		Total	
	2014	2013	2014	2013	2014	2013
Program revenues:						
Charges for services	\$ 13.5	\$ 12.5	\$ 30.4	\$ 31.9	\$ 43.9	\$ 44.4
Operating grants & contributions	0.8	1.2	-	-	0.8	1.2
Capital grants & contributions	23.8	10.4	0.3	0.6	24.1	11.0
General revenues:						
Property taxes	46.90	46.4	-	-	46.9	46.4
State-shared revenues	6.4	6.3	-	-	6.4	6.3
Interest earnings	0.4	0.2	0.3	0.1	0.7	0.3
Other revenue	0.6	0.2	-	-	0.6	0.2
Total revenues	92.4	77.2	31.0	32.6	123.4	109.8
Expenses:						
General government	9.8	8.5	-	-	9.8	8.5
Public safety	28.9	26.9	-	-	28.9	26.9
Public services & engineering	15.5	13.6	-	-	15.5	13.6
Sanitation	4.3	4.3	-	-	4.3	4.3
Community & economic development	16.3	1.4	-	-	16.3	1.4
Recreation and culture	9.4	9.1	-	-	9.4	9.1
Interest expense	1.1	1.0	-	-	1.1	1.0
Water	-	-	15.60	14.4	15.6	14.4

Aquatic center	-	-	0.5	0.6	0.5	0.6
Total expenses	85.3	64.8	31.8	29.9	117.1	94.7

Statements of activities (continued)

	Governmental Activities		Business-type Activities		Total	
	2014	2013	2014	2013	2014	2013
Increase in net position before transfers	\$ 7.1	\$ 12.4	\$ (0.8)	\$ 2.7	\$ 6.3	\$ 15.1
Transfers	-	-	-	-	-	-
Increase in net position	7.1	12.4	(0.8)	2.7	6.3	15.1
Net position, beginning of year	252.3	239.9	168.4	165.7	420.7	405.6
Net position, end of year	<u>\$ 259.4</u>	<u>\$ 252.3</u>	<u>\$ 167.6</u>	<u>\$ 168.4</u>	<u>\$ 427.0</u>	<u>\$ 420.7</u>

Governmental Activities

During the current fiscal year, net position for the City's governmental activities increased \$7.1 million from the prior fiscal year.

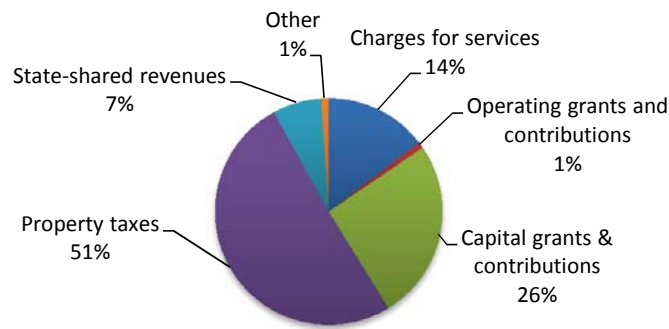

Total governmental revenue is reported at \$92.4 million, an increase of \$15.2 million from the prior year. The increase is primarily attributable to DDA pledged tax captures (\$14.9 million) to reimburse the city as principal and interest payments come due on city issued debt to refinance DDA debt obligations.

Total governmental expenses are reported at \$85.3 million, an increase of \$20.5 million from the prior year. As described above, the increase is primarily due to the issuance of debt to refinance DDA obligations.

During the year the City continued meeting the actuarial required contributions for the defined benefit pension system and the discretionary fire incentive reserve fund as well as pre-funding retiree healthcare benefits. This is important for the City because future taxpayers should not be required to fund benefit payments that were earned in the past.

Sources of Revenues - Governmental Activities

Business-type Activities

The City of Troy's business-type activities consist of water supply, sanitary sewer, aquatic center, and two municipal golf courses. Water and sanitary sewer services, classified as Major Funds, are provided to City residents through the Detroit water system and Oakland County sewerage treatment plants. Change in net position for business-type activities decreased by \$0.8 million. The Water and Sewer Funds decreased by \$132 thousand and \$153 thousand respectively. This was primarily due to significant decreases in sale volumes of 15.4% coupled with purchase rate increases of 10.5% for water and 4.9% for sewer. The City's two golf courses recorded combined operating losses of \$174 thousand and a decrease in net position of \$498 thousand after nonoperating expenses for interest on debt of \$328 thousand.

Financial Analysis of Governmental Funds

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the City's net resources available for discretionary use as they represent the portion of fund balance which has not yet been limited to use for a particular purpose by either an external party, the City Council or management.

The City's governmental funds reported combined fund balances of \$62.6 million, an increase of \$4.1 million compared to the prior year. Approximately 35.0% of this amount (\$21.9 million) constitutes *unassigned fund balance*, which is available for spending at the City's discretion. The remainder of the fund balance is either *nonspendable*, *restricted*, *committed*, or *assigned* to indicate that it is 1) not in spendable form, 2) legally required to be maintained intact, 3) restricted for particular purposes, 4) committed for particular purposes, or 5) assigned for particular purposes.

General Fund Components of Fund Balance (in millions)

The general fund is the chief operating fund of the City. At the end of the current fiscal year, unassigned fund balance of the general fund was \$21.9 million, while total fund balance increased \$833 thousand to \$37.6 million. As a measure of the general funds liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total general fund expenditures. Unassigned fund balance represents approximately 44.4% of total general fund expenditures, while total general fund balance represents approximately 76.4% of the same amount.

As mentioned, total general fund balance increased by \$883 thousand in the current fiscal year. Total revenues increased by \$711 thousand but property taxes, the General Funds largest source of revenue, remained flat compared to the prior year at \$29.6 million. Residential taxable value recognized a slight increase of 2.3% but was offset by continued declines in commercial/industrial taxable value. Expenditures increased by \$2.6 million due to increased road maintenance and snow and ice control (\$1.4 million), contracted road engineering costs (\$275 thousand) and building inspection contracted fees (\$385 thousand) for increased building permit activity.

The capital projects fund, a major fund, had an increase in fund balance of \$2.5 million during the current year. This resulted in a total fund balance of \$14.5 million at the close of the current fiscal year. It should be noted that \$3.2 million of this amount is committed to future projects.

Financial Analysis of Proprietary Funds

The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

The unrestricted net position of the water fund was \$18.5 million and sewer fund \$32.8 million at the end of the current fiscal year. The Water and Sewer Fund net positions decreased by \$132 thousand and \$153 thousand respectively. This was primarily due to the decrease in sale volumes of 15.5% or 83 mcfs (thousand cubic feet) coupled with purchase rate increases ranging from 4.9% for sewer to 10.5% for water compared to the prior year.

General Fund Budgetary Highlights

Over the course of the year, City Council amended the budget to take into account events during the year. The amendments related to revenues and expenditures from the original budget were minimal and related primarily to increases in revenues for building permit fees and expenditures related to contracted building inspection services related to those fees. A more significant change was in the area of other financing sources and uses where the City Council approved a one time transfer from the General Fund to the Capital Projects Fund of \$2.55 million for increased street repairs.

Revenues were \$872 thousand or 1.8% above amended budget amounts. Contributing factors include charges for services over the amended budget by \$772 thousand from community center passes (\$233 thousand) and engineering fees (\$425 thousand) and state sources from state shared revenues over the amended budget by \$115 thousand.

Expenditures were \$4.7 million under amended budget amounts. Expenditures by function under the amended budget include general government by \$784 thousand from personal service (\$192 thousand), tax refunds (\$122 thousand), building utilities and maintenance (\$160 thousand), contracted services (\$144 thousand) and DDA transfers (\$120 thousand). Public safety expenditures were under budget by \$3.0 million from personal service costs (\$2.6 million) and lawsuit liability claims (\$166 thousand). Public works expenditures under budget by \$303 thousand from contractual services (\$226 thousand). Community development expenditures were under budget by \$152 thousand due to personal services (\$119 thousand). Culture and recreation under budget \$480 thousand for personal services (\$415 thousand).

Capital Asset and Debt Administration

At the end of 2014, the City of Troy had \$332.8 million invested in a broad range of capital assets including land, buildings, police and fire equipment, water and sewer lines, roads, sidewalks, and other infrastructure. The increase in capital assets of \$2.1 million compared to the prior year was primarily attributable to the acquisition of new infrastructure items such as streets and the completion of the transit center over the recognition of depreciation.

The City of Troy's debt rating is excellent. The City maintains a AAA rating on unlimited tax general obligation bonds by Standard and Poor's. The City of Troy's bond indebtedness totaled \$51.1 million at June 30, 2014, an increase of \$12.5 million from the prior year due to the refinancing of DDA obligations of \$14.9 million less debt retirement payments.

Additional information about the City's capital assets and debt administration is presented in the notes to financial statements titled "Capital Assets" and "Long-Term Liabilities", respectively.

Current Economic Events

The following economic factors currently affect the City and were considered in developing the 2014/2015 three year fiscal budget.

- The millage rate for the 2014/2015 fiscal year decreased by 0.02 mills due to funding requirements for refuse collection and disposal. The decrease in mills was considered appropriate in light of the financial position of the refuse fund.
- General operating and capital improvement millage rates remained unchanged at 6.50 and 1.53 mills respectively.
- General fund property tax revenues are expected to have a slight increase of approximately \$249 thousand or 0.8%.
- General fund expenditures and transfers out are budgeted to increase by \$5.9 million from the current year actuals due to wage rate increases (1%), elimination of mandatory furlough time off, increased costs of healthcare, nine additional positions primarily in police and public works, and transfers to capital to fund an enhanced street initiative "Troy Roads Rock" and improvements to firestation #4.
- The City purchases its water and sewer services from the City of Detroit and Oakland County respectively. Historically, we have passed along the full water and sewer rate increase or decrease to our customers. The 2014/2015 budget will not recognize an increase in sewer rates but will increase water rates by 2.14%. The City's rate structure is designed to provide water and sewer service to our residents as well as pay for operations, maintenance and improvements to the system.
- The City still prides itself on having one of the lowest combined water and sewer rates of any southeastern Michigan community.

Contacting the City of Troy's Management

This financial report is intended to provide our citizens, taxpayers, customers and investors with a general overview of the City of Troy's financial condition.

If you have questions about this report or need additional information, we welcome you to contact the administrative offices at City Hall, 500 W. Big Beaver, Troy, MI. 48084. Additional information can be obtained at the City of Troy's web site, www.troymi.gov.

CITY OF TROY, MICHIGAN

Reconciliation

Fund Balances for Governmental Funds to Net Position of Governmental Activities June 30, 2014

Fund balances - total governmental funds	\$ 62,617,743
--	---------------

Amounts reported for *governmental activities* in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.

Add: capital assets not being depreciated	42,284,285
Add: capital assets being depreciated	393,849,812
Deduct: accumulated depreciation	(235,215,210)

Contributions to Trust Funds in excess of actuarially required amounts create an asset that can be applied to future required contributions in the statement of net position but are not financial resources and therefore are not reported in the funds.

Add: other postemployment benefits asset	2,881,139
--	-----------

Because the focus of governmental funds is on short-term financing, some assets will not be available to pay for current-period expenditures. Those assets (such as certain receivables) are offset by deferred inflows in the governmental funds, and thus are not included in fund balance.

Add: deferred inflows	15,226,899
-----------------------	------------

Internal service funds are used by management to charge the costs of certain equipment usage, public service department and retiree health care costs to individual governmental funds. A portion of the assets and liabilities of the internal service funds are included in governmental activities in the statement of net position.

Add: net position of governmental activities accounted for in the internal service funds.	14,620,381
Add: due from business-type activities for internal service fund activities	44,391

Certain liabilities, such as bonds payable, are not due and payable in the current period and therefore are not reported in the funds.

Deduct: accrued interest payable	(301,348)
Deduct: bonds payable and related premiums	(35,575,364)
Deduct: claims incurred but not reported	(1,012,275)

Net position of governmental activities	<u>\$ 259,420,453</u>
---	-----------------------

The accompanying notes are an integral part of these basic financial statements.

CITY OF TROY, MICHIGAN

Reconciliation

Net Changes in Fund Balances of Governmental Funds
to Change in Net Position of Governmental Activities
For the Year Ended June 30, 2014

Net change in fund balances - total governmental funds \$ 4,125,015

Amounts reported for *governmental activities* in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Add: capital outlay	13,731,933
Deduct: depreciation expense	(12,232,438)
Deduct: net effect of various miscellaneous transactions involving capital assets (i.e. sales, etc.)	(3,140)

Pension contributions in excess of actuarially determined amounts are reported as expenditures. However, these expenditures are not recognized until they are actuarially required in the statement of activities.

Deduct: net difference in other postemployment benefits asset	(227,734)
---	-----------

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds, but rather are deferred inflows to the following fiscal year.

Add: net difference in deferred inflows for property taxes	20,230
Deduct: deferred inflow change for long-term receivable	(14,945,000)

Bond proceeds provide current financial resources to governmental funds in the period issued, but issuing bonds increases long-term liabilities in the statement of net position. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.

Deduct: issuance of long-term debt	14,945,000
Add: principal payments on long-term liabilities	2,691,746
Deduct: premium from bond issuance	(736,653)

Internal service funds are used by management to charge the costs of certain equipment, public service department and employee insurance costs to individual governmental funds. The net revenue attributable to those funds are reported with governmental activities.

Deduct: net loss from governmental activities in the internal service funds	(375,709)
---	-----------

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the funds.

Add: decrease in accrued interest expense and amortization of bond premiums	61,157
Add: decrease in accrued claims payable	30,016

Change in net position of governmental activities	<u>\$ 7,084,423</u>
---	---------------------

The accompanying notes are an integral part of these basic financial statements.

NOTES TO FINANCIAL STATEMENTS

CITY OF TROY, MICHIGAN

Notes to Financial Statements

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Troy, Michigan have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The following is a summary of the significant accounting policies:

Description of government-wide financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the City and its component units. All fiduciary activities are reported only in the fund financial statements. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

Reporting Entity

The City of Troy, Michigan was incorporated in 1955, and was formerly known as Troy Township since it was organized in 1821. The City is governed by an elected mayor and six-member council.

As required by generally accepted accounting principles, these financial statements present the City of Troy and its component units, entities for which the government is considered to be financially accountable.

Component Units

Discretely presented component units. Are legally separate entities, but are not in substance part of the government operation. The City of Troy has three component units, the Downtown Development Authority, Brownfield Redevelopment Authority and the Local Development Financing Authority, which meet the criteria for discretely presented component units. The Authorities are also reported in a separate column in the government-wide financial statements to emphasize that they are legally separate from the City. Financial statements for each of the individual component units are included in the supplemental information section as listed in the table of contents of this report. Separately issued audited financial statements are not available.

The purpose of the Downtown Development Authority is to issue bonds and use tax increment financing in the accomplishment of specific Downtown Development improvements to City-owned facilities and infrastructure, which are contained in the locally adopted development plan. The Downtown Development Authority may participate in projects for private development as long as it is for a public purpose. The Authority's governing body, which consists of thirteen individuals, is selected by the City Council. In addition, the City Council sets the annual budget.

The purpose of the Brownfield Redevelopment Authority is to provide assistance for the redevelopment of abandoned, idled, or under-utilized industrial or commercial properties, which are complicated by real or perceived environmental contamination. The Authority's governing body, which consists of seven individuals, is selected by the City Council. In addition, the City Council sets the annual budget for the Authority.

The Local Development Financing Authority is a multi-jurisdictional authority that was established to encourage local development in order to prevent conditions of unemployment and to promote economic growth. The Authority's governing body, which consists of five individuals, is selected by the City Council. In addition, the City Council sets the annual budget.

Notes to Financial Statements

Basis of Presentation - Government-Wide Financial Statements

The statement of net position and the statement of activities are prepared using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets, and liabilities resulting from non-exchange transactions are recognized in accordance with the Governmental Accounting Standards Board Statement No. 33.

The statement of net position and the statement of activities display information about the City as a whole. The statements include all funds of the primary government and its component units, except for its fiduciary funds. Those funds are reported in the statements of fiduciary net position and changes in fiduciary net position.

The statement of net position and the statement of activities are presented to distinguish between governmental and business-type activities of the City. Governmental activities are financed through taxes, intergovernmental revenues and other non-exchange revenues. These activities are reported in governmental and internal service funds. Business-type activities are financed by fees charged to external parties for goods or services. These activities are reported in the City's enterprise funds.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Capital assets are reported in the government-wide statements at historical cost. Capital assets include land, improvements to land, buildings, building improvements, vehicles, machinery, equipment, library collection, infrastructure and all other tangible or intangible assets that are used in operations and have initial useful lives beyond a single reporting period. Infrastructure assets are long-lived capital assets that normally can be preserved for a significantly greater number of years than most capital assets.

Capital assets that are being depreciated are reported net of accumulated depreciation in the statement of net position. Capital assets not being depreciated, such as land and construction in progress, are reported separately.

Capital assets are depreciated over their estimated useful lives. Depreciation expense is reported in the statement of activities by allocating the net cost over the estimated useful life of the asset. Assets are depreciated on an individual basis for equipment and buildings. Roads are depreciated as a class with each class containing items based on their date of construction or reconstruction. Sidewalks are depreciated by class with each class containing items based on the year of construction.

CITY OF TROY, MICHIGAN

Notes to Financial Statements

Basis of Presentation - Fund Accounting

The accounts of the City are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures, or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the government's water and sewer function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Governmental Funds

The City reports the following major and nonmajor governmental funds:

Major Governmental Funds

General Fund. The general fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

Debt Service - Series 2013. This fund is used to account for proceeds received by the City from the Troy Downtown Development Authority (TDDA). The proceeds are to reimburse the City for principal and interest payments on City issued debt to refinance debt originally issued by the TDDA.

Capital Project Fund. The capital projects fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds).

Nonmajor Governmental Funds

Special Revenue Funds. Special revenue funds are used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditures for specified purposes.

Debt Service Funds. Debt Service Funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

Permanent Funds. Permanent funds are used to account for the resources that are legally restricted to the extent that only earnings, and not principal, may be used for the benefit of the government or its residents. The City has one permanent fund for cemetery perpetual care.

Proprietary Funds

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water and sewer funds, Aquatic Center, golf course funds and the City's internal service funds are charges to customers for sales and services. Operating expenses for the enterprise funds and internal service funds include the cost of sales and service, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. Proprietary funds focus on limitations on the use of net position, rather than on the source of those assets.

CITY OF TROY, MICHIGAN

Notes to Financial Statements

The following proprietary funds are reported:

Enterprise Funds

Enterprise Funds are used to account for City operations which are similar to those often found in the private sector, where the determination of net income is necessary or useful to sound financial administration.

The City reports the following major enterprise funds:

Water Fund. The water fund accounts for the operation and maintenance of the City's water supply system, capital additions and improvements.

Sanitary Sewer Fund. The sanitary sewer fund accounts for the operation and maintenance of the City's sewage disposal system, capital additions and improvements.

Sanctuary Lake Golf Course. The Sanctuary Lake golf course fund accounts for the operations of the new 18-hole links style course with practice facility.

Internal Service Funds

Internal Service Funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the City or other governments, on a cost-reimbursement basis.

The City operates six internal service funds. The unemployment and workers' compensation funds account for insurance costs provided to and charged to other departments. The compensated absences fund accounts for the accrual of sick and vacation by all departments. The information technology fund provides computer services, training and equipment to all departments on a cost reimbursement basis. The motor equipment fund rents vehicles and equipment to departments on a cost reimbursement basis. The custodial services fund provides services to all funds on a cost reimbursement basis.

Fiduciary Funds

Pension and Other Postemployment Benefits Trust Funds

Pension Funds are used to account for assets held by the City in a trustee capacity for the benefit of retirees and their beneficiaries. These include the employees' retirement system trust fund, the retiree health care trust fund and the discretionary fire incentive reserve fund. These funds are accounted for in essentially the same manner as proprietary funds, since capital maintenance is critical. They accumulate resources for benefits to qualified employees and volunteers during retirement.

Trust and Agency Fund

The trust and agency fund is custodial in nature (assets equal liabilities) and does not involve measurement of results from operations. Fund activity includes tax collections for other taxing jurisdictions for which the City collects taxes and contractors performance deposits.

Notes to Financial Statements

Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources* measurement focus and the *full accrual* basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

All governmental fund financial statements are reported using the *current financial resources* measurement focus and the *modified accrual* basis of accounting. Their revenues are recognized when they become measurable and available.

Revenues are generally considered available when they are received in cash (unless legally restricted to some future period) or when earned and expected to be collected soon enough after year end to pay liabilities of the current period. For this purpose, the City generally considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. The exception to this is state shared revenues and expenditure driven grants in which revenues are recognized if received within 90 days and one year of the end of the fiscal period, respectively. Significant revenues susceptible to accrual include reimbursement grants, state shared revenues and charges for services.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred provided the liability normally would be liquidated with expendable available financial resources. The major exception to this general rule is principal and interest on general long-term debt which is recognized when due.

Certain indirect expenditures are included in the program expense reported for individual functions and activities.

All governmental funds are accounted for on a spending or "*current financial resources*" measurement focus. This means that generally only current assets and current liabilities are included on their balance sheets. Their reported fund balance (net current assets) is considered a measure of "available spendable resources". Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financial uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during a period.

All proprietary funds, pension and retiree health care trust funds and the trust and agency fund are accounted for using the *full accrual* basis of accounting. Their revenues are recognized when they are earned, and their expenses are recognized when they are incurred. Unbilled water and sewer fund utility service receivables are recorded at year-end.

All proprietary funds, pension and retiree health care trust funds are accounted for on a cost of services or "*economic resources*" measurement focus. This means that all assets and all liabilities (whether current or noncurrent) associated with their activity are included on their statements of net position. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in total net position.

CITY OF TROY, MICHIGAN

Notes to Financial Statements

Budgetary Information

The City is legally subject to the budgetary control requirements of the State of Michigan P.A. 621 of 1978 (the Uniform Budgeting Act). The following is a summary of the requirements of this Act according to the State Treasurer's "Bulletin for Audits of Local Units of Government in Michigan" dated April 1984:

1. Budgets must be adopted for the general fund and special revenue funds.
2. The budgets must be balanced.
3. The budgets must be amended when necessary.
4. Public hearings must be held before budget adoptions.
5. Expenditures cannot exceed budget appropriations.
6. Expenditures must be authorized by a budget before being incurred.

The City adopts its budget by function, which is in accordance with the State's legal requirement and is the level of classification detail at which expenditures may not legally exceed appropriations.

The City follows these procedures in establishing the budgetary data reflected in the financial statements.

1. On or before the third Monday in April, the City Manager submits to the City Council a proposed budget for the fiscal year commencing the following July 1st. The operating budget includes proposed expenditures and the means of financing them.
2. A public hearing on the budget is held before its final adoption.
3. As provided for by the City Charter, on or before the third Monday in May, the budget is legally adopted and by resolution designates the sum to be raised by taxation.
4. The City Manager is authorized to transfer budgeted amounts within budgetary functions; however, any revisions that alter the total expenditure of any budgetary function must be approved by the City Council.

Budget amounts of the revenues and expenditures presented for the governmental funds are a summarization of the budgeted amounts as originally adopted or as amended by the City Council. Individual amendments were not material in relation to the original appropriations that were adopted, for the general and special revenue funds. Budget appropriations lapse at year end. During the current year, the budget was amended in a legally permissible manner. Budgets have been prepared on a basis consistent with generally accepted accounting principles (GAAP).

Assets, liabilities, deferred outflows/inflows of resources, and net position/fund balances

Cash and Investments

The City maintains an investment pool for all City funds. Each fund's portion of the investment pool along with any individual fund investments are displayed on the statements of net position or balance sheet as "cash and investments".

Cash and cash equivalents include cash on hand, demand deposits, and short-term investments with a maturity date of three months or less at the date acquired by the City.

Investments are stated at fair value. For fair value, securities traded on a national exchange are valued at the last reported sales price.

CITY OF TROY, MICHIGAN

Notes to Financial Statements

The investment policy adopted by the Troy City Council, in accordance with Public Act 201 of 1943, as amended, authorizes investments in all of the investment vehicles noted above with the provision that authorized depositories shall be designated by the Troy City Council.

The pension and retiree health care trust funds are authorized by Michigan Public Acts 314 of 1965, Public Act 485 of 1996 and Public Act 149 of 1999 to invest in certain reverse repurchase agreements, real estate leased to public agencies, stocks, diversified investment companies, annuity investment contracts, mortgages, certain state and local government obligations, and certain other specified investment vehicles.

Inventories and Prepaid Items

Inventory is stated at cost determined on a first-in, first-out basis which approximates market value. Inventories in the governmental funds are recorded as expenditures when the inventory item is consumed. Inventories are equally offset by a nonspendable fund balance designation which indicates that such amounts do not constitute "available spendable resources".

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than purchased.

Capital Assets

Capital assets, which include property, buildings, equipment and infrastructure assets (e.g., roads, bridges, sidewalks and similar items), are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial individual cost of more than \$10,000 (\$5,000 for federally funded projects) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation and infrastructure acquired prior to fiscal year ended June 30, 1980 is not reported in capital assets.

Capital assets are depreciated using the straight-line method over the following useful lives:

Assets Classification	Estimated Useful Life
Buildings	50 years
Water and sewer transmission and distribution system	50 years
Service connections	20 years
Infrastructure	20 - 25 years
Land improvements	10 years
Building improvements	20 years
Golf course equipment	3 - 10 years
Furniture and fixtures	3 - 10 years
Vehicles and miscellaneous equipment	2 - 20 years

Accrued Vacation and Other Compensated Absences

The City maintains an internal service fund to account for the accumulation of resources for, and the payment of, vacation, compensatory time, holiday and sick pay. These amounts along with the associated benefit costs are fully accrued in the compensated absences fund. Departments are charged by the internal service fund when the benefits are earned and a liability incurred.

Long-Term Obligations

In the government-wide financial statements and the proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund-type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of material bond premium or discount. Material bond loss from issuance are reported as deferred outflows and amortized over the term of the related debt.

Deferred Outflows/Inflows of Resources

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts and issuance costs are reported as debt service expenditures.

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expenditure/expense) until then. The City has one deferred outflow which represents the deferred loss from debt refinancing activities in business-type activities.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The City has only one type of item, which arises only under a modified accrual basis of accounting, that qualifies for reporting in this category. Accordingly, the item, *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from only one source: delinquent personal property taxes. This amount is deferred and recognized as an inflow of resources in the period that the amount becomes available.

Net Position Flow Assumption

Sometimes the City will fund outlays for a particular purpose from both restricted and unrestricted resources. In order to calculate the amounts to report as *restricted - net position* and *unrestricted - net position* in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider *restricted - net position* to have been depleted before *unrestricted - net position* is applied.

Fund Balance Flow Assumption

Sometimes the City will fund outlays for particular purpose from both restricted and unrestricted resources (i.e. committed, assigned and unassigned). In order to calculate the amounts to report as restricted, committed, assigned and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

CITY OF TROY, MICHIGAN

Notes to Financial Statements

Fund Balance Policies

Governmental funds report nonspendable fund balance for amounts that cannot be spent because they are either (a) not in spendable form (i.e. inventory or prepaid expenditures) or (b) legally or contractually required to be maintained intact (i.e. corpus of permanent funds). Restricted fund balance is reported when externally imposed constraints are placed on the use of resources by grantors, contributors, or laws or regulations of other governments. Committed fund balance is reported for amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority, the City Council. A formal resolution of the City Council is required to establish, modify, or rescind a fund balance commitment. The City reports assigned fund balance for amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed. The City Manager is authorized to assign fund balance under the current fund balance policy adopted by resolution by City Council. Unassigned fund balance is the residual classification for the general fund.

The City has established a policy to maintain a minimum unassigned fund balance for the General Fund at a level of 20% to 30% of annual expenditures. This is to provide stability and flexibility to respond to unexpected adversity and/or opportunities. The use of fund balance is appropriate as part of a financial plan and one-time expenditures. If unassigned fund balance falls below or grows above the established policy range, the City Manager will present a financial plan, typically as part of the fiscal budgeting process, to address the deficiency or surplus of unassigned fund balance.

2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

State Construction Code Act

The City oversees building construction, in accordance with the State Construction Code Act, including inspection of building construction and renovation to ensure compliance with the building codes. The City charges fees for these services. The law requires that collection of these fees be used only for construction code costs, including an allocation of estimated overhead costs.

A summary of the current year activity and the cumulative shortfall generated since July 1, 2001 is as follows:

Shortfall at July 1, 2013	\$ (5,948,811)
Current year building permit revenue	<u>\$ 2,653,442</u>
Related expenses:	
Direct costs	2,155,490
Estimated indirect costs (8%)	<u>172,440</u>
Total construction code expenses	<u>2,327,930</u>
Net surplus for the year ended June 30, 2014	<u>325,512</u>
Cumulative shortfall at June 30, 2014	<u><u>\$ (5,623,299)</u></u>

CITY OF TROY, MICHIGAN

Notes to Financial Statements

Expenditures in Excess of Appropriations

For the year ended June 30, 2014, expenditures exceeded appropriations in the building inspection function (the legal level of budgetary control) by \$211,230. Although the building inspection overspending is a direct result of contractor fees generated by the increase in permit revenues received by the city, it is nevertheless considered a budgetary violation.

3. DEPOSITS AND INVESTMENTS

Statutory Authority

State statutes authorize the City to make limited investments of non-pension surplus funds authorized by Michigan Public Act 20 of 1943, as amended), and may invest in the following:

- a. Bonds, securities, other obligations and repurchase agreements of the United States, or an agency or instrumentality of the United States.
- b. Certificates of deposit, savings accounts, deposit accounts or depository receipts of a qualified financial institution.
- c. Commercial paper rated at the time of purchase within the two highest classifications established by not less than two standard rating services and that matures not more than 270 days after the date of purchase. Not more than fifty percent of any fund may be invested in commercial paper at any time.
- d. Bankers acceptances of United States banks.
- e. Obligations of the State of Michigan or any of its political subdivisions that, at the time of purchase are rated as investment grade by at least one standard rating service.
- f. Mutual funds registered under the Investment Company Act of 1940 with the authority to purchase only investment vehicles that are legal for direct investment by a public corporation.
- g. External investment pools as authorized by Public Act 20, as amended.

CITY OF TROY, MICHIGAN

Notes to Financial Statements

Summary of Deposit and Investment Balances

The following is a reconciliation of deposit and investment balances segregated by cash and cash equivalents and investments as of June 30, 2014.

Cash and Investments	Deposits	Investments	Cash on Hand	Total
Government-wide				
Cash and equivalents	\$ 49,973,462	\$ 1,695,593	\$ 14,825	\$ 51,683,880
Investments	13,094,733	59,933,603	-	73,028,336
Fiduciary funds				
Cash and equivalents	15,530,295	-	-	15,530,295
Investments	-	250,283,300	-	250,283,300
Component units				
Cash and equivalents	603,065	-	-	603,065
Total	<u>\$ 79,201,555</u>	<u>\$ 311,912,496</u>	<u>\$ 14,825</u>	<u>\$ 391,128,876</u>

Deposit and Investment Risk

Deposits

Custodial Credit Risk - Deposits. Custodial credit risk is the risk that in the event of a bank failure, the City of Troy deposits may not be returned. State law does not require and the City's investment policy does not directly address a deposit policy for custodial credit risk. At year end, \$73,252,418 of the City of Troy's bank deposits (certificates of deposit, checking, and cash) of \$79,201,555 was exposed to custodial credit risk because they were uninsured and uncollateralized. The City believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all deposits. As a result, the City evaluates each financial institution with which it deposits funds and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

Investments

Interest Rate Risk. Interest rate risk is the risk that the value of fixed income investments will decrease as a result of a rise in interest rates. State law limits the allowable investments and the maturities of some of the allowable investments. The City of Troy's investment policy does not have specific limits in excess of state law on investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

At year end, the average maturities of fixed income security investments are as follows:

Investment	Fair Value	Average Maturity
Government-wide		
US Government or agency bond/note	\$ 52,906,710	Over 10 years
Municipal bonds	4,963,302	5-10 years
Fiduciary funds		
US Government or agency bond/note	7,277,575	Over 10 years
Municipal bonds	191,788	Over 10 years
Corporate bonds	12,235,420	5-10 years

CITY OF TROY, MICHIGAN

Notes to Financial Statements

Credit Risk. State law limits investments to specific government securities, certificates of deposits and bank accounts with qualified financial institutions, commercial paper with specific maximum maturities and ratings when purchased, bankers acceptances of specific financial institutions, qualified mutual funds and qualified external investment pools. The City of Troy investment policy does not have specific limits in excess of state law on investment credit risk. As of year-end, the credit quality ratings of fixed income securities are as follows:

	Primary Government	Fiduciary Funds	Total
AAA	\$ -	\$ 235,544	\$ 235,544
AA to AA-	56,295,012	8,215,125	64,510,137
A to A-	1,575,000	9,123,202	10,698,202
BBB to BBB-	-	1,981,212	1,981,212
BB to BB-	-	149,700	149,700
B to B-	-	-	-
CCC or below	-	-	-
Total	<u>\$ 57,870,012</u>	<u>\$ 19,704,783</u>	<u>\$ 77,574,795</u>

Custodial Credit Risk - Investments. For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the City of Troy will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. State law does not require and the City of Troy does not have a policy for investment custodial credit risk. At year end none of the City's investments were subject to custodial credit risk due to one of the following:

- Investments were part of an insured pool
- Investments were book-entry only in the name of the City and were fully insured
- Investments were part of a mutual fund
- Investments were held by an agent in the City's name

Concentration of Credit Risk. In compliance with State law, the City's investment policy limits investments to the top two ratings issued by nationally recognized statistical rating organizations. Through its investment policy, the City places a five percent limit on the amount the City may invest in any one issuer.

CITY OF TROY, MICHIGAN

Public works	7,808,635
Community and economic development	31,492
Recreation and culture	764,486

Total depreciation expense - governmental activities \$ 12,902,986

CITY OF TROY, MICHIGAN

Notes to Financial Statements

Depreciation of business-type activities by function	
Water	\$ 2,178,539
Sanitary Sewer	2,563,897
Aquatic Center	159,759
Sylvan Glen Golf Course	145,228
Sanctuary Lake Golf Course	331,580
	<hr/>
Total depreciation expense - business-type activities	<u>\$ 5,379,003</u>

6. INTERFUND ADVANCES AND TRANSFERS

The amounts of interfund advances transfers are as follows as of June 30, 2014:

	Advanced to Other Funds	Advanced from Other Funds
General Fund	\$ 3,174,584	\$ -
Enterprise Funds		
Aquatic Center Fund	-	180,302
Sanctuary Lake Golf Course Fund	-	6,137,512
Sylvan Glen Course Fund	3,143,230	-
	<hr/>	<hr/>
Total	<u>\$ 6,317,814</u>	<u>\$ 6,317,814</u>

Advances represent cash flow assistance from mainly the general fund and sylvan glenn golf course to meet operating and/or debt service requirements of the sanctuary lake golf course and aquatic center. The aquatic center is expected to continue to decrease the interfund advance, however, the advance to sanctuary lake golf course is not expected to be reduced in the subsequent year.

Interfund transfers reported in the fund statements are as follows as of June 30, 2014:

Transfers out	Transfers In			
	General Fund	Capital Projects Fund	Nonmajor Governmental	Totals
General	\$ -	\$ 3,550,000	\$ -	\$ 3,550,000
Capital projects fund	-	-	264,025	264,025
Nonmajor governmental funds	3,932,042	2,446,751	3,099,340	9,478,133
Internal Service	450,000	-	-	450,000
	<hr/>	<hr/>	<hr/>	<hr/>
Total	<u>\$ 4,382,042</u>	<u>\$ 5,996,751</u>	<u>\$ 3,363,365</u>	<u>\$ 13,742,158</u>

CITY OF TROY, MICHIGAN

Notes to Financial Statements

General Fund

Transfers to the Capital Projects Fund are for an accelerated road improvement strategy to enhance the city's infrastructure.

Capital Projects Fund

Transfers to nonmajor governmental funds are for debt service payments on MTF (Michigan Transportation Fund) bonds.

Nonmajor Governmental Funds

Major streets fund transfers to the general fund are for routine road maintenance in the amount of \$2,149,404. Major streets fund transfers to the capital projects fund of \$1,800,000 represents funding of road improvements. Major streets fund transfer to the local streets fund of \$97,196 represents allowable redirection of state funding. Local streets fund transfer to the general fund are for routine road maintenance in the amount of \$1,761,276. The Cemetery Care fund transfer to the general fund of \$21,362 is for routine maintenance at the cemetery. Drug forfeiture fund transfers to capital projects fund of \$8,000 represents reimbursement for qualified public safety expenditures. Library fund transfers to the capital projects fund of \$638,751 represent book and other capital purchases. General debt service fund transfers to Proposal A, B, and C debt service funds in the amount of \$3,002,144 are for principal and interest payments on outstanding debt.

Internal Service Fund

Transfer to the General Fund represents reimbursement for administrative services.

7. LEASE OBLIGATIONS

A. Operating Lease

The City leases copy machines and telephones which are being treated as operating leases. The leases have various terms of three to four years and the future minimum lease payments remaining on these leases are as follows:

Year Ended June 30,	Amount
2015	\$ 33,771
2016	12,542
2017	2,402
2018	400
2019	-

Lease costs for the year ended June 30, 2014, were \$41,957.

B. Capital Lease

The City entered into a lease agreement as lessee for financing the acquisition of golf carts for both Sylvan Glenn and Sanctuary Lake Golf Courses in March 2013. The equipment was valued at \$499,876 with a five (5) year useful life. This year, \$49,988 was included in depreciation expense. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of future minimum lease payments as of the inception date.

CITY OF TROY, MICHIGAN

Notes to Financial Statements

The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2014, were as follows:

	Year Ended June 30,	Amount
	2015	\$ 107,650
	2016	107,650
	2017	107,650
	2018	71,766
Total minimum lease payments		394,716
Less: amount representing interest		(21,144)
Present value of minimum lease payments		<u>\$ 373,572</u>

8. LONG-TERM LIABILITIES

2031	1,275,000	227,906	-	-	1,502,906	
2032	1,275,000	160,969	-	-	1,435,969	
2033	1,275,000	94,031	-	-	1,369,031	
2034	1,275,000	30,273	-	-	1,305,273	
Total	\$ 34,873,790	\$ 12,487,011	\$ 10,105,000	\$ 1,979,239	\$ 59,445,040	

It is the intent of the City that all payments relating to primary government obligations will be made from revenues generated from operations of the respective funds. The City has pledged its full faith and credit for the debt if revenues are insufficient to meet the obligations of all general obligation bonds.

Component Units

The following is a summary of long-term liability transactions of the City's component units for the year ended June 30, 2014:

Component Units	Beginning Balance	Additions	Deductions	Ending Balance	Due Within One Year
Downtown Development Auth.					
General obligation bonds					
Big Beaver - Series 2001	\$ 6,170,000	\$ -	\$ (6,170,000)	\$ -	\$ -

CITY OF TROY, MICHIGAN

Notes to Financial Statements

Advance Refunding/Defeased Debt

During the 2014 fiscal year, the City issued Series 2013 general obligation bonds in the amount of \$14,945,000 to refund Troy Downtown Development Authority (TDDA) debt outstanding including \$6,170,000 of 2001 Big Beaver bonds, \$4,255,000 of 2001 refunding bonds, \$4,500,000 of 2002 Community Center Facilities bonds and \$2,525,000 of 2003 Community Center Facilities bonds. In return, the TDDA has pledged future incremental tax captures to reimburse the city for principal, interest and service fees incurred by the city in servicing this debt requirement. As a result, the refunded bonds are considered to be defeased and the liability has been removed from long-term debt. This refunding along with a restructure of the TDDA district was designed to assure sufficient cash flows to meet debt requirements. The refunding resulted in a cash savings of \$4,812,028 and an economic gain of \$2,012,261. The bonds were called on November 1, 2013. Accordingly, no defeased bond are outstanding at year-end.

9. NET POSITION/FUND BALANCE CLASSIFICATIONS

Net Position

Net position has been restricted for (a) debt service, based upon bond indenture agreements and the City's understanding that bond proceeds generated by these funds are only to be spent on specified construction or the retirement of related debt, (b) replacements and extensions based upon bond indenture agreements or the limited purpose for which a fund was established, and (c) capital assets net of any outstanding debt.

Restricted for Pension and Other Employee Benefits

The related amount restricted in the Fiduciary Fund reserve is largely comprised of equity recorded in the pension trust fund. In addition, equity is set aside to pay for sick pay and vacation pay in the internal service funds.

Fund Balance

As noted in Note 1 - *"Summary of Significant Accounting Policies"*, The City classifies fund balance by level of constraints imposed on resources by either external or internal factors or the form in which the resources exist.

CITY OF TROY, MICHIGAN

Notes to Financial Statements

The following is a summary of these constraints on fund balances:

	General Fund	Capital Projects Fund	Nonmajor Funds	Total
Nonspendable				
Inventory & prepaids	\$ 1,242,944	\$ -	\$ 65,377	\$ 1,308,321

CITY OF TROY, MICHIGAN

Notes to Financial Statements

10. RISK MANAGEMENT

The City has entered into a Public Entity Risk Pool with other Michigan units of government as an individual member for its general liability, property damage insurance including auto and public officials liability and contractors equipment. The City's maximum deductible for property coverage is \$11,000 per occurrence. The liability maximum self-insured retention is \$500,000 per occurrence with an aggregate stop loss of \$1,000,000 per policy year for both property and liability.

The City accounts for transactions related to these risks in accordance with GASB No. 10, *Accounting and Financial Reporting for Risk Financing and Related Insurance Issues*, which states that a liability for claims must be reported if information prior to the issuance of the financial statements indicates it is probable that a liability has been incurred at the date of the financial statements, and the amount of the loss can be reasonably estimated.

No settlements have exceeded insurance coverage during the last three years. The City has made no significant reductions in insurance coverage during the year. The City has received no indication that any significant losses exist at June 30, 2014.

The following are the changes in Incurred But Not Reported (IBNR) estimates:

Year Ending June 30,	Beginning Balance	Additions	Deductions	Ending Balance
2012	\$ 947,375	\$ 4,092,611	\$ (3,816,084)	\$ 1,223,902
2013	1,223,902	4,748,286	(4,929,897)	1,042,291
2014	1,042,291	6,155,026	(6,185,042)	1,012,275

The City has also entered into a public entity risk pool with other Michigan units of government for its workers compensation insurance.

11. LITIGATION AND CONTINGENT LIABILITIES

Litigation

The City is a defendant to various claims, legal actions and complaints arising in the ordinary course of business. The City of Troy denies the allegations and plans a vigorous defense. In the opinion of legal counsel, all such matters as indicated above are adequately covered by insurance, or if not so covered, are without merit or of such kind, or involve such amounts that an unfavorable disposition would not have a material effect on the financial position of the City.

Tax Appeals to the Michigan Tax Tribunal

The City has several outstanding property tax assessment appeals totaling approximately \$87,309,240 in contended taxable values to the Michigan Tax Tribunal. If the City is not successful with a portion of these appeals, the City of Troy's share of the tax to be refunded would be the levied rate (approximately \$10 per thousand of assessed value) plus interest. The amount of refund (if any) cannot be determined as of June 30, 2014.

CITY OF TROY, MICHIGAN

Notes to Financial Statements

12. PROPERTY TAXES

Property taxes are recorded on the modified accrual basis of accounting and are levied, and become a lien on July 1st on the taxable valuation of the property located within its boundaries as of the preceding December 31st. Taxable value is determined by the prior year's taxable value plus 5% or the Consumer Price Index whichever is less, starting with the 1994 state equalized value as the base taxable value. Assessed values are equalized by the State, to closely approximate fifty percent of estimated current market value. The final taxable value of real and personal property subject to property tax within the City for the fiscal 2013-2014 levy was \$4,246,632,886. The City's operating tax rate was 6.50 mills for the same year with additional mills of 1.09 for refuse removal and disposal, 0.70 for library operations, 0.7 for debt service, and 1.53 for capital preservation and improvements.

In addition to collecting their own taxes, the City also acts as collection agent for all overlapping governments and school districts within its boundaries, which includes seven school districts, two intermediate school districts, a community college, and Oakland County.

City taxes are received in one installment, collectible from July 1st to September 1st. Any real property taxes not paid by March 1st, following the due date, are reimbursed by the County. The County Treasurer takes over collection responsibility at that date, as well as delinquent personal property taxes.

The City is occasionally ordered by the Michigan Tax Tribunal to refund taxes already collected and recorded into revenue. It is, therefore, the City's policy to compensate for doubtful accounts, as well as refunds of taxes already collected through use of an allowance for doubtful taxes receivable and as assigned general fund balance.

13. EMPLOYEE RETIREMENT SYSTEM AND PLAN

Summary of Significant Accounting Policies

The employee retirement system financial statements are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions to each plan are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan.

Method used to value investments. Investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates.

Plan Description

Plan Administration. The City of Troy Employee Retirement System (TERS), under the authorization of the City Code chapter 10, administers the city's employee pension plan covering all full-time general and public safety employees of the city. The single-employer defined benefit plan provides retirement benefits based on credited service time and average compensation with death and disability benefits, and under some circumstances, payments to dependents.

CITY OF TROY, MICHIGAN

Notes to Financial Statements

Management of the pension plan is vested in the TERS Board, which consists of seven voting members and one non-voting ex-officio member. Two of the voting members are designated by their position which includes the City Manager and City Director of Financial Services. Three of the voting members are elected by plan members. One voting member of City Council as selected by the Council and one voting citizen, who is an elector of the city and who is not a member of the system and who is not a member of City Council as appointed by City Council. Of the five employee members, two must be members of the defined benefit plan.

Plan Membership. At December 31, 2013 pension plan membership consisted of the following:

Group	Members
Retirees and beneficiaries currently receiving benefits	325
Vested terminated employees	10
Active employees	58
Total members	393

The defined benefit pension plan is closed to new members.

Benefits Provided. The pension plan provides retirement, disability and death benefits.

General plan members. Retirement benefits are calculated as 2.25% of the average of the member's best 3-year eligible wages over the last ten years times the member's years, and fractions thereof, of service. Members between the ages of 50 and 62 will receive an additional benefit equal to the amount if the calculation used a multiplier .25% greater. A member who has 27 or more years of service may retire on or after attainment of age 50. A member who has 25 years of service may retire on or after attainment of age 55. Members of the Troy Fire Staff Officers Association may retire at any age with 25 years of service.

General plan members are eligible for non-duty disability benefits after 10 years of service (AFSCME and MAP members 5 years of service) and for duty-related disability benefits upon hire. Disability retirement benefits are determined in the same manner as retirement benefits but are payable immediately and shall not be less than the amount it would be if they had attained 10 years of credited service.

General plan member widows and dependent children are eligible for non-duty death benefits if the member has 10 or more years of credited service. Benefits are calculated as if the member retired the preceding day of death using the pension calculation above. Duty death benefits are calculated in the same manner as non-duty death benefits with the exception that pension benefits cannot be less than 25% of the members final average compensation. Duty death benefits for members of the Troy Fire Staff Officers Association cannot be less than 50% of the members final average compensation.

Public safety members which includes Troy Police Officers Association and Troy Command Officers Association. Retirement benefits are calculated as 2.8% for the first 25 years and 1% per year thereafter of the average of the member's best 3-year eligible wages over the last ten years times the member's years, and fractions thereof, of service. The pension benefit is capped at 75% of final average compensation. A member may retire at any age with 25 or more years of service.

Public safety members are eligible for non-duty disability benefits after 5 years of service and for duty-related disability benefits upon hire. Non-duty disability retirement benefits are determined in the same manner as retirement benefits but are payable immediately and shall not be less than the amount it would be if they had attained 10 years of credited service. Duty disability benefits shall not be less than two-thirds of final average compensation during the period they are in receipt of worker's compensation.

CITY OF TROY, MICHIGAN

Notes to Financial Statements

Public safety members widows and dependent children are eligible for non-duty death benefits if the member has 10 or more years of credited service. Benefits are calculated as if the member retired the preceding day of death using the pension calculation above. Duty death benefits are calculated in the same manner as non-duty death benefits with the exception that pension benefits cannot be less than 50% of the members final average compensation.

Contributions. Employee contributions for classified and exempt employees is 5% of eligible wages. Members of collective bargaining groups contribution are directed by contract. The Board establishes rates based on an actuarially determined rate recommended by an independent actuary. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by plan members during the year, with an additional amount to finance any unfunded accrued liability. The City is required to contribute the difference between the actuarially determined rate and the contribution rate of plan members. For the year ended June 30, 2014, the average active member contribution rate was 3.4% of eligible wages, and the City's average contribution rate was 36.6% of annual eligible wages.

Investments

Investment allocation policy. The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the TERS Board by a majority vote of its members. It is the policy of the TERS Board to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. The pension plan's investment policy discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans. The following was the Board adopted asset allocation policy as of June 30, 2014.

Asset Class	Target Allocation
Global equities (Domestic 40% and International 19%)	59%
Fixed income	29%
Real estate	7%
Cash	5%
Total	100%

Rate of return. For the year ended June 30, 2014, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expenses, was 22.23%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested. The long-term rate of return is estimated at 6.5%

Employer Disclosures (Under GASB Statement 27)

For the year ended June 30, 2014, contributions totaling \$2,041,687 (\$1,867,473 employer and \$174,214 employee) were made in accordance with contribution requirements determined by an actuarial valuation of the plan as of December 31, 2011, which was net of the amortization of assets in excess of unfunded actuarial accrued liability. Employer and employee contributions were based on 37.3 percent and 1.5 to 4.0 percent, respectively, of covered payroll. All contributions pertain to the pension plan only.

CITY OF TROY, MICHIGAN

Notes to Financial Statements

Significant actuarial assumptions are (a) a 6.5% investment return compounded annually, (b) salary increases of 3.5% per year compounded annually (c) additional projected salary increases of 0.0%-2.5% attributable to seniority/merit, and (d) no cost of living adjustments after retirement. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility over a five year period.

Three-Year Trend Information Employee Retirement System (\$ Amounts in Thousands)

Fiscal Years Ended June 30,	Actuarial Valuation Date December 31,	Annual Pension Cost (APC)	Percentage of APC Contributed	Net Pension Obligation
2012	2010	\$ 2,195	100%	\$ -
2013	2011	1,884	100%	-
2014	2011	1,846	100%	-

Funded Status and Funding Progress. As of December 31, 2013, the most recent actuarial valuation date, the Plan was 101.0 percent funded. The actuarial accrued liability for benefits was \$153,416,000, and the actuarial value of assets was \$155,001,000, resulting in an unfunded actuarial accrued asset (UAAA) of \$1,585,000. The covered payroll (annual payroll for active employee covered by the Plan) was \$4,769,000 and the ratio for the UAAA to the covered payroll was 33.2%.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits. Because the system uses the aggregate cost method which does not identify or separately amortize unfunded actuarial accrued liabilities, funded status and funding progress are reported using the entry age actuarial cost method and the information presented is intended to serve as a surrogate for the funded status and funding progress of the plan.

Net Pension Liability of the City (Under GASB Statement 67)

Total pension liability	\$153,182,875
Plan fiduciary net position	<u>189,828,679</u>
Net pension liability (asset)	<u>\$ (36,645,804)</u>
Plan fiduciary net position as a % of the total liability	123.92%

Actuarial assumptions. The total pension liability was determined by an actuarial valuation as of December 31, 2013 with a measurement and reporting date of June 30, 2014. The following actuarial assumptions were applied to all periods included in the measurement:

Actuarial cost method	Entry-age
Remaining amortization period	N/A
Inflation	3.5%
Salary increases (including inflation)	3.5% to 7.5%
Investment rate of return	6.5%
Mortality rates	RP-2000 combined health mortality tables

CITY OF TROY, MICHIGAN

Notes to Financial Statements

Single discount rate. A single discount rate of 6.5% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on investments of 6.5%. The projection of cash flows used to determine this single discount rate assumed that member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the fiduciary net position was projected to be available to make all projected future benefit payments of current members. Therefore, the long-term expected rate of return on the Retirement System's investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the net pension liability to changes in the discount rate. The following presents the net pension liability, calculated using a single discount rate of 6.5%, as well as what the net pension liability would be if it were calculated using a single discount rate that is 1-percentage-point lower or 1-percentage-point higher:

	1% Decrease 5.5%	Current Discount Rate 6.5%	1% Increase 7.5%
City net pension liability	\$ (20,518,932)	\$ (36,646,726)	\$ (50,343,520)

VOLUNTEER FIREFIGHTER INCENTIVE PLAN

Summary of Significant Accounting Policies

The volunteer firefighter incentive plan financial statements are prepared using the accrual basis of accounting. Employer contributions are recognized when due and the employer has made a formal commitment to provide the contributions. No volunteer firefighter contributions are required. Benefits are recognized when due and payable in accordance with the terms of the plan.

Method used to value investments. Investments are reported at fair value.

Plan Description

The City of Troy has a noncontributory discretionary incentive plan established by resolution of the City Council covering its volunteer firefighters. The single-employer plan benefits are determined based on annual contribution amounts for each year of incentive service. The normal cost and amortization payment for the year ended June 30, 2014 was determined using an individual entry age funding method. Management of the plan resides with the City Manager.

Plan Membership. At December 31, 2013 volunteer firefighter incentive plan membership consisted of the following:

Group	Members
Volunteers and beneficiaries currently receiving benefits	80
Deferred volunteers	27
Active volunteers	140
Total members	247

Benefits provided. At July 1, 2013, the benefit payment was \$605 per year for incentive service. Participants are eligible for payments at age 55 with ten or more years of volunteer service, age 50 with 25 years of volunteer service or any age with 30 years or more of volunteer service.

CITY OF TROY, MICHIGAN

Notes to Financial Statements

The City Council has established by resolution increases to the benefit payment amount per year as follows:

Fiscal Year Beginning July 1,	Benefit Amount Per Year of Service
2014	\$642
2015	681
2016	724
2017	769

Contributions. The City makes contributions to the plan through actuarially determined and recommended amounts by an independent actuary. Funding is established through City Council resolution during the budget process. The City's contribution to the plan for the year ended June 30, 2014 was \$1,078,500. The volunteer firefighters are not paid any remuneration for their service.

Investments

Investment policy. The investment policy adopted by the Troy City Council, in accordance with Public Act 201 of 1943, as amended, authorizes investments in all of the investment vehicles under Michigan Public Act 20 of 1943 and detailed in the notes to financial statements titled "*Deposits and Investments*". The target allocation used in the plan was as follows:

Asset Class	Target Allocation
Global equities (Domestic 40% and International 19%)	59%
Fixed income	29%
Real estate	7%
Cash	5%
Total	100%

Rate of return. For the year ended June 30, 2014, the annual money-weighted rate of return on volunteer firefighter incentive plan investments, net of investment expenses was 4.79%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested. The long-term estimated rate of return is 6.5%

Volunteer Firefighter Plan Sponsor Disclosures (Under GASB Statement 27)

Significant actuarial assumptions used include a 6.5 % investment rate of return. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility over a four year period.

CITY OF TROY, MICHIGAN

Notes to Financial Statements

Three-Year Trend Information

Incentive Plan for Volunteer Firefighters (\$ Amounts in Thousands)

Fiscal Years Ended June 30,	Actuarial Valuation Date December 31,	Annual Pension Cost (APC)	Percentage of APC Contributed	Net Pension Obligation
2012	2010	\$ 873	100%	\$ -
2013	2011	868	100%	-
2014	2011	858	126%	-

Funded Status and Funding Progress. As of December 31, 2013, the most recent actuarial valuation date, the Plan was 38.1 % funded. The actuarial accrued liability for benefits was \$16,129,000, and the actuarial value of assets was \$6,150,000, resulting in an unfunded actuarial accrued liability (UAAL) of \$9,979,000.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits. The plans do not issue a separate financial report.

Net Volunteer Firefighter Incentive Plan Liability of the City (*Under GASB Statement 67*)

Total pension liability	\$ 16,387,367
Plan fiduciary net position	5,351,492
Net pension liability	<u>\$ 11,035,875</u>
Plan fiduciary net position as a % of the total liability	32.66%

Actuarial assumptions. The total plan liability was determined by an actuarial valuation as of December 31, 2013 with a measurement and reporting date of June 30, 2014. The following actuarial assumptions were applied to all periods included in the measurement.

Actuarial cost method	Entry age
Remaining amortization period	25 years
Inflation	N/A
Investment rate of return	6.5%
Mortality rates	RP-2000 combined health mortality tables

Single discount rate. A single discount rate of 6.41% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on investments of 6.5% and a municipal bond rate of 4.290%. The projection of cash flows used to determine this single discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rates. Based on these assumptions, the fiduciary net position and future contributions were sufficient to finance the benefit payments through the year 2066. As a result, the long-term expected rate of return on plan investments was applied to projected benefit payments through the year 2066, and the municipal bond rate was applied to all benefit payments after that date.

CITY OF TROY, MICHIGAN

Notes to Financial Statements

Sensitivity of the net pension liability to changes in the discount rate. The following presents the net pension liability, calculated using a single discount rate of 6.41%, as well as what the net pension liability would be if it were calculated using a single discount rate that is 1-percentage-point lower or 1-percentage-point higher:

	1% Decrease 5.5%	Current Discount Rate 6.5%	1% Increase 7.5%
City net VFIP plan liability	\$ 13,623,636	\$ 11,035,875	\$ 8,929,855

CITY OF TROY, MICHIGAN

Notes to Financial Statements

14. DEFINED CONTRIBUTION PLAN

The City maintains a defined contribution plan (DCP) administered by the International City Manager's Association Retirement Corporation (ICMARC), which qualifies under the Internal Revenue Code Section 401(a). Classified, Exempt and Fire Staff Officers in the City's Employees Retirement System were given the option to transfer to the DCP by December 31, 1997. Employees who elected to transfer to the DCP had their individually actuarially determined earned retirement benefits in the Employees Retirement System determined as of the date of election to transfer to the DCP. In 1998, the City afforded the option to AFSCME members of the Employees Retirement System to elect a transfer to the DCP, of which 41 employees elected such transfer. In 1999, the City afforded the option to MAP members of the Employees Retirement System to elect a transfer to the DCP, of which 29 employees elected such transfer. In 2000, the City afforded the option to TCOA members of the Employees Retirement System to elect a transfer to the DCP, of which 20 employees elected such transfer. In 2002, the City afforded the option to TPOA members of the Employees Retirement System to elect a transfer to the DCP of which 19 employees elected such transfer. The DCP is also in effect for all new full-time employees. Total membership in the DCP as of June 30, 2014 was 248.

The DCP maintains a schedule of vesting as follows: participants who transferred from the Employees Retirement System are fully vested. For new hires the following schedule applies: 50% vested after 3 years, 75% vested after 4 years and 100% vested after 5 years. Employees contribute 3 to 6 percent of their salary, while the employer contributes 8 to 13 percent. All employees are able to contribute up to 10 percent of their salary on a voluntary after-tax basis. All contributions are remitted to a third-party plan administrator.

The DCP was established by City Council resolution and any amendments to the plan would require City Council approval.

The City's payroll for employees covered by the DCP for the year ended June 30, 2014, was \$17,278,442. The required contributions, which matched those actually made, were \$793,719 by employees and \$1,831,545 by the City, representing 4.6 percent and 10.6 percent of covered payroll, respectively.

15. RETIREE HEALTH CARE TRUST FUND

Plan Description

The City provides certain healthcare benefits for retired employees in accordance with the bargaining group agreements and other requirements. There are 303 members from the ranks of the City's full-time employees that may become eligible for those benefits if they reach normal retirement age while working for the City. The City's contribution for healthcare benefits is accounted for in the Retiree Health Care Trust Fund. The employer's contribution was \$4,465,378, or 24.51% of covered payroll totaling \$18,215,095. The annual required contribution was \$4,652,135. During the current year, healthcare benefits paid for 324 retirees totaled \$4,700,286, which was paid out of the Employees Retirement System. It should be noted that although healthcare benefits are paid out of another fund, they do not qualify as required contributions, as healthcare assets in the Employees Retirement System are considered when actuarially determining required contributions. Future payments will be made by the Employees Retirement System until the reserves that have accumulated there are exhausted.

This is a single employee defined benefit plan administered by the City. The Plan does not issue a separate stand-alone financial statement. Administrative costs are paid by the plan through employer contributions.

CITY OF TROY, MICHIGAN

Notes to Financial Statements

Funding Policy

For current employees not covered by the Retiree Health Savings Account Plan, the City includes retirees and their spouses in its healthcare plan, with no contribution required by participants if they retire with 25 or more years of service. If under 25 years of service, the City contributes 4% per year of service, or \$400 per month, whichever is greater. Beginning July 1, 2014 AFSCME, MAP, TFOA and TCSA members will accrue 3% per year of service up to a maximum of 90% of covered health insurance premiums.

Funding Progress

For the year ended June 30, 2014, the City has estimated the cost of providing retiree healthcare benefits through an actuarial valuation as of December 31, 2012. The valuation computes an annual required contribution, which represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

The valuation's computed contribution and actual funding are summarized as follows:

Annual required contribution	\$ 4,652,135
Interest on net OPEB asset - 6.5%	(202,077)
Actuary adjust. to annual required contribution (12.8%)	<u>243,054</u>
Annual OPEB cost (expense)	4,693,112
Contributions made	<u>(4,465,378)</u>
Decrease/(Increase) in net OPEB asset	227,734
Net OPEB (asset), beginning of year	<u>(3,108,873)</u>
Net OPEB (asset), end of year	<u><u>\$ (2,881,139)</u></u>

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2014 and the two preceding years were as follows (dollar amounts in thousands):

Three-Year Trend Information			
Fiscal Year Ended June 30,	Annual OPEB Cost (AOC)	Percentage of AOC Contributed	Net OPEB Obligation (Asset)
2012	\$ 2,790	117%	\$ (762)
2013	2,444	196%	(3,109)
2014	4,693	95%	(2,881)

Actuarial Methods and Assumptions

In the December 31, 2012 actuarial valuation, the individual entry age normal actuarial cost method was used. The actuarial assumptions include an assumed rate of return of 6.5% and projected salary increases of 3.5%-8.0%. An annual healthcare cost trend of 9.0% was used in fiscal year 2013 decreasing to 3.5% by 2022. The unfunded actuarial accrued liability (UAAL) is being amortized as a level percent of payroll on a closed basis. The remaining amortization period as of December 31, 2012 was 26 years.

CITY OF TROY, MICHIGAN

Notes to Financial Statements

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the health care cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of the benefit costs between the employer and plan members to that point.

The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Funded Status and Funding Progress. As of December 31, 2012, the most recent actuarial valuation date, the Plan was 59 percent funded. The actuarial accrued liability for benefits was \$100,064,000, and the actuarial value of assets was \$59,131,000, resulting in an unfunded actuarial accrued liability (UAAL) of \$40,932,000. The covered payroll (annual payroll for active employee covered by the Plan) was \$19,194,000 and the ratio for the UAAL to the covered payroll was 213.2%.

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

16. DEFICIT NET POSITION

The Sanctuary Lake golf course fund has a net position deficit of \$5,734,101 at June 30, 2014.

The Sanctuary Lake golf course completed its ninth year of operations with an operating loss of \$68,334 including depreciation expense of \$331,580. Nonoperating expenses including interest expense of \$328,254 resulted in a decrease change in net position of \$396,588. This compares to a decrease change in net position of \$380,860 last fiscal year. Cash flows from operations were positive in the amount of \$211,077. As such, the deficit is a result of operating income insufficient to meet the debt funding requirements. The fund has incurred advances from primarily the general fund and Sylvan Glen golf course fund to meet its cash debt financing requirements.

The City turned over operations and management of both the Sanctuary Lake and Sylvan Glen golf courses on June 15, 2010 to Billy Casper Golf with a strategic plan of eliminating the deficit in the next few years.

The Downtown Development Authority (component unit) reported a net position deficit of \$14,905,267 compared to \$14,691,951 last fiscal year. This deficit is attributable to recognizing outstanding long-term debt to be financed with future tax increment revenues from the district.

CITY OF TROY, MICHIGAN

Notes to Financial Statements

17. BUDGET STABILIZATION FUND

The City has established a budget stabilization fund by adopting a City ordinance in accordance with PA 30 of 1978 - MCL 144.441. The City Council may appropriate all or part of a surplus in the General Fund to the Budget Stabilization Fund. The amount in the Budget Stabilization Fund shall not exceed 15% of the City's most recent General Fund budget as originally adopted or 15% of the average of the City's five most recent General Fund budgets, as amended, whichever is less. Appropriations from the Budget Stabilization Fund may be used to cover any General Fund deficit, prevent a reduction in the level of services when revenues are not being collected in a sufficient manner or when the subsequent year budget indicates a shortfall, and to cover expenses arising from a natural disaster unless federal or state funds are received to offset the appropriation. In accordance with *Governmental Accounting Standards Board (GASB) Statement number 54*, the Budget Stabilization Fund has been included as part of the General Fund for reporting purposes. Any residual fund balance is reported as restricted in the General Fund.

18 SIGNIFICANT COMMITMENTS

As of June 30, 2014, the City had \$1,316,174 in construction commitments for various projects including street improvements outstanding. The commitments will be satisfied using millage proceeds, fund balance and grant funding.

Notes to Schedule of Contributions

Valuation Date: June 30, 2014

Notes Actuarially determined contribution rates are calculated as of December 31st which is 18 months prior to the beginning of the fiscal year in which contributions are reported.

Methods and Assumptions Used to Determine Contribution Rates:

Actuarial cost method	Aggregate
Amortization method	N/A
Remaining amortization period	N/A
Asset valuation method	5-year smoothed market
Inflation	3.5%; No explicit price inflation assumption is used in this valuation
Salary increases	3.5% to 7.5% including inflation
Investment rate of return	6.50%
Retirement age	Age-based table of rates that are specific to the type of eligibility condition. First used for the 1973 valuation; Classified, Exempt, Command Officers first used for the 1981 valuation; Non-Classified/Exempt General members first used for the 1986 valuation.
Mortality	RP-2000 Combined Healthy Mortality Tables, for healthy males and females, and the RP-2000 Disabled Mortality Table for impaired males and females.
Benefit changes	None

COMBINING AND INDIVIDUAL FUND FINANCIAL STATEMENTS AND SCHEDULES

SPECIAL REVENUE FUNDS:

Major Streets Fund - Accumulates resources from state funding sources for the maintenance and construction of the City's major streets system.

Local Streets Fund - Accumulates resources from state funding sources for the maintenance and construction of the City's local streets system.

Refuse Fund - Accumulates resources from a dedicated tax millage for sanitation collection and disposal services.

Transit Center Fund - Accumulates resources from Amtrak and sponsorships for the operations, maintenance and capital needs of the Transit Center.

Drug Forfeiture Fund - Accumulates resources from a federal and state drug forfeiture court rulings which can only be expended on specific supplies and services that support drug enforcement.

Library Fund - Accumulates resources from a dedicated tax millage for providing public library services to the community.

Community Development Block Grant - Accumulates resources for the administration of federal funded projects designed to address a wide-range of community needs in low income areas.

PERMANENT FUND

Cemetery Perpetual Care - Accumulates resources from plot and burial fees for the perpetual care of cemetery grounds.

DEBT SERVICE FUNDS

Debt Service Funds - Accumulate resources from a dedicated tax millage for the debt service financing requirements of major voter approved capital projects.

NONMAJOR ENTERPRISE FUNDS

Sylvan Glen Golf Course - Accumulates resources from user fees to the operation and maintenance of a municipal golf course.

Aquatic Center - Accumulates resources from user fees for the operation and maintenance of the City's municipal water park.

continued...

COMBINING AND INDIVIDUAL FUND STATEMENTS AND SCHEDULES (concluded)

INTERNAL SERVICE FUNDS

Compensated Absences Fund - Accumulates resources from interdepartmental charges for funding employee earned vacation and sick pay benefits.

Unemployment Compensation Fund - Accumulates resources from interdepartmental charges for City unemployment insurance premiums and obligations.

Custodial Services Fund - Accumulates resources from interdepartmental charges for the custodial services to city buildings.

Information Technology Fund - Accumulates resources from interdepartmental charges for the maintenance and improvements of the City's computer and software requirements.

Motor Equipment Fund - Accumulates resources from interdepartmental charges for the maintenance and capital investment of City owned vehicles.

Worker's Compensation Fund - Accumulates resources from interdepartmental charges for insurance premium and City obligations for worker's compensation claims.

Reconciliation

Fund Balances for Governmental Funds
to Net Position of Governmental Activities
Downtown Development Authority
June 30, 2014

Fund balances - total governmental funds	\$ 116,881
--	------------

Amounts reported for *governmental activities* in the statement of net position are different because:

Because the focus of governmental funds is on short-term financing, some assets will not be available to pay for current-period expenditures. Those assets (such as certain receivables) are offset by deferred inflows in the governmental funds, and thus are not included in fund balance.

Add: deferred inflows	39,279
-----------------------	--------

Certain liabilities, such as bonds payable, are not due and payable in the current period and therefore are not reported in the funds.

Deduct: accrued interest payable	(116,427)
Deduct: deferred gain on refunding	(471,755)
Deduct: debt reimbursement payable - current portion	(260,000)
Deduct: debt reimbursement payable - long-term portion	<u>(14,685,000)</u>

Net position of governmental activities	<u><u>\$ (15,377,022)</u></u>

CITY OF TROY, MICHIGAN

Reconciliation

Net Changes in Fund Balances of Governmental Funds
to Change in Net Position of Governmental Activities
Downtown Development Authority
For the Year Ended June 30, 2014

Net change in fund balances - total governmental funds	\$ (2,722,997)
--	----------------

Amounts reported for *governmental activities* in the statement of activities are different because:

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds, but rather are deferred inflows to the following fiscal year.

Deduct: net difference in deferred inflows	(7,962)
--	---------

Bond proceeds provide current financial resources to governmental funds in the period issued, but issuing bonds increases long-term liabilities in the statement of net position. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.

Deduct: payments to escrow agent	17,866,244
----------------------------------	------------

Pledged revenues to the primary government to reimburse principal and interest payments are not reported in fund financial statements as they do not represent a current financial source, but are considered revenue in the statement of activities.

Deduct: pledged revenues	(15,440,343)
--------------------------	--------------

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the funds.

Deduct: increase in accrued interest expense	(380,013)
--	-----------

Change in net position of governmental activities	<u>\$ (685,071)</u>

Source: City of Troy Assessing records

Note: The estimated assessed value is calculated using a 12-month sales study updated annually.

Proposal "A", as passed by the citizens of Michigan, took effect in 1994. This Proposal created two new categories for tax and assessment purposes (taxable value and capped value). Assessed value was unchanged by the Proposal, and remains at 50% of the market value of a property.

Taxable value is the amount upon which millage rate (taxes) are now levied. Taxable value is defined as the lesser of assessed value or capped value.

Capped value is calculated by taking the previous year's taxable value, minus any losses in value, multiplied by the inflation rate or 5% (whichever is less) plus any new construction.

This Proposal also mandated that the taxable value and assessed value were to be equal for the year following a transfer of ownership (as defined by the statutes), and then the capping process would begin anew.

The taxable and assessed valuation of taxable property is determined as of December 31st of each year.

CITY OF TROY, MICHIGAN

Computation of Legal Debt Margin

June 30, 2014

Assessed Valuation at December 31, 2012

\$ 4,491,432,340

	Annual Net Debt	Percentage of State Equalized Valuation	Legal Margin	
			Amount	Legal Debt Margin
General obligation debt	\$ 42,735,000	10.0%	\$ 449,143,234	\$ 406,408,234
Emergency bonds	-	37.5%	1,684,287,128	1,684,287,128
Special assessment bonds	-	12.0%	538,971,881	538,971,881
Total debt	<u>\$ 42,735,000</u>		<u>\$ 2,672,402,242</u>	<u>\$ 2,629,667,242</u>

The statutory debt limits of net bonded indebtedness incurred for all public purposes shall not at any one time exceed 10% of the assessed valuation of taxable property in the City (\$4,491,432,340), except that this limit may be exceeded by 3/8ths of 1% in case of fire, flood or other calamity. This limitation does not include bonds issued in anticipation of the payment of special assessments, nor bonds issued pursuant to court order for sewage or garbage disposal systems.

The Michigan State Bond Act provides that the total debt in special assessment bonds, which would require that the City pledge its faith and credit, shall not exceed 12% of the assessed valuation of taxable property of the City, nor shall such bonds be issued in any calendar year in excess of 3% unless voted.

(1) Fifty percent of state gas and weight taxes can be used for debt payments.

(2) Customers may choose to make special assessment payments up-front to avoid paying interest to the City, which creates uneven payment streams over the life of the assessment.

SINGLE AUDIT

This page intentionally left blank.

**INDEPENDENT AUDITORS' REPORT ON THE
SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
REQUIRED BY OMB CIRCULAR A-133**

November 26, 2014

To the Honorable Mayor and City Council of the
City of Troy, Michigan

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the *City of Troy, Michigan* (the "City"), as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the City's basic financial statements. We issued our report thereon dated November 26, 2014, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Circular A-133, and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Notes to Schedule of Expenditures of Federal Awards

1. BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal grant activity of the City of Troy, Michigan (the "City") under programs of the federal government for the year ended June 30, 2014. The information in this schedule is presented in accordance with the requirements of the Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Because the schedule presents only a selected portion of the operations of the City, it is not intended to and does not present the financial position, changes in net position or cash flows of the City.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the accrual basis of accounting, which is described in Note 1 to the City's financial statements. Such expenditures are recognized following the cost principles contained in OMB Circular A-87, *Cost Principles for State, Local, and Indian Tribal Governments*, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Pass-through entity identifying numbers are presented where available.

3. PASS-THROUGH AGENCIES

The County receives certain federal grant as subawards from non-federal entities. Pass-through entities, where applicable, have been identified in the Schedule with an abbreviation, defined as follows:

Pass-through Agency Abbreviation	Pass-through Agency Name
MDOT	Michigan Department of Transportation
OAK	County of Oakland, Michigan
(MI)DNR	Michigan Department of Natural Resources
MSP	Michigan State Police

4. RECONCILIATION OF FEDERAL REVENUES REPORTED IN GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

Federal sources per Governmental Funds Schedule of Revenues, Expenditures and Changes in Fund Balances	\$ 3,189,800
Less reimbursements for previous year expenditures subsequently determined eligible for reimbursement from federal sources	(423,352)
Total Expenditures of Federal Awards	<u>\$ 2,766,448</u>

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

November 26, 2014

To the Honorable Mayor and City Council of the
City of Troy, Michigan

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the *City of Troy, Michigan* (the "City"), as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated November 26, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM
AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

November 26, 2014

To the Honorable Mayor and City Council of the
City of Troy, Michigan

Report on Compliance for Each Major Federal Program

We have audited the compliance of the *City of Troy, Michigan* (the "City") with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs for the year ended June 30, 2014. The City's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Independent Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the City's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance.

Opinion on Each Major Federal Program

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2014.

Report on Internal Control Over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses.

Purpose of this Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.
