

Volunteer Interest Form

Do you have a volunteer project you'd like to complete with Troy within a park or public area? The Department of Public Works welcomes and encourages volunteer projects but we would love to know more about what you're working on. This helps us ensure that the correct materials and specifications are in place for quality, safety, and longevity. Fill out the information below and the Department of Public Works will contact you to provide guidance and any additional information you might need.

For example: Interested in painting a fire hydrant? Great! We can provide suggestions on the type and color of paint. Thinking about building a park bench? Awesome! We can provide suggestions on locations that wouldn't interfere with utilities and parks in need of that amenity.
