INJURY TRAFFIC CRASH AT DEQUINDRE AND MAPLE

Troy, MI – On July 31 at 9:30pm Officers from both the Sterling Heights and Troy Police Departments were dispatched to the area of Dequindre and Maple, for a traffic crash. Officers located the crash north of the intersection and both drivers had injuries.

The crash was determined to have originated in the City of Troy and the Troy Police Department conducted the crash investigation.

That investigation determined a white Ford Mustang, driven by an 18-year-old Warren resident, was traveling southbound on Dequindre at a high rate of speed. The Mustang struck the curb with its right rear tire and lost control. The Mustang swerved to the left and crossed over into the northbound lanes of Dequindre, colliding with a black Cadillac driven by an 18-year-old Sterling Heights resident.

The driver of the white Mustang was transported to the hospital with serious life-threatening injuries. The driver of the black Cadillac was treated on the scene by Alliance Mobile Health for minor injuries. Neither driver was wearing a seat belt and speed was a factor in the crash. The roadway was closed in both directions for about 3 hours while the investigation was conducted.
