

## WAC 197-11-970 DETERMINATION OF NONSIGNIFICANCE (DNS)

**Description of Proposal:** The proposed project will design, drill, and construct the Well No. 7 improvements at the existing City sanitary sewer Lift Station No. 7 site. It is anticipated that this well will be used to normally fill Reservoir No. 4 that will be located approximately 0.75 miles to the north. The well capacity will be dependent on the yield identified during well testing. The project will include construction of approximately 1,850 linear feet (lf) of 16- to 24-inch-diameter water main between the well site and Mojonner Road to connect to the City's existing water system. Approximately 350 lf of the proposed water main will be constructed at the Well No. 7 site, on City property, while approximately 1,500 lf will be constructed in Teal Lane. The proposed water main will be installed using open-cut trenching, as well as trenchless methods for crossing under a culvert conveying Stone Creek. Additionally, the project will construct approximately 245 lf of sewer main from the new well site to connect to the existing system near the southern terminus of Teal Lane. The project is partially funded by the Washington State Department of Commerce Public Works Board.
