It's great that we are getting into the Summer season; we will have a lot of capital projects being constructed and community events. The City is awaiting the State of Washington Department of Ecology/Army Corps of Engineers to issue us a 401 Permit to bid out construction of Lions Park. The 401 Permit is expected to be issued sometime in May. Then we will bid out the project for construction. Updates will be posted on this webpage: https://www.cpwa.us/residents/lions_park_renovation.php It is expected construction of this project will kick off mid Summer and go through next Spring. The plan is to have the park dedication/ribbon cutting at the start of the 2024 season of the College Place Farmers Market.

Due to this impending construction, the 2023 season of the College Place Farmers Market will be held in the parking lot of City Hall (625 S. College Avenue). The City will set up misting equipment to make it more comfortable during the hot summer evenings. Please bear with us as the important Lions Park renovation is under way and support our local vendors. If you want to vend at the Farmers Market, please visit this webpage: https://www.cpwa.us/residents/events/farmers_and_artisans_market.php

Other Public Works projects going on this year include new CDBG grant funded sidewalks on SW 6th (College to Davis) and SW 8th (College to Bade) construction. Phase 1A of Wastewater Treatment Plant improvements will also be underway. The Whitman & Academy Way intersection will be converted to a four-way stop. The City also has funding from the State Department of Ecology/Public Works Board to replace the aging/failing wastewater lift station #5 on SW 1st Street. The City is also expecting the delivery of mechanical equipment to finally make drinking water well #6 go live at Whitman/Maple by early this Summer.

This year our Summer Camp program looks different. m College Place Public Schools is providing a Summer Groove Program that will go the morning hours from June 26th to July 27th. Sign ups are at cps.org/page/summer-groove. The YMCA is then running a Summer in the Park program the afternoons between June 26th to July 27th and then full day July 31st to August 24th. Sign ups for this program are at wwymca.org/camps. Programming is centered at Kiwanis Park adjacent to Davis School.

OFFICIAL NOTICE

Dear Customer,

According to our records, it is time for the annual test of your backflow prevention assembly(s). The assembly(s) are installed on your plumbing system or underground irrigation system. The annual test is required by The City of College Place water system (Code 13.06) and the Washington State Department of Health (WAC 246-290-490).

If you have completed the annual test already this year, we appreciate that. If you have not, please contact a certified backflow assembly tester to have this done.

Questions may be answered by calling the City of College Place water department at 509-394-8658.

Thank you,

Kevin Wolpert
