

RTC Mission

Using an innovative, multi-disciplinary approach, the mission of the Regional Treatment Court is to increase public safety and reduce the costs of crime on society by identifying and treating non-violent, moderate/high risk and moderate/high needs offenders with a moderate/severe substance use disorder involved in the criminal justice system, enabling these offenders to make positive lifestyle changes which will save lives, preserve families and produce productive members of the community. The Regional Treatment Court (RTC) structure is being piloted in an effort to make this program available to qualified citizens of the Commonwealth, including those in the most expansive, rural communities.
