

## ADDENDUM #3

### Small Solicitation for 2060-23 RFP Clean Energy Program

---

Original Notice of RFP Issued on: April 10, 2023

Last day for questions: Thursday, April 27, 2023

**Response Due Date: Thursday, May 11, 2023 @ 2:00pm**

April 27, 2023

To All Prospective Bidders:

The purpose of this addendum is to provide answers to questions raised by a potential bidder(s).

- **What is the approximate size of HACH's fleet?** Approximately 60 vehicles/machines as described in the attached list.
- **Does HACH currently have any EV or hybrid models included in the vehicle fleet? If so, how many?** NONE
- **Is there a charging station vendor who has supplied or maintains a portion of the fleet? NO.** If not, is HACH open to receiving assistance to choose a vendor in lieu of providing these services? HACH would expect options to be explored and described as a part of the Clean Energy Plan process.
- **Does HACH expect the entire scope of this RFP to be served in one contract?** Potentially, funding and time dependent. It is possible that the implementation phase could go beyond the five year term of the contract. If that appears to be the case, HACH will, in accordance with HUD regulations, go back out to bid for services necessary to complete tasks under the Clean Energy Plan.
- **Should the bidder prepare Phase 3 pricing based on an assumed scope?** Respondents should prepare pricing based on their estimated times to complete the CEP Drafting, Plan Revision and Adoption and Performance Metrics described in the RFP Scope of Work (Section 2).
- **Will HACH provide facility HVAC equipment data in advance to enable facility energy audits to be conducted adequately?** it will be provided by the Authority to the Vendor during the information gathering process for the CEP
- **Are budgetary costs of possible solar array options needed as part of the assessment?** Budgetary costs of possible solar array options may be needed as a part of the CEP, but are not expected to be included in the response.

All other terms and conditions remain the same.

Kim Cotharin, Contracting Officer
