1707 St. Johns Avenue Highland Park, Illinois 60035 847.432.0800 cityhpil.com

June 3, 2022

To the Mayor, City Council and the Citizens of Highland Park:

This Annual Comprehensive Financial Report (Financial Report) details information from the City of Highland Park's audited financial statements for the fiscal year ending December 31, 2021. The Financial Report is prepared and published within six months of the close of the City's fiscal year, consistent with State law. Management is responsible for the contents of the Financial Report. The City Manager and Department Directors operate based on a comprehensive internal control framework designed to protect the City's assets from loss, theft, or misuse of public funds. Comprehensive financial policies and procedures are adhered to and financial statements are prepared consistent with Generally Accepted Accounting Principles (GAAP), which allows for providing a reasonable basis for making these representations. The City's objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements, given the cost of internal controls should not outweigh the anticipated benefits of such controls. We assert that, to the best of our knowledge and belief, this Financial Report is complete and reliable in all material respects.

Baker Tilly US, LLP, issued an unmodified opinion on the City's financial statements for the fiscal year ended December 31, 2021. This is the highest standard of opinion that a municipality can achieve. The independent auditors' report is presented at the front of the financial section of this Financial Report. Management's Discussion and Analysis (MD&A), which immediately follows the independent auditors' report, provides a narrative introduction, overview, and analysis of the basic financial statements.

The City conducted a comprehensive analysis of the City's financial situation in response to the coronavirus pandemic economic conditions occurring in 2020 and continues with on-going review and analysis through 2022. The City took steps to ensure fiscal sustainability in 2020, 2021, and in estimating longer term impacts by offering economic incentives to residents and businesses; reducing expenditures; deferring non-essential expenditures; pursuing shared services, joint bidding and increased efficiency in operations; pursuing federal and state grants; reducing the City's work force and analyzing fees to ensure appropriate cost recovery. The City's revenue recovered faster than anticipated from the coronavirus pandemic economic decline, except for the Parking Fund, resulting in 2021 actual revenue 13% higher than 2020 revenue, although the City continued to conservatively manage its expenditures under its reduced budget. Parking Fund revenue continued to be negatively impacted by the coronavirus pandemic economic conditions, with underutilized parking lots from workers continuing to work from home and otherwise under use public transportation, consistent with national and regional trends. The City continues to monitor and curtail expenditures in the Parking Fund and will be assessing fund sustainability measures during its 2023 budget planning process.

Profile of the Government

The City of Highland Park, incorporated in 1869, has a long-standing heritage as one of the prestigious communities within Chicagoland's Lake Michigan north shore. The City occupies a land area of 12.25 square miles, located 26 miles north of Chicago, and serves a population of 30,176. The City became a home-rule unit of government when the 1970 Illinois Constitution was adopted because it had a population in excess of 25,000. As a home-rule entity, the City does not have tax rate limits or debt limits, and is not required to conduct a referendum to authorize the issuance of debt or to increase property taxes.

The City has operated under the council-manager form of government since 1955. Policy-making and legislative authority are vested in a seven-member Council composed of a mayor and six council members elected on an at-large basis for four-year, staggered terms. The City Council appoints the City Manager, City Clerk, and Corporation Counsel. The City Manager is responsible for carrying out the policies, ordinances, and resolutions of the City Council, for overseeing the day-to-day operations of the City, and for appointing the directors of the City's six departments (City Manager's Office, Community Development, Finance, Fire, Police, and Public Works).

The City has priorities of fiscal stability, public safety, infrastructure investment, and community vibrancy. The City provides police; fire and emergency medical services; community and business development; construction and maintenance of streets and other public infrastructure; water, sewer, and parking services; local transit service; and senior services. The Financial Report includes the activities of the Public Safety Pension Funds, the Highland Park Public Library, and the Housing Associations, although independent boards manage these funds.

The City's strategic plan and annual budget are the foundation for the City's financial planning and control. City staff submit requests for appropriation to the City Manager and Finance Director so that a budget may be prepared. City Council and Senior Staff establish a budget based on the City's priorities, input from the public, and proposed objectives that are fiscally responsible, while having the highest priority and the greatest positive community impact. The budget process begins in the spring and City staff present the proposed budget to the City Council in October. The City Council is required to hold a public hearing on the proposed budget and to adopt a final budget no later than December 31, the close of the City's fiscal year. The budget is prepared by fund, function (e.g., public safety), and department (e.g., police). The City Manager is authorized to transfer budgeted amounts within departments of any fund. The City Council must approve budget revisions that alter the total expenditures of any department or fund. Budget-to-actual comparisons are provided in this Financial Report for each individual governmental and proprietary fund for which an annual budget has been adopted. A schedule of detailed expenditures comparing budget and actual information for the General Fund at the function, department, and program level, is also provided.

Local Economy

The City recovered faster than anticipated from the coronavirus pandemic economic decline and the City continues to realize strong economic conditions in construction and real estate, consumer spending, and business spending, with 2021 revenue resulting \$9 million or 13% higher than 2020 revenue. 2021 revenue, reported on a budget basis, resulted \$10.1 million higher than budget. The increase was significantly due continued strong economic conditions, recovery from the pandemic's negative economic impact on City revenue (including lagging property tax payments), and increased sales tax revenue from online sales. Year-to-year revenue improvements included sales taxes \$4 million, charges for services \$3 million, property tax \$1.7 million, and real estate transfer tax \$0.9 million, net of all other changes.

Sales were strong with sales tax revenue of \$16.3 million in 2021, which was 32% and 21% higher than 2020 and the City's most recent 10-year average of \$13.5 million, respectively, reflecting both strong economic recovery and increased sales tax revenue from online sales. 86% of the year-to-year improvement occurred in Drugs & Misc. Retail, Automotive and Filing Stations, Agriculture & All Others, and Manufacturers.

Real estate transfer tax revenue of \$3.1 million and transaction of 789 continued strong with increases 37.3% and 12.4%, respectively, from 2020, after realizing a 37.6% increase in real estate transfer tax revenue from 2019 to 2020. The City has continued stability in property value with assessed valuation being relatively flat with 2020.

Retail occupancy increased to 91% at the close of 2021, from 85.3% at the start of 2021, reflecting a 5.7% decrease in vacancies. The City has an aggressive Business Development Strategic Plan that guides activities to enhance the business and economic climate of the City. The City's Business

Development Office (BDO) coordinated with property owners and businesses to attract and retain businesses by providing support, economic development incentives, and resources. Efforts to maintain and enhance the desirability and economic vitality of the City's main business districts included three Special Service Areas (SSA), which are self-imposed taxes by property owners in the area to fund such activities, and two Tax Increment Financing (TIF) districts for redevelopment of one the areas within the TIF boundaries:

- SSA 17 focuses on the Ravinia Business District (RBD) comprised of 29 properties, was enacted in 2013, and was renewed for another three-year term through December 2020 and then again through December 2022. RBD property owners initiated special events to market the RBD.
- SSA 18 focuses on the Briergate Business Association District (BBAD), comprised of 68 properties, and was enacted in 2013 for a 10-year term. Briergate Business Association District property owners continued to fund physical improvement efforts during the year.
- SSA 19 focuses on marketing and improving the economic vitality of the City's Central Business
 District (CBD). Collaboration between businesses, property owners, a CBD Alliance, and the City
 encourages local spending, tourism, and a sense of community through promotion of the CBD.
- TIFs 3 and 4 focus on streetscape for the RBD and underdeveloped areas of the BBAD, respectively. TIF 4 was enacted in December of 2018 to encourage future redevelopment of certain sites for more market oriented commercial, industrial and residential uses of the properties that will enhance their value and improve their contributions to the City and its surrounding areas. Illinois law allows local governments to designate areas within their jurisdiction as TIF districts. These specially-designated districts are used to spur economic growth. Through a TIF, private sector investment is incentivized to advance infrastructure and other improvements to a district thereby increasing property values and tax revenue in the area. TIF captures the difference in existing property tax revenue and future (higher) property tax revenue, after improvements have been made, to finance the cost of the improvements.

Proactive efforts by the City's elected officials and staff in times of economic growth have continued to ensure adequate reserves for sustaining service levels during periods of economic and state legislative uncertainty. With a clear emphasis on maintaining healthy reserves and a desire to ensure operating expenditures can be sustained at the current level of revenues, the 2022 budget was developed under a comprehensive set of Financial and Budgetary Policies. Significant effort was made to ensure transparency, clarity and long-term financial sustainability, as well as connectivity between revenue sources and expenditures within the fund structure.

The City's long-term economic outlook remains favorable. The average unemployment rate for the City of 2.5%, was well below the State of Illinois rate of 3.8% and the Lake County rate of 3.9%, as sourced from the Bureau of Labor Statistics. The U.S. Census Bureau five-year estimated values reported that the median value of the City's owner-occupied homes was \$584,500. This compares to \$265,100 for the County and \$194,500 for the State. The City had average and median household incomes of \$231,170 and \$150,269, respectively, according to the U.S. Census Bureau American Community Survey estimates 2014 to 2019, which placed the City among the nation's wealthiest communities with populations of 25,000 or more.

Economic and state legislative trends are monitored to gauge the potential impact on the City's budget. Expenditures are consistently reduced and deferred whenever necessary and possible, and privatization and shared services are considered when a cost savings and consistent level of service can be achieved.

Long-Term Financial Planning

The City continues to plan for its future to preserve the outstanding quality of life enjoyed by the residents and to ensure a high level of service to the community. The City continues to impose an additional one-half percent home-rule sales tax on the sale of general merchandise. This incremental tax yields

approximately \$4-5 million in additional sales tax revenue per year, and has been used to fund infrastructure and operating improvements.

The City continues an aggressive investment in infrastructure and facility improvements, committing \$23.2 million in 2022 for a fire station replacement, street, bridge, sanitary sewer, ravine remediation, storm sewer, water utility, water meter replacement, and other infrastructure and facility improvements. A portion of water revenues are pledged for capital improvements, and related debt service, each year, in addition to the water production and distribution systems. The annual budget preparation process includes the development of a 10-year capital improvement program to ensure adequate long-term financial planning.

Relevant Financial Policies

Unassigned fund balance in the General Fund at December 31, 2021, was \$35.9 million, which represents 105% and 98% of 2021 actual and 2022 budgeted General Fund operating expenditures, respectively, exceeding the City's policy guidelines set by the City Council. These reserves are vital for ensuring the City's ability to sustain service levels during periods of economic and state legislative uncertainty, such as the coronavirus pandemic, which may result in unanticipated revenue shortfalls and to address pension funding requirements. In 2022, the City budgeted a \$1.2 million decrease in General Fund balance to pay for capital improvements, consistent with the City's financial and budgetary policies. The resulting unassigned fund balance, as a percent of general fund operating expenditures, is expected to continue to exceed the City's policy guidelines.

The City realized a \$1.8 million decrease in net pension obligation from the City's accelerated contribution plan and investment gains. Consistent with State Statute, City policy is to fund public safety pensions to 90% by year 2040, as determined by a third party actuary, from a combination of property tax levy and other identified revenue sources. The City began accelerating public safety pension funding in 2016, continuing accelerated contributions through 2021, to minimize long-term pension cost to the property tax payer.

The City accounts for its annual other postemployment benefits (OPEB) obligation per GASB Statement No. 75, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions. The City Council has set aside approximately \$10.6 million to meet future requirements associated with OPEB. Please refer to the notes to the financial statements for additional information.

Major Initiatives

The City continued investing in infrastructure improvements consistent with its core priorities. 2021 was a busy year. Approximately 2,000 feet of new water main, 200 feet of new sanitary sewer, and new roadway and curbs were installed on Walker Avenue, St. Johns Avenue, and Lauretta Place. The upsized water main improves system water flow and exceeds hydrant fire flow capacity. The City began a twoyear Clavey Road improvement project with completion of year one infrastructure elements, including removal and replacement of the bridge that carries Clavey Road over the Skokie River, construction of new water main, and construction of temporary pavement to maintain two-way traffic for construction operations. Approximately 5,344 feet of new asphalt roadway was constructed as part of the annual pavement rehabilitation program. The City upgraded the Hidden Ridge sanitary lift station with the addition of remote monitoring and a continuous operation generator. The City lined approximately 16,000 feet of sanitary and storm sewers. Lining of old clay sanitary sewers preserves pipe capacity and extends the sewer functional life by approximately 50 years, while being environmentally friendly and minimizing inconvenience to residents, as no excavation is performed during the sewer lining operation. The City upsized storm sewers, as needed, to meet the revised rainfall intensity design and the 10-year flooding standards, as part of the mentioned improvements projects. The City continued implementation of green infrastructure consistent with the City's sustainability goals by planting approximately 232 new trees, upgrading existing parking and street light metal halide bulbs to LED bulbs, and installation of permeable pavers at the Central Ave East-South public parking lot with placement of conduit for future electricvehicle charging needs.

The City is proud to have best-in-class service departments, especially Police, Fire and Public Works. This is a testament to the City's commitment to public safety and the highest level of practices. The City completed approximately 115 major projects and initiatives in this audit year. These major projects are primarily public-facing and significant internal initiatives outside of the City's day-to-day operations. The list of major projects can be reviewed on the City's web site at www.cityhpil.com.

Awards and Acknowledgements

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Highland Park for its Financial Report for the fiscal year ended December 31, 2020. This was the 37th consecutive year that the City received this prestigious award. In order to be awarded a Certificate of Achievement, the City published an easily readable and efficiently organized Financial Report that satisfied both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. The City believes that its current Financial Report continues to meet the Certificate of Achievement program requirements and is submitting it to the GFOA to determine its eligibility for another certificate.

The City also received the GFOA's Distinguished Budget Presentation Award for its annual budget document for the fiscal year beginning January 1, 2021. This was the 27th consecutive year that the City received this prestigious award. In order to qualify for the Distinguished Budget Presentation Award, the City's budget document had to be judged proficient as a policy document, a financial plan, an operations guide, and a communications device. A Distinguished Budget Presentation Award is valid for a period of one year only. The City believes that its annual budget document for the fiscal year beginning January 1, 2022 continues to meet the Distinguished Budget Presentation Award program requirements and submitted it to the GFOA to determine its eligibility for another award.

The preparation of this Financial Report would not have been possible without the efficient, professional, and dedicated service of City employees. We wish to express our appreciation to all members of the City's departments who assisted and contributed to the preparation of this Financial Report. Credit also goes to the Mayor and the City Council for their unwavering support for maintaining the highest standards of professionalism in the management of the City of Highland Park's finances.

Respectfully submitted,

Independent Auditors' Report

To the City Council of City of Highland Park, Illinois

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund and the aggregate remaining fund information of the City of Highland Park (the City), as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component units, each major fund and the aggregate remaining fund information of the City as of December 31, 2021 and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the Highland Park Housing Associations, a discretely presented component unit. Those statements were audited by other auditors, whose report has been furnished to us, and our opinions, insofar as it relates to the amounts included for the Highland Park Housing Associations are based solely on the report of the other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (GAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions. The financial statements of the Sunset Woods Association, a component of the Highland Park Housing Associations, were not audited in accordance with *Government Auditing Standards*.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that rise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and GAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and GAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, and design and perform audit procedures responsive to those risks. Such procedures
 include examining, on a test basis, evidence regarding the amounts and disclosures in the financial
 statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
 that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that
 raise substantial doubt about the City's ability to continue as a going concern for a reasonable period
 of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The supplementary information as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory section and statistical section but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

Baker Tilly US, LLP

In accordance with *Government Auditing Standards*, we have also issued our report dated June 3, 2022 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Oak Brook, Illinois June 3, 2022

Management's Discussion and Analysis (Unaudited)

This Discussion and Analysis is to offers readers a narrative overview and analysis of the financial activities of the City of Highland Park (City) as of and for the 12 months ended December 31, 2021. We encourage readers to consider this information along with additional information provided in the letter of transmittal located in the Introductory Section of this report.

Financial Highlights

- The City's revenue recovered faster than anticipated from the coronavirus pandemic economic decline, resulting in total 2021 revenue of \$80.0 million, an increase of \$9.4 million or 13% in comparison with the prior year. The increase was significantly due continued strong economic conditions, recovery from the pandemic's negative economic impact on City revenue (including lagging property tax payments), and increased sales tax revenue from online sales. Year-to-year revenue improvements included sales taxes \$4 million, charges for services \$3 million, property tax \$1.7 million, and real estate transfer tax \$0.9 million, net of all other changes. Parking Fund revenue continued to be negatively impacted by the coronavirus pandemic economic conditions, with underutilized parking lots from workers continuing to work from home and otherwise under use public transportation, consistent with national and regional trends. The City continues to monitor and curtail expenditures in the Parking Fund and will be assessing fund sustainability measures during its 2023 budget planning process.
- Total expenses were \$60.5 million, an increase of \$1.4 million in comparison with the prior year. The increase was significantly due to compensation plan and collective bargaining agreement adjustments, net of expenditure reductions across all operating units for asserted pandemic-related operational cost efficiencies and capital changes. The City took steps to ensure fiscal sustainability in 2020, 2021, and in estimating longer term impacts by offering economic incentives to residents and businesses; reducing expenditures; deferring non-essential expenditures; pursuing shared services, joint bidding and increased efficiency in operations; pursuing federal and state grants; reducing the City's work force and analyzing fees to ensure appropriate cost recovery.
- Assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$100.6 million (net position). The City's net position improved \$18.4 million as compared to the prior year, primarily due to the revenue improvements previously discussed, the City's active efforts to contain costs due to pandemic economic uncertainty, and the City's active efforts to reduce net pension and other long-term obligations.
- Governmental funds combined ending fund balance was \$58.8 million, an increase of \$11 million in comparison with the prior year, significantly due to the revenue improvements previously discussed, the City's active efforts to contain costs due to pandemic economic uncertainty, and the City's active efforts to reduce net pension and other long-term obligations. The resulting fund balances, as a percent of operating expenditures, continue to exceed the City's policy guidelines.
- Long-term liabilities were \$141.4 million, a \$5.4 million decrease in comparison with the prior year due a \$1.8 million decrease in net pension liability from the City's accelerated contribution plan and investment gains and a \$3.6 million decrease in long-term debt from payments and refunding. Consistent with State Statute, City policy is to fund public safety pensions to 90% by year 2040, as determined by a third party actuary, from a combination of property tax levy and other identified revenue sources. The City began accelerating public safety pension funding in 2016, continuing its accelerated contributions through 2022, to minimize long-term pension cost to the property tax payer.

• The General Fund unrestricted and unassigned fund balance was \$35.9 million, which represents 105% and 98% of 2021 actual and 2022 budgeted General Fund operating expenditures, respectively, exceeding the City's policy guidelines established by the City Council. As part of its 2022 budget process, the City estimated 10 years of General Fund balance, showing the City Council's decision to gradually and strategically draw down fund balance, to approximately 35% within the 10-year period, to fund capital and OPEB expenditures.

Overview of the Financial Statements

This discussion and analysis is an introduction to the City's basic financial statements, which include three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information, in addition to the basic financial statements.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances in a manner similar to a private-sector business.

The Statement of Net Position presents information regarding the City's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference between them reported as net position. Over time, increases or decreases in net position may serve as a useful indicator as to whether the City is improving or deteriorating.

The Statement of Activities presents information showing how the City's net position changed during the most recent fiscal year. Changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods.

The government-wide financial statements distinguish City functions which are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The City's governmental activities include general government, public safety, public works, economic and physical development, transit, commissions and interest costs. The City's business-type activities include water utility, sewer utility and a parking system.

The government-wide financial statements include City funds (primary government) and legally separate component units, for which the City is financially accountable. Financial information for component units is reported separately from the financial information presented for the primary government. The government-wide financial statements can be found on pages 15-18 of this report.

Fund financial statements. A fund is a group of related accounts used to maintain control over resources segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting in compliance with finance-related legal requirements. City funds are divided into three fund categories: governmental, proprietary, and fiduciary.

Governmental funds. Governmental funds account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on nearterm inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Readers may better understand the long-term impact of the government's near-term financing decisions by comparing the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. The Governmental Fund Balance Sheet and the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balances provide reconciliations for comparison between governmental funds and governmental activities.

The City has 13 individual governmental funds reported in 2021. Information is presented separately in the Governmental Fund Balance sheet and in the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balances for the General Fund, Public Safety Pension Levy Fund and Capital Projects Fund, which are considered major funds. Data for the other governmental funds are combined into a single, aggregated presentation labeled nonmajor governmental funds. Individual fund data for each nonmajor governmental fund is provided in the combining statements and schedules provided on pages 112-115 of this report.

The City adopts an annual appropriated budget for its governmental funds, with the exception of the Foreign Fire Insurance. Budgetary comparisons are provided to demonstrate compliance with the budget. The basic governmental fund financial statements can be found on pages 19-22 of this report.

Proprietary funds. The City maintains two types of proprietary funds labeled Enterprise funds and Internal Service funds. Enterprise funds report the same functions presented as business-type activities in the government-wide financial statements. Enterprise funds account for water, sewer and parking operations. Internal service funds accumulate and allocate costs internally to the City's various functions. Internal service funds account for equipment maintenance and replacement, as well as certain insurance activities. These services predominantly benefit governmental, rather than business-type functions, and are included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, however in more detail. The proprietary fund financial statements provide separate information for water, sewer and parking operations. Conversely, the internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the combining and individual fund statements and schedules on pages 128-132 in this report. The basic proprietary fund financial statements can be found on pages 23-27 of this report.

Fiduciary funds. Fiduciary funds account for resources held for the benefit of parties outside of the government. Fiduciary funds are not reflected in the government-wide financial statements because the fund resources are not available to support the City's programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The basic fiduciary fund financial statements can be found on pages 28-29 of this report.

Notes to the financial statements. The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 30-92 of this report.

Other information. This report presents required supplementary information, in addition to the basic financial statements and accompanying notes. Budgetary comparisons for the general fund and major special revenue funds are provided, as well as information concerning the City's progress in funding its obligation to provide pension benefits and other post-employment benefits to its employees. The comparison of budget-to-actual, the combining statements and related schedules are presented immediately following the required supplementary information.

Required supplementary information can be found on pages 95-108 and combining and individual fund statements and schedules can be found on pages 112-136 of this report.

Government-wide Financial Analysis

Assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$100.6 million (net position). The City's net position improved \$18.4 million, as compared to the prior year, primarily due to revenue improvements from continued strong economic conditions, recovery from the pandemic's negative economic impact on City revenue (including lagging property tax payments), and increased sales tax revenue from online sales; the City's active efforts to contain costs due to pandemic economic uncertainty; and the City's active efforts to reduce net pension and other long-term obligations.

The largest portion of the City's net position is investment in capital assets, which consists of land, buildings, machinery, and equipment, less outstanding debt used to acquire those assets. Capital assets are used to provide services to citizens. The assets are not available for future spending. Although the investment in capital assets is reported net of related debt, the resources needed to repay the debt are provided from other sources. The capital assets themselves cannot be used to liquidate these liabilities. The City adopted a philosophy of funding capital improvements, to a large extent, on a pay-as-you-go basis, and retires debt obligations quickly, resulting in positive net position.

A portion of the net position includes resources which are subject to external restrictions on usage. Unrestricted net position, if positive, may be used to meet ongoing obligations to residents and creditors. The City's total unrestricted net position was negative \$29.8 million as of December 31, 2021, which improved \$4.7 million versus the prior year, primarily due to the reasons discussed in the first paragraph of this section.

Condensed Statement of Net Position as of December 31, 2020 and 2021

(in Millions - Rounded)

	Govern	mental A	ctivities	Business-Type Activities			Total Primary

Other Liabilities	3.4	6.3	2.8	0.3	0.6	0.3	3.8	6.9	3.1
Total Liabilities	105.6	105.7	0.1	45.0	42.6	(2.4)	150.6	148.3	(2.3)
Deferred Inflows of Resources	32.1	35.4	3.3	1.2	2.3	1.1	33.3	37.7	4.4
Net Position:									
Net Investment in Capital Assets	74.3	73.7	(0.6)	37.4	40.7	3.3	111.7	114.4	2.7
Restricted	5.0	13.8	8.8	-	2.3	2.3	5.0	16.1	11.1
Unrestricted	cted (38.7) (32.6) 6.1 4.2 2.8 (1.4) (34.5)		(34.5)	(29.8)	4.7				
Total Net Position	\$40.6	\$54.9	\$14.2	\$41.6	\$45.8	\$4.2	\$82.2	\$100.7	\$18.4

The City reports positive balances in two of the three categories of net position, both for the City as a whole, as well as for its separate governmental activities, with positive balances for all three categories for business-type activities as of December 31, 2021. The negative unrestricted

net position in governmental activities is due to net pension and OPEB obligations reported in compliance with GASB Nos. 68, 71, and 75. Details of the net pension obligations can be found in Notes III A. and C. to the Financial Statements on pages 68-90 of this report.

Condensed Statement of Activities as of December 31, 2020 and 2021

Change in Net Position	\$7.9	\$14.2	\$2.4	\$4.2	\$10.4	\$18.4	\$8.0		

Total revenue was \$80.0 million, an increase of \$9.4 million or 13% in comparison with the prior year. The increase was significantly due continued strong economic conditions, recovery from the pandemic's negative economic impact on City revenue (including lagging property tax payments), and increased sales tax revenue from online sales.

Total expenses were \$60.5 million, an increase of \$1.4 million in comparison with the prior year. The increase was significantly due to compensation plan and collective bargaining agreement adjustments, net of expense reductions across all operating units for asserted pandemic-related operational cost efficiencies and capital changes. The City took steps to ensure fiscal sustainability in 2020, 2021, and in estimating longer term impacts by offering economic incentives to residents and businesses; reducing expenditures; deferring non-essential expenditures; pursuing shared services, joint bidding and increased efficiency in operations; pursuing federal and state grants; and reducing the City's work force.

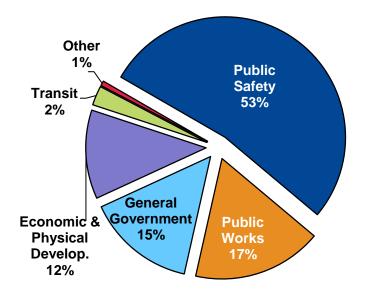

Revenues by Source — Governmental Activities

Property taxes, sales taxes, and charges for services account for the greatest proportion of funding for governmental activities, followed by income taxes and real estate transfer and other taxes. The City has a continued conservative approach to managing expenses, with growth in expenses closely monitored each year and operating departments encouraged to contain non-personnel related operating costs. A City Council-supported continued response plan, to the pandemic's prior year negative impact on City revenue sources, included active pursuit of available pandemic-related federal and state grant funding; elimination of non-essential purchases and expenses; reducing operating and capital costs; keeping positions vacant as a result of resignations or retirement; and implementing a reduction in work force in 2020, with a reduced cost structure carried into 2021.

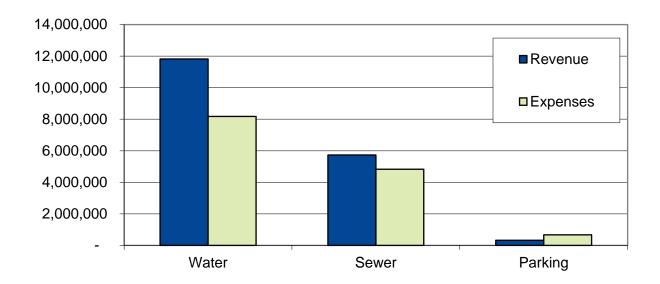

Expenses by Activity — Governmental Activities

Public Safety expenses (police and fire) account for the greatest percent of governmental activities, followed by Public Works, General Gov., and Econ./Phys. Develop. The City contained expenditures across all operating units due to continued asserted pandemic-related operational cost efficiencies and capital changes.

Business-Type Activities

Business-type activities improved the City's net position by \$4.2 million, primarily due to operating revenue in excess of operating expenditures. Business-type activities are intended to be self-sufficient, meaning charges for services and other revenues should be sufficient to cover costs associated with the operation and debt service for capital-related debt, over time. The following graph shows a comparison of revenues and expenses of each business-type activity:

The Water Fund and Sewer Fund net positions improved by \$3.6 million and \$0.9 million, respectively, and the Parking Fund net position was lower by \$0.3 million. Water and Sewer Funds were higher due to active pursuit of grants to offset City costs, recovery from the pandemic's negative economic impact on City revenue, the City's active efforts to contain costs due to pandemic economic uncertainty, and the City's active efforts to reduce net pension and other long-term obligations. Parking Fund revenue continued to be negatively impacted by the coronavirus pandemic economic conditions, with underutilized parking lots from workers continuing to work from home and otherwise under use public transportation, consistent with national and regional trends. The City continues to monitor and curtail expenditures in the Parking Fund and will be assessing fund sustainability measures during its 2023 budget planning process.

Financial Analysis of the City's Funds

The City utilizes fund accounting in compliance with finance-related legal requirements.

Governmental funds. The City's governmental funds provide information on near-term inflows, outflows, and balances of spendable resources, which is useful in assessing a government's financing requirements. In particular, unrestricted or unassigned fund balance is a useful measure of a government's net resources available for spending at the end of the fiscal year.

Governmental funds combined ending fund balance was \$58.8 million, an increase of \$11 million in comparison with the prior year, significantly due to the revenue improvements previously discussed, the City's active efforts to contain costs due to pandemic economic uncertainty, and the City's active efforts to reduce net pension and other long-term obligations. The resulting fund balances, as a percent of operating expenditures, continue to exceed the City's policy guidelines.

The General Fund is the primary operating fund of the City. Of the total fund balance, \$35.9 million is unassigned fund balance available for spending at the government's discretion. As a measure of the General Fund's liquidity, it is useful to compare unassigned fund balance to total fund expenditures. It is prudent for a government to maintain an appropriate level of fund balance, generally based on the historical and projected stability and predictability of the underlying revenues and expenditures, to meet unanticipated revenue shortfalls such as the pandemic impacts starting in 2021 and continuing into 2021, small increases in service delivery costs, or emergency situations such as the pandemic. As previously discussed, the City took a very conservative approach to spending in 2020 and 2021, given the pandemic economic uncertainty.

Unassigned fund balance represents 105% and 98% of 2021 actual and 2022 budgeted General Fund operating expenditures, respectively, exceeding the City's policy guidelines set by the City Council. As part of its 2022 budget process, the City estimated 10 years of General Fund balance, showing the City Council's decision to gradually and strategically draw down fund balance, to approximately 35% within the 10-year period, to fund capital and OPEB expenditures.

Committed fund balance totaling \$2.9 million in the nonmajor governmental funds is not available for discretionary spending as it is targeted for transportation and sustainability initiatives. The City reports an assigned fund balance of \$10.9 million in the General Fund to meet future obligations for other post-employment benefits and capital projects. Please refer to page 19 for a detailed description and amounts of assigned and committed fund balance.

The Public Safety Pension Levy Fund has a total fund balance of \$0, equal to the City's target. This fund accounts for property tax revenues that are restricted to fund the City's public safety pension liability.

The Capital Projects Fund has a total fund balance of \$1.9 million at December 31, 2021, greater than the City's target of zero. During 2021, the fund balance decreased \$0.3 million due the timing of infrastructure capital improvements consistent with the City's capital improvement plan.

Nonmajor governmental funds (NMGF) combined fund balance of \$10.1 million at year-end improved \$3.2 million from the prior year, due to pandemic-related cost containment in all funds and accumulation in the City's Tax Increment Financing and Affordable Housing Funds for planned future fund drawdowns to pay for capital improvements and other expenditures consistent with long-term plans. The Debt Service and Multi-Modal Transportation Funds are included in NMFG and had total fund balances of \$0.9 million and \$2 million, respectively.

Proprietary funds. The City's proprietary fund statements provide the same type of information found in the government-wide financial statements, however in more detail.

Net positions of the Water, Sewer, and Parking Funds were \$21.5 million, \$21.6 million, and \$2.6 million, respectively. The improvement in net position for proprietary funds, combined, was \$4.2 million. Factors concerning the finances of these funds have been addressed in the discussion of the City's Financial Highlights and Business-type Activities sections of this Management, Discussion and Analysis.

General Fund Budgetary Highlights

Actual revenue was higher than budget by \$9 million due to continued strong economic conditions, recovery from the pandemic's negative economic impact on City revenue, increased sales tax revenue from online sales, and active pursuit of grants to offset the pandemic's negative economic impact on prior year City revenue. The most significant changes were municipal sales tax \$3.8 million, real estate transfer tax \$1.1 million, grants \$1.1 million, state income tax \$0.9 million, other taxes \$1.1 million, and licenses and permits \$0.7 million.

Actual expenditures were lower than original and amended final budget by \$1.5 million and \$2.6 million, respectively. Actual expenditures reflect decreases vs. budget related to the City's pandemic economic response plan including elimination of non-essential purchases and expenses; reducing operating and capital costs; keeping positions vacant as a result of resignations or retirement; and implementing a reduction in work force in 2020, with a reduced cost structure carried into 2021. General Government, Public Safety, and Public Works accounted for 96% of the \$2.6 million variance to amended final budget.

Capital Asset and Debt Administration

Capital Assets. Capital assets include land, buildings, other improvements, machinery and equipment, streets, bridges, sanitary and storm sewers, and water production and distribution systems. The combined investment in capital assets for governmental and business-type activities as of December 31, 2021 was \$161.4 million net of accumulated depreciation.

A \$1.5 million reduction in buildings and improvements resulted from \$2.6 million of deprecation, net of \$1.1 million of net new improvements. A \$1.3 million increase in buildings and equipment resulted from \$1.8 million of net improvements, net of \$0.5 million of deprecation. A \$2.9 million decrease in infrastructure resulted from \$4.4 million of deprecation, net of \$1.5 million of improvements. A \$3.1 million increase in construction in progress resulted from projects which started prior to or during 2021 and will be completed in 2022. Additional information on the City's capital assets can be found in the Notes to Financial Statements Note II C. of this report.

Capital Assets, Net of Depreciation as of December 31, 2020 and 2021

(in Millions – Rounded)

	Governmer	nt Activities	Business	Activities	Total Primary Government			
	2020	2021	2020	2021	2020	2021	Change

Total Long-Term Debt Outstanding as of December 31, 2020 and 2021

(in Millions - Rounded)

Long-term debt. At the end of 2021, long-term debt outstanding was \$49.7 million, of which \$8.8 million will be paid by the debt service fund from general governmental revenues. The remainder of the debt will be paid from revenue of business-type activities.

	Governmen	nt Activities	Business	Activities	Total Primary Government			
	2020	2021	2020	2021	2020	2021	Change	
General Obligation Debt	\$9.8	\$8.8	\$39.0	\$36.7	\$48.8	\$45.5	(\$3.3)	
IEPA Loan Payable	-	-	4.5	4.2	4.5	4.2	(0.3)	
Total Long-term Debt	\$9.8	\$8.8	\$43.5	\$40.9	\$53.3	\$49.7	(\$3.6)	
Net Pension Obligation	70.3	68.5	-	-	70.3	68.5	(1.8)	
Other Long-term Liabilities	22.1	22.1	1.1	1.1	23.2	23.2	(0.0)	
Total Long-term Liabilities	\$102.2	\$99.4	\$44.6	\$42.0	\$146.8	\$141.4	(\$5.4)	

Total long-term debt decreased by \$3.6 million due to payments consistent with the City's debt service schedule for previously issued debt and a 2021 debt refunding of the City's originally issued general obligation bonds, series 2013A and 2014. The refunding results in nominal debt service savings of \$1.6 million over 10 years, worth \$1.4 million on a net present value basis. The City's general obligation bonds maintain an "Aaa" rating from Moody's Investors Service. The Aaa rating reflects the city's affluent tax base, stable financial operations, healthy reserves, moderate bonded debt burden, and sound financial practices and policies.

A \$1.8 million decrease in net pension liability resulted from the City's accelerated contribution plan and investment gains. Additional information on the City's long-term obligations can be found in the Notes to Financial Statements Note II E. of this report.

Economic Factors and Next Year's Budgets and Rates

The City has a long-standing heritage as one of the prestigious communities along Chicagoland's "north shore" of Lake Michigan. The long-term economic outlook remains strong as the City's stable property tax base consists of over 90% residential property. Economic trends continue to be strong, with significant revenue growth in 2021 returning to historical gradual annual revenue growth trends in future years, driven by the economic climate. The City experienced strength in sales tax, charges for services, property tax, real estate transfer tax, building permits, and all other taxes. Retail occupancy increased to 91% at the close of 2021, from 85.3% at the start of 2021, reflecting a 5.7% decrease in vacancies. Property and sales tax continue to be the largest revenue sources for general fund operations, along with charges for services, income tax, and other general taxes. The City continues to monitor revenue on a monthly basis, notably sales tax, building permit, and real estate transfer tax revenue, as these three revenue sources are impacted by national economic conditions. The City continues to take steps to enhance retail sales in the City. Other economic factors impacting the City's budget are as follows.

- The average unemployment rate for the City of 2.5%, was well below the State of Illinois rate of 3.8% and the Lake County rate of 3.9%, as sourced from the Bureau of Labor Statistics.
- The U.S. Census Bureau five-year estimated values reported that the median value of the City's owner-occupied homes was \$584,500. This compares to \$265,100 for the County and \$194,500 for the State.

 The City had average and median household incomes of \$231,170 and \$150,269, respectively, according to the U.S. Census Bureau American Community Survey estimates 2014 to 2019, which placed the City among the nation's wealthiest communities with populations of 25,000 or more.

The City is mindful of the ongoing budget crisis at the State of Illinois and its growing pension liabilities. The Mayor and City Council continue to urge State lawmakers to pass a balanced budget that protects local government revenues. The City has proactively prepared in the event of potential loss of these revenues.

As a result of conservative efforts, the City has been able to accumulate a General Fund Balance in excess of the City's policy of a 35% reserve. The Mayor and City Council have approved policies to strategically and gradually drawdown excess reserves to complete one-time capital improvements, over the capital improvement period 2022-2031, developed as part of the 2022 Budget. Included in the 2022 budget are investments into City facilities and equipment, HPMove improvements, tree replacement, and funding for other post-employment benefits.

The City's 2022 budget reflects a balanced operating budget with revenue and expenditure changes which are consistent with recovery from the coronavirus pandemic economic decline. The changes reflect a conservative increase in service and staffing following the 2020-2021 staffing reduction of 26.8 FTE employees, contained operating costs, and capital changes, due to the City's economic response plan to the negative impact of the pandemic on City revenue. Changes are detailed in the 2022 Budget document, which can be found on the City's website. All City staff remain committed to providing responsive and high quality customer service.

Requests for Information

This financial report is designed to provide a general overview of the City's finances for anyone with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information may be addressed to the Office of the Finance Director, City of Highland Park, 1707 St. Johns Avenue, Highland Park, Illinois 60035.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
For the Year Ended December 31, 2021

Net change in fund balances - total governmental funds	\$	10,952,006
Amounts reported for governmental activities in the statement of activities are different because: Governmental funds report capital outlays as expenditures. However, in the statement of net position the cost of these assets is capitalized and they are depreciated over their estimated useful lives and reported as depreciation expense in the statement of activities. Capital outlay is reported as an expenditure in the fund financial statements but is capitalized in the government-wide financial statements Depreciation is reported in the government-wide financial statements Net book value of assets retired		1,509,341 (3,776,823) (8,155)
Receivables not currently available are reported as revenue when collected or currently available in the fund financial statements but are recognized as revenue when earned in the government-wide financial statements.		(909,886)
Debt issued provides current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. Principal repaid		925,010
Governmental funds report debt premiums and discounts as other financing sources (uses) or financing source or uses. However, in the statement of net position, these are reported as additions to or deductions from long-term debt. These are allocated over the period the debt is outstanding in the statement of activities and are reported as interest expense. Bond premium		56,414
Some expenses in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds. Compensated absences Net pension asset - IMRF Net pension liability - Police Pension Net pension liability - Firefighters' Pension Total OPEB liability Deferred outflows of resources related to OPEB Deferred inflows of resources related to OPEB Deferred outflows of resources related to pensions Deferred inflows of resources related to pensions Accrued interest on debt Deferred charge on refunding		66,351 4,599,724 2,382,054 (658,680) (91,847) (949,251) (500,231) 1,748,407 (2,395,677) 72 (11,460)
The change in claims payable is shown as an expense on the statement of activities.		129,787
Internal service funds are used by management to charge self insurance costs to individual funds. The change in net position of the internal service fund reported with governmental activities.	_	1,180,060

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Highland Park, Illinois (the City) was incorporated in 1869. The City is a home-rule municipality, under the 1970 Illinois Constitution, located in Lake County, Illinois. The City operates under a Council-Manager form of government and provides the following services as authorized by its charter: public safety (police and fire), highways and streets, health, social, and cultural services; water and sanitation; public improvements; planning and zoning; and general administrative services.

The accounting policies of the City of Highland Park, Illinois conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The accepted standard-setting body for establishing governmental accounting and financial reporting principles is the Governmental Accounting Standards Board (GASB).

A. REPORTING ENTITY

This report includes all of the funds of the City. The reporting entity for the City consists of the primary government and its component units. Component units are legally separate organizations for which the primary government is financially accountable or other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's financial statements to be misleading. The primary government is financially accountable if (1) it appoints a voting majority of the organization's governing body and it is able to impose its will on that organization, (2) it appoints a voting majority of the organization's governing body and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government, (3) the organization is fiscally dependent on and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government. Certain legally separate, tax exempt organizations should also be reported as a component unit if all of the following criteria are met: (1) the economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the primary government, its component units, or its constituents; (2) the primary government or its component units, is entitled to, or has the ability to access, a majority of the economic resources received or held by the separate organization; and (3) the economic resources received or held by an individual organization that the primary government, or its component units, is entitled to, or has the ability to otherwise access, are significant to the primary government.

Component units are reported using one of three methods: discrete presentation, blended, or fiduciary. Generally, component units should be discretely presented in a separate column in the financial statements. A component unit should be reported as part of the primary government using the blending method if it meets any one of the following criteria: (1) the primary government and the component unit have substantively the same governing body and a financial benefit or burden relationship exists, (2) the primary government and the component unit have substantively the same governing body and management of the primary government has operational responsibility for the component unit, (3) the component unit serves or benefits, exclusively or almost exclusively, the primary government rather than its citizens, or (4) the total debt of the component unit will be paid entirely or almost entirely from resources of the primary government.

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2021

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

A. REPORTING ENTITY (cont.)

Discretely Presented Component Units

Highland Park Public Library

The government-wide financial statements include the Highland Park Public Library (Library) as a component unit. The Library is a legally separate organization. The nine-member board of the Library is appointed by the Mayor. Statutes provide for circumstances whereby the City can impose its will on the Library, and also create a potential financial benefit to or burden on the City. See Note II.F. As a component unit, the Library's financial statements have been presented as a discrete column in the financial statements. The information presented is for the fiscal year ended December 31, 2021. Separately issued financial statements of the Highland Park Public Library may be obtained from the Library's office.

Highland Park Housing Associations

The government-wide financial statements include the Highland Park Housing Associations as a component unit. The seven member Highland Park Housing Commission was created in 1973 to encourage and engage in the development of low-and moderate-income housing. Currently, the Commission operates rental housing in four affordable developments, which are owned and/or operated by three distinct housing associations. These are the Ravinia Housing Association, the Peers Housing Association, and the Sunset Woods Housing Association. The members of the Housing Commission, which are appointed by the Mayor and confirmed by the City Council, are concurrently the board members of the four individual associations. The City has the ability to impose its will over the Highland Park Housing Associations for the following reasons: (1) the Mayor has the ability to remove members at will without cause and (2) the Housing Commission budget and all projects are required to be approved by City Council. The Chair of the Housing Commission is also the President of each of the housing associations. Each of the four housing associations is a separate registered not-for-profit entity and has its own bylaws. As a component unit, the Associations' financial statements have been presented as a discrete column in the financial statements. The information presented is for the fiscal year ended December 31, 2021. Separately issued financial statements of the Highland Park Housing Associations' members may be obtained from the City's office.

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2021

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

A. REPORTING ENTITY (cont.)

Fiduciary Component Units

Police Pension

The Police Pension Employees Retirement System (PPERS) is established for the City's police employees. PPERS functions for the benefit of these employees and is governed by a five-member pension board. Two members appointed by the City's Mayor, one pension beneficiary elected by the membership, and two police employees elected by the membership constitute the pension board. The City and the PPERS participants are obligated to fund all PPERS costs based upon actuarial valuations. A municipality is considered to have a financial burden if it is legally obligated or has otherwise assumed the obligation to make contributions to the pension plan. The State of Illinois is authorized to establish benefit levels and the City is authorized to approve the actuarial assumptions used in the determination of contribution levels. PPERS is reported as a fiduciary component unit and the data for the pension is included in the government's fiduciary fund financial statements as a pension trust fund. No separate annual financial report is issued for the PPERS.

Firefighters' Pension

The Firefighters' Pension Employees Retirement System (FPERS) is established for the City's firefighters. FPERS functions for the benefit of these employees and is governed by a five-member pension board. Two members appointed by the City's Mayor, one pension beneficiary elected by the membership, and two fire employees elected by the membership constitute the pension board. The City and the FPERS participants are obligated to fund all FPERS costs based upon actuarial valuations. A municipality is considered to have a financial burden if it is legally obligated or has otherwise assumed the obligation to make contributions to the pension plan. The State of Illinois is authorized to establish benefit levels and the City is authorized to approve the actuarial assumptions used in the determination of contribution levels. FPERS is reported as a fiduciary component unit and the data for the pension is included in the government's fiduciary fund financial statements as a pension trust fund. No separate annual financial report is issued for the FPERS.

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

Government-Wide Financial Statements

The statement of net position and statement of activities display information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange revenues. Business-type activities are financed, in whole or in part, by fees charged to external parties for goods or services. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2021

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (cont.)

Government-Wide Financial Statements (cont.)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. The City does not allocate indirect expenses to functions in the statement of activities. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not included among program revenues are reported as general revenues. Internally dedicated resources are reported as general revenues rather than as program revenues.

Fund Financial Statements

Financial statements of the City are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitute its assets, deferred outflows of resources, liabilities, deferred inflows of resources, net position/fund balance, revenues, and expenditures/expenses.

Funds are organized as major funds or nonmajor funds within the governmental and proprietary statements. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the City or meets the following criteria:

- a. Total assets/deferred outflows of resources, liabilities/deferred inflows of resources, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10% of the corresponding total for all funds of that category or type, and
- b. The same element of the individual governmental or enterprise fund that met the 10% test is at least 5% of the corresponding total for all governmental and enterprise funds combined.
- c. In addition, any other governmental or enterprise fund that the City believes is particularly important to financial statement users may be reported as a major fund.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2021

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (cont.)

Fund Financial Statements (cont.)

The City reports the following major governmental funds:

General Fund - accounts for the City's primary operating activities. It is used to account for and report all financial resources except those accounted for and reported in another fund.

Public Safety Pension Levy Fund - used to account for the portion of the property tax levy restricted to funding police and firefighters' pensions, which is transferred to the Police and Firefighters' Pension Funds.

Capital Projects Fund - used to account for funds restricted, committed, or assigned to alleviate storm drainage problems, finance street improvements, and provide other facility and infrastructure improvements. The City has chosen to report this fund as a major fund.

The City reports the following major enterprise funds:

Water Fund - accounts for operations of the water facilities and services owned and provided by the City to its residents. The activities are entirely or predominantly self-supported by user charges.

Sewer Fund - accounts for operations of the sanitary sewer facilities and services owned and provided by the City to its residents. The activities are entirely or predominantly self-supported by user charges.

The City reports the following nonmajor governmental and enterprise funds:

Special Revenue Funds - used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes (other than debt service or capital projects).

Motor Fuel Tax Emergency 911 System
Foreign Fire Insurance Tax Environmental Sustainability
Multi-Modal Transportation Affordable Housing

Debt Service Fund - used to account for and report financial resources that are restricted, committed, or assigned to expenditure for the payment of general long-term debt principal, interest, and related costs.

Debt Service

Capital Projects Funds - used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

Tax Increment Financing - Ravinia Tax Increment Financing - Briergate

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2021

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (cont.)

Fund Financial Statements (cont.)

The city reports the following non-major governmental and enterprise funds: (cont.)

Enterprise Fund - used to account for and report any activity for which a fee is charged to external uses for goods or services, and must be used for activities which meet certain debt or cost recovery criteria.

Motor Vehicle Parking System

In addition, the City reports the following fund types:

Internal Service Funds - used to account for and report the financing of goods or services provided by one department or agency to other departments or agencies of the City, or to other governmental units, on a cost-reimbursement basis.

Equipment Maintenance and Replacement Insurance

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Government-Wide Financial Statements

The government-wide statement of net position and statement of activities are reported using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Property taxes are recognized as revenues in the year for which they are levied. Taxes receivable for the following year are recorded as receivables and deferred inflows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider are met. Special assessments are recorded as revenue when earned. Unbilled receivables are recorded as revenues when services are provided.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the City's enterprise funds and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2021

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION (cont.)

Fund Financial Statements

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recorded when they are both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days (except sales and telecommunications taxes which use 90 days) of the end of the current fiscal period. Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on long-term debt, claims, judgments, compensated absences, and pension expenditures, which are recorded as a fund liability when expected to be paid with expendable available financial resources.

Property taxes are recorded in the year levied as receivables and deferred inflows. They are recognized as revenues in the succeeding year when services financed by the levy are being provided.

Intergovernmental aids and grants are recognized as revenues in the period the City is entitled the resources and the amounts are available. Amounts owed to the City which are not available are recorded as receivables and unavailable revenues. Amounts received before eligibility requirements (excluding time requirements) are met are recorded as liabilities. Amounts received in advance of meeting time requirements are recorded as deferred inflows.

Revenues susceptible to accrual include property taxes, miscellaneous taxes, public charges for services, special assessments and interest. Other general revenues such as fines and forfeitures, inspection fees, recreation fees, and miscellaneous revenues are recognized when received in cash or when measurable and available under the criteria described above.

Proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as described previously in this note.

The proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the proprietary funds are charges to customers for sales and services. Special assessments are recorded as receivables and contribution revenue when levied. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

All Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, and deferred inflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

As of and for the Year Ended December 31, 2021

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity

1. Deposits and Investments

For purposes of the statement of cash flows, the City considers all highly liquid investments with an initial maturity of three months or less when acquired to be cash equivalents.

Illinois Statutes authorize the City to make deposits/investments in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States or agreement to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the three highest classifications by at least two standard rating services, and the Illinois Funds Investment Pool.

Pension funds may also invest in certain non-U.S. obligations, Illinois municipal corporations tax anticipation warrants, veteran's loans, obligations of the State of Illinois and its political subdivisions, and the Illinois insurance company general and separate accounts, mutual funds meeting certain requirements, equity securities, and corporate bonds meeting certain requirements. Pension funds with net assets in excess of \$10,000,000 and an appointed investment advisor may invest an additional portion of its assets in common and preferred stocks and mutual funds, that meet certain requirements. The Police Pension Fund's investment policy allows investments in all of the above listed accounts, but does exclude any repurchase agreements. The Firefighters' Pension Fund allows funds to be invested in any type of security authorized by the Illinois Pension Code.

The Police Pension Fund's investment policy, in accordance with Illinois Statutes, establishes the following target allocation across asset classes:

Asset Class	Target	Long-Term Expected Real Rate of Return
Fixed Income and Cash	40%	2.5%
Large-Cap Domestic Equity	42%	5.5%
Mid-Cap / Small-Cap Domestic Equity	12%	5.5%
International Equity	6%	5.5%

Illinois Compiled Statues (ILCS) limit the police pension fund's investments in equities, mutual funds and variable annuities to 65%. Securities in any one company should not exceed 5% of the total fund.

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2021

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

- D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity (cont.)
 - 1. Deposits and Investments (cont.)

The Police Pension Fund's investment policy does not include formalized long-term expected rate of returns by asset class. The Police Pension Fund uses the actuarial assumptions listed above for each asset class, which were determined using a building-block method in which expected future real rates of return (expected returns, net of plan investment expense and inflation) are developed for each major asset class. The Police Pension Fund has developed formal expectations that fixed income investments outperform the Barclay's U.S. Treasury Intermediate, Barclays U.S. Agency 7-10 Year, Barclays Taxable Municipal Intermed., as well as the Barclays Corporate Intermediate. Additionally, large-cap domestic equity investments outperform the S&P 500 Index, small-cap domestic equity investments outperform the Russell 2000 Stock Index, and international equity investments outperform the MSCI Europe/Australia/Far East Index on a total return basis.

The Firefighters' Pension Fund's investment policy, in accordance with Illinois Statutes, establishes the following target allocation across asset classes:

Asset Class	Target	Long-Term Expected Real Rate of Return
Fixed Income and Cash	40%	2.5%
Large Cap Domestic Equity	42%	5.5%
Mid-Cap / Small-Cap Domestic Equity	12%	5.5%
International Equity	6%	5.5%

Illinois Compiled Statues (ILCS) limit the firefighters' pension fund's investments in equities, mutual funds and variable annuities to 65%. Securities in any one company should not exceed 5% of the total fund.

The Firefighters' Pension Fund's investment policy does not include formalized long-term expected rate of returns by asset class. The Firefighters' Pension Fund uses the actuarial assumptions listed above for each asset class, which were determined using a building-block method in which expected future real rates of return (expected returns, net of plan investment expense and inflation) are developed for each major asset class. The Firefighters' Pension Fund has developed formal expectations that fixed income investments outperform the Barclay's U.S. Treasury Intermediate, Barclays U.S. Agency 7-10 Year, Barclays Taxable Municipal Intermed., as well as the Barclays Corporate Intermediate. Additionally, large-cap domestic equity investments outperform the S&P 500 Index, small-cap domestic equity investments outperform the Russell 2000 Stock Index, and international equity investments outperform the MSCI Europe/Australia/Far East Index on a total return basis.

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

- D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity (cont.)
 - 1. Deposits and Investments (cont.)

The City's investment policy authorizes the City to make deposits/invest in insured commercial banks; savings and loan institutions; obligations of the U.S. Treasury, U.S. agency, and U.S. instrumentality; money market mutual funds regulated by the SEC and whose portfolios consist only of domestic debt securities; investment-grade obligations of state, provincial, and local governments and public authorities; certificates of deposits and other evidences of deposit at financial institutions, bankers' acceptances, and commercial paper, rated in the highest tier by a nationally recognized rating agency; local government investment pools, either state administered or through joining powers statutes, and other intergovernmental agreement legislation; and Illinois Funds.

The City has adopted an investment policy. It is the policy of the City to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the City and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The primary objective of the policy is safety (preservation of capital and protection of investment principal), liquidity, and yield.

Interest Rate Risk

In accordance with its investment policy, the City limits its exposure to interest rate risk by structuring the portfolio so that securities mature concurrent with cash needs. The investment policy limits the maximum maturity length of investments to three years from date of purchase, unless specific authority is given to exceed. Investments in reserve funds may be purchased with maturities to match future projects of liability requirements. In addition, the policy requires the City to structure the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity.

In accordance with investment policies, the Police Pension Fund and Firefighters' Pension Fund limit exposure to interest rate risk by structuring the portfolios to provide liquidity for operating funds and maximizing yields for funds not needed within a one-year period. The investment policies do not limit the maximum maturity length of investments in the funds. The investment policies require that the portfolios be structured to meet the actuarially determined cash flow requirements of the funds.

Credit Risk

The City, Police Pension Fund, and Firefighters' Pension Fund limit exposure to credit risk, the risk that the issuer of a debt security will not pay its par value upon maturity, by primarily investing in obligations guaranteed by the United States Government or securities issued by agencies of the United States Government that are explicitly or implicitly guaranteed by the United States Government.

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2021

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

- D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity (cont.)
 - 1. Deposits and Investments (cont.)

Concentration of Credit Risk

The City's investment policy preserves its capital by requiring the portfolio to be sufficiently diversified with respect to the types of securities held, the number of financial institutions utilized, and the maturities of the individual securities.

Custodial Credit Risk - Deposits

The City's investment policy limits the exposure to deposit custodial credit risk by requiring all deposits in excess of FDIC insurable limits to be secured with collateralization pledged by the applicable financial institution to the extent of 110% of the value of the deposit. The Police and Firefighters' Pension Fund investment policies require pledging of collateral with a fair value of 110% of all bank balances in excess of federal depository insurance with the collateral held by the Police and Firefighters' Pension Funds or their respective agents in the name of the Police and Firefighters' Pension Fund.

Custodial Credit Risk - Investments

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the City will not be able to recover the value of its investments that are in possession of the outside party. The City's investment policy does not address custodial credit risk.

The Police and Firefighters' Pension Fund investment policies require investments to be held by a separate third party custodian to safe-keep the assets of the funds, complying with provisions of the Illinois Pension Code.

Investments are stated at fair value, which is the amount at which an investment could be exchanged in a current transaction between willing parties. Fair values are based on quoted market prices. No investments are reported at amortized cost. Adjustments necessary to record investments at fair value are recorded in the operating statement as increases or decreases in investment income. Investment income on commingled investments of municipal accounting funds is allocated based on average balances. The difference between the bank statement balance and carrying value is due to outstanding checks and/or deposits in transit.

Illinois Funds is an investment pool managed by the State of Illinois, Office of the Treasurer, which allows governments within the State to pool their funds for investment purposes. Illinois Funds is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in Illinois Funds are valued at Illinois Fund's share price, the price for which the investments could be sold.

See Note II. A. for further information.

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2021

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity (cont.)

2. Receivables

Property taxes for levy year 2021 attach as an enforceable lien, as of January 1, 2021, on property values assessed as of the same date. Taxes are levied by December following the lien date (by passage of a Tax Levy Ordinance). Tax bills for levy year 2021 are prepared by Lake County, issued in May 2022, and are payable in two installments, on or about June 6, 2022 and September 6, 2022 or within 30 days of the tax bills being issued.

The county collects such taxes and remits them periodically. The 2021 property tax levy is recognized as a receivable and a deferral in fiscal 2021, net of the allowance for uncollectible. As the taxes become available to finance current expenditures, they are recognized as revenues. At December 31, 2021, the property taxes receivable and related deferred inflows consisted of the estimated amount collectible from the 2021 levy and amounts from the 2020 levy not collected until after year-end.

During the course of operations, transactions occur between individual funds that may result in amounts owed between funds. Short-term interfund loans are reported as "due to and from other funds." Long-term interfund loans (noncurrent portion) are reported as "advances from and to other funds." Interfund receivables and payables between funds within governmental activities are eliminated in the statement of net position. Any residual balances outstanding between the governmental activities and business-type activities are reported in the governmental-wide financial statements as internal balances.

3. Inventories and Prepaid Items

Governmental fund inventories, if material, are recorded at cost based on the average cost method using the consumption method of accounting. Proprietary fund inventories are generally used for construction and/or for operation and maintenance work. They are not for resale. They are valued at cost, based on average cost, and charged to construction and/or operation and maintenance expense when used.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

4. Capital Assets

Government-Wide Statements

Capital assets, which include property, plant and equipment, are reported in the government-wide financial statements. Capital assets are defined by the government as assets with an initial cost of more than \$5,000 for general capital assets and \$50,000 for infrastructure assets, and having an estimated useful life in excess of three years. All capital assets are valued at historical cost, or estimated historical cost if actual amounts are unavailable. Donated capital assets are recorded at acquisition value at the date of donation.

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2021

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

- D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity (cont.)
 - 4. Capital Assets (cont.)

Government-Wide Statements (cont.)

Additions to and replacements of capital assets of business-type activities are recorded at original cost, which includes material, labor, overhead, and an allowance for the cost of funds used during construction when significant. For tax-exempt debt, the amount of interest capitalized equals the interest expense incurred during construction netted against any interest revenue from temporary investment of borrowed fund proceeds. No interest was capitalized during the current year. The cost of renewals and betterments relating to retirement units is added to plant accounts. The cost of property replaced, retired or otherwise disposed of, is deducted from plant accounts and, generally, together with removal costs less salvage, is charged to accumulated depreciation.

Depreciation of exhaustible capital assets is recorded as an allocated expense in the statement of activities, with accumulated depreciation reflected in the statement of net position. Depreciation is provided over the assets' estimated useful lives using the straight-line method. The range of estimated useful lives by type of asset is as follows:

Buildings	50	Years
Public domain infrastructure	20-50	Years
System infrastructure	40-50	Years
Vehicles	3-20	Years
Mobile equipment	10-30	Years
Furniture and fixtures	10	Years
Computer equipment	5	Years

Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for the same way as in the government-wide statements.

5. Deferred Outflows of Resources

A deferred outflow of resources represents a consumption of net position/fund balance that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until that future time.

A deferred charge on refunding arises from the advance refunding of debt. The difference between the cost of the securities placed in trust for future payments of the refunded debt and the net carrying value of that debt is deferred and amortized as a component of interest expense over the shorter of the term of the refunding issue or the original term of the refunded debt. The unamortized amount is reported as a deferred outflow of resources in the government-wide and proprietary fund financial statements.

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2021

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity (cont.)

6. Compensated Absences

The City's policy for vacation pay states that vacation time is earned each pay period. Vacation credits carryover into future years up to a maximum of 30 days. Any accumulated time in excess of 30 days is lost. Unused sick time may be used toward time off and/or converted to pre-tax dollars and deposited into the Section 125 Flexible Spending Program or 457 deferred compensation account. Vested or accumulated sick and vacation leave (including related social security and medicare) of proprietary funds is recorded as an expense and liability of those funds and in the governmental activities column in the government-wide financial statements as they are earned. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements, and are payable with expendable resources.

7. Long-Term Obligations

Long-term obligations to be repaid from governmental and business-type resources are reported as liabilities in the government-wide statements. The long-term obligations consist primarily of notes and bonds payable, accrued compensated absences, claims payable, net pension liabilities, and total OPEB liabilities.

Long-term obligations for governmental funds are not reported as liabilities in the fund financial statements. The face value of debts (plus any premiums) are reported as other financing sources and payments of principal and interest are reported as expenditures. The accounting in proprietary funds is the same as it is in the government-wide statements.

For the government-wide statements and proprietary fund statements, bond premiums and discounts are amortized over the life of the issue using the effective interest method. Gains or losses on prior refundings are amortized over the remaining life of the old debt, or the life of the new debt, whichever is shorter. The balance at year end for premiums/discounts is shown as an increase or decrease in the liability section of the statement of net position. The balance at year end for gains/losses is shown as a deferred outflow/inflow in the statement of net position.

8. Deferred Inflows of Resources

A deferred inflow of resources represents an acquisition of net position/fund balance that applies to a future period and therefore will not be recognized as an inflow of resources (revenue) until that future time.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2021

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

- D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity (cont.)
 - 9. Equity Classifications

Government-Wide Statements

Equity is classified as net position and displayed in three components:

- a. Net investment in capital assets Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances (excluding unspent debt proceeds) of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net position Consists of net position with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or, 2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position All other net positions that do not meet the definitions of "restricted" or "net investment in capital assets."

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

Fund Statements

Governmental fund balances are displayed as follows:

- a. Nonspendable Includes fund balance amounts that cannot be spent either because they are not in spendable form or because legal or contractual requirements require them to be maintained intact.
- b. Restricted Consists of fund balances with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or 2) law through constitutional provisions or enabling legislation.
- c. Committed Includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision making authority. Fund balance amounts are committed through a formal action (resolution) of the City Council. This formal action must occur prior to the end of the reporting period, but the amount of the commitment, which will be subject to the constraints, may be determined in the subsequent period. Any changes to the constraints imposed require the same formal action of the City Council that originally created the commitment.

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2021

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

- D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity (cont.)
 - 9. Equity Classifications

Fund Statements (cont.)

- d. Assigned Includes spendable fund balance amounts that are intended to be used for specific purposes that do not meet the criteria to be classified as restricted or committed. The City has adopted a resolution authorizing the Budget Officer to assign amounts for a specific purpose. Assignments may take place after the end of the reporting period.
- e. Unassigned Includes residual positive fund balance within the general fund which has not been classified within the other above mentioned categories. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed, or assigned for those purposes.

Proprietary fund equity is classified the same as in the government-wide statements.

The City has not adopted a flow of funds and therefore applies the flow of funds from GASB Statement No. 54, which prescribes that the funds with the highest level of constraint are expended first. The City considers restricted amounts to be spent first when both restricted and unrestricted fund balance is available unless there are legal documents / contracts that prohibit doing this, such as in grant agreements requiring dollar for dollar spending. Additionally, the City would first use committed, then assigned and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

The City has established minimum fund balance targets for certain governmental funds which encompass both assigned and unassigned fund balance. The targets, expressed as percentages of operating expenditures as follows: General Fund (35%), Multi-Modal Transportation Fund (10%), Emergency 911 Fund (10%), Environmental Sustainability Fund (10%), and Debt Service Fund (15%).

As of and for the Year Ended December 31, 2021

NOTE II - DETAILED NOTES ON ALL FUNDS (cont.)

A. DEPOSITS AND INVESTMENTS (cont.)

Deposits in each local and area bank are insured by the FDIC in the amount of \$250,000 for time and savings accounts (including NOW accounts) and \$250,000 for demand deposit accounts (interest-bearing and noninterest-bearing). In addition, if deposits are held in an institution outside of the state in which the government is located, insured amounts are further limited to a total of \$250,000 for the combined amount of all deposit accounts.

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The City used the market valuation method for recurring fair value measurements.

As of December 31, 2021, the City's investments were measured using valuation inputs as follows:

Police Pension Fund

		December 31, 2021

Custodial Credit Risk

Deposits

Custodial credit risk is the risk that in the event of a financial institution failure, the City's deposits may not be returned to the City.

The City does not have any deposits exposed to custodial credit risk.

Investments

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

The U.S. Treasury obligations are held in safekeeping at the bank where they are purchased.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2021

NOTE II - DETAILED NOTES ON ALL FUNDS (cont.)

A. DEPOSITS AND INVESTMENTS (cont.)

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations.

As of December 31, 2021, the City's investments were rated as follows:

Investment Type	Standard & Poors	Moody's Investors Services
Money market - Illinois Funds	AAAm	N/A
Money market - other	AAAm	Aaa
Corporate bonds	AAA - BBB, NR	Aaa - Baa2, NR
U.S. Agency obligations	AA+, NR	Aaa, NR
Municipal bonds	AAA - AA, NR	Aaa - Aa3, NR
Negotiable certificates of deposit	NR	NR

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. At December 31, 2021, the City held no investments subject to concentration of credit risk.

The Police Pension Fund had the following applicable investment in excess of 5% of total fund investments.

Federal Farm Credit Banks	\$ 7,345,037
Federal Home Loan Bank	3,302,460

The Firefighters' Pension Fund had the following applicable investment in excess of 5% of total fund investments.

Federal Farm Credit Banks	\$ 6,112,140
Federal Home Loan Bank	2,607,573

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2021

NOTE II - DETAILED NOTES ON ALL FUNDS (cont.)

A. DEPOSITS AND INVESTMENTS (cont.)

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the value of an investment.

Maturity (In Years)

As of December 31, 2021, the City's investments were as follows:

Police Pension Fund

Investment Type	Fair Value	_	< 1	_	1-5	6-10	 > 10

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2021

NOTE II - DETAILED NOTES ON ALL FUNDS (cont.)

A. DEPOSITS AND INVESTMENTS (cont.)

Money-Weighted Rate of Return

Police Pension Fund

For the year ended December 31, 2021, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 11.89%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Firefighters' Pension Fund

For the year ended December 31, 2021, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 11.76%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

See Note I.D.1. for further information on deposit and investment policies.

B. RECEIVABLES

Intergovernmental receivables as of year end for the General Fund in the aggregate are as follows:

	General Fund
Intergovernmental receivable	
Sales tax	\$ 2,994,566
Utility tax	649,332
Home rule sales tax	1,421,308
Local use tax	355,750
Total	<u>\$ 5,420,956</u>

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2021

NOTE II - DETAILED NOTES ON ALL FUNDS (cont.)

B. RECEIVABLES (cont.)

		General Fund
Accounts receivable		
Local sales	\$	106,500
Rent		8,521
Grants		10,389
Permits		58,096
Court fines		15,596
Miscellaneous	_	897,631
Gross receivables		1,096,733
Less: Allowance for uncollectibles		(145,431)
Net accounts receivable	\$	951,302

All of the receivables on the balance sheet are expected to be collected within one year, except for \$900,000 in other receivables in the General Fund, which represents air rights sold to a developer and payable in three annual installments of \$300,000 beginning in 2024.

Governmental funds report *unavailable or unearned revenue* in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Property taxes levied for the subsequent year are not earned and cannot be used to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of *unavailable revenue* and *unearned revenue* reported in the governmental funds were as follows:

	Unearned	Unavailable
Property taxes receivable for subsequent year Other Grants	\$ 16,777,600 1,796,219	\$ - 938,723 105,499
Total Unearned/Unavailable Revenue for Governmental Funds	<u>\$ 18,573,819</u>	<u>\$ 1,044,222</u>
Unearned revenue included in liabilities	\$ 1,796,219	
Unearned revenue included in deferred inflows	16,777,600	
Total Unearned Revenue for Governmental Funds	<u>\$ 18,573,819</u>

D. INTERFUND RECEIVABLES/PAYABLES AND TRANSFERS

Interfund Receivables/Payables

The following is a schedule of interfund receivables and payables including any overdrafts on pooled cash and investment accounts:

Receivable Fund	Payable Fund		Amount		
Seneral Nonmajor Governmental		\$	135,484		
Total - Fund Financial Statements			135,484		
Less: Government-wide eliminations			(135,484)		
Total Internal Balances - (Net Position	Government-Wide Statement of	\$			

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2021

NOTE II - DETAILED NOTES ON ALL FUNDS (cont.)

D. INTERFUND RECEIVABLES/PAYABLES AND TRANSFERS - (cont.)

Interfund Receivables/Payables (cont.)

The principal purpose of the interfund is for short-term cash deficits. Repayment is expected within one year.

For the statement of net position, interfund balances which are owed within the governmental activities or business-type activities are netted and eliminated.

Transfers

The following is a schedule of interfund transfers:

Fund Transferred To	Fund Transferred From		Amount	Principal Purpose
General	Nonmajor Governmental	\$	645,000	E-911 costs Incremental costs of purchasing public works environmentally friendly
General	Nonmajor Governmental		50,000	vehicles Street and bridge
Capital Projects	Nonmajor Governmental		1,814,000	improvements ARPA funding for capital
Nonmajor Governmental	General		24,772	project improvements Incremental costs of
Internal Service	General		10,000	purchasing public works environmentally friendly vehicles Incremental costs of purchasing public works
Internal Service	Nonmajor Governmental		12,660	environmentally friendly vehicles
Total - Fund Financial Statements			2,556,432	
Less: Government-wide eliminations		_	(2,556,432)	
Total Transfers - Go of Activities	vernment-Wide Statement	<u>\$</u>	<u>-</u>	

Generally, transfers are used to (1) move revenues from the fund that collects them to the fund that the budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund, and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2021

NOTE II - DETAILED NOTES ON ALL FUNDS (cont.)

D. INTERFUND RECEIVABLES/PAYABLES AND TRANSFERS - (cont.)

Transfers (cont.)

For the statement of activities, interfund transfers within the governmental activities or business-type activities are netted and eliminated.

NOTE II - DETAILED NOTES ON ALL FUNDS (cont.)

E. LONG-TERM OBLIGATIONS (cont.)

Compensated absences, other postemployment benefits, claims payable, and net pension liabilities of governmental activities will be liquidated primarily by the General Fund or by the special revenue fund or internal service fund to which the related employee's salary is paid. Compensated absences, other postemployment benefits, and net pension liabilities of the business-type activities will be liquidated by the respective enterprise fund.

General Obligation Debt

All general obligation notes and bonds payable are backed by the full faith and credit of the City. Notes and bonds in the governmental funds will be retired by future property tax levies or tax increments accumulated by the debt service fund. Business-type activities debt is payable by revenues from user fees of those funds or, if the revenues are not sufficient, by future tax levies.

Current Refunding

Totals

On November 16, 2021, the City issued \$15,950,000 in general obligation bonds with an average coupon rate of 3.24% to refund \$9,960,000 of outstanding 2013 Taxable General Obligation Bonds with an average coupon rate of 2.79% and \$7,835,000 of outstanding 2014 Taxable General Obligation Bonds with an average coupon rate of 2.81%.

708,406

4,229,082 \$

The City refunded these bonds to reduce its total debt service payments over the next 11 years by \$1,611,516. This transaction resulted in an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$1,490,166.

F. COMPONENT UNITS

HIGHLAND PARK PUBLIC LIBRARY

This report contains the Highland Park Public Library (Library), which is included as a component unit.

In addition to the basic financial statements and the preceding applicable notes to financial statements, the following additional disclosures are considered necessary for a fair presentation.

a. Basis of Accounting/Measurement Focus

The Library follows the modified accrual basis of accounting and the flow of economic resources measurement focus.

b. Deposits and Investments

	Carrying Value	Statement Balances	Associated Risks
Deposits with financial institutions Money market mutual funds Illinois funds Petty cash	\$ 3,333,275 2,034,911 1,876 562	2,034,911	Custodial credit risk Credit risk, interest rate risk Credit risk N/A
Total Deposits and Investments	\$ 5,370,624	\$ 5,463,980	

The Library categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The Library used the market valuation method for all recurring fair value measurements.

As of December 31, 2021, the Library's investments were measured using valuation inputs as follows:

Investment Type	Level 1	Level 2	Level 3	Total
Money market mutual funds	\$ 2,034,911	\$ -	\$ -	\$ 2,034,911
Total	\$ 2,034,911	<u>\$</u> _	\$ -	\$ 2,034,911

b. Deposits and Investments (cont.)

Custodial Credit Risk

Deposits

Custodial credit risk is the risk that in the event of a financial institution failure, the Library's deposits may not be returned to the Library.

The Library does not have any deposits exposed to custodial credit risk.

Investments

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Library will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

The Library does not have any investments exposed to custodial credit risk.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations.

As of December 31, 2021, the Library's investments were rated as follows:

Investment Type	Standard & Poors	Moody's Investors Services	_
Money market mutual funds	A-1+ - A1	P-1	

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2021

NOTE II - DETAILED NOTES ON ALL FUNDS (cont.)

F. COMPONENT UNIT (cont.)

HIGHLAND PARK PUBLIC LIBRARY (cont.)

b. Deposits and Investments (cont.)

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the value of an investment.

As of December 31, 2021, the Library's debt investments were as follows:

	 Maturity	(In Ye	ears)
Investment Type	 Fair Value		< 1
Money market mutual funds	\$ 2,034,911	\$	2,034,911
Totals	\$ 2,034,911	\$	2,034,911

See Note I.D.1. for further information on deposit and investment policies.

HIGHLAND PARK HOUSING ASSOCIATIONS

This report contains the Highland Park Housing Associations (Association), which is included as a component unit.

In addition to the basic financial statements and the preceding notes to financial statements which apply, the following additional disclosures are considered necessary for a fair presentation.

a. Basis of Accounting/Measurement Focus

The Association follows the modified accrual basis of accounting and the flow of economic resources measurement focus.

b. Deposits and Investments

At year end, the carrying amount of the Association's deposits was \$1,840,693, consisting of deposits with financial institutions.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2021

NOTE II - DETAILED NOTES ON ALL FUNDS (cont.)

F. COMPONENT UNIT (cont.)

HIGHLAND PARK HOUSING ASSOCIATIONS (cont.)

c. Restricted Assets

The following represent the balances of the restricted assets:

Restricted cash

The Associations are required to maintain certain escrow deposits and reserves according to partnership, loan and other regulatory agreements. These deposits and reserves include tenant security deposits, real estate tax and insurance escrow, replacement reserves, residual receipts reserves, and working capital reserves. As of December 31, 2021, restricted cash was \$642,021.

d. Capital Assets

	E	Beginning Balance (as restated)		Additions	_	Deletions	Ending Balance	Useful Lives (Years)
Buildings Equipment Furniture and fixtures Less: Accumulated depreciation/	\$	9,334,279 461,678 1,007,458	\$	- - 69,598	\$	- - -	\$ 9,334,279 461,678 1,077,056	15-40 5-10 5-10

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2021

NOTE II - DETAILED NOTES ON ALL FUNDS (cont.)

F. COMPONENT UNIT (cont.)

HIGHLAND PARK HOUSING ASSOCIATIONS (cont.)

e. Long-Term Obligations (cont.)

Debt service requirements to maturity for the mortgage loan payable are as follows:

	_ Principal
2022	\$ 513,885
2023	163,654
2024	173,361
2025	183,649
2026	72,839
2027-2035	3,412,706
Totals	<u>\$ 4,520,094</u>

f. Contingent Liabilities

If the Association were not in compliance with the stipulated terms of loan agreements with Lake County (through the HOME and Investment Program) and the Illinois Housing Development Authority (IHDA), \$381,743 of mortgages would be due on demand. This amount has not been reflected as a liability due to its contingent nature.

g. Restatement of Net Position

During the fiscal year, the City's operating agreement with the Walnut Place, a component of the Association, expired. In conjunction with the conclusion of the operating agreement, the City sold the land and relinquished its oversight authority. As a result of this change in relationship, Walnut Place no longer meets the requirements to be reported as a component unit of the City and has been removed from the City's financial statements.

The Association's net deficit, as reported at December 31, 2020 of \$(451,376), increase \$2,089,973 to a restated net position at December 31, 2020 of \$1,638,597.

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2021

NOTE III - OTHER INFORMATION

A. EMPLOYEES' RETIREMENT SYSTEM

The City contributes to three defined benefit pension plans, the Illinois Municipal Retirement Fund (IMRF), an agent-multiple-employer public employee retirement system; the Police Pension Plan which is a single-employer pension plan; and the Firefighters' Pension Plan which is a single-employer pension plan. The benefits, benefits levels, employee contributions and employer contributions for the plans are governed by Illinois Compiled Statutes and can only be amended by the Illinois General Assembly. Total pension expense for the City and Library for the year ending December 31, 2021 totaled \$2,652,308 and (\$186,819), respectively. The Police Pension Plan and the Firefighters' Pension Plan do not issue separate reports on the pension plans. IMRF does issue a publicly available report that includes financial statements and supplementary information for the plan as a whole, but not for individual employers. That report can be obtained from IMRF, 2211 York Road, Suite 500, Oak Brook, Illinois 60523.

For the year ended December 31, 2021, the City recognized the following balances in the government-wide financial statements:

	Total Pension Liability	Net Pension Liability	Deferred Outflows of Resources	Deferred Inflows of Resources	Pension Expense
IMRF - City Police Pension Firefighters' Pension	\$ 89,874,100 93,935,951 92,464,427	\$ - 36,145,974 32,402,844	\$ 1,455,638 1,888,011 5,793,212	\$ 8,636,704 5,409,828 5,770,258	\$ (959,285) 1,753,354 1,858,239
Total	\$276,274,478	\$ 68,548,818	\$ 9,136,861	\$ 19,816,790	\$ 2,652,308

At December 31, 2021, the City reported an IMRF net pension asset of \$9,027,810.

Illinois Municipal Retirement Fund

Plan description. All employees (other than those covered by the Police and Firefighters' Pension plans) hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. IMRF has a two tier plan. Members who first participated in IMRF or an Illinois Reciprocal System prior to January 1, 2011 participate in Tier 1. All other members participate in Tier 2. For Tier 1 participants, pension benefits vest after 8 years of service. Participating members who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with 8 years of service are entitled to an annual retirement benefit, payable monthly for life in an amount equal to 1-2/3% of their final rate of earnings (average of the highest 48 consecutive months' earnings during the last 10 years) for credited service up to 15 years and 3% for each year thereafter.

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2021

NOTE III - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 participants, pension benefits vest after 10 years of service. Participating members who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with 10 years of service are entitled to an annual retirement benefit, payable monthly for life in an amount equal to 1-2/3% of their final rate of earnings for the first 15 years of service credit, plus 2% for each year of service after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased every year after retirement, upon reaching age 67, by the lesser of 3% of the original pension amount or 1/2 of the increase in the Consumer Price Index of the original pension amount.

Under the employer number within IMRF, both the City and Library contribute to the plan. As a result, IMRF is considered to be an agent multiple-employer plan through which cost-sharing occurs between the City and Library.

Plan membership. At December 31, 2020, the measurement date, membership in the plan was as follows:

Retirees and beneficiaries	292
Inactive, non-retired members	207
Active members	175
Total	674

Contributions. As set by statute, City and Library employees participating in IMRF are required to contribute 4.50% of their annual covered salary. The statute requires the City and Library to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The City and Library's actuarially determined contribution rate for calendar year 2020 was 8.97% of annual covered payroll for IMRF. The City and Library also contribute for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Liability/(Asset). The net pension liability/(asset) was measured as of December 31, 2020, and the total pension liability used to calculate the net pension liability/(asset) was determined by an actuarial valuation as of that date.

Summary of Significant Accounting Policies. For purposes of measuring the net pension liability/(asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of IMRF and additions to/deductions from IMRF fiduciary net position have been determined on the same basis as they are reported by IMRF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2021

NOTE III - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Actuarial Assumptions. The total pension liability for IMRF was determined by actuarial valuations performed as of December 31, 2020 using the following actuarial methods and assumptions:

Actuarial cost method	Entry Age Norma					
Asset valuation method	Market Value					
Actuarial assumptions						
Investment Rate of Return	7.25%					
Inflation	2.25%					
Salary increases	2.85% to 13.75%,					
	including inflation					
Price inflation	2.25%					

Mortality. For non-disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2020. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020.

Long-Term Expected Real Rate of Return. The long-term expected rate of return on pension plan investments was determined using an asset allocation study in which best-estimate ranges of expected future real rates of return (net of pension plan investment expense and inflation) were developed for each major asset class. These ranges were combined to produce long-term expected rate of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

		Projected Returns/Risks			
	Target	One Year	Ten Year		
Asset Class	Allocation	Arithmetic	Geometric		
Equities	37.00%	6.35%	5.00%		
International equities	18.00%	7.65%	6.00%		
Fixed income	28.00%	1.40%	1.30%		
Real estate	9.00%	7.10%	6.20%		
Alternatives	7.00%				
Private equity		10.35%	6.95%		
Hedge funds		N/A	N/A		
Commodities		3.90%	2.85%		
Cash equivalents	1.00%	0.70%	0.70%		

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2021

NOTE III - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Discount rate. The discount rate used to measure the total pension liability for IMRF was 7.25%. The discount rate calculated using the December 31, 2019 measurement date was 7.25%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that City and Library contributions will be made at rates equal to the difference between actuarially determined contribution rate and the member rate. Based on those assumptions, the fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on investments was applied to all periods of projected benefits to determine the total pension liability.

Discount rate sensitivity. The following is a sensitivity analysis of the net pension liability/(asset) to changes in the discount rate. The table below presents net pension liability/(asset) of the City and Library calculated using the discount rate of 7.25% as well as what the net pension liability/(asset) would be if it were to be calculated using a discount rate that is 1 percentage point lower (6.25) or 1 percentage point higher (8.25) than the current rate:

				Current		
	1	1% Decrease		Discount Rate		1% Increase

Pension expense and deferred outflows of resources and deferred inflows of resources related to pensions. For the year ended December 31, 2021, the City and Library recognized pension expense of \$(1,146,104) ((\$959,285) for the City and (\$186,819) for the Library). The City and Library reported deferred outflows and inflows of resources related to pension from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources
City: Difference between expected and actual experience Assumption changes Net difference between projected and actual earnings on pension plan investments Contributions subsequent to the measurement date	\$ 609,765 - - 845,873	\$	362,550 8,274,154

Police Pension

Plan description. Police sworn personnel are covered by the Police Pension Plan, which is a defined benefit single-employer pension plan. Although this is a single employer pension plan, the defined benefits and employee and employer contribution levels are governed by Illinois State Statutes (Chapter 40 ILCS 5/3) and may be amended only by the Illinois legislature. The City accounts for the plan as a pension trust fund.

As provided for in the Illinois Compiled Statutes, the Plan provides retirement benefits as well as death and disability benefits to employees grouped into two tiers. Tier 1 is for employees hired prior to January 1, 2011 and Tier 2 is for employees hired after that date. The following is a summary of the Police Pension Fund as provided for in Illinois Compiled Statutes.

Tier 1 - Covered employees attaining the age of 50 or more with 20 or more years of creditable service are entitled to receive an annual retirement benefit of one half of the salary attached to the rank on the last day of service, or for one year prior to the last day, whichever is greater. The pension shall be increased by 2.5% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75% of such salary. Employees with at least 8 years but less than 20 years of credited service may retire at or after age 60 and receive a reduced retirement benefit. The monthly pension of a police officer who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and paid upon reaching at least the age 55, by 3% of the original pension and 3% compounded annually thereafter.

Tier 2 - Covered employees attaining the age of 55 or more with 10 or more years of creditable service are entitled to receive a monthly pension of 2.5% of the final average salary for each year of creditable service. The salary is initially capped at \$106,800 but increases annually thereafter and is limited to 75% of final average salary. Employees with 10 or more years of creditable service may retire at or after age 50 and receive a reduced retirement benefit. The monthly pension of a police shall be increased annually on the January 1 occurring either on or after the attainment of age 60 or the first anniversary of the pension start date, whichever is later. Each annual increase shall be calculated at 3% or one half the annual unadjusted percentage increase in the CPI, whichever is less.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2021

NOTE III - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Plan membership. At December 31, 2021, the Police Pension membership consisted of:

Retirees and beneficiaries	71
Inactive, non-retired members	9
Active members	56
Total	136

Contributions. Covered employees are required to contribute 9.91% of their base salary to the Police Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The City is required to contribute the remaining amounts necessary to finance the plans as actuarially determined by an enrolled actuary. Effective January 1, 2011 the City's contributions must accumulate to the point where the past service cost for the Police Pension Plan is 90% funded by the year 2040. The City's actuarially determined contribution rate for the fiscal year ending December 31, 2021 was 71.10% of annual covered payroll.

Net Pension Liability/(Asset). The net pension liability/(asset) was measured as of December 31, 2021, and the total pension liability used to calculate the net pension liability/(asset) was determined by an annual actuarial valuation as of that date.

Summary of Significant Accounting Policies. The financial statements of the Police Pension Plan are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which contributions are due. The City's contributions are recognized when due and a formal commitment to provide the contributions are made. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Plan investments are reported at fair value. Short-term investments are reported at cost, which approximated fair value. Investments that do not have an established market are reported at estimated fair values.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2021

NOTE III - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Actuarial Assumptions. The total pension liability was determined by an actuarial valuation performed as of December 31, 2021 using the following actuarial methods and assumptions:

Actuarial cost method	Entry Age Normal
Asset valuation method	Market Value
Actuarial assumptions	
Interest rate, including inflation	7.00%
Inflation	2.50%
Projected salary increases, including inflation	3.00% - 10.50%
Cost-of-living adjustments	3.00% (1.25% for those hired on or after January 1, 2011)

Mortality rates were based on the RP-2014 Mortality Table with a blue collar adjustment, with generational improvement scale MP-2020 applied from 2013. The actuarial assumptions were based on the results of an actuarial experience study conducted by the Illinois Department of Insurance dated October 5, 2017.

Discount rate. The discount rate used to measure the total pension liability for the Police Pension Plan was 7.00%, the same as the prior valuation. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that City contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on Plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Discount rate sensitivity. The following is a sensitivity analysis of the net pension liability to changes in the discount rate. The table below presents the pension liability of the City calculated using the discount rate of 7.00% as well as what the net pension liability would be if it were to be calculated using a discount rate that is 1 percentage point lower (6.00%) or 1 percentage point higher (8.00%) than the current rate:

	1% Decrease	Current Discount Rate	1% Increase		
Total pension liability Plan fiduciary net position	\$ 106,102,880 57,789,977	\$ 93,935,951 57,789,977	\$ 83,937,294 57,789,977		
Net pension liability	\$ 48,312,903	\$ 36,145,974	\$ 26,147,317

The amounts reported as deferred outflows and inflows of resources related to pensions (\$(3,521,817)) will be recognized in pension expense as follows:

Year Ending December 31,	Amount
2022 2023 2024 2025	\$ (907,187) (1,623,565) (741,099) (249,966)
Total	\$ (3,521,817)

Firefighters' Pension

Plan description. Fire sworn personnel are covered by the Firefighters' Pension Plan, which is a defined benefit single-employer pension plan. Although this is a single employer pension plan, the defined benefits and employee and employer contribution levels are governed by Illinois State Statutes (Chapter 40 ILCS 5/3) and may be amended only by the Illinois legislature. The City accounts for the plan as a pension trust fund.

As provided for in the Illinois Compiled Statutes, the Firefighters' Pension Plan provides retirement benefits as well as death and disability benefits to employees grouped into two tiers. Tier 1 is for employees hired prior to January 1, 2011 and Tier 2 is for employees hired after that date. The following is a summary of the Firefighters' Pension Plan as provided for in Illinois Compiled Statutes.

Tier 1 - Covered employees attaining the age of 50 or more with 20 or more years of creditable service are entitled to receive a monthly retirement benefit of one half of the monthly salary attached to the rank held in the fire service at the date of retirement. The monthly pension shall be increased by one twelfth of 2.5% of such monthly salary for each additional month over 20 years of service through 30 years of service to a maximum of 75% of such monthly salary. Employees with at least 10 years but less than 20 years of credited service may retire at or after age 60 and receive a reduced retirement benefit. The monthly pension of a firefighter who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and paid upon reaching at least the age 55, by 3% of the original pension and 3% compounded annually thereafter.

Tier 2 - Covered employees attaining the age of 55 or more with 10 or more years of creditable service are entitled to receive a monthly pension of 2.5% of the final average salary for each year of creditable service. The salary is initially capped at \$106,800 but increases annually thereafter and is limited to 75% of final average salary. Employees with 10 or more years of creditable service may retire at or after age 50 and receive a reduced retirement benefit. The monthly pension of a firefighter shall be increased annually on the January 1 occurring either on or after the attainment of age 60 or the first anniversary of the pension start date, whichever is later. Each annual increase shall be calculated at 3% or one-half the annual unadjusted percentage increase in the CPI, whichever is less.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2021

NOTE III - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Plan membership. At December 31, 2021, the Firefighters' Pension Plan membership consisted of:

Retirees and beneficiaries	65
Inactive, non-retired members	2
Active members	50
Total	117

Contributions. Participants contribute a fixed percentage of their base salary to the plans. At December 31, 2021, the contribution percentage was 9.455%. If a participant leaves covered employment with less than 20 years of service, accumulated participant contributions may be refunded without accumulated interest. The City is required to contribute the remaining amounts necessary to finance the plans as actuarially determined by an enrolled actuary. Effective January 1, 2011 the City's contributions must accumulate to the point where the past service cost for the Firefighters' Pension Plan is 90% funded by the year 2040. The City's actuarially determined contribution rate for the fiscal year ending December 31, 2021 was 71.02% of annual covered payroll.

Net pension liability/(asset). The net pension liability/(asset) was measured as of December 31, 2021, and the total pension liability used to calculate the net pension liability/(asset) was determined by an annual actuarial valuation as of that date.

Summary of significant accounting policies. The financial statements of the Firefighters' Pension Plan are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which contributions are due. The City's contributions are recognized when due and a formal commitment to provide the contributions are made. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Plan investments are reported at fair value. Short-term investments are reported at cost, which approximated fair value. Investments that do not have an established market are reported at estimated fair values.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2021

NOTE III - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Actuarial assumptions. The total pension liability was determined by an actuarial valuation performed as of December 31, 2021 using the following actuarial methods and assumptions:

Actuarial cost method	Entry Age Normal
Asset valuation method	Market Value
Actuarial assumptions	
Interest rate, including inflation	7.00%
Inflation	2.25%
Projected salary increases, including inflation	3.50% - 12.00%
Cost-of-living adjustments	3.00% (1.125% for those hired on or after January 1, 2011)

Mortality rates were based on the Pub-2010 Public Safety Employee Mortality Table without adjustment, with generational improvement scale MP-2020 applied from 2010. The actuarial assumptions were based on the results of an actuarial experience study conducted by the Illinois Department of Insurance dated December 1, 2021.

Discount rate. The discount rate used to measure the total pension liability for the Firefighters' Pension Plan was 7.00%, the same as the prior valuation. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that City contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on Plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Discount rate sensitivity. The following is a sensitivity analysis of the net pension liability to changes in the discount rate. The table below presents the pension liability of the City calculated using the discount rate of 7.00% as well as what the net pension liability would be if it were to be calculated using a discount rate that is 1 percentage point lower (6.00%) or 1 percentage point higher (8.00%) than the current rate:

	1% Decrease	Current Discount Rate	1% Increase		
Total pension liability Plan fiduciary net position	\$ 104,849,653 60,061,583	\$ 92,464,427 60,061,583	\$ 82,323,087 60,061,583

B. RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions; workers compensation; and health care of its employees. The City participates in a public entity risk pool called Intergovernmental Personnel Benefit Cooperative to provide coverage for losses from health care of its employees and a public entity risk pool called the Illinois Public Risk Fund to provide coverage for losses from workers' compensation claims after January 1, 2017. However, other risks, such as liability and workers compensation (prior to January 1, 2017) are accounted for and financed by the City in the general fund. Starting January 1, 2019, the City joined the Suburban Liability Insurance Pool to provide coverage for general liability and property insurance.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2021

NOTE III - OTHER INFORMATION (cont.)

B. RISK MANAGEMENT (cont.)

Self Insurance

For workers' compensation claims incurred prior to January 1, 2017, the uninsured risk of loss is \$250,000 per incident and these claims are managed by a third party administrator hired by the City as directed by the City's Human Resource Manager. Workers' compensation claims incurred after January 1, 2017 are covered through participation in a risk pool. The City has purchased commercial insurance for claims in excess of those amounts up to the statutory maximum. Settled claims have not exceeded the commercial coverage in any of the past three years.

All funds of the City participate in the risk management program. Amounts payable to the General Fund are based on estimates of the amounts necessary to pay prior and current year claims.

A liability for a claim is established if information indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss is reasonably estimable. Liabilities include an amount for claims that have been incurred but not reported. The City does not allocate overhead costs or other nonincremental costs to the claims liability.

Claims Liability

	<u>F</u>	Prior Year	Current Year		
Unpaid claims - Beginning of Year Current year claims and changes in estimates Claim payments	\$	581,370 (109,154) (173,312)	\$	298,904 359,567 (489,354)	
Unpaid Claims - End of Year	<u>\$</u>	298,904	\$	169,117	

Public Entity Risk Pool

Intergovernmental Personnel Benefit Cooperative

The City participates in the Intergovernmental Personnel Benefit Cooperative (IPBC). IPBC is a public entity risk pool established by certain units of local government in Illinois to administer some or all of the personnel benefit programs (primarily medical, dental, and life insurance coverage) offered by these members to their officers and employees and to the officers and employees of certain other governmental, quasi governmental, and nonprofit public service entities. IPBC receives, processes and pays such claims as may come within the benefit program of each member. Management consists of a Board of Directors comprised of one appointed representative from each member. In addition, there are two officers, a Benefit Administrator and a Treasurer. The City does not exercise any control over the activities of IPBC beyond its representation on the Board of Directors.

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2021

NOTE III - OTHER INFORMATION (cont.)

B. RISK MANAGEMENT (cont.)

Public Entity Risk Pool (cont.)

Illinois Public Risk Fund

Beginning on January 1, 2017, the City participates in the Illinois Public Risk Fund (IPRF). IPRF is a self-funded workers' compensation pool for public entities. The purpose of IPRF is to provide for the defense and payment when due of all compensation and other benefits under the Illinois Workers' Compensation and Occupational Diseases Laws on behalf of state and local governments within the State of Illinois. There are approximately 500 members. A Board of Trustees oversees the operation of IPRF and governs it in accordance with State of Illinois Regulations.

Member costs are proportional, based on contributions developed by payroll audits. Rates and any discounts approved by the Board of Trustees are used to determine standard premiums for each member. Each member's experience modifications are used. Members also participate in policyholder dividends based on IPRF's and individual member's experience. Members can also be assessed if the assets of IPRF are less than the reserves required to be maintained. The City is not aware of any additional amounts due to IPRF as of December 31, 2021.

IPRF does not cover the City's outstanding workers' compensation claims incurred prior to January 1, 2017.

Suburban Liability Insurance Pool

Beginning on January 1, 2019, the City participates in the Suburban Liability Insurance Program (SLIP). SLIP is a self-fund municipal insurance pool to insure property and liability losses. For coverage such as property, auto liability, general liability, and crime losses, the City has assumed a self-insurance retention (SIR) limit per claim. A cap known as the "loss fund" has been used to limit the total exposure under this program.

C. OTHER POSTEMPLOYMENT BENEFITS

Plan description. The City and Library's cost-sharing defined benefit OPEB plan, the Retiree Health Insurance Plan, provides insurance coverage for eligible retirees and their spouses through the City's group health insurance plan, which covers both active employees and retired members (or other qualified terminated employees) participating in the plan at blended rates. The plan is funded on a pay-as-you-go basis and no assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2021

NOTE III - OTHER INFORMATION (cont.)

C. OTHER POSTEMPLOYMENT BENEFITS (cont.)

Benefits provided. The City and Library provide continuing healthcare insurance benefits for retirees and their dependents. Benefit provisions and contribution requirements are governed by State Statutes and the City's collective bargaining agreements. To be eligible for benefits, an employee must qualify for retirement under one of the City's or Library's retirement plans. Retired employees, with certain exceptions, are required to pay 100% of the premiums for such coverage. This results in an other postemployment benefit for the retirees, commonly referred to as an implicit rate subsidy. Certain inactive employees qualify for lifetime healthcare benefits under the Public Safety Employee Benefits Act (PSEBA). The City pays the full cost of coverage, including any eligible dependent coverage. Additionally, certain elected officials retired under old contract terms under which the City pays the full cost of coverage for a set post-service period of time.

The benefit levels are the same as those afforded to active employees. Benefits include general inpatient and outpatient medical services; mental, nervous, and substance abuse care; vision care; dental care; and prescriptions. Upon a retiree or covered dependent becoming Medicare eligible, Medicare becomes the primary insurer and the City's plan becomes secondary.

Employees covered by benefit terms. At December 31, 2020, the actuarial valuation date, the following employees were covered by the benefit terms:

Inactive plan members or beneficiaries currently receiving benefit payments	52
Active plan members	247
·	
Total	299

Total OPEB liability. The City and Library reported liabilities for the proportionate share of the total OPEB liability measured as of December 31, 2021 and determined by an actuarial valuation as of December 31, 2020. The proportions of the total OPEB liability were based on the share of OPEB cost between the City and Library for the measurement year. At December 31, 2021, the City and Library's proportions were 98.09% and 1.91%, respectively.

Actuarial assumptions and other inputs. The total OPEB liability in the December 31, 2021 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation

2.25%

Currently participating - 50%;

Healthcare participation rate

Currently waiving - 1/3 of the rate above

Initial - 5-6%;

Ultimate - 5-6%

100% (except for PSEBA and certain elected official retirees at 0%)

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2021

NOTE III - OTHER INFORMATION (cont.)

C. OTHER POSTEMPLOYMENT BENEFITS (cont.)

Actuarial assumptions and other inputs (cont.)

The discount rate was based on High Quality 20 Year Tax-Exempt G.O. Bond Rate as of December 31, 2021.

Mortality rates were based on the PubG-2010(B) Study, with rates improved generationally using MP-2020 Improvement Rates (for IMRF employees) and the PubS-2010(A) Study improved to 2017 using MP-2019 Improvement Rates (for Police and Firefighters).

The actuarial assumptions used in the December 31, 2021 valuation were based on the results of an actuarial experience study conducted by the independent actuary.

Discount rate. At December 31, 2021, the discount rate used to measure the total OPEB liability was 2.06%, which was a change from the December 31, 2020 rate of 2.12%. Since the plan is financed on a pay-as-you-go basis, the discount rate is based on the 20-year general obligation bond index.

Changes in the total OPEB liability.

	City			Library	_	Total	
Balances at December 31, 2020 Service cost Interest Changes in assumptions or other inputs Benefit payments	\$	21,187,181 811,027 443,359 (665,828) (559,167)	\$	418,241 15,793 8,633 (18,652) (10,888)	\$	21,605,422 826,820 451,992 (684,480) (570,055)	
Balances at December 31, 2021	\$	21,216,572	\$	413,127	\$	21,629,699	

Changes of assumptions and other inputs reflect a change in the discount rate from 2.12 percent in 2020 to 2.06 percent in 2021, a change in election rate assumption for actives currently waiving coverage to be 1/3 the rate of the rate of active employees currently with coverage, and the expected increases in medical costs assumptions.

OPEB expense and deferred outflows of resources and deferred inflows of resources related to **OPEB**. For the year ended December 31, 2021, the City and Library recognized OPEB expense of \$2,160,190 and \$42,064, respectively. At December 31, 2021, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
City: Differences between expected and actual experience Changes of assumptions or other inputs	\$ 2,372,956 6,263,489	\$ -
Total	\$ 8,636,445	\$ 1,010,692

Differences between expected and actual experience Changes of assumptions or other inputs	\$ 2,419,162 6,385,451	\$ - 1,030,372
Total	\$ 8,804,613	\$ 1,030,372

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2021

NOTE III - OTHER INFORMATION (cont.)

C. OTHER POSTEMPLOYMENT BENEFITS (cont.)

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ended December 31:		City		Library	 Total	
2022 2023 2024 2025 2026 Thereafter	\$	905,805 905,805 905,805 905,805 915,588 3,086,945	\$	17,638 17,638 17,638 17,638 17,828 60,108	\$ 923,443 923,443 923,443 923,443 933,416 3,147,053	
Total	<u>\$</u>	7,625,753	\$	148,488	\$ 7,774,241	

D. SUBSEQUENT EVENTS

On March 9, 2022, the City issued General Obligation Bonds, Series 2022, in the amount of \$11,540,000 with an interest rate of 3.00% - 4.00%. This amount will be used to finance certain capital improvements in the City, including a new fire station, and to pay the costs of issuing the Bonds.

Subsequent to December 31, 2021, the investment markets have experienced significant volatility. It is highly likely that the values of the City's investments have changed by material amounts since year end.

E. TAX INCREMENT FINANCING DISTRICT

The City of Highland Park has established several Tax Increment Redevelopment Project Areas (RPA's) to encourage redevelopment of certain sites for more market oriented commercial uses of the properties that will enhance their value and improve their contributions to the City and its surrounding areas. As part of the redevelopment plans, the City has made significant improvements to utilities, public parking, intersections, and traffic signalization, streets and landscaping. The redevelopment plans also include site preparation, land acquisition and assembly, and demolition/clearance.

Construction and development in the RPA's were the responsibility of developers and are substantially complete. To entice development of the areas, the City created tax increment financing (TIF) districts to finance public improvements made within the RPA's.

Several funds have been established to record the revenues generated in the RPA's that relate directly to servicing the debt issued to make public improvements in the RPA's.

NOTES TO FINANCIAL STATEMENTS
As of and for the Year Ended December 31, 2021

NOTE III - OTHER INFORMATION (cont.)

F. TAX ABATEMENT

Tax abatements are a reduction in tax revenues that results from an agreement between one or more governments and an individual or entity in which (a) one or more governments promise to forgo tax revenues to which they are otherwise entitled and (b) the individual or entity promises to take a specific action after the agreement has been entered into that contributes to economic development or otherwise benefits the governments or the citizens of those governments.

The City is disclosing all abatement agreements individually.

The City has entered into tax abatement agreements with companies, in the form of sales tax incentive agreements, to stimulate economic development. In exchange for a rebate of sales tax, the companies agreed to operate business enterprises within City boundaries. The abatements are authorized through City Council resolutions and provide for partial reimbursement of land acquisition and eligible other improvement costs in return for the companies providing services within the City. The companies pay sales taxes as they become due, and after meeting the criteria established in the agreements, are entitled to rebates that directly correlate to the sales taxes paid.

Agreement Description	Calculation Method		Maximum Rebate								2021 Payments		umulative Payments
Gregory Hyundai (Resolution #15- 13, initiating on January 28, 2013 and expiring on December 31, 2027)	50% of sales tax generated over annual base amount	\$	500,000	\$	14,822	\$	500,000						
Semersky Enterprises (Resolution #80-13, initiating on May 28, 2013 and expiring on December 31, 2025)	75% of sales tax generated over annual base amount		9,730,693	543,501		2	2,507,494						
D&R Autoworks (Resolution #139- 13, initiating on January 1, 2014 and expiring on December 31, 2023)	40% of sales tax generated over annual base amount		66,940		344		8,638						
Lexus of Highland Park (Resolution #94-16, initiating on January 1, 2015 and expiring on December 31, 2024)	50% of sales tax generated over annual base amount		4,550,000		16,732		209,306						

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2021

NOTE III - OTHER INFORMATION (cont.)

G. Effect of New Accounting Standards on Current-Period Financial Statements

The Governmental Accounting Standards Board (GASB) has approved the following:

- Statement No. 87, Leases
- Statement No. 91, Conduit Debt Obligations
- Statement No. 92, Omnibus 2020
- Statement No. 93, Replacement of Interbank Offered Rates
- Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*
- Statement No. 96, Subscription-Based Information Technology Arrangements
- Statement No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans

The statements listed above through Statement No. 93 had their required effective dates postponed by one year with the issuance of Statement No. 95, *Postponement of Effective Dates of Certain Authoritative Guidance*, with the exception of Statement No. 87, which was postponed by one and a half years.

When they become effective, application of these standards may restate portions of these financial statements.

H. MAJOR CUSTOMERS

The Village of Deerfield, Illinois and the Village of Lincolnshire, Illinois purchase water from the City's available supply. During the year ended December 31, 2021, these purchases amounted to \$3,161,618 or 28.78% and \$1,574,448 or 14.33%, respectively, of total water sales in the Water Fund.

Notes to Schedule:

The City implemented GASB Statement No. 68 in fiscal year 2015. Information prior to fiscal year 2014 is not available.

Valuation date:

Actuarially determined contribution rates are calculated as of December 31.

Methods and assumptions used to determine contribution rates:

Actuarial cost method Aggregate entry age normal
Amortization method Level percentage of payroll, closed

Remaining amortization period 23 Years

Asset valuation method 5-Year Smoothed Market

Inflation 2.50%

Salary increases 3.35% to 14.25% including inflation

Investment rate of return 7.25%

Retirement Age Experience-based table of rates that are specific to the type of eligibility condition

Mortality MP-2017

Other information:

There were no benefit changes during the year.

Notes to Schedule:

- 1) The Plan implemented GASB Statement No. 67 in fiscal year 2014. Information prior to fiscal year 2014 is derived from actuarial valuations developed in conformity with GASB Statement No. 25 and 27.
- 2) Valuation date: Actuarially determined contributions are calculated as of December 31 of the current fiscal year.
- 3) Methods and assumptions used to determine contribution rates:

Actuarial cost method Projected unit credit cost method
Amortization method Level percentage of payroll, closed

Remaining amortization period 20 years

Asset valuation method 5 year smoothed market

Inflation 2.50%

Salary increases 3.00% to 10.50% (varies by service)

Investment rate of return 7.00%

Mortality Healthy - RP-2014 Mortality Table with a blue collar adjustment, with generational

improvement Scale MP-2020 applied from 2013.

Disabled - RP-2014 Disabled Mortality Table, with generational improvement scale MP-

2020 applied from 2013.

Notes to Schedule:

- 1) The Plan implemented GASB Statement No. 67 in fiscal year 2014. Information prior to fiscal year 2014 is derived from actuarial valuations developed in conformity with GASB Statement No. 25 and 27.
- 2) Valuation date: Actuarially determined contributions are calculated as of December 31 of the current fiscal year.
- 3) Methods and assumptions used to determine contribution rates:

Actuarial cost method Projected unit credit cost method
Amortization method Level percentage of payroll, closed

Remaining amortization period 20 years

Asset valuation method 5 year smoothed market

Inflation 2.50%

Salary increases 3.00% to 12.00% (varies by service)

Investment rate of return 7.00%

Mortality Healthy - RP-2014 Mortality Table with a blue collar adjustment, with generational

improvement Scale MP-2020 applied from 2013.

Disabled - RP-2014 Disabled Mortality Table, with generational improvement scale MP-

2020 applied from 2013.

City's total OPEB liability as a percentage of covered-employee payroll		48.96%		62.24%		90.75%		90.93%

Notes to Schedule:

The City implemented GASB Statement No. 75 in fiscal year 2018. Information prior to fiscal year 2018 is not available.

There is no ADC or employer contribution related to the ADC as the total OPEB liability is currently an unfunded obligation.

The City assigns General Fund balance each year equivalent to the actuarial valuation. The City Council has set aside approximately \$10 million to meet future requirements associated with OPEB, representing 46% of the total OPEB liability.

The information presented above includes the total OPEB liability for the City and Library.

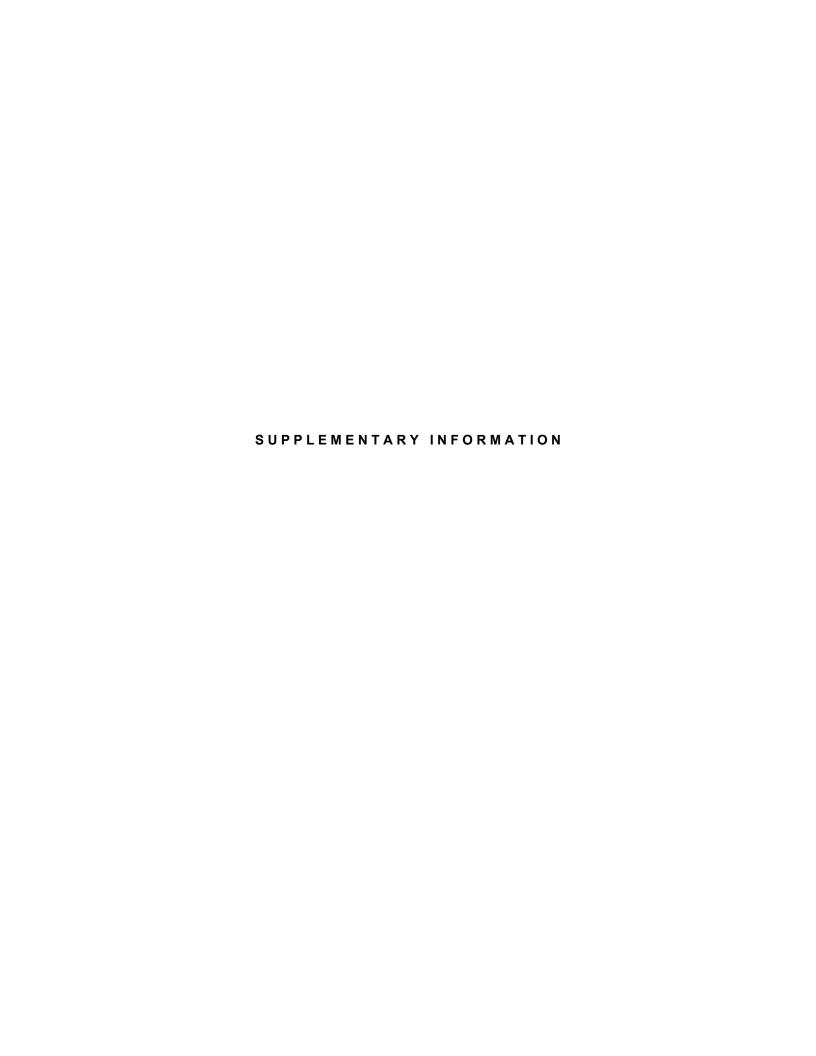

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION For the Year Ended December 31, 2021

BUDGETARY INFORMATION

Annual budgets are adopted on a basis in accordance with generally accepted accounting principles for all governmental funds. The budget is as amended by the City Council. All annual appropriations lapse at fiscal year end.

Prior to December 31, the City Finance Director submits to the City Council a proposed operating and capital budget for the fiscal year commencing January 1. The operating and capital budget includes proposed expenditures and the means of financing them. Public hearings are conducted to obtain taxpayer comments. Prior to March 31, the budget is legally enacted through passage of an ordinance. Formal budgetary integration is employed as a management control device during the year of the general fund and special revenue funds.

The City is authorized to change budgeted amounts within any department within any fund; however, revision must be approved by two-thirds of the members of the City Council. No revisions can be made increasing the budget unless funding is available for the purpose of the revision. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the department level. The appropriated budget is prepared by fund, function, and department. The City Finance Director is authorized, with City Manager approval, to transfer budget amounts within any department or fund; however, the City Council must approve revisions that alter the total expenditures within any department of any fund.

Notes:

- (1) An enterprise fund was created in CY 2011 to account for activities relating to sewer facilities and maintenance, creating a substantial change in fund balance totals between Governmental and Business Type activities.
- (2) Beginning in 2015, the City implemented GASB 68 which resulted in the inclusion of a net pension liability.
- (3) Beginning in 2018, the City implemented GASB 75 which resulted in the inclusion of a total OPEB liability.
- (4) Beginning in 2019, the City implemented GASB 84 which resulted in the inclusion of the Affordable Housing and General Deposit Funds previously reported as agency funds.

Notes:

⁽¹⁾ Tax levy as abated represents total assessments extended by the City tax rate and excludes levies on the special service areas and the tax increment financing area.

⁽²⁾ Lake County does not furnish information relating to delinquent taxes collected for the applicable levy year. Amounts shown in this column are collections in the year indicated of delinquent taxes applicable to prior years' tax levies.
