Celebrating the League of Women Voters' 90th Anniversary

Highland Park has a history of independent thinking and decision-making. Let us salute and give thanks to those who have allowed us to celebrate our independence.

Exercise your independence and celebrate the 90th Anniversary of the League of Women Voters by voting in the next election. The League of Women Voters will serve as the 2018 Fourth of July Parade Grand Marshal and has chosen the theme "Your Vote Counts".

Learn more about the City's Fourth of July Parade and festivities (pg. 2) and find other fun things to do at www.cityhpil.com/Calendar.

Fourth of July Festivities

Celebrate with the Bike & Pet Parade downtown, the Fourth of July Parade, Fourth Fest in Sunset Woods Park, and Bitter Jester Music Festival Grand Finale Concert and Fireworks at Wolters field.

Report Potholes

The City continues to perform pothole maintenance on a daily basis. To help the Public Works Department keep our City streets in drivable condition, please report potholes via the City's Service Request Tracker at www.cityhpil.com/service or through the City Pothole Hotline at 847.926.1178. See something, say something!

Register for CPR/AED Class with Fire Dept.

The Fire Department offers CPR/AED Certification Training classes throughout the year for $40 per participant. Learn about upcoming classes and how to register today.
Highland Park at a Glance

4th of July Day Reminders
City offices will be closed on Wednesday, July 4 in observance of Independence Day. Residents may call Public Safety at 847.432.7730 if assistance is required.

Since the holiday falls on Wednesday, refuse and recycling collection will be delayed by one day for Thursday and Friday customers only. Contact Lakeshore Recycling Systems at 773.685.8811 with questions.

Seeking Photos & Memories for HP150 Commemorative Book
The HP150 Steering Committee is busy planning for Highland Park’s 150th Anniversary Celebration in 2019. The Committee wants to honor Highland Park’s rich past and look towards the vibrant future with the HP150 Commemorative Book. We need your help in developing content!

The HP150 Steering Committee is seeking historical photographs of:
- Our lake and lakefront;
- Downtown Highland Park;
- Ravinia district and Ravinia festival;
- Art festivals and various arts & performance group;
- Our various wonderful residential areas;
- The growth and development of Highland Park services, such as police, fire, hospital, library, schools, and others.

Please contact Jennifer Dotson, City Manager’s Office, jdotson@cityhpil.com or 847.926.1006.

Celebrate Independence Day
Celebrate our Nation’s 242nd birthday in Highland Park! All events occur on Wednesday, July 4, 2018.

Children’s Bike & Pet Parade - 9:30 AM
Participants should meet at 9:15 AM in the lower level of the parking structure at the northwest corner of St. Johns and Laurel Avenues. No registration is required to participate. For more info, contact the Chamber of Commerce at 847.432.0284 or info@chamberhp.com.

Fourth of July Parade – 10 AM
The celebration continues with the annual Fourth of July Parade hosted by the City and Park District. The parade features floats, marching bands, novelty groups, community entries and other special entertainment. The parade starts at the intersection of Laurel and St. Johns Avenues and heads north on St. Johns Avenue, then turns west on Central Avenue and continues to Sunset Park. For more info, contact Hayley Garard at 847.926.1043 or hgarard@cityhpil.com.

Fourth Fest – 11 AM - 2 PM
After the parade, the fun moves to Sunset Park for Fourth Fest, featuring: food, music by Rod Tuffcurls and the Benchpress, carnival rides, a petting zoo, games, face painting, and bounce attractions. Admission and parking is free. See pg. 10 or contact Cathy Fiori of the Park District at 847.831.3810 or cfiori@pdhp.org for more info.

Bitter Jester Music Festival & Fireworks - 4 PM
The evening events kick-off with the Grand Finale of the 13th Annual Bitter Jester Music Festival at Wolters Field. Enjoy great food in a family-friendly environment and listen to the best new bands within 100 miles! A raffle with great prizes donated by local businesses continues throughout the event. The aerial fireworks display begins at 9:30 PM. Parking is available at Wolters Field, Highland Park Hospital’s East Parking Lot, or in parking lots located at the Highland Park Country Club. Residents are reminded that parking is not permitted along Route 41 and Park Avenue West. Attendees are not permitted on the Highland Park Country Club grounds for the fireworks show. Alcohol is prohibited. For more info or updates, visit cityhpil.com/july4.

Homeowners: Is Your Pavement Sealant Professional Licensed?
Just a reminder that the City banned the use of coal tar products and all pavement sealant professionals must secure an annual license from the City before performing any pavement sealing. Residents should ensure their contractors are licensed by visiting the City’s website or contacting the City Manager’s Office at 847.926.1000.
On June 11, we said a final farewell to the Highland Park Theater. The new owner will begin demolition to make way for a development that includes a new two-story building with retail, restaurant, garden, and office space. The project considers the nearby residential neighborhood, the vibrancy of Downtown Highland Park, and the greater community.

Last year's sale of the property followed a multi-year effort to find a buyer who would run the theater as an entertainment venue (the intent when it was originally purchased) and/or preserve the structure for a different use. Unfortunately, the age and condition of the building only resulted in viable buyers with plans to create a new building for a different use.

Like so many of you, I enjoyed the theater as I grew up in Highland Park and again when I returned to raise my family here. For a lot of us, including me, there is much emotion tied to this demolition. I am grateful that the iconic marquee, in place since the 1960s, will be preserved by the Highland Park Historical Society, hopefully for use on another project in the future. Several interior architectural elements were auctioned off last year and are being repurposed and preserved.

As a City Council, we prioritize public safety, fiscal responsibility, infrastructure investment and community vibrancy. All of these priorities were considered as we made the difficult decision to sell the theater for redevelopment. The specific logistics of the new project's construction and its impact on this section of Downtown Highland Park may be found on the City’s website www.cityhpil.com. In the meantime, if you have questions or simply want to wander down memory lane with me, please be in touch at nrotering@cityhpil.com.

Bike Fix-It Station

The City’s new Bike Fix-it Station, located on the Robert McClory Trail in the Ravinia Business District, is equipped with everything needed to make simple bike repairs on the go. An air pump and an assortment of tools are securely attached to each stand with stainless steel cables and tamper-proof fasteners. Among the tools are Philips and flat head screwdrivers, Allen wrenches, a headset wrench, a pedal wrench, box wrenches and tire levers. Another feature is the ability to hang a bike from arms that allow pedals and wheels to spin freely while making adjustments. Happy Biking, Highland Park!

Outdoor Grilling Safety Tips from the Fire Department

Do your part to reduce the number of grill-related fires and burns by following these safe grilling tips:

- Use grill outside in open space, away from flammable material like siding, railings, eaves, or tree branches and away from play areas or high foot traffic areas.
- Clean grill to remove grease or fat buildup in the trays underneath.
- Never leave a lit grill unattended.
- Use long-handled cooking utensils to help prevent burns.
- Check your propane cylinder hose annually for leaks by applying a light soap and water solution to the hose. Bubbles reveal escaping propane. If you suspect your grill has a leak, through the bubble test or by smell, and there is no flame: turn the tank and the grill off. If the leak stops, call the fire department.
- If you use a charcoal grill, store starter fluid out of reach of children and away from heat sources.
- Never add charcoal starter fluid to coals or kindling that you’ve already ignited.
- Allow coals to cool before disposing in a metal container.

Keep your $ where your heart is!

Do you know out of every $1 spent at a locally owned business, 70 cents stays local and is reinvested in the community? Shop local, Highland Park!

Applications for Arts & Human Service Grant Funds

The City of Highland Park Cultural Arts Commission (CAC) and the City of Highland Park Human Relations Commission (HRC) invite not-for-profit arts and/or human services organizations to apply for a Purchase of Service Grant (POS), which can be used to help fund arts activities or human services activities in Highland Park. The deadline for the application is August 15, 2018. Arts applicants will be reviewed by the CAC and human services applicants will be reviewed by the HRC with final approval by the City Council.

The City of Highland Park has allocated $50,000 in funding: $25,000 for human services programs and $25,000 for arts programming. The common grant application allows applicants to apply for grants from multiple donor organizations including the CAC, HRC, Highland Park Community Foundation and YEA! Highland Park.

The human services POS grant information and application are available at www.cityhpil.com/HRC. For more information, contact Laura Frey at Lfrey@cityhpil.com or 847.432.4110.

The arts POS grant information and application are available at www.cityhpil.com/CAC. For more information, contact Hayley Garard at hgarard@cityhpil.com or 847.926.1043.

Protect Yourself from Mosquitoes this Summer

The Southlake Mosquito Abatement District (SLMAD) remind residents to take precautions to avoid being bitten by mosquitoes.

- **Reduce** - make sure doors and windows have tight-fitting screens. Eliminate standing water.
- **Repel** - when outdoors, wear shoes and socks, long pants and a long-sleeved shirt, and apply insect repellent that contains DEET, picaridin, oil of lemon eucalyptus or IR 3535.
- **Report** – report locations to SLMAD where you see water sitting stagnant for more than a week.

SLMAD reduces mosquito populations through pre-hatch applications, larviciding standing water areas, and treating thousands of catch basins with bacterial larvicide during the mosquito season. In extreme cases, the entire district is treated through aerial application using products registered by the EPA. If you have any questions, please contact SLMAD at 847.377.8300 or visit slmad.org.

Co-Existing With Wildlife

The Police Department monitors coyote activity in the City and requests that residents keep their pets close by on a leash while outside. With increased coyote activity in urbanized areas come increased numbers of interactions with people. The vast majority of these encounters are merely sightings. Most people are unaware that there are coyotes in their midst, as coyotes generally tend to keep a low profile and avoid humans. Coyotes will typically move to other areas if they cannot find an ample food source. Their predominant diet is small rodents, rabbits, berries and other plant material. They are opportunistic hunters and in urban areas, often seek free meals from garbage, road kills, bird feeders and pet food. Coyotes will usually frequent areas where these food sources are prevalent. Coyotes very rarely target small pets when they are supervised.

The following help to minimize conflicts with coyotes:
- Secure garbage.
- Do not leave dog or cat pet food or water supplies outdoors.
- Keep pets inside at night, as coyotes are primarily nocturnal.
- Walk your dog on a leash at all times.
- Consider installing fencing and outside lighting with motion sensors to deter coyotes.

For further info visit http://urbancoyoteresearch.com/. Residents may call Community Service Officer and Animal Control Warden Mike Lichtwalt at the Police department non-emergency number 847.432.7730. The City supports a “no kill” policy with regard to all wildlife and abandoned pets.

Fire Department Offers CPR/AED Classes

The Fire Department offers CPR/AED certification classes for the public to attend. The cost for the two-hour training is $40/person.

The upcoming CPR dates will be held from 9 AM – 11 AM at the Fire Department Headquarters, 1130 Central Avenue on:

- **Monday, June 18**
- **Monday, August 20**
- **Monday, October 22**

People interested in signing up for a class should contact Terry Jarosz in advance to register at 847.926.1064 or tjarosz@cityhpil.com. A minimum of 6 registrants is required to hold the class.

Voluntary Sanitary Sewer Lateral Cost Sharing Program

The Voluntary Sewer Lateral Cost Sharing Program was created to assist residents in alleviating sewage backups into the homes. The cost share program pays up to 20% of the total cost of the sanitary sewer backup improvements, or a maximum of $1,260, whichever is less.

The City owns and maintains 130 miles of sanitary sewer main of various sizes and materials. Connected to City’s sanitary sewer main are approximately 10,000 private sanitary sewer lateral connections, owned and maintained by property owners. These sanitary sewer laterals run from the City sewer main (in the street or parkway area) to inside the home. The size and condition of these private sewer laterals vary with majority of them either being 6-inch or 4-inch.

The City sanitary sewer mains and residents sewer laterals pipe sizes are designed to carry only waste water coming from the homes or businesses. These pipes are not meant to carry rain water. If the sanitary sewer lateral is not properly maintained (no breaks or leaks), these pipes will contribute to inflow and infiltration (I/I) of storm water of laterals and eventually to City’s sanitary sewer mains. The additional stormwater in the sanitary sewer could lead to City sewer surcharges resulting in sewer backups of residential laterals.

This voluntary cost sharing program is available on a first-come, first-serve basis, and only to single-family residential lots. The program is applicable for a stand-alone sanitary sewer lateral rehabilitation projects such as complete sewer replacement or sewer lining, as well as other approved flood reduction measures such as sewer backflow devices or overhead sewer systems.

Prior to the City authorizing the cost sharing program, a building permit will be required for the work. As part of the building permit, the City will inspect the property for any cross connection of storm sewer laterals to sanitary sewer laterals. If found, the property owners are required to disconnect the cross connection laterals at their own expense. Upon approval of building permit inspections, the City would reimburse 20% of the total cost of the improvement, or a maximum of $1,260, whichever is less.

For more information on the Voluntary Sanitary Sewer Lateral Cost Sharing Program, please visit the City of Highland Park website at www.cityhpil.com/sewerlateral or contact Public Works Department Sewer Section staff at 847.926.1150 during normal business hours.

Available Public Transportation Options

Highland Park has several transportation options available to its residents. In addition to the Metra commuter rail service, there are four Pace bus routes, the free Connector bus, and the free seasonal Ravinia Park ‘n’ Ride Shuttle. Also, Moraine Township also provides a Door-to-Door Paratransit Van service and a reduced-fare coupon taxi program.

Pace bus routes, operated and managed by the City, include Shuttle Bugs from Braeside Metra station that shuttle commuters to and from the corporate business parks on Lake Cook Road. Pace bus routes 471 and 472 operate Monday through Saturday, bringing passengers to a variety of locations throughout Highland Park, Highwood, Deerfield, and Northbrook and connect to Metra train stations and other Pace routes. The free Ravinia Park ‘n’ Ride shuttle provides approximately 300,000 rides each season, June through September, from remote parking areas, north and south of the Ravinia Festival Park, to the Ravinia Park.

The Connector bus is an ADA-compliant bus providing free rides to Highland Park residents aged 50+ on a fixed route making stops at residential, medical, shopping, and business locations within the community, as well as the Senior Center. The Connector currently operates 9 AM – 3:30 PM, Monday through Friday, and provides complimentary assistance to passengers with mobile-assistive devices and parcels.

The Moraine Township Door-to-Door Paratransit Van service provides transportation to locations outside of Highland Park within a 15-mile radius by appointment only. Medical appointments have first priority; the service is available to Moraine Township residents aged 65+ or eligible persons with disabilities.

For additional information on any of these transportation options, please visit the City’s website – www.cityhpil.com or Pace Suburban Bus at www.pacebus.com.

The Early Childhood Center at Green Bay offers a variety of programming options. Our teachers are state certified, and we utilize both the State of Illinois Early Learning Standards and the Creative Curriculum for Preschool.

Green Bay School has been recognized by ExceleRate Illinois with the Gold Circle of Quality Award. Additionally, students who complete the preschool dual language program are given a priority enrollment in the kindergarten dual language selections.

For more information about the NSSD112 Preschool program visit www.nssd112.org/preschool or call 224-765-3046 to begin the registration process today!
The City of Highland Park is pleased to present its Annual Water Quality Report for the period of January 1 to December 31, 2017. This report, as required by Federal law, is designed to inform all customers about the quality of water and services that are delivered each day. The City of Highland Park is pleased to report that last year, as in years past; your tap water met or exceeded all U.S. Environmental Protection Agency (USEPA) and state drinking water health standards. There were no water quality violations recorded during 2017, nor were there any samples over the Maximum Contaminant Levels (MCL). The City's continuing goal is to provide all of its consumers with a safe and dependable supply of drinking water. As part of this process, the City wants all customers to understand the efforts that are continually being made to improve the water treatment process and to protect water resources. In short, the City of Highland Park is committed to ensuring the quality of your water.

EPA Source Water Assessment Completed

In 2002 Illinois EPA (IEPA) conducted a federally mandated Source Water Assessment of Highland Park, and it is available to consumers by contacting the Water Plant at 847.433.4355. IEPA has determined that Lake Michigan has some of the best drinking water quality in the state. Also, IEPA has determined that sources of potential contaminants for Highland Park intakes include sediment, shoreline erosion, wet weather sewer overflows, wastewater treatment bypasses, stormwater runoff, and air deposition. Some of the potential contaminants are: inorganic compounds, synthetic organics, and volatile organics.

(See: http://www.epa.state.il.us/cgi-bin/wp/swap-fact-sheets.pl?rm=show_facility_detail&facility_number=0970500&cws=y)

The Source of Our Drinking Water

The City of Highland Park Water Plant uses surface water drawn from a 54 inch Intake Pipe located one mile from shore in Lake Michigan. This Intake Pipe is situated in 30 feet of water, adjacent to two smaller pipes that are 20 and 16 inches in diameter, which also feed water to the filtration plant.

All sources of drinking water are subject to potential contamination by constituents that are naturally occurring or are manmade. Those constituents can be microbes, organic or inorganic chemicals, or radioactive materials. Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that the water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the USEPA's Safe Drinking Water Hotline (1.800.426.4791).
Contaminants and Protection

<table>
<thead>
<tr>
<th>Contaminant Sources</th>
</tr>
</thead>
<tbody>
<tr>
<td>Contaminant Sources</td>
</tr>
<tr>
<td>The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs and wells. As water travels over the surface of the land or through the ground, it can dissolve naturally occurring minerals and radioactive material, and can pick up substances resulting from the presence of animals or from human activity. Possible contaminants consist of:</td>
</tr>
<tr>
<td>Microbial Contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife;</td>
</tr>
<tr>
<td>Inorganic contaminants, such as salts and metals, which can be naturally occurring or result from urban storm-water runoff, industrial, or domestic wastewater discharges, oil and gas production, mining or farming;</td>
</tr>
<tr>
<td>Pesticides and herbicides, which may come from a variety of sources such as agriculture, urban stormwater runoff and residential uses;</td>
</tr>
<tr>
<td>Organic chemical contaminants, including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and can also come from gas stations, urban stormwater runoff and septic systems;</td>
</tr>
<tr>
<td>Radioactive contaminants, which may be naturally occurring or be the result of oil and gas production and mining activities.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Water Conservation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Water Conservation</td>
</tr>
<tr>
<td>Did you know that the average U.S. household uses approximately 400 gallons of water per day or 100 gallons per person per day? Luckily, there are many low-cost and no-cost ways to conserve water. Small changes can make a big difference – try one today and soon it will become second nature.</td>
</tr>
<tr>
<td>Take short showers - a 5 minute shower uses 4 to 5 gallons of water compared to up to 50 gallons for a bath.</td>
</tr>
<tr>
<td>Shut off water while brushing your teeth, washing your hair and shaving and save up to 500 gallons a month.</td>
</tr>
<tr>
<td>Use a water-efficient showerhead. They’re inexpensive, easy to install, and can save you up to 750 gallons a month.</td>
</tr>
<tr>
<td>Run your clothes washer and dishwasher only when they are full. You can save up to 1,000 gallons a month.</td>
</tr>
<tr>
<td>Water plants only when necessary.</td>
</tr>
<tr>
<td>Fix leaky toilets and faucets. Faucet washers are inexpensive and take only a few minutes to replace. To check your toilet for a leak, place a few drops of food coloring in the tank and wait. If it seeps into the toilet bowl without flushing, you have a leak. Fixing it or replacing it with a new, more efficient model can save up to 1,000 gallons a month.</td>
</tr>
<tr>
<td>Adjust sprinklers so only your lawn is watered. Apply water only as fast as the soil can absorb it and during the cooler parts of the day to reduce evaporation.</td>
</tr>
<tr>
<td>Teach your kids about water conservation to ensure a future generation that uses water wisely. Make it a family effort to reduce next month’s water bill!</td>
</tr>
<tr>
<td>Visit <a href="http://www.epa.gov/watersense">www.epa.gov/watersense</a> for more information.</td>
</tr>
</tbody>
</table>

Additional Information

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. USEPA/CDC guidelines on appropriate means to lessen the risk of infection by Cryptosporidium and other microbiological contaminants are available from the USEPA’s Safe Drinking Water Hotline (1.800.426.4791).

About the Data

In order to ensure that tap water is safe to drink, USEPA prescribes regulations that limit the amount of certain contaminants in water provided by public water systems. FDA regulations establish limits for contaminants in bottled water, which must provide the same protection for public health. The City of Highland Park Water Plant routinely monitors drinking water for these constituents, in accordance with State and Federal laws. The following water quality table lists all of the drinking water contaminants that we detected during the period between January 1 and December 31, 2017. Although many more contaminants were tested, only those substances listed in the table were found in your water. All sources of drinking water contain some naturally occurring contaminants. At low levels, these substances are generally not harmful in our drinking water. Removing all contaminants would be extremely expensive, and in most cases, would not provide increased protection of public health. A few naturally occurring minerals may actually improve the taste of drinking water and have nutritional value at low levels. Unless otherwise noted, the data presented in this table is from testing done in the calendar year of the report. The EPA or the State requires us to monitor for certain contaminants less than once per year because the concentrations of these contaminants do not vary significantly from year to year, or the system is not considered vulnerable to this type of contamination. As such, some of our data, though representative, may be more than one year old. Again, the presence of contaminants in the water does not necessarily indicate that the water poses a health risk. Results may be obtained by calling the contact listed at the end of this report.

</tbody>
</table>

**Note:** There is not a federal or state MCL for sodium. Monitoring is required for information to consumers and health officials that are concerned about sodium intake due to dietary precautions. If the level is greater than 20 ppm, and you are on a sodium-restricted diet, you should consult a physician.

## Disinfectants & Disinfectant By-Products

</tbody>
</table>

**Note:** The percentage of Total Organic Carbon (TOC) removal was measured each month and the system met all TOC removal requirements set.

**Note:** Some sample results for regulatory compliance are based on a running annual average of quarterly samples, therefore; the result is not the highest level detected. This is the case for Cl₂, TTHMs and HAAs.

## Data Analysis

The “Your Water” column represents the highest sample result collected during the calendar year, unless otherwise noted. The “Range” column represents a range of individual sample results, from lowest to highest that were collected during the calendar year. The “Sample Date” column will show the year the sample was most recently analyzed. Unless otherwise noted, the data presented in this table is from testing done in the calendar year of the report. The “Violation” column will indicate whether or not a violation occurred with each contaminant that was detected. The “Typical Source” information lists where contaminants may originate.

### 2017 Water Quality Data Table

The “Your Water” column represents the highest sample result collected during the calendar year, unless otherwise noted. The “Range” column represents a range of individual sample results, from lowest to highest that were collected during the calendar year. The “Sample Date” column will show the year the sample was most recently analyzed. Unless otherwise noted, the data presented in this table is from testing done in the calendar year of the report. The “Violation” column will indicate whether or not a violation occurred with each contaminant that was detected. The “Typical Source” information lists where contaminants may originate.

</table>

99% of the samples were below the TT value of 0.3. A value less than 95% constitutes a TT violation. The highest single measurement was 0.985 NTU. Any measurement in excess of 1 is a violation unless otherwise approved by the state.

Note: Turbidity is a measure of the cloudiness of the water caused by suspended particulates and is monitored because it is a good indicator of water quality and the effectiveness of our filtration system and disinfectants.

To minimize contamination resulting from corrosion, Highland Park has implemented a corrosion control program. The EPA established a lead action level of 15 parts per billion (ppb) and a copper action level of 1.3 ppm. The 90th percentile result of samples analyzed for lead and copper content in homes with lead pipes must be less than these action levels. In 2017, Highland Park sampled water from thirty-three homes with lead service lines and analyzed them for lead and copper content. All results, were below the action levels. The 90th percentile result of samples analyzed for lead and copper content in homes with lead pipes must be less than these action levels. To minimize contamination resulting from corrosion, Highland Park has implemented a corrosion control program. The EPA established a lead action level of 15 parts per billion (ppb) and a copper action level of 1.3 ppm. The 90th percentile result of samples analyzed for lead and copper content in homes with lead pipes must be less than these action levels. In 2017, Highland Park sampled water from thirty-three homes with lead service lines and analyzed them for lead and copper content. All results, were below the action levels. The 90th percentile result of samples analyzed for lead and copper content in homes with lead pipes must be less than these action levels.

Note: The City of Highland Park is in full compliance with all State and Federal regulations governing the control of lead and copper within public drinking water supplies. If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. The City of Highland Park is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the State Drinking Water Hotline or at http://www.epa.gov/safewater/lead.

Additional Unregulated Contaminants

These contaminants are not currently regulated by the USEPA but testing was requested by the City of Highland Park.

Drinking Water Definitions

In the water quality data table, you will find many terms and abbreviations you might not be familiar with. To help you better understand these terms we’ve provided the following definitions:

- **TT**: Treatment Technique or a required process intended to reduce the level of a contaminant in drinking water.
- **AL**: Action Level or the concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.
- **MCL**: Maximum Contaminant Level or the highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.
- **MCLG**: Maximum Contaminant Level Goal or the level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.
- **MRDL**: Maximum Residual Disinfection Level Goal or the level of a drinking water disinfectant below which there is no known or expected risk to health.
- **MRDL**: Maximum Residual Disinfectant Level or the highest level of a disinfectant allow in drinking water.
- **MPL**: Maximum Permissible Level that is state assigned.

The results are in! District 113 students continue to outperform their peers across the state! On April 10, the Class of 2019 at Highland Park and Deerfield High Schools sat for and completed the Illinois state-administered SAT. This was the second year that the SAT was used as the state assessment exam. Prior to the SAT, Illinois used the Partnership for Assessment of Readiness for College and Careers (PARCC) assessment to collect data measuring the academic progress of schools. The PARCC data from the 2015-2016 academic year is currently reflected on sites such as US News, Niche, and GreatSchools.org.

The following table compares District 113’s performance to that of the state of Illinois, as well as all students who took the exam:

<table>
<thead>
<tr>
<th></th>
<th>District 113 n = 902</th>
<th>State of Illinois n = 136,165</th>
<th>Total Group n = 236,401</th>
</tr>

</table>

Graduating Class of 2019 Average SAT Scores

Last year, our students had an overall average of 1175, with 69% of our students meeting both benchmarks. The growth demonstrated by our students reaffirms the strength and quality of our curriculum, staff, and programs. Our schools and District continue to make great strides forward and remain competitive with the top schools in the state.

We are proud of our students and the academic growth they have demonstrated throughout their high school career. We will use the data obtained from the SAT to review our curriculum and instructional practice, as well as identify additional supports that will meet the needs of each individual learner. We are committed to preparing our students for future success and providing them with continual opportunities to excel.

Fun for All Ages

Sun Jun 17 | 11am | Father’s Day Mini Golf Adventures | All Ages
Dads Play FREE, Highland Park Golf Learning Center, 2205 Skokie Valley Rd.
Kids, bring your parent or guardian and compete for prizes.

Thu Jun 21 | 8:30pm | Cinema In the Sand: La La Land | Family/Parental Guidance
$5 suggested donation, Rosewood Beach, 883 Sheridan Rd.
Settle into the sand for a feel-good cinematic experience. Each film will begin at sunset. Bring your own picnic or purchase snacks and beverages.

Fri Jun 22 | 7-8:30pm | Family Campfires | All Ages
$10, Millard Park, 35 Ravine Dr.
Enjoy a campfire on the beach! Register at pdhp.org.

Sat Jun 23 | 9:30-11am | Summer Bees | Ages 6-Adult
$10, Heller Nature Center, 2821 Ridge Rd.
Put on a bee suit to see what the hard-working bees have been doing inside the hive! Register at pdhp.org.

Sat Jun 23 | After 8:30pm | Driving Range Movie Night | All Ages
Highland Park Golf Learning Center, 2205 Skokie Valley Highway
A different type of “Drive-In” movie. Bring your own lawn chair or blanket and watch a movie on the driving range.

Tue Jun 26 | 9:30-11:30am | Blood Pressure Screening | All Ages
Recreation Center of Highland Park, 1207 Park Ave. West
FREE screenings provided by NorthShore University HealthSystems.

Wed Jun 27 | After 6pm | Golf Student Night | Students
Highland Park Golf Learning Center, 2205 Skokie Valley Highway
Bring your student ID and receive $2 off.

Thu Jun 28 | 6-7:30pm | Treasure Hunters| Ages 6-12
$10, Rosewood Beach, 883 Sheridan Rd.
Dig and search for fossils, minerals and treasures at our mock excavation site. Register at pdhp.org.

Sat Jun 30 | 9-10:30am | Sharks and Mermaids | Ages 6-12
$20/$25 Non-resident, Hidden Creek AquaPark, 1220 Fredrickson Pl.
Dive deep under the sea, mermaid or shark which will you be? Swim alongside a real mermaid, play games, and take a bite out of a snack as you work on an under the sea craft. Mermaid and Shark Fins are provided! Register at pdhp.org.

Sun Jul 1 | 8am | Firecracker 5k | All Ages
Sunset Woods Park, 1801 Sunset Rd.
See ad on previous page for details. Register at pdhp.org.

Wed Jul 4 | 11am-2pm | Fourth Fest | All Ages
FREE, Sunset Woods Park, 1801 Sunset Rd.
See ad on previous page for details.

Mon Jul 2 | 4:30-6:30pm | Body Fat Analysis | All Ages
Recreation Center of Highland Park, 1207 Park Ave. West
FREE screenings provided by NorthShore University HealthSystems.

Fri Jul 6 | 7-8:30pm | Family Campfire | All Ages
$10, Millard Park, Ravine Dr.
Enjoy a campfire on the beach! Register at pdhp.org

Fri Jul 6 | After 8:30pm | Glow Ball | All Ages
Highland Park Golf Learning Center, 2205 Skokie Valley Highway
Experience mini golf under the stars!

Wed Jul 11 | 6-8pm | Try Golf | All Ages
FREE, Highland Park Golf Learning Center, 2205 Skokie Valley Highway
Take part in FREE informational clinics, ask questions about short game techniques, rules of the game, and getting started in golf.

Thu Jul 12 | After 6pm | Couples Night | All Ages
Highland Park Golf Learning Center, 2205 Skokie Valley Highway
Bring your significant other and enjoy mini golf and range balls for a special combo price.

Thu Jul 12 | 4:30-6:30pm | Blood Pressure Screening | All Ages
Recreation Center of Highland Park, 1207 Park Ave. West
FREE screenings provided by NorthShore University HealthSystems.

Thu Jul 12 | 8:30pm | Cinema In the Sand: Rookie of the Year | Family/Parental Guidance
$5 suggested donation, Rosewood Beach, 883 Sheridan Rd.
Settle into the sand for a feel-good cinematic experience. Each film will begin at sunset. Bring your own picnic or purchase snacks and beverages.

Sat Jul 14 | 9-10pm | Summer Astronomy | All Ages
FREE, Heller Nature Center, 2821 Ridge Rd.
See Mars and the Moon through our telescope.

Sat Jul 14 | 11am | Parent/Child Mini Golf Tournament | All Ages
FREE, Highland Park Golf Learning Center, 2205 Skokie Valley Highway
Kids bring your parent or guardian and compete for prizes.

Sun Jul 17 | 11am | Father’s Day Mini Golf Adventures | All Ages
Dads Play FREE, Highland Park Golf Learning Center, 2205 Skokie Valley Rd.
Kids, bring your parent or guardian and compete for prizes.

SUMMER READING CLUB READ BOOKS AND EARN PRIZES!

SUPERHEROES READ!

THROUGH AUGUST 4

For babies through kids entering 9th grade. Register at the Youth Services Desk or at storytime. Preschool and grade school readers can also register at hplibrary.beanstack.com.

**SPECIAL EVENTS**

**Crosstown Exotics Reptile Show**
Tuesday, June 19, 7 – 8 PM
Families
Doors open at 6:30 PM. Space is limited. Enjoy an up-close encounter with some of the planet’s oldest and scariest creatures when Crosstown Exotics brings animals such as a 12-foot Burmese Python to the Library.

**Superhero 3D-Printed Bookmarks**
Wednesday, July 11
3 – 4 PM
Ages 6 – 13. Ages 8 and under must be accompanied by an adult.
Design a 3D-printed bookmark with a favorite superhero logo on it, or create one of your own. Registration required. Register at hplibrary.org.

**Floats and Science**
Thursday, July 12
3:30 – 5 PM
Ages 3 – 14
Create your own ball floatation device and learn about Bernoulli’s Principle.

**Strawbee Superhero Accessories**
Monday, June 25
11 AM – 2 PM
Ages 7 – 14
Create your own super accessories out of Strawbees! We’ll display your creations in the Library.

**Dinosaurs vs. Robots Drawing Workshop**
Friday, July 6
2 – 3 PM
Ages 5 – 8
Learn to draw cool dinosaurs on one side of the page and awesome robots on the other! Will they fight or share some ice cream? Registration required. Register at hplibrary.org.

**Superhero Drive-In**
Tuesday, July 10
10 – 10:45 AM OR
Wednesday, July 11
1 – 1:45 PM
Ages 3 – 6, accompanied by an adult.
Kids, work with your grownup to create your own SUPER vehicle then watch a short film in your new ride. Registration required. Please register each child who will attend. Register at hplibrary.org.

**Superhero Wristbands**
Monday, July 16
3 – 4 PM
Ages 8 – 14
Create your own superhero accessory. Put your decoupage skills to the test and channel your inner superhero. Registration required. Register at hplibrary.org.

**Design Your Own LED Superhero Cuff**
Saturday, July 14
10 – 11:30 AM
Ages 6 – 12
Stitch a felt superhero wrist cuff using conductive thread, LED lights, and embroidery floss and gain a basic understanding of electrical currents.
We Want To Hear From You

Help Us Plan Our Future!

We're conducting a survey to learn more about your Library experience. What do you value about the Library, what services and programs do you use, and what would you like to see from the Library in the future?

Take the survey at surveymonkey.com/r/HPLibrary2018

July 4th Fun!

March with the Library in the July 4th Parade!

Join us in the July 4th parade. Wear your walking shoes! Strollers and wagons are welcome. Or, wave as we go by and then stop by our table at the Fourth Fest in Sunset Woods Park. Call 847.432.0216 or stop by the Library to register and reserve your free t-shirt.

Discussions

BOOK DISCUSSIONS

Discussions with Davis

Wednesday, July 11, 7 PM

The Secret Chord

by Geraldine Brooks

Davis Schneiderman, English professor at Lake Forest College, leads the discussion. The story of King David is richly imagined and beautifully told in Brooks’ story of a shepherd boy who becomes king of Israel. Sponsored by the Friends of the Library

READERS’ ROUND TABLE

Tuesday, June 26, 2 PM

Share your recommendations and take home an advance reading copy of an upcoming title.

SPANISH DISCUSSIONS

Spanish Conversation Group

Tuesdays, 10:30 – 11:30 AM

Meet at the Library and practice your Spanish. Conversational ability required.

Spanish Literary Club

Fridays, 11:30 AM – 1 PM

Take part in lively discussions on Spanish literature, focusing on the works of notable authors. Conversations will be mostly in Spanish, but non-native speakers are welcome. Check hplibrary.org for the current book.

Meet The Author!

Robert Kurson

Rocket Men: The Daring Odyssey of Apollo 8 and the Astronauts Who Made Man’s First Journey to the Moon

Monday, June 18, 7 PM

Bestselling author Robert Kurson’s new book tells the stunning inside story of Apollo 8 and the astronauts who took on the near-impossible challenge of mankind’s first mission to the moon.

Books will be for sale and the event will conclude with a book signing.
A Celebration of Leonard Bernstein
Thursday, July 26, 7 PM
To celebrate renowned conductor and composer Leonard Bernstein’s centennial, Jamie Bernstein, the daughter of Leonard Bernstein and author of the new book, Famous Father Girl, A Memoir of Growing Up Bernstein, will be joined in conversation with definitive Bernstein biographer Burton Humphrey. The conversation will be moderated by Ravinia President and CEO Welz Kauffman. The evening will include a performance of Leonard Bernstein’s songs and music. Bernstein’s and Humphrey’s books will be for sale and the event will conclude with a book signing.

Get Tech Savvy
Sundays, June 17, July 1, 2 – 4 PM
Bring your electronic devices and your questions. Drop by and meet with a volunteer for one-on-one guidance on the first and third Sunday of each month.

Intro to Programming:
Circuit Playground
Wednesday, June 20, 7 – 8 PM
The Circuit Playground is a small microcontroller board with LEDs, buttons, and sensors that is controlled by Python. Beginners can learn to program it quickly. Registration required. Register at hplibrary.org.

Spark It Up:
Graphic Design Made Easy
Wednesday, June 27, 4 – 5 PM
Join us for a hands-on program using Adobe Spark, a free online graphic design app, to create web graphics, posters, flyers, fun photo collages, posts for social media, and more. Registration required. Register at hplibrary.org.

Music
CHICAGO YIVO SOCIETY 2018 SUMMER FESTIVAL OF YIDDISH CULTURE @ THE LIBRARY
The Chicago Klezmer Ensemble
Thursday, July 5, 2 PM
The band performs modern and traditional klezmer music that draws directly from historical sources along with original interpretations and compositions. This program is part of the Chicago YIVO Society Summer Festival of Yiddish Culture.

NEW MEDIA
A Celebration of Leonard Bernstein
Thursday, July 26, 7 PM
To celebrate renowned conductor and composer Leonard Bernstein’s centennial, Jamie Bernstein, the daughter of Leonard Bernstein and author of the new book, Famous Father Girl, A Memoir of Growing Up Bernstein, will be joined in conversation with definitive Bernstein biographer Burton Humphrey. The conversation will be moderated by Ravinia President and CEO Welz Kauffman. The evening will include a performance of Leonard Bernstein’s songs and music. Bernstein’s and Humphrey’s books will be for sale and the event will conclude with a book signing.

Get Tech Savvy
Sundays, June 17, July 1, 2 – 4 PM
Bring your electronic devices and your questions. Drop by and meet with a volunteer for one-on-one guidance on the first and third Sunday of each month.

Intro to Programming:
Circuit Playground
Wednesday, June 20, 7 – 8 PM
The Circuit Playground is a small microcontroller board with LEDs, buttons, and sensors that is controlled by Python. Beginners can learn to program it quickly. Registration required. Register at hplibrary.org.

Spark It Up:
Graphic Design Made Easy
Wednesday, June 27, 4 – 5 PM
Join us for a hands-on program using Adobe Spark, a free online graphic design app, to create web graphics, posters, flyers, fun photo collages, posts for social media, and more. Registration required. Register at hplibrary.org.
