**RE: Notice of Sanitary & Storm Sewer Main Lining**

Dear Resident:

The Department of Public Works will begin rehabilitation of select sanitary and storm sewer mains within your area beginning June 12, 2023 through the end of September. The method we are using is a pipe lining process that the City has successfully used for almost thirty years. By performing the work in this manner, the street and parkway in front of your home will not have to be excavated, keeping disruption to you at a minimum.

Normally, each section of sewer to be lined will require up to 12 hours to be completed. During this time the sewer connection to your home will be sealed off. Consequently, you will be asked to make limited use of your toilet facilities and refrain from doing laundry for a 12 hour period.

You will receive written notice from the City's sewer lining contractor, Hoerr Construction, Inc., in the form of a door hanger informing you of the time and date of your 12 hour limited water use period. If work is canceled for that date, you will receive a green door hanger notifying you of the cancellation.

Just a reminder, if you occasionally pour a cup or two of water into your basement floor drains, you will keep the drain traps from drying out which will help prevent sewer odors from entering into your home.

Should you have any questions about the pipe lining process, please phone the contractor's representatives, Dan Wiegand at 309.208.5161 or Mike Kaisner at 309.303.5664. If you require City assistance please contact City Sewer Section Foreman, Rob Pluta, at 847.926.1150.

Thank you.

Respectfully,

Ron Bannon  
Director of Public Works
