Hello Elliot,

Our hearts go to you and your team in light of the shooting yesterday. My cousin and family live in Highland Park and were on the way to the parade when the shooting started. They were unharmed, thankfully. I hope you and your family and all your colleagues were safe.

Thank you for sending the document.
Kind regards,

That is correct. Park Mobile was missing main criteria and was not brought to the scoring phase.

We're having difficulties sending the passport PDF due to the size.

It seems, we are still missing Passport's response, and also it appears that Park Mobile was not scored by the city?
Unless you have a separate score sheet for them?
Thank you for clarifying,

Hope you are doing well.

I am sorry to keep bugging you. I was wondering, if we can please limit the scop of our initial request if the agreement with the winning bidder is not yet finalized.

We would like to see the following documents, please:

1. The responses from all bidders
2. Scoring sheet
3. The agreement with the winning bidder (but only if available today, if not – we will request it separately later)

Thank you very much for looking into it,

Thanks so much for sending the scoring sheet.

Eventually, we would like to request all four responses submitted and all other scoring documents created, by way of making a public records request to the City of Highland Park.

Would you please point me to the right mechanism for doing that?

Good Afternoon,

Thank you for submitting materials for Highland Park's Automated Parking and Permit Management RFP. The City received four proposals from very qualified firms. The submittals were reviewed thoroughly by our Administration and were scored based on several attributes, including technical and cost information, and the capability to fulfill all project requirements.

Please see the attached letter with our decision and please let me know if you have any questions.

Everyone,

We, at VictimsFirst, are offering to be the repository for the Centralized Victims Fund for your City and have already spoken to special master Kenneth Feinberg (Boston Bombing, 9/11, Orlando, Va Tech, Aurora) who we have worked with previously. He is willing to help so that issues of probate, trusts, etc. can be handled efficiently and smoothly in a timely manner for the victim base.

We have already spoken to the very pure-hearted Danielle Sharfman (cc'd here). We are combining efforts so those who have already donated will be able to receive a tax deduction. By allowing that, it also encourages more donations when donors know they can write them off.

There is usually only a 3 week window before the news media moves on to collect donations for victims.

VictimsFirst already has an IRS standing to give financial gifts directly out to victims and survivors of mass shootings and have a track record of doing so. We are known, trusted, and are fully transparent in giving 100% to victims. We are doing so in Uvalde, Buffalo and have done so in Sutherland Springs, Atlanta Spa shootings, Indianapolis Fed Ex, El Paso, Sacramento, and Boulder, etc.

We are families of previous mass shootings. We take NO ADMIN fees and ensure 100% of what is collected goes straight to those most directly impacted.

I was born and raised downstate in Illinois, went to college in Illinois, worked in Chicago for years. Dr. Blair is a graduate of the University of Illinois in Chicago.

We have families of the deceased with us who live in Illinois from both the Aurora, CO and NIU mass shootings.

We want to make sure that re-traumatization/re-victimization of families of the mass shooting there in Highland Park does not occur, and if there is no centralized VictimsFund, that will inevitably happen. Nonprofits like United Way and Red Cross are community-based funds. They do not give 100% directly to victims and previous mass shooting victims across this country are aware of this.

We have lived this experience ourselves and can guide you through the process.

Warmly,

Anita Busch

Dear Ghida and Emily:

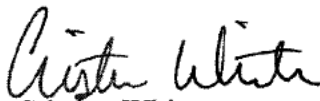

On behalf of the Illinois Public Employer Labor Relations Association (IPELRA), we wish to share our heartfelt condolences for the lives lost, those injured, and all those affected during the mass shooting event on July 4th. There are no words to fully express the sadness we feel for the Highland Park community.

While as community leaders we hope something like this never happens, we know all too well that it is happening with more frequency. There is no solace in that fact, but hopefully there is some comfort in knowing that your neighbors and the larger community of local government professionals stand with you.

We applaud the professionalism and response of the Highland Park first responders and staff, as well as all the other agencies providing aid during and after the incident. It is no small thing to push through the emotional toll of this situation to serve those in need and be the leaders the moment requires.

In the aftermath of this tragedy, we offer our support to your organization in whatever way may help as you begin to heal and recover.

Respectfully,

Cristina White

This is Shawn Boburg from The Washington Post. I'm working on a story about Bobby Crimo, the suspect in the July 4 parade shooting.

I have a few questions I'm hoping you can help answer:

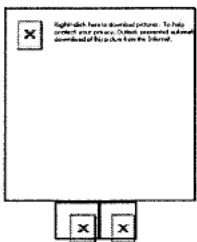

1. What schools did Robert Crimo III attend and what were the dates of his attendance?
- 2.
3. Were there ever disciplinary actions taken against Bobby Crimo involving violence, threats of violence or other serious matters

I may be reached by email at [REDACTED]

Ghida

I wanted to give you a couple of days before I sent you any email. I know you were probably crazy busy. I know my fire chief helped out at incident command and we sent some equipment over the past weekend. I hope you know it goes without saying if there's anything you need from Des Plaines just give me a call anytime.

[REDACTED]
Can't imagine what you have to deal with stay strong and we will talk soon.

City of Highland Park Cancels Upcoming Events

Highland Park, Illinois – In light of the tragic shooting at the City of Highland Park Fourth of July Parade, the City of Highland Park announces the cancellation of the following upcoming community events:

- **Food Truck Thursdays**, July 7 and July 14
- **Takeout Tuesday at The Lot**, July 12
- **World Music Fest at The Lot**, July 16

This summer, the City has celebrated the return of traditional and new events after two years of pandemic-related cancellations. The devastating attack at the City's Fourth of July Parade was a horrific, heartbreaking incident for a close-knit community that values connections between neighbors and treasures opportunities to gather together. The City extends its deepest condolences to the families, friends, and loved ones of the victims.

Information regarding future events will be shared at cityhpil.com and enjoyhighlandpark.com.

Hello Don,

I wanted to check in and see how you and your crew are doing following the shooting that occurred yesterday in your community. Foremost, I hope that none of you were affected directly by the incident. Also, I saw reports stating that many roads and businesses in Highland Park are closed today, and I hope those aren't causing any significant disruptions.

I hope all is as well as can be, and please let me know if we can be of any assistance.

Hi Leigh,

We just spoke on the phone. Please let me know that this email reaches you.

The promised letter of recommendation from the Collier County Sheriff's Office (CCSO) in Naples, Florida, is attached. For years, I have provided Spokesperson and Crisis Communication Training for the CCSO.

I used to live in Highland Park and grew up in Lincolnwood. I will be back in the area this Friday for my High School Reunion.

Please let me stop by to see how I can be of help while I'm in town. I am available remotely if you, Chief Jogman or anyone else from the amazing team, who is working together to deal with the horrific mass shooting, would like to speak sooner. My phone number is 239-777-1776. Please feel free to share this email.

Have also included a couple of screen captures from the recent news conferences.

Thank you so much for taking the time to talk with me and for reading this communication.

To Whom It May Concern:

Sheriff Rambosk and I highly recommend Linda Blackman, founder of Signature Speaking LLC, to train your people who must interact with the public and the media.

For years, the Collier County Sheriff's Office (CCSO) has had the privilege of working with Linda Blackman of Signature Speaking. Linda is an extraordinary speaker and trainer to bring to your organization, company, or annual meeting.

The purpose of this letter is to quickly detail the reasons the CCSO chooses to utilize Linda's services and unique perspectives. Signature Speaking LLC has given the following and much more to the CCSO:

- Provides CCSO participants copyrighted formulas that make facing the media and public easier
- Features Linda Blackman, who is a strong proponent of law enforcement, as the trainer
 - A former television news anchor, reporter, and cable talk show
 - A motivational speaker
 - An author and newspaper columnist
- Creates customized training materials and programs along with customized scenarios for our CCSO members assigned to a variety of duties
- Enhances each CCSO participant's ability to address various audiences and situations ranging from handling the media, news conferences, and one-on-one interviews to speaking with the public at Homeowners' Association meetings, governmental meetings, and other gatherings
- Prepares CCSO deputies and all those attending sessions with lots of practice in conjunction with videotaping and analysis of participant performance
- Delivers proven training to the Collier County Sheriff's Office – with consistent high ratings given by participants to Linda and her company

Linda helps our members with soundbites, public speaking, crisis communications and how to respond to the media and public.

In summary, Linda Blackman is extremely easy to work with. Signature Speaking LLC provides targeted, hard-hitting training which is essential for those representing the CCSO.

Sincerely,

Stephanie Spell

Team,

The City is accepting food donations at the City's Emergency Operations Center (EOC) located at Fire Station 33. Roman accepted a food donation for the Mayor this morning, which I drove over to the EOC. Please advise donors to take food donations to the front lobby of Fire Station 33. If they are not able to take them to Fire Station 33, we can certainly accept them here at CH, along with the information in [this file](#), that the donor is willing to share, and I will make arrangements for transport to Fire Station 33. The value in column N will be internally estimated and should not be discussed with the donor.

A broader communications on donations, in general, will be distributed later today or tomorrow. Since food donations are arriving quickly and are the most likely donations to show up at the Finance windows, I wanted to share this separate email.

Kind regards,

Thank you. We are going to schedule a debriefing session with Family Service of Lake County for individuals who were at the parade at the time of the incident, potentially tomorrow. I think it's important we all attend. They will be here on site at City Hall for what sounds like the four of us: Myself, Amanda, Ghida, and you. It's meant to be a group session that allows us to just talk if we're comfortable.

Hi Amanda – looping back in to see if we are set for 4PM CT/5PM ET. I can help all of you with logistics for the interview and coordinating with our production team to make sure things are as seamless and as easy as possible for all of you during this time. I also left a voicemail, but I'm sure things are extremely hectic at the moment.

[REDACTED] and I can text if that's easier for all of you.
Again, thank you so much, and let me know if you need anything.

I'm reaching out to make sure we are set for this afternoon.

I can help coordinate on Skype this afternoon and answer any questions you may have about the interview. My cell is [REDACTED] if you need anything, and I can text if that's easier for all of you.

I want to also send my condolences. I have a close friend who works regularly in the city, and I know how lovely it is.

Hi Amanda,

Thank you very much. And our condolences to you and so many people there during this horrible time.

We would very much like to interview her at that time -- 4 pm CST, probably for about 5 or 6 minutes or so. Our anchor, Judy Woodruff, will interview her.

Let's plan on that. I am adding my colleague, Ali Schmitz, who can help sort through the details. We do need to do a Skype check at some point later this AM or early to mid-afternoon that uses both the laptop and the location she will be doing this from so we can check signal strength, picture quality and audio, etc.

The control room will probably connect with her around 3:55 pm CST to make sure all is clear before we record.

Does she have a Skype account/handle? Please send along when you can, along with a number where she can be contacted while we are doing the recording. If she doesn't have a Skype account, we can send a guest link to be used through a Chrome browser. But if she or Highland Park has a Skype account we could use, that would be best.

Thanks so much.

Ali will follow up with more. But do let us know about a couple of these questions when you can, please. I know you are all very busy so we appreciate the time. And again, we are so sorry for the losses and trauma there. I have family there myself who have long lived in the community and they are trying to come to terms with it.

Thank you,

Murrey

ITC: Psychosocial training and support

Horrific shooting incident on nation's celebration day in Highland Park, IL deeply shocked the whole community– the ripple effect of this horrific incident impacts many in different ways. For many individuals and families this event will remain a traumatic experience of their life for long time and the community will need some time to recover as well.

Over the next few days, the response, both operational and psychosocial, will transition from the immediate phase to providing a mid to long-term response, requiring comprehensive coordination, deliberate planning of emotional support provision to various circles of impact along the timeline, including identification of needs for these phases and availability of recourses.

In light of the reality described above, and based on our experience in supporting the psycho-social response to multiple incidents in Israel and around the world, the following steps are recommended:

- Identification, mapping and scoping of needs of different groups of people impacted by the incident in various intensity (families that lost their loved ones, survivors, parents/children of missing and dead, community institutions such as schools, first responders and care-providers etc.) including the projection of those needs' development along time, including various time marks (end of forensic procedures, funerals, back to school, holidays and so on).
- Identification, mapping and scoping of psycho-social support recourses (it should be kept in mind that such a transition also comes with withdrawal of "helping hands" that will be so useful during the first days and gradual decrease in availability of outside help. Also the initial response always characterized by certain level of duplications and deficits as one, due to the fact that multiple organizations are "jumping in" to help, not always in most coordinated way.
- Development of mid and long term, detailed and coordinated plan for prolonged psycho-social response, based on development of common language, utilizing all available community recourses (not only mental health professionals), progressing from short-term interventions, targeting acute trauma to full rehabilitation, focusing on It on strength and resilience of the community and its members.

From our perspective and experience, the recommended way to deal with these challenges is via a comprehensive systematic community approach that enables all the local agencies and stakeholders, formal and informal, to share their knowledge and resources and integrate their actions in favour of the community so that a continuum of care can be created in a shared language and culture of services.

ITC is capable and willing to share our expertise and experience in psycho-social response following traumatic events (by conducting online and offline training sessions) on following topics:

- Augmentation of local experts' capacity in trauma focused care for individuals, families and groups including but not limited to -
 - **Tools for provision of non-stigmatized direct care from the acute phase onwards, for individuals and families.**
 - Diagnosis, triage and initial intervention principles, models and modules for Acute Stress Reaction (ASR) / Acute Stress Disorder (ASD) as well as Post Traumatic Stress Disorder (PTSD)
 - Trauma focused evidence based techniques
 - Practical skills on psycho-social interventions in traumatic stress situations
 - Identification, mitigation and management of compassion fatigue and burn-out symptoms amongst first responders and care providers
 - **Treating grief and bereavement**
 - **Development of a continuum of services to deal with psycho-trauma and rehabilitation.**
- Support in development of community resilience restoration plan, empowering and training the formal and informal leadership and professional services in the areas of health, welfare, education and community (including faith leaders) as well as local NGOs by training trainers and creating a cascade model of providing psycho education.
- Development and implementation of non-stigmatized emotional support mechanism and language to address the well being of first responders and care providers, that were and still are involved in incident, focusing on mitigation and decrease of burn-out and compassion fatigue levels among those.

Potential audiences for ITC training programs may include:

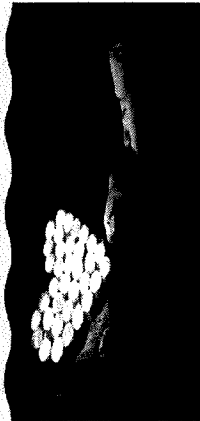

- Executives – City of Highland Park leadership and heads of departments and services, lay leaders, first responders' management and team leaders, administration, HR etc.
- Psycho-social care providers – psychiatrists, psychologists, social workers and therapists.
- Community and faith leaders.
- Educational system administration and personnel (teachers, pre-school educators and informal education professionals and volunteers).
- NGO and volunteer based organizations administration and practitioners.
- Operators of Hotlines and other support services specifically established or utilize to provide response to current incident (including self-care practices).

Psychosocial Outreach Highland Park, IL July 2022

Normative reactions to traumatic events

Following any traumatic event, that shatters one's routine and beliefs in life, it is natural to experience stress reactions that may feel different or more powerful than in everyday life
Normal reactions to an abnormal situation

Stress reactions can include-

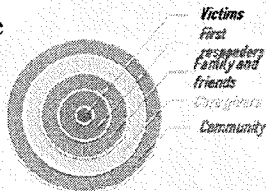

- Intrusive thoughts and images, nightmares or flashbacks of the event.
- Emotional and physical reactions to the event while awake or dreaming.
- Avoidance and withdrawal, feelings of detachment and estrangement, loss of appetite, depression.
- Physical arousal, irritability or outbursts of anger, difficulty falling or staying asleep.

Normal reactions to an abnormal situation

Circles of Impact

In this kind of a crisis, there are various circles of impact, where the most vulnerable/affected persons are the ones most directly exposed.

How to help children cope with grief and stress?

- Tell the truth about what happened.
- Be prepared for a variety of emotional responses.
- Be aware that your reactions and coping methods can be a model for your child.
- Help the child name their emotions and ensure them it's ok to feel this way.
- Be comfortable saying, "I don't know."
- Let the child grieve in his or her own way.
- Use relaxation techniques.

Parents: how to recognize signs of distress in your child?

- Regressive behaviors such as: clinging, crying, bed-wetting, thumb-sucking.
- Aggressive behaviors such as: anger, risk-taking, impulsiveness.
- Avoidant behaviors such as: isolation.

Children usually react to the emotions of the adult around them. their reactions may vary in accordance to their age and stage of development

Reach out for professional help if...

- Symptoms of stress as a result of for help.
- The first 48 hours might be shocking, and any symptoms you may experience would be normal.
- If the symptoms last over a month following the event, please reach out to a professional for help.

After working a 12-hour midnight shift the night before in Riverwoods, I woke up to the horrifying news of the active shooter who senselessly killed 6 and wounded approximately 30 others during the Independence Day parade in downtown HP. Having worked at HPPD for 27 years, I still hold HP near and dear to my heart. My prayers and thoughts go out to all of the responding personnel and affected members of the community.

It is readily apparent that HP first responders handled the situation in a manner in which the residents of HP and other law enforcement agencies should be proud. HP officers have always been among the best trained and elite members of the law enforcement community and yesterday, it showed. Kudos to all of you and great job in handling such a chaotic and tragic situation in such an organized and professional manner. Thanks to all your coordination and efforts, the coward behind this tragedy was quickly identified and taken into custody in a timely manner.

Please feel free to share...

Hello Ghida. I am truly sorry to be reaching out under these circumstances. We wanted to invite you to join us on MSNBC's Morning Joe to discuss how your community is doing in Highland Park after the horrific shooting, and how you are doing and coping. We would be very grateful for your time and perspective to share with our audience, perhaps 9amET (8amCT) tomorrow for a live interview via zoom? Please let us know what you think.

Again, I truly apologize for reaching out during this difficult time. Please let me know if I can be more helpful in this request.

Thank you. We are going to schedule a debriefing session with Family Service of Lake County for individuals who were at the parade at the time of the incident, potentially tomorrow. I think it's important we all attend. They will be here on site at City Hall for what sounds like the four of us: Myself, Amanda, Ghida, and you. It's meant to be a group session that allows us to just talk if we're comfortable.

Hi Amanda,

Thank you very much. And our condolences to you and so many people there during this horrible time.

We would very much like to interview her at that time -- 4 pm CST, probably for about 5 or 6 minutes or so. Our anchor, Judy Woodruff, will interview her.

Let's plan on that. I am adding my colleague, Ali Schmitz, who can help sort through the details. We do need to do a Skype check at some point later this AM or early to mid-afternoon that uses both the laptop and the location she will be doing this from so we can check signal strength, picture quality and audio, etc.

The control room will probably connect with her around 3:55 pm CST to make sure all is clear before we record.

Does she have a Skype account/handle? Please send along when you can, along with a number where she can be contacted while we are doing the recording. If she doesn't have a Skype account, we can send a guest link to be used through a Chrome browser. But if she or Highland Park has a Skype account we could use, that would be best.

Thanks so much.

Ali will follow up with more. But do let us know about a couple of these questions when you can, please. I know you are all very busy so we appreciate the time. And again, we are so sorry for the losses and trauma there. I have family there myself who have long lived in the community and they are trying to come to terms with it.

Thank you,

Murrey

To: Highland Park Police, Mayor, and leadership:

Growing up in Deerfield and having spent a lot of time in Highland Park, I am well aware of the demographics of Highland Park. The shooter certainly is far from the norm in this cushy, affluent, lily white community. That being said, I'm trying to understand how the Mayor, police, and the shooters uncle were absolutely so clueless that this individual might cause harm.

You may want to start thinking, policing, and (God forbid I use the awful word) profiling, reviewing social media and quit worrying about being so woke with everyone.

Had you done this, seven people might be alive today. It does absolutely zero good for you to ask Highland Park citizens for tips now. Doing this proactively, and not reactively, would be more effective.

My condolences to those who lost loved ones. They deserved greater focus on public safety.

Good afternoon:

I'm wondering if you're able to say the date Crimo bought the rifle believed to have been used in the shooting, as well as the date Crimo bought the rifle that was found in his car when arrested? And do you know his date of birth? (In light of the new federal gun law, I'm trying to figure out whether he was 21 at the time he bought those guns.)

Maybe Our Mayor should stop campaigning on MSNBC .
She is innocently actually targeting our City for more violence. Highland Park obviously has a worthless Assault Weapon Ban. Congratulations it didn't protect anyone. Political grandstanding needs to stop immediately. The whining is embarrassing. Maybe she should explain why the police never got a shot off at the shooter who was on a roof directly across from the reviewing stand. Where were the police?

To City manager of Highland Park . I appreciate your thoughtful , sensitive Highland Park email about the tragedy of the parade slaughter. I praise and thank the first responder courage and efforts but I am concerned. I'm sick about this senseless carnage. Why? Many reasons I'm sure but soon we need to ask why?

Why is it the police arrive in time to write the report instead of shoot the perpetrators?
The dignitary review stand was right across from the rooftop shooter. There should have been some police standing there just because that's where the politicians sit. If not, why not? Not one shot at this perpetrator by the police! By the way, Highland Park has a ban already on assault weapons. I'm sure the dead and injured will be glad to know that the law was useless but the City can give a ticket to the perpetrator.

HighlandPk is regularly self promoting and publicly self praising and politically promoting its assault weapons ban in our City . Sadly, well intentioned as it may be ,in the public eye Highland Park delivers a public message that it is anti gun, anti assault weapons and basically advertises our City as defenseless and a prime target to those who look for a place to wreak havoc and evil . Stop poking the bear.

Sadly, yesterday's mayhem was caused in part by the City Council and our Mayor.
Unfortunately what was viewed as public safety made us in my opinion a prime target for evil doers. Some of this blood is on your hands.
Just because you're a vegetarian does not mean the carnivores gave up meat.

Apparently, the assault weapons ban was not successful. Please share my sentiments with the City Council and the Mayor and stop promoting your litigation victory over Assault weapons. It rings hollow at this moment, and did nothing to protect HighlandPark.

All the speeches and hand wringing won't remedy the situation. You need more trained police . Rescind the ordinance. Allow our citizens to use our firearm practice range and stop telling the world that Highland Park is a soft target.

The parade review stand certainly should have had a police presence ,if anything to protect the dignitaries reviewing the parade. What happened? Something went very wrong!

Highland Park Strong: Grieving Together as a Community

Together, the City of Highland Park, the Park District of Highland Park, Highland Park High School / Township High School District 113, and North Shore School District 112 are grieving for the victims and the families of the horrific shooting today at what should have been a happy and joyous celebration.

Highland Park is a strong community, closely knit with shared values, priorities, and partnerships that were so clearly evident among the organizations, individuals, businesses, and entertainers participating in our parade today. As we grieve together as a community, we need to support each other as a community. In the aftermath of this unthinkable tragedy, we are stronger together.

Counseling professionals will be available tomorrow, Tuesday, July 5, for students, staff and community members at Highland Park High School (433

Vine Ave.) from 9:00 to 2:00. No appointment is necessary, but only the Vine Ave. entrance will be open. Anyone who is not a current District 113 student or staff member who wishes to take advantage of counseling services will need to have a valid driver's license to be cleared to enter the school, which is the school's standard procedure for visitors to the school.

Thank you for getting back to me, Amanda. Yes, we can do the interview over Zoom.

I'm also cc'ing my colleague Emily, who leads our US bureau and is currently in Highland Park.

We are working on a report which will be running on all our programmes this evening and tomorrow. Is there any chance of speaking to the Mayor, on top of the 3:30pm interview, in person for a couple of minutes? Unless there's any chance of doing the interview earlier and we could then aim to do it on camera instead of Zoom?

Let us know what you think.

To: Highland Park Police, Mayor, and leadership:

Growing up in Deerfield and having spent a lot of time in Highland Park, I am well aware of the demographics of Highland Park. The shooter certainly is far from the norm in this cushy, affluent, lily white community. That being said, I'm trying to understand how the Mayor, police, and the shooters uncle were absolutely so clueless that this individual might cause harm.

You may want to start thinking, policing, and (God forbid I use the awful word) profiling, reviewing social media and quit worrying about being so woke with everyone.

Had you done this, seven people might be alive today. It does absolutely zero good for you to ask Highland Park citizens for tips now. Doing this proactively, and not reactively, would be more effective.

My condolences to those who lost loved ones. They deserved greater focus on public safety.

Thanks Chuck.

All is well here (at the Plant at least).

Our Plant operations remain unaffected apart from rerouting of Plant deliveries and contractors around the crime scene.

No City personnel or officials were injured.

Most of us live some distance from Highland Park and none were in town for the parade so our trauma level is pretty much the same as everyone else who experienced this through the media.

It is impossible to imagine what the families present with children, either at their side or in the parade, experienced.

Subject: Tragedy in Highland Park

[EXTERNAL EMAIL]

Dear Amy and Daniel,

Yesterday, a tragedy occurred in Highland Park. A gunman fired repeatedly into the Independence Day parade, taking six lives and wounding dozens.

The suspected shooter was taken into custody in the early evening, more than eight frightening hours after the shooting. Given that situation, we quickly decided to cancel both our 4th of July Parade and the evening concert and fireworks.

There really aren't words for this moment to express our condolences to those who lost loved ones or were otherwise harmed yesterday morning, to communicate our anger at the gruesome reality of gun violence in America in 2022, or to articulate how frightening it is for a town that treasures its communal public gatherings like 4th of July parades to grapple with the question of when we can ever be truly safe.

It feels as though our society is coming apart.

Let's start with the obvious: the ready availability and incomprehensible number of guns on our streets is a crime against public safety. Almost no other country has gun laws like ours, and no other country has a problem akin to ours. It's not a coincidence, and anyone who continues pretending to believe otherwise has blood on their hands.

Next: we don't yet have much information about the motive behind yesterday's crime, but there are at least some indications that it may be in part political or ideological. Political violence is playing an alarming role in America today, ranging from the enormously high-profile events of January 6, 2021, to the little-publicized threats that public officials endure on a far-too-regular basis. I hope it goes without saying that democracy is incompatible with the use of violence to resolve political disputes.

Finally: we are living in a time of intense anger and polarization, when disagreements escalate quickly and frequently. Obviously heated arguments are a far cry from yesterday's nightmare, but I do think there's a connection between our society's widespread and growing difficulty with constructive disagreement and these extreme acts of violence.

Let's also be clear-eyed about what's different about these times and what isn't. White supremacy sure isn't a new phenomenon in this country, and political violence isn't either. But today, white supremacists have digital tools they can use to target and radicalize young white men, who then get messages from mainstream sources that they interpret as encouragement, and furthermore have no trouble getting their hands on military-style weapons. Given that, the situation we find ourselves in should be no surprise.

It's obvious that we need dramatic change in all of these areas. The gun issue, while politically challenging, is substantively relatively straightforward. We know that policy changes can make a difference, and we need to demand that they happen quickly, and without being watered down to the point of ineffectiveness. And while municipalities and states must use every tool at our disposal, municipal and state borders are porous, so we absolutely need federal action as well.

The other problems we need to take on are more complicated but we have no choice but to try. We cannot leave any room in this country for politics of violence, and we cannot structure our public discourse in such a way as to orient ourselves toward maximum conflict. Democracy is quite literally a tool for non-violent collective decision-making, and when we can't count on that happening, everything else in society begins to break down.

Let me end on this same subject, but on a positive note. During yesterday's tragedy, many people and institutions stepped up, pitched in, and demonstrated just the kind of commitment to collective effort that we need. First responders from across the north suburbs and Chicago put aside their already-enormous holiday workload to help out and ultimately apprehend the suspected shooter. We owe them a great debt of gratitude.

The Evanston 4th of July Association, a group of dedicated volunteers, worked for months and months to plan yesterday's festivities, and then when the news came in from Highland Park, turned on a dime. Thanks to them for their dedication and hard work. Finally, I know that after two years of pandemic-induced parade cancellations, our whole community was excited about yesterday's planned celebrations. When circumstances changed, people quickly and generously cooperated with law enforcement and focused on supporting one another and staying safe. Thanks to all for coming together in such a painful and difficult moment.

We have a lot of progress to make but I am confident that we have the people, the heart, and the values to get it done. Let's get to work.

Thank you,

Daniel

The future of urban travel is here -- on TV

Urban transportation in smart cities of the future is already being depicted on TV shows such as "Westworld" and "Altered Carbon," according to four doctoral-level students from Concordia University in Canada. "Imagine leaving the house with a self-flying drone that takes you to the main street to catch a flying bus," they write.

DOT making \$1B available for Reconnecting Communities

The Department of Transportation is accepting applications from states, cities, counties, tribal governments, regional planning organizations and nonprofits for the \$1 billion available through its Reconnecting Communities. Although there will be some highway teardowns, the program also provides for crosswalks and pedestrian bridges, with preferences given to poorer communities.

Plan to charge toll for entering Manhattan advances

(Spencer Platt/Getty Images)

Having cleared environmental review, New York City's long-awaited Central Business District Tolling Program appears back on track. The program, also known as congestion pricing, would levy a once-a-day charge on most vehicles arriving in Manhattan below 61st Street.

Transportation seen as key to taming climate change

Climate-smart transportation solutions are gaining traction in the developed world, but emissions from the sector continue to climb in lesser-developed countries. The World Bank recommends several measures to narrow this growing gap, including the construction of efficient transport systems in developing countries rather than trying to retrofit old, inefficient ones.

ITC: Psychosocial training and support

Horrific shooting incident on nation's celebration day in Highland Park, IL deeply shocked the whole community– the ripple effect of this horrific incident impacts many in different ways. For many individuals and families this event will remain a traumatic experience of their life for long time and the community will need some time to recover as well.

Over the next few days, the response, both operational and psychosocial, will transition from the immediate phase to providing a mid to long-term response, requiring comprehensive coordination, deliberate planning of emotional support provision to various circles of impact along the timeline, including identification of needs for these phases and availability of recourses.

In light of the reality described above, and based on our experience in supporting the psycho-social response to multiple incidents in Israel and around the world, the following steps are recommended:

- Identification, mapping and scoping of needs of different groups of people impacted by the incident in various intensity (families that lost their loved ones, survivors, parents/children of missing and dead, community institutions such as schools, first responders and care-providers etc.) including the projection of those needs' development along time, including various time marks (end of forensic procedures, funerals, back to school, holidays and so on).
- Identification, mapping and scoping of psycho-social support recourses (it should be kept in mind that such a transition also comes with withdrawal of "helping hands" that will be so useful during the first days and gradual decrease in availability of outside help. Also the initial response always characterized by certain level of duplications and deficits as one, due to the fact that multiple organizations are "jumping in" to help, not always in most coordinated way.
- Development of mid and long term, detailed and coordinated plan for prolonged psycho-social response, based on development of common language, utilizing all available community recourses (not only mental health professionals), progressing from short-term interventions, targeting acute trauma to full rehabilitation, focusing on it on strength and resilience of the community and its members.

From our perspective and experience, the recommended way to deal with these challenges is via a comprehensive systematic community approach that enables all the local agencies and stakeholders, formal and informal, to share their knowledge and resources and integrate their actions in favour of the community so that a continuum of care can be created in a shared language and culture of services.

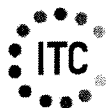

ITC is capable and willing to share our expertise and experience in psycho-social response following traumatic events (by conducting online and offline training sessions) on following topics:

- Augmentation of local experts' capacity in trauma focused care for individuals, families and groups including but not limited to -
 - **Tools for provision of non-stigmatized direct care from the acute phase onwards, for individuals and families.**
 - Diagnosis, triage and initial intervention principles, models and modules for Acute Stress Reaction (ASR) / Acute Stress Disorder (ASD) as well as Post Traumatic Stress Disorder (PTSD)
 - Trauma focused evidence based techniques
 - Practical skills on psycho-social interventions in traumatic stress situations
 - Identification, mitigation and management of compassion fatigue and burn-out symptoms amongst first responders and care providers
 - **Treating grief and bereavement**
 - **Development of a continuum of services to deal with psycho-trauma and rehabilitation.**
- Support in development of community resilience restoration plan, empowering and training the formal and informal leadership and professional services in the areas of health, welfare, education and community (including faith leaders) as well as local NGOs by training trainers and creating a cascade model of providing psycho education.
- Development and implementation of non-stigmatized emotional support mechanism and language to address the well being of first responders and care providers, that were and still are involved in incident, focusing on mitigation and decrease of burn-out and compassion fatigue levels among those.

Potential audiences for ITC training programs may include:

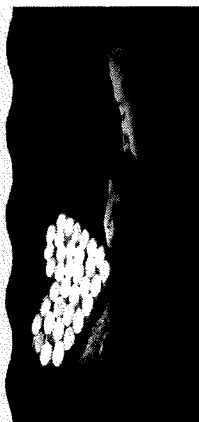

- Executives – City of Highland Park leadership and heads of departments and services, lay leaders, first responders' management and team leaders, administration, HR etc.
- Psycho-social care providers – psychiatrists, psychologists, social workers and therapists.
- Community and faith leaders.
- Educational system administration and personnel (teachers, pre-school educators and informal education professionals and volunteers).
- NGO and volunteer based organizations administration and practitioners.
- Operators of Hotlines and other support services specifically established or utilize to provide response to current incident (including self-care practices).

Normative reactions to traumatic events

Following any traumatic event, that shatters one's routine and beliefs in life, it is natural to experience stress reactions that may feel different or more powerful than in everyday life
Normal reactions to an abnormal situation

Circles of Impact

In this kind of a crisis, there are various circles of impact, where the most vulnerable/affected persons are the ones most directly exposed.

How to help children cope with grief and stress?

- Tell the truth about what happened.
- Be prepared for a variety of emotional responses.
- Be aware that your reactions and coping methods can be a model for your child.
- Help the child name their emotions and ensure them it's ok to feel this way.
- Be comfortable saying, "I don't know."
- Let the child grieve in his or her own way.
- Use relaxation techniques.

Reach out for professional help if...

- Symptoms of stress as a result of for help.
- The first 48 hours might be shocking, and any symptoms you may experience would be normal.
- If the symptoms last over a month following the event, please reach out to a professional for help.

Stress reactions can include-

- Intrusive thoughts and images, nightmares or flashbacks of the event.
- Emotional and physical reactions to the event while awake or dreaming.
- Avoidance and withdrawal, feelings of detachment and estrangement, loss of appetite, depression.
- Physical arousal, irritability or outbursts of anger, difficulty falling or staying asleep.

Normal reactions to an abnormal situation

Parents: how to recognize signs of distress in your child?

- Regressive behaviors such as: clinging, crying, bed-wetting, thumb-sucking.
- Aggressive behaviors such as: anger, risk-taking, impulsiveness.
- Avoidant behaviors such as: isolation.

Children usually react to the emotions of the adult around them. their reactions may vary in accordance to their age and stage of development

Where can I find support?

I posted this online and submitted to TV news tips...

The recent HIGHLAND PARK IL MASS SHOOTING took place less than 10 minutes from my home. We live down that parade's street in the next town over, Deerfield.

Two months ago, my DHS high school child showed me a social media posting of a fellow student posing in their photoshop'd image with an AR14 gun and other pro-gun propaganda in the background.

I forwarded this to my local police department who claim they take issues like this seriously. But history has shown with many instances when Deerfield police applied minimal effort in enforcing public safety while there is no regulatory or oversight over them at all. In one instance they actually falsified a police report in order to invalidate a recurring neighborhood nuisance. Lake County Sheriff John Idleburg had nothing to offer and had no interest about this at all.

I reminded Deerfield Police that the insulated Chicago northshore "bubble" is not immune to mass-shootings and to be on top of warning signs such as this, citing the Laurie Dan shooting in Winnetka from years ago.

Now this.

Was I psychic?"

Subject: Automate Active Shooter Attack Location and Officer Injuries Agency Wide 3 seconds from Attack - No User Input!
Attachments: image001.png; SES Capability Statement 2022.pdf; PERSONAL EMERGENCY TRANSMITTER PET 050522.pdf

[EXTERNAL EMAIL]

Dear City Manager,

We were very sorry to hear about the awful Active Shooter Attack and the tragic loss of life.

We have two solutions that are real game changers for reporting critical data in seconds.

A prior law enforcement officer that survived a deadly encounter, co-developed this revolutionary safety solution called Automatic Injury Detection (AID) covert wearable automatic attack-injury sensors that insert in body armor no modification. No data storage or monthly fees, only needs recharging once a year, no training their automatic, (AID) does not track officer until attack: Stabbed, Shot, or Shrapnel from an IED activates the sensors and remove's human input from point of attack to agency wide situational awareness / common operating picture (in real time) with **unbiased attack data**, No user input!

Provides real time attack location an allows the agency to establish an immediate perimeter and search a smaller area with greater chance of success and the subject less time to make clothes / vehicle change, etc. and worst case more officer and **civilian casualties** that could have been avoided.
(AID) has been deployed with dozens of agencies, over a million hours in the field zero false triggers, we ran over (AID) with a Humvee and submerged 10ft of water for 24 hours.

Please check out this news link on the (AID) deployment with Montgomery County Sheriff Office (VA): <https://www.youtube.com/watch?v=XkNE5OvQ5Gk>

PS: We have a covert pocket security key card looking device that works like AID used by undercover police that does similar to AID called a Personal Emergency Transmitter (PET) that would be great for civilians.

Please do not hesitate to call if you have any questions.

Kind regards,

Automatic Injury Detection AID Wearable

CORE COMPETENCIES

- ✓ Wearable sensor development
- ✓ Attack detection
- ✓ Wireless communications
- ✓ Automated notifications
- ✓ Software integration

DIFFERENTIATORS

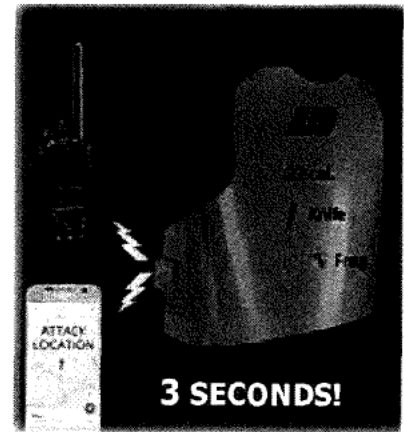

- Our patented AID technology is the only wearable sensor that detects both shooting and stabbing (Penetration)
- Unique product designs with simple set-up and minimal maintenance
- Integration with various communication solutions and enterprise systems
- Proven ability to deliver on customer needs
- Agile small business with additional capabilities through partnerships
- (AID) Independently tested to NIJ standards (Does not affect body armor performance).
- (AID) Incredibly low power only needs charging once a year.
- (AID) Only solution that gets help if you are incapacitated.

EXPERIENCE

- 60 years of combined mechanical/electronic engineering in military hardware, software, and production.
- 30 years of expertise in the wireless industry and IoT.
- 13 years of experience in wearable software and hardware design.
- 10 Years of experience first responder LE/Military- With an active shooter event and Meritorious service.

AUTOMATIC INJURY DETECTION (AID) Patent #9,058,733 B2

The Automatic Injury Detection system provides help in seconds when the sensing panel has been pierced by a bullet, knife, or shrapnel. AID is worn inside the body armor carrier. The AID sensor automatically sends agency wide alerts to smartphones or radios. The automated, instant alert helps save lives.
