Subject: TST - Let's Straighten Things Out...

[EXTERNAL EMAIL]

Can't see this email? [View in Your Browser](#)

JULY 5, 2022

When you're trying to draw a straight line, anyone can tell you how much easier it is when you have a straight edge like a ruler.

Similarly, shooting straight is much easier if your sights are straight (or aligned properly)!

That's why, this **TopShot Tuesday**, we're bringing back a tool that will help you keep the important things straight!

Since its introduction, the **Universal Pistol Rear Sight Tool** has been a big hit! We're happy to remind you of just how convenient it is, how easy it is to use, how thoughtful the design is; and we'd love for you to read all about that in the rest of this letter...

But of course, who can tell you better than **Lenny** himself?

It's easy to see why **Lenny** is such a big fan of the **Universal Pistol Rear Sight Tool!**

The fact is, it's hard to get a proper sight picture... if your sights aren't on straight! While people have been installing handgun sights with a hammer and punch for years, the precision of having the proper tool to install and straighten out your sights is invaluable.

Even if you've been using the same sights for years, as with all things, even sights can depreciate. Vibrations from the slide can cause them to move over time. The movements may be slight, but enough movement over time can put your rounds off target.

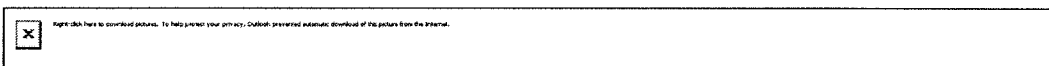

Another thing to keep in mind with factory sights is that the majority of them are plastic. Even high-grade polymers are still susceptible to scratching or marring, especially if you're using a hammer and punch to swap or adjust them.

If you want your sights as straight as possible, we have no doubt you'll enjoy using the Universal Pistol Rear Sight Tool. Guide lines on top of the tool and witness ports on the slide help ensure that you find the truest alignment and straighten your sights to perfection!

This tool will also make the process of removing your old sights quicker and easier. No more worrying about how hard you're hitting your sights, or the more trying task of hitting just the sights and not smacking the slide with your hammer!

Even if you're removing your sights altogether to switch to a **Red Dot Optic**, this tool will help you preserve your factory sights, and install suppressor sights for that much-desired co-witness setup.

And don't forget this Sight Tool is called **Universal** for a reason. As **Lenny** demonstrates, it can be adjusted to fit most semi-automatic slides (with a dovetail mount) on the market!

This TopShot Tuesday, to get your sights (and your wallet) straightened out, we're putting the Universal Pistol Rear Sight Tool On Sale @ 15% Off!

To get these savings, all you have to do is enter **Straight15** in the **Promo Code Box** at checkout, and watch the savings add up faster than you can drop our hammer and punch... back in the drawer!

Finally, if you are upgrading your sights, we've also got the tools you need for that tiny, pesky hex screw for your front sight.

We've got options ranging from the **Front Sight Take Down Tool** used by **Lenny** in the video, to the simple and straightforward HIVIZ

Installation Tool.

Whether you're upgrading your sights, straightening your sights, or taking them out altogether, make sure you have the right tool to help you see straight... and shoot straighter!

NOTE: Due to incredible prices and huge demand, many in-stock TST/FF purchases can take seven or more business days to ship.

Dear Mr Blumberg –

Hope you're well. I'm a producer for Sky News.

I was wondering if you might have availability for an interview today, 5th July, on the horrific shooting in Highland Park, IL yesterday, the concerns it raises, necessary measures to help victims?

We can do the interview live remotely, over Skype or Zoom, for 5-10 minutes. One on one.

For background - Sky News is the biggest news and business channel in Europe with three million daily viewers with many global affiliates. Sky News reaches more than 170 million homes across 138 countries.

Happy to discuss in more detail. I'm also on + [REDACTED]

Best,
Jakub

Good Morning,

I am reaching out to see if you can confirm where the suspect gunman in yesterday's parade shooting is being held at this time. Is he at the Highland Park police station or has he been transferred to a jail? Also, can you tell us if there are any plans for a presser this morning and if so - where and what time? Feel free to provide any other updates concerning this case. Please 'reply all' should you respond to this email. You can contact us directly at (312) 899-2200. Thank you!
