Hello All –

As some of you may know, the McHenry County Sheriff's Office is launching a new, county-wide Police Social Worker Program and we are so excited to finally begin the hiring process for the new Division! By securing several different funding sources, we are able to offer full-time PSWs and 24-hour coverage at a subsidized rate to county police departments wanting to participate in the program. They essentially will be in-house PSWs that will be managed by the Sheriff's Office, to help ease the burden on PDs who have never had a PSW before. Below are some links to an article on the program, press releases on hiring and the job posting where individuals can apply. Please share this anyone who may be looking to get into the field. We have a quick turnaround time and will be closing applications on January 31<sup>st</sup>.

Regan,

We have two possibilities to pick up the wheelchair for future use (donation) to someone who becomes paralyzed by a mass shooting. However, both wanted to know the dimensions of the wheelchair. One father of a child murdered in a mass shooting said they have a minivan and could pick it up to store until needed. They live about an hour away. Another VictimFirst volunteer in Chicago are wondering if they could fit in their car.

Thank you and hope this is not too much trouble and it is not too upsetting to you for us to ask.

I would love for it to go to a deserving individual.

My cell phone is [REDACTED] and I generally work from home so able to coordinate pickup.

Also, if there is anything else I can do to help other victims in HP or elsewhere, I'm more than happy to try.

#### **TRAININGS / WEBINARS**

Attached you will find information on the Federal Law Enforcement Training Center's (FLETC) **virtual training event "School Safety Summit – Strategies for Prevention"**, being offered from **July 19 – 21, 2022**, 11 - 4PM sessions only (CST). Each day will be a different presenter/presentation and topic discussed. Register at the FAST "School Safety Summit" link. This critical training offering, features FLETC presenters, as well as several State and Local law enforcement presenters, discussing potential considerations and strategies intended to prevent acts of violence in our nations' schools.

During our tour across the District last year, a lot of agencies ask for training on crypto currency. While the District works to bring you in-person training, I'd like to share that the **FBI has taken the time to create online virtual currency (crypto) trainings for law enforcement agencies to take on-demand.** These courses can be accessed in the FBI's Virtual Academy (VA) through LEEP as long as your organization is registered with VA. I've attached instructions regarding access and registration. If you have any issues or questions regarding accessing or operating the VA/LEEP platform, you can contact the helpdesk: <https://www.cjis.gov/CJISEAI/help.jsp>. A description of each course can be found below:

- VC 101: What You Need to Know: A high-level introduction to the most important concepts around why you should care about virtual currency and what you can do about it when it shows up in your investigations.
- VC 102: What Is this Stuff?: You will learn about the history of virtual currency, how virtual currency works, and trends surrounding virtual currency in criminal investigations. This training will assist you in determining whether your subject is using virtual currency and, if so, what you can do about it.
- VC 103: What Do I Do With This?: This program provides a high-level introduction to three simple objectives: finding new targets using virtual currency, getting your cases off the ground, and investigative next steps.
- VC 104 - Beyond Bitcoin: Ethereum and Other Blockchains: Illicit actors aren't putting all their eggs in the Bitcoin basket – you shouldn't either. This program is an introduction to virtual currency beyond just Bitcoin.
- VC 401 - Virtual Currency Seizure Basics I: In this program, you will learn best practices for preparing to seize virtual currency legally and effectively, as well as how to properly document your work.

- VC 402 - Search Techniques: In this program, you will learn best practices for identifying virtual currency on search sites or in search warrant returns. This course will also address evidence considerations for virtual currency private keys.

Finally, please see the information below regarding free (in-person (travel paid) and virtual) training from the National Center for Missing & Exploited Children (NCMEC):

- **NCMEC has two free seminars remaining in 2022 for leaders and managers in law enforcement**, emergency communications and state missing clearinghouses. Attached is a flier with information about NCMEC's course titled, *Protect. Reduce. Prevent: Leadership Series on Missing & Exploited Children (PRPL)*. The two remaining 2022 cohorts are offered in two formats: an all-online cohort spread out over six weeks, and a hybrid two-day cohort consisting of a few online prerequisites followed by two full days face-to-face at NCMEC's headquarters in Alexandria, VA. The hybrid cohort scheduled to be held in September 20 and 21 in Alexandria, VA has been approved for travel by the US DOJ. **Air transportation, lodging and two meals on each of the two training days will be provided by NCMEC through the OJJDP grant. This class is open to people who perform command-level responsibilities in law enforcement** and emergency communications agencies. Further information about this course may be found in the "Hybrid Training" section of <https://www.missingkids.org/education/training> and the application may be found at <https://www.surveymonkey.com/r/PRPL2022>. The PRPL all-online cohort starting in October is also open to the same audience.
- The other one page attachment is about **NCMEC's free Missing Kids Readiness Program that publicly recognizes state, tribal, county, municipal and campus law enforcement agencies and emergency communications centers that have policies and training to respond effectively to cases of missing and sexually exploited children in their jurisdictions**. Only one law enforcement agency in Illinois has achieved NCMEC's no-cost MKRP recognition. For further information about MKRP, please go to: <https://www.missingkids.org/mkrp>. On this note, the District is coordinating with NCMEC to deliver a training focused on best practices for law enforcement in child reunification and the online training should go over this program a little more should your agencies be interested.

When you register for the FBI's Virtual Academy (VA), you must be affiliated with a law enforcement/criminal justice organization that also has to be registered in the VA; this means that registration in the VA has two paths. The first path registers a new organization and designates you as the new organization's training manager- the person appointed to serve as the organization's primary point of contact with regard to training issues involving the VA. The second path registers you in an existing organization. Once you (and your new organization if you created one) have been approved, you will have access to online training as well as the ability to request access to training events within the Virtual Academy and apply to the National Academy program.

#### **TRAININGS / WEBINARS**

Attached you will find information on the Federal Law Enforcement Training Center's (FLETC) **virtual training event "School Safety Summit – Strategies for Prevention"**, being offered from **July 19 – 21, 2022**, 11 - 4PM sessions only (CST). Each day will be a different presenter/presentation and topic discussed. Register at the FAST "School Safety Summit" link. This critical training offering, features FLETC presenters, as well as several State and Local law enforcement presenters, discussing potential considerations and strategies intended to prevent acts of violence in our nations' schools.

During our tour across the District last year, a lot of agencies ask for training on crypto currency. While the District works to bring you in-person training, I'd like to share that the **FBI has taken the time to create online virtual currency (crypto) trainings for law enforcement agencies to take on-demand.** These courses can be accessed in the FBI's Virtual Academy (VA) through LEEP as long as your organization is registered with VA. I've attached instructions regarding access and registration. If you have any issues or questions regarding accessing or operating the VA/LEEP platform, you can contact the helpdesk: <https://www.cjis.gov/CJISEAI/help.jsp>. A description of each course can be found below:

- VC 101: What You Need to Know: A high-level introduction to the most important concepts around why you should care about virtual currency and what you can do about it when it shows up in your investigations.
- VC 102: What Is this Stuff?: You will learn about the history of virtual currency, how virtual currency works, and trends surrounding virtual currency in criminal investigations. This training will assist you in determining whether your subject is using virtual currency and, if so, what you can do about it.
- VC 103: What Do I Do With This?: This program provides a high-level introduction to three simple objectives: finding new targets using virtual currency, getting your cases off the ground, and investigative next steps.
- VC 104 - Beyond Bitcoin: Ethereum and Other Blockchains: Illicit actors aren't putting all their eggs in the Bitcoin basket – you shouldn't either. This program is an introduction to virtual currency beyond just Bitcoin.
- VC 401 - Virtual Currency Seizure Basics I: In this program, you will learn best practices for preparing to seize virtual currency legally and effectively, as well as how to properly document your work.

- **VC 402 - Search Techniques:** In this program, you will learn best practices for identifying virtual currency on search sites or in search warrant returns. This course will also address evidence considerations for virtual currency private keys.

Finally, please see the information below regarding free (in-person (travel paid) and virtual) training from the National Center for Missing & Exploited Children (NCMEC):

- **NCMEC has two free seminars remaining in 2022 for leaders and managers in law enforcement,** emergency communications and state missing clearinghouses. Attached is a flier with information about NCMEC's course titled, *Protect. Reduce. Prevent: Leadership Series on Missing & Exploited Children (PRPL)*. The two remaining 2022 cohorts are offered in two formats: an all-online cohort spread out over six weeks, and a hybrid two-day cohort consisting of a few online prerequisites followed by two full days face-to-face at NCMEC's headquarters in Alexandria, VA. The hybrid cohort scheduled to be held in September 20 and 21 in Alexandria, VA has been approved for travel by the US DOJ. **Air transportation, lodging and two meals on each of the two training days will be provided by NCMEC through the OJJDP grant. This class is open to people who perform command-level responsibilities in law enforcement and emergency communications agencies.** Further information about this course may be found in the "Hybrid Training" section of <https://www.missingkids.org/education/training> and the application may be found at <https://www.surveymonkey.com/r/PRPL2022>. The PRPL all-online cohort starting in October is also open to the same audience.
- The other one page attachment is about **NCMEC's free Missing Kids Readiness Program that publicly recognizes state, tribal, county, municipal and campus law enforcement agencies and emergency communications centers that have policies and training to respond effectively to cases of missing and sexually exploited children in their jurisdictions.** Only one law enforcement agency in Illinois has achieved NCMEC's no-cost MKRP recognition. For further information about MKRP, please go to: <https://www.missingkids.org/mkrp>. On this note, the District is coordinating with NCMEC to deliver a training focused on best practices for law enforcement in child reunification and the online training should go over this program a little more should your agencies be interested.

Hello All –

As some of you may know, the McHenry County Sheriff's Office is launching a new, county-wide Police Social Worker Program and we are so excited to finally begin the hiring process for the new Division! By securing several different funding sources, we are able to offer full-time PSWs and 24-hour coverage at a subsidized rate to county police departments wanting to participate in the program. They essentially will be in-house PSWs that will be managed by the Sheriff's Office, to help ease the burden on PDs who have never had a PSW before. Below are some links to an article on the program, press releases on hiring and the job posting where individuals can apply. Please share this anyone who may be looking to get into the field. We have a quick turnaround time and will be closing applications on January 31<sup>st</sup>.

**BUSINESS ACCESS & REOPENING UPDATE FOR BUSINESSES  
WITHIN THE JULY 4, INVESTIGATION PERIMETER**

The following FAQ is provided to help businesses within the July 4 crime investigation perimeter to set timeline expectations for your employees, suppliers, and customers, and connect you with resources and assistance to best serve your customers and support your teams.

**When can businesses within the investigation perimeter reopen?**

Businesses can access their place of business by Saturday, July 9 at 3 PM. We anticipate that businesses will be able to resume regular business hours at or shortly after 6 PM Saturday, July 9.

**Will businesses within the investigation perimeter receive government funding to help them recoup losses and cover their payroll?**

The Small Business Administration Economic Injury Disaster Loans, which could be forgivable, may be available to qualifying businesses.

Please complete the attached form and submit it to me by Friday, July 15, so that we can try to see if SBA loans or forgivable loans are an option for our businesses.

Please keep records of your business expenses, losses (product, food,

property), purchases, and payroll for July 4 through your date of reopening, as they may be needed as backup for other financial assistance. The City is also researching an opportunity for business assistance. More information will be forthcoming the week of July 11.

**BUSINESS ACCESS & REOPENING UPDATE FOR BUSINESSES  
WITHIN THE JULY 4, INVESTIGATION PERIMETER**

The following FAQ is provided to help businesses within the July 4 crime investigation perimeter to set timeline expectations for your employees, suppliers, and customers, and connect you with resources and assistance to best serve your customers and support your teams.

**When can businesses within the investigation perimeter reopen?**

Businesses can access their place of business by Saturday, July 9 at 3 PM. We anticipate that businesses will be able to resume regular business hours at or shortly after 6 PM Saturday, July 9.

**Will businesses within the investigation perimeter receive government funding to help them recoup losses and cover their payroll?**

The Small Business Administration Economic Injury Disaster Loans, which could be forgivable, may be available to qualifying businesses.

Please complete the attached form and submit it to me by Friday, July 15, so that we can try to see if SBA loans or forgivable loans are an option for our businesses.

Please keep records of your business expenses, losses (product, food, property), purchases, and payroll for July 4 through your date of reopening, as they may be needed as backup for other financial assistance. The City is also researching an opportunity for business assistance. More information will be forthcoming the week of July 11.

## #HighlandParkStrong

On Wednesday, July 13, at 7:00 p.m. the City of Highland Park will host a vigil at City Hall (1707 St. Johns Ave.) for the community to gather together and honor the memory of the victims.

Highland Park has created a landing page with information about community vigils, donation and volunteering opportunities, crisis counseling and victim resources and more at [hpstrong.info](http://hpstrong.info).

Following a moment of silence at the July 5th Village Board meeting, Mayor Daniel C. Shapiro addressed the senseless shooting saying, "To Highland Park, our community grieves with you, we support you and we stand by you." [You can read his full remarks here.](#)

Deerfield Police Department Social Workers Katharina Rygiel (847-794-7511) and Izzy Weintraub (847-794-7513) are also available to provide support to anyone affected by Monday's tragic event. Please reach out to them if you need to talk or would like additional resources. You can also call the Lake County Crisis Line 847-377-8088 for mental health resources or support. Crisis Counselors are available 24 hours a day to speak with you by phone. Information and referrals to other Health Department programs are also available. The Deerfield Public Library has gathered resources on how to talk to children about difficult topics. [You can find it here.](#)

To help those impacted by Monday's mass shooting, the Highland Park Community Foundation has established a July 4th Highland Park Shooting Response Fund. Here is also a direct link to the donation form. If you prefer, you may send a check, payable to the Highland Park Community Foundation, to P.O. Box 398, Highland Park, IL 60035.

A group of local interfaith clergy are hosting a "Healing and Hope" booth at tomorrow's Farmers Market with comfort dogs. Members of the community are invited to write their fears, thoughts and prayers on pieces of orange fabric that will be woven together. Local non-profit [Gratitude Generation](#) will be hosting a bake sale at the Farmers Market with proceeds to be donated to the Highland Park Community Foundation. They will also be putting up orange ribbons for gun safety around downtown.

Dear 113 Community,

The FBI and the City of Highland Park just released information about the FBI's Family Assistance Center at Highland Park High School ending operations at 5 p.m. tomorrow. That communication also contained information about picking up personal effects from the incident as well as support resources.

There is a greatness in our community that has come out in so many ways this week, so much so that it is impossible to describe it all or thank everyone. Over the next weeks, months, and years, the strength that has carried us through the last few days will only grow and continue to carry this community through whatever difficult days lie ahead. Highland Park strong.

For the latest official information, please link to the City of Highland Park's website: <http://hpstrong.info>.

Thank you,

Bruce Law, Ed. D.

Estimada comunidad 113:

El FBI y la ciudad de Highland Park acaban de publicar información sobre el fin de operaciones del Centro de Asistencia Familiar del FBI en la Escuela Secundaria Highland Park a las 5 pm mañana. Esa comunicación también contenía información sobre cómo recoger efectos personales del incidente, así como recursos de apoyo.

Hay una grandeza en nuestra comunidad que se ha manifestado de tantas maneras esta semana, tanto que es imposible describirlo todo o agradecer a todos. Durante las próximas semanas, meses y años, la fuerza que nos ha llevado a través de los últimos días solo crecerá y continuará llevando a esta comunidad a través de los días difíciles que se avecinan. Please take the time to read my letter carefully, as there is a lot of information you need to be aware of. I appreciate your time and consideration. You would only get this type of information from an experienced law enforcement officer. I hope this helps you and the City of Highland Park.

08 July, 2022

To: Honorable Highland Park Mayor and Honorable City Council

From: Jeff Neimark

Date: 08 July, 2022

I am calling for the Highland Park City Government to have an independent investigation conducted relating to the events that had occurred leading to the shooting by Robert Crimo III.

It is vitally important to the community and to everyone in this country to know exactly what happened leading up to the tragedy on 4th July. This is fundamental to make the necessary changes to make sure the same mistakes never occur again. There also needs to be accountability for these mistakes.

Law Enforcement in Highland Park made some incredible statements that are not consistent with Law Enforcement protocol. These statements were illogical and lacked a fundamental understanding of what should have occurred by the Highland Park Police Department in the incident in 2019 involving Robert Crimo.

Deputy Chief Covelli had explained the actions by the Highland Park Police Department. It was explained the Highland Park Police Department needed probable cause to detain Robert Crimo relating to the threats he made to kill his family. It appeared Deputy Chief Covelli was conveying to everyone in the news conference there was no probable cause to take the appropriate action required. It was explained the Highland Park Police Department took no further action on Robert Crimo because the family did not wish to sign complaints. Highland Park Police Department did however, complete a Clear and Present Danger Report to the Illinois State Police. Report had indicated Robert Crimo was a Clear and Present Danger. If Mr. Crimo was a clear and present danger why was he not arrested or charged? Report had clearly indicated he was a Clear and Present

Danger to himself and others. Report had further indicated Robert Crimo was depressed and had history of drug use. The police report had not indicated anything about the previous suicidal call or anything relating to his posts. Why did this occur? It was reported Robert Crimo III had contemplated suicide with a machete. Again, why was this not in the police report? This is crucial information as to the mental instability of Robert Crimo III.

Did anyone from the Highland Park Police Department follow up with the Illinois State Police ? Report does not indicate. The police report was lacking information and was not very detailed relating to events. There are no additional or supplemental reports shown indicating what D.C.F.S. did and when they were contacted. The Incident report indicates everything had occurred on 09-05-19, however the incident report indicates some of the statements occurred on Monday 09-02-19. If this is the case the police report is inaccurate on the date the incident occurred. If there were any issues with taking any particular action by law enforcement on 09-05-19 the Lake County States Attorney needed to be contacted and a Detective assigned to the case for follow up investigation and for charging. A petition could have been requested by the officer or detective to have the Lake County States Attorney to have Mr. Crimo mentally evaluated. This does not appear to have been done. Was this incident assigned to a Detective for further investigation? If not, why did this occur? The Incident report was not cleared and approved until 16 September 2019. It is apparent that no further action by the Police Department was taken relating to this incident. Incident report does not make any indication why the officer did not take any action other than removing the weapons for safe keeping. Does not make sense why there is nothing in report pertaining to why an arrest or mental evaluation was not conducted. It is hard to believe that this police report was actually approved by a supervisor. The fact the it took 11 days to approve the police report usually means the report did not go anywhere between 09-05-19 to 09-16-19. Reports that are not approved do not get sent to other agencies. It is unclear once the police report was approved on 09-16-19, this police report went anywhere for further investigation. It is very disheartening.

The family does not have the ultimate say in deciding the action by Law

Enforcement in this incident. The fact that the family did not wish to sign complaints does not negate the responsibility of the Highland Park Police Department to take further action. The police report does not indicate anything about the family not wanting to sign complaints. Why is this not in the police report? The police report does indicate that someone in the household was afraid to be in the house because of the nature of the threats, along with all the knives and weapons. This certainly indicates this threat was credible along with the Clear and Present Danger Report to the State Police. The incident report also indicates Robert Crimo III was not forth coming in the language he used.

Highland Park Police Department had the absolute right and a obligation to detain someone who threatens suicide and certainly someone who threatens to kill their entire family. Furthermore, it is a crime to threaten to kill your entire family which gives officers probable cause to take the necessary action. The Highland Park Police Department was actually required to detain Robert Crimo and should have arrested Robert Crimo III when he threatened to kill his entire family. This did not occur according to Deputy Chief Covelli.

The Highland Park Police Department not only had a right to detain Robert Crimo but they had the right to take him into custody for a mental evaluation by a physician at the hospital. This is actually very common in law enforcement to take this type of action. Police Officers are required to take action if there is a threat to harm or kill anyone, especially if they made statements of being suicidal previously with a machete and made statements of depression along with history of drug use. Highland Park Police Department had information of the mental instability Robert Crimo had. The fact Robert Crimo had in his possession 16 knives and other weapons was another factor to at least arrest him and take him in for a mental evaluation.

Again, this was a crime. The fact that Roberto Crimo threatened to kill his entire family was a crime. Why was this not treated as such? The police report does not indicate how any measures were taken to treat this as a crime or to take appropriate measures to have a mental evaluation done. Why did this occur? Did the Highland Park Police Department follow up to investigate social media posts

and songs Robert Crimo had created about killing people. Is there any police reports by the Highland Park Police Department this had occurred? Incident report does not indicate any further investigations or follow ups.

It is very probable if the Highland Park Police Department had taken Robert Crimo in for a mental evaluation and at least arrested him, he would had been flagged from obtaining these weapons.

It is very peculiar what had occurred here. I believe someone could make a reasonable inference that no action was taken by the Highland Park Police Department because the father of Robert Crimo was running for City Mayor at the time. This also needs to be looked into because this does not make any logical sense. There was also supervisor on scene named Sgt. Olsen. It is unclear why the supervisor made these decisions. It is unclear if there are any reports by Sgt. Olsen on this incident. In my experience I have seen officers not want to take someone to the hospital because they have to stay with them for long periods of time. I am not saying this is the case in this incident, however it is a problem in law enforcement and it needs to be looked at.

I have devoted 31 years of my life in a career in law enforcement and it is very difficult to see the mistakes that were so significant. Please take this letter to which it is intended as to help make sure this never happens again. I believe an independent investigation can put a lot of questions to rest and help in the healing process. Thank you.

I am a Highland Park native and my heart goes out to all the victims, families and everyone affected by this senseless and horrific act.

Respectfully,

Jeff Neimark

## A Letter from Chief Hornstein Regarding Gun Safety

Dear Residents and Community Members,  
Following the tragic events on July 4<sup>th</sup>, I'd like to take this opportunity to discuss safe storage of firearms: if you own a gun, please take extreme care to store it safely and properly.

The following are firearm storage tips are from [Project Child Safe](#):

- Store unloaded firearms in a locked cabinet, safe, gun vault, or storage safe.
- Unloaded firearms can also be secured with a gun locking device that renders the gun inoperable, but gun locks are not a substitute for secure storage.
- Always check firearms to be sure they are \*still\* unloaded when you remove them from storage.
- If firearms are disassembled, parts should be securely locked in separate locations.
- Store ammunition separately and securely.
- If you are concerned about quick access to your firearm, consider a special lockable case that can be quickly opened only by you/authorized individuals.

As a reminder, per Winnetka Village Code, it is unlawful to keep any assault weapon in the Village unless it is secured in a locked container or equipped with a tamper-resistant mechanical lock or other safety device, rendering the weapon inoperable by any person other than the lawfully authorized user. It is also unlawful for any person to carry or possess an assault weapon in the Village, except when they are on their own land or in their home.

If you have a firearm that you would like to surrender to be destroyed, you may bring it to the Winnetka Police Department at 410 Green Bay Road at any time, 24 hours a day, 7 days a week. This is a service we have always offered, so please keep this in mind if you have a gun you may want to destroy. This is also a part of our Village Code: no one will be asked for identification nor will be subject to prosecution for turning in any handgun or ammunition.

The gun safety discussion will continue locally and nationally, as will conversations about safety in schools, libraries, parks, beaches, and other locations frequented by the public. We will continue to provide updates, tips, and resources to keep you, your family, and our community safe.

Finally, if you ever need immediate response from the police or fire departments,

please call 911. This includes if you are in a situation in which you feel unsafe. Residents sometimes hesitate because they don't think their problems are severe enough to warrant immediate attention, but I encourage you to err on the side of calling if you need assistance.

Respectfully,

Marc Hornstein  
Chief of Police

The spots are now filled. We are covered and good for today. Thanks everyone. This is more of a role for a specialist with a distinct role that the specialists will show you protocol and process. This is not to be mistaken for clinical trauma therapist. They want someone with experience in crisis response and intervention.

If you're available tomorrow. Send me your info and Allen will contact you for staffing.

Hello All –

As some of you may know, the McHenry County Sheriff's Office is launching a new, county-wide Police Social Worker Program and we are so excited to finally begin the hiring process for the new Division! By securing several different funding sources, we are able to offer full-time PSWs and 24-hour coverage at a subsidized rate to county police departments wanting to participate in the program. They essentially will be in-house PSWs that will be managed by the Sheriff's Office, to help ease the burden on PDs who have never had a PSW before. Below are some links to an article on the program, press releases on hiring and the job posting where individuals can apply. Please share this anyone who may be looking to get into the field. Team,

It's been a few days since we had what I would consider an atypical callout for us. It has also come with lots of media attention as well as I'm sure many questions from others at your own respected department. So I'm positive there is no real getting away from thinking about it or hearing about. What I am asking is if you are having a hard time please reach out to someone. Myself and the rest of the TEMS people are here for you, someone that your comfortable with at your department, or a peer support line are all options. There are many avenues to take to reach out and obtain help and you do not have to deal with it alone, below is my departments "Traumatic Incident Screening Questionnaire" for a reference, below that is the Illinois Law Enforcement Peer Support Network link, along with Carrie Steiner's information from "First Responders Wellness Center" that most of you have seen at ITOA previously. Whatever you do if you need to talk or need someone to listen please reach out.

Til next time,

The spots are now filled. We are covered and good for today. Thanks everyone. This is more of a role for a specialist with a distinct role that the specialists will show you protocol and process . This is not to be mistaken for clinical trauma therapist . They want someone with experience in crisis response and intervention.

If you're available tomorrow. Send me your info and Allen will contact you for staffing.

Good Afternoon Folks!

The FBI FAC center is running low on manpower and are in need of Victim Specialists to assist victims. They are looking to see if anybody is available like ... NOW. This role requires a intake of victim, doing a needs assessment and just working with them through the stations which you will be trained in quickly by the FBI victim specialist. I need someone who is trained in crisis response and understands the magnitude of what you will potentially presented with as we are working with victims from a mass shooting.

If you're available - text me [REDACTED] they're looking for bilingual but not required.

Hello All –

As some of you may know, the McHenry County Sheriff's Office is launching a new, county-wide Police Social Worker Program and we are

so excited to finally begin the hiring process for the new Division! By securing several different funding sources, we are able to offer full-time PSWs and 24-hour coverage at a subsidized rate to county police departments wanting to participate in the program. They essentially will be in-house PSWs that will be managed by the Sheriff's Office, to help ease the burden on PDs who have never had a PSW before. Below are some links to an article on the program, press releases on hiring and the job posting where individuals can apply. Please share this anyone who may be looking to get into the field. We have a quick turnaround time and will be closing applications on January 31<sup>st</sup>.
