

PBC Supervisor Sergeant Michael Flaig

I have been a Police Officer in Highland Park since 1989, spending the majority of that time in patrol. One of my favorite jobs was being the K9 handler, which I did for 10 years. My K9 partner, Bart, was an all-black German Shepherd and his picture is still in the display case in the police station lobby. Bart and I were members of a regional multi-agency unit called NIPAS Field Force, which are basically riot prevention officers. I am a member of the Fire Investigation Unit and was assigned to Investigations before my promotion to Sergeant, where I am currently assigned to a midnights patrol shift.

I have been married for 28 years and have a 23 year old son, and a daughter who is a senior in college.

I believe an officer's ability to communicate to be one of the most important skills for any Police Officer, and I hope my position as the PBC supervisor affords me the opportunity to nurture and promote better communication between the public and the department
