	A. Needs Statement	
1	. Identify challenges in financial assistance services that are prohibiting you from properly serving FIP/DWP families in your community.	-
	dubbard County is a smaller rural county that has limited transportation, which means it is not always available to residents who need ransportation to and from employment.	1
•	The biggest challenge for families is finding day care or affordable day care if they do find employment. Also there are some local employers that have rotating shifts, but there is no rotating shift day care options.

C. Measures

Performance Measures

1. Performance-based funding is determined by a service area's annualized Self-Support Index value. Review the information and report links in this section to see the effect of performance on funding and reporting, based on Statute 2561.626, subdivision 7.

Each year a bonus to a service area's Consolidated Fund allocation will be based on its performance on the Self-Support Index in the previous April to March year.

The **three-year Self-Support Index (S-SI)**: This measure starts with all adults receiving MFIP or DWP cash assistance in a quarter and tracks what percentage of them, three years later, are no longer receiving family cash assistance or are working an average of 30 hours a week if still receiving cash assistance. Those who left MFIP after reaching 60 counted months and those who left due to 100 percent sanction are only counted as a success if they worked an average of 30 hours per week in their last month of eligibility or if they began receiving Supplemental Security Income (SSI) after family cash assistance ended. To provide fair comparisons across service areas, DHS calculates a "Range of Expected Performance" for the S-SI that is based on local caseload characteristics and economic conditions. The service area's Self-Support Index value is whether the service area was above, within, or below its expected Range.

The S-SI and Range are annualized for the four quarters in the April through March year ending in the reporting year before the funding year. See the annualized report on the MFIP Reports page on the DHS website for 2021 https://edocs.dhs.state.mn.us/lfserver/Public/DHS-4651H-ENG. A service area with an annualized S-SI "above" its customized Range of Expected Performance for 2021 will receive a 2.5 percent bonus added to its Consolidated Fund allocation for calendar year 2022.

If your service area is receiving a bonus, congratulations! Please share a success strategy here:

If your service area performed "above" or "within," you can go to item 2.

If your service area performed "below" for two consecutive years, you will have to **negotiate a multi-year improvement** plan with the commissioner. If no improvement is shown by the end of the multiyear plan, the next year's allocation must be decreased by 2.5 percent, to remain in effect until the service area performs within or above its Range of Expected Performance.

Racial/Ethnic Disparities	
2. A racial/ethnic disparity is defined as a one-year Self Support Index that is five or more percentage points lower for a non-tethnic group than for the white group of MFIP/DWP-eligible adults in the county or consortium. The report "The Annual Summa counties of the Self Support and Work Participation performance measures" https://edocs.dhs.state.mn.us/lfserver/Public/DHS on the MFIP Reports page includes a list of service areas that have a racial/ethnic disparity requiring action. 	work	provisions require counties to make a choice of at least two employment service providers available to participants unless a force center is being utilized (Minnesota Statutes, section 2561.50, subdivision 8). If the county had a choice of providers in calendar year 2019, describe: • factors that have changed which indicate a financial hardship • why the hardship is expected to persist in the near future and • the magnitude of the hardship, which makes limiting delivery of employment services the best financial option for the county.
