

A REMINDER REGARDING SNOW REMOVAL SNOW & ICE REMOVAL CONTRACTOR RESPONSIBILITIES

Greetings,

The first major winter storm is rapidly approaching. Huntley Municipal Code prohibits the depositing of snow from a private lot, private driveway, street, or parking lot in a manner causing or creating obstruction of any other such private facilities or any public street, driveway, or sidewalk. ***Contractors must refrain from depositing snow or ice from private property or public aprons/driveways onto streets or public sidewalks at any point in time.*** Depositing snow or ice onto the streets creates an unnecessary hazard for motorists, and costs the Village taxpayers additional expense to send drivers back into areas to remove such deposits. Depositing snow or ice onto the sidewalks creates an unnecessary hazard and an additional burden to residents and pedestrians when deposited or pushed onto the public sidewalk. Contractors in violation of Huntley Municipal Code 70.70 can be fined in accordance with 70.99 PENALTY.

Please contact the Public Works Department with questions via phone at 847-515-5222 or visit our Snow & Ice webpage for more information:

https://www.huntley.il.us/departments/public_works_and_engineering/snow_and_ice_control.php

Thank you for your consideration and patience this winter season!
