

**ILLINOIS ENVIRONMENTAL PROTECTION AGENCY
ANNUAL FACILITY INSPECTION REPORT
NPDES PERMIT FOR STORM WATER DISCHARGES
FROM MUNICIPAL SEPARATE STORM SEWER SYSTEMS (MS4)**

Complete each section of this report.

REPORT PERIOD:	FROM: MARCH 2016	TO: MARCH 2017
----------------	------------------	----------------

MS4 OPERATOR INFORMATION: (As it appears on the current permit)

NAME: Village of Huntley		TELEPHONE NUMBER: 847-515-5200
MAILING ADDRESS: 10987 Main Street		
CITY: Huntley	STATE: IL	ZIP: 60142
CONTACT PERSON: Timothy Farrell (Person responsible for Annual Report)		

NAME(S) OF GOVERNMENTAL ENTITY(IES) IN WHICH MS4 IS LOCATED: (As it appears on the current permit)

Kane County	McHenry County

THE FOLLOWING ITEMS MUST BE ADDRESSED.

A. CHANGES TO BEST MANAGEMENT PRACTICES (check appropriate BMP change(s) and attach information regarding change(s) to BMP and measurable goals.)

1. Public Education and Outreach	<input type="checkbox"/>	4. Construction Site Runoff Control	<input type="checkbox"/>
2. Public Participation/Involvement	<input type="checkbox"/>	5. Post-Construction Runoff Control	<input type="checkbox"/>
3. Illicit Discharge Detection & Elimination	<input type="checkbox"/>	6. Pollution Prevention/Good Housekeeping	<input type="checkbox"/>

B. Attach the status of compliance with permit conditions, an assessment of the appropriateness of your identified best management practices and progress towards achieving the statutory goal of reducing the discharge of pollutants to the MEP, and your identified measurable goals for each of the minimum control measures.

C. Attach results of information collected and analyzed, including monitoring data, if any during the reporting period.

D. Attach a summary of the storm water activities you plan to undertake during the next reporting cycle (including an implementation schedule.)

E. Attach notice that you are relying on another government entity to satisfy some of your permit obligations (if applicable).

F. Attach a list of construction projects that your entity has paid for during the reporting period.

SIGNATURE: 	DATE: May 24, 2017
--	--------------------

Information required by this form must be provided to comply with 415 ILCS 5/39 (1996). Failure to do so may prevent this form from being processed and could result in your application being denied. This form has been approved by the Forms Management Center.

MS4 Annual Facility Inspection Report

**Illinois Environmental Protection Agency
National Pollutant Discharge Elimination System Phase II**

Permit Year 14: March 2016 to March 2017

Village of Huntley

There are no changes to the BMPs proposed in the most recent NOI submitted in 2016. The Village has and will continue to perform these activities throughout the permit period.

1. Public Education and Outreach

No changes to selected BMPs.

2. Public Participation/Involvement

No changes to selected BMPs.

3. Illicit Discharge Detection and Elimination

No changes to selected BMPs.

4. Construction Site Runoff Control

No changes to selected BMPs.

5. Post-Construction Runoff Control

No changes to selected BMPs.

6. Pollution Prevention/Good Housekeeping

No changes to selected BMPs.

Part B. Status of Compliance with Permit Conditions

The status of BMPs and measurable goals performed in Year 14 is described below.

1. Public Education and Outreach

The Village is committing to conduct Public Education and Outreach as part of its permit. Public Education and Outreach requires implementation of a program to distribute educational material to the community or conduct equivalent outreach activities about the impacts of storm water discharges on water bodies and the steps that the public can take to reduce pollutants to stormwater runoff. The Village commits to implementation of BMPs related to A.1, A.3 and A.6 as described below.

A.1 Distributed Paper Material

The Village will publish stormwater pollution prevention articles in “The Village Journal”.

Measurable Goals: *The Village will annually publish stormwater pollution prevention articles in “The Village Journal.”*

The Village continues to publish stormwater pollution prevention articles.

A.3 Public Service Announcement

The Village will include a storm water and/or ambient water quality related article once a year in the Village’s newsletter.

Measurable Goals: *The Village will include a storm water and/or ambient water quality related article in the Village newsletter each year.*

The Village continues to distribute stormwater articles in the Village newsletter.

A.6 Other Public Education

The Village has created website links on the Public Works website to information on protecting water quality from urban runoff.

Measurable Goals: *The Village will continue to monitor website links and update as new information becomes available.*

The website links, “A Citizen’s Guide for Stormwater Runoff and Pollution Prevention” and Stormwater Pollution Prevention Tips” provide residents and businesses with information for preventing pollution and using water resources appropriately.

2. Public Participation/Involvement

The Village committed to performing activities and services related to the Public Participation/Involvement minimum control measure BMP under numbers B.2, B.3, B.4, B.6 and B.7. The status or progress for each of the measurable goals related to these BMPs is presented below.

B.2 Educational Volunteer, B.6 Program Coordination

The Village has coordinated with and directly supported volunteer activities throughout the Village. These activities have included stream monitoring, clean-up of ditches, trash pickup and supplying of material and services to groups such as the Huntley Jaycees, the Sierra Club, the Water Sentinels, etc. These activities directly reduce the amount of pollutants reaching receiving waters and provide valuable data for enhancement programs.

Measurable Goals: *The Village will coordinate with the groups on future enhancement projects and activities.*

The Village will continue with the clean up activities and work to increase participation.

B.3 Stakeholder Meeting

The Village participates and coordinates with watershed planning groups associated with the Eakin Creek and/or the South Branch of the Kishwaukee River watersheds.

Measurable Goals: *The goal of participation in a watershed group is to identify best management practices that are most appropriate and cost effective for the region to be used by municipalities and includes an element for chloride reduction.*

The Village will continue to participate in the stakeholder meetings.

B.4 Public Hearing

The Village holds public meetings to discuss topics including steps the public can take to reduce pollutants to stormwater runoff or the impacts of stormwater runoff on local water bodies.

Measurable Goals: *The goal is to increase public education and involvement regarding the Village's stormwater management and NDPES program and their knowledge on ways they can help.*

The Village will continue to hold a public meeting at least once a year.

B.6 Program Involvement

The Village coordinates with local groups to perform clean up activities. These activities directly reduce the amount of pollutants entering the Village's storm sewer system.

Measurable Goals: *This activity has the goal of encouraging active public participation in ambient water quality programs and increasing the visibility of water quality issues.*

The Village will continue with the clean up activities and work to increase participation.

B.7 Other Public Involvement

The Public Works Department provides contact information on the Village website to allow residents to report stormwater or water quality related issues. The Village also has advised Home Owner Associations (HOAs) and Community Association Management (CAM) regarding maintenance of streams after stream restoration projects are completed.

Measurable Goals: *The goal of this program is to provide active citizen participation in detection of illicit discharges to the storm sewer system and problems with drainage features. This program will also aid the Public Works Department in the detection of illicit discharges and inspection of drainage features.*

The Village will continue to provide the appropriate contact information to report illicit discharges or other stormwater issues and work with groups to reduce pollution.

3. Illicit Discharge Detection and Elimination

The Village committed to performing some activities related to the Illicit Discharge Detection and Elimination minimum control. BMPs will be implemented under BMP numbers C.1, C.2, C.3, C.4, C.5, C.6, C.7 and C.10 as described below.

C.1 Storm Sewer Map Preparation

The Village has a complete storm sewer map and regularly updated its map based on development or other changes as needed.

Measurable Goals: *The Village will complete a biennial review of the storm sewer map and update as needed.*

The Public Works Department will continue to update the map as needed.

C.2 Regulatory Control Program

The Village has adopted an Illicit Discharge Detection and Elimination Ordinance in accordance with the Kane County Countywide Stormwater Management Ordinance (KCSMO).

Measurable Goals: *The goal of this program is to eliminate any non-storm water discharges to the storm sewer system.*

The Village will continue to enforce the regulatory control measures to prohibit or eliminate non-stormwater discharges.

C.3 Detection/Elimination Plan

The Village has procedures for handling and prioritizing the report of a possible illicit discharge to storm sewer systems.

Measurable Goals: *The goal of this program is to develop a procedure for receiving, tracking, investigating and eliminating illicit discharges to the storm sewer system.*

The Village will continue the illicit discharge procedures.

C.4 Illicit Discharge Tracing Procedures and C.5 Illicit Source Removal Procedures

The Village has developed illicit discharge tracing and elimination procedures. The Village also currently documents activities related to illicit discharges with service request forms, activity logs, etc.

Measurable Goals: *The Village will annually trace and remove all illicit discharges detected by resident reporting, dry weather screening, or regular storm sewer maintenance. The Village will continue to utilize the documentation procedures in place and modify as needed to meet the NPDES compliance standards.*

The Village will continue the illicit discharge procedures.

C.6 Program Evaluation and Assessment

The Village has performed yearly program compliance monitoring and evaluation to determine the effectiveness of the overall program and the BMPs selected.

Measurable Goals: *The goal of this activity to assess the Village's NPDES program for compliance and effectiveness as well as ensure compliance with applicable TMDLs and Watershed Management Plans.*

The Village will continue to perform the annual evaluation and assessment.

C.7 Visual Dry Weather Screening

The Village will perform inspections of all MS4 outfalls during dry weather conditions or as determined by the inspection prioritization plan.

Measurable Goals: *The goal of this activity is to identify outfalls with potential illicit discharges.*

The Village will continue to perform annual inspections.

C.10 Other Illicit Discharge Controls

The Village performs annual monitoring of the receiving waters upstream and downstream of all MS4 discharge points. The Village monitors the progress of watershed work groups and the establishment of any applicable TMDLs or other Watershed Management Plans. The Village current monitoring program plan is to evaluate the effectiveness of the program's BMPs for the removal of pollutants.

Measurable Goals: *The goal of this activity is to monitor receiving streams for potential changes due to the discharge of stormwater and ensure compliance with applicable TMDLs and Watershed Management Plans to reduce waste loads.*

The Village will formally develop the monitoring program including BMP evaluation methodology to determine the effectiveness of the removal of pollutants.

4. Construction Site Runoff Control

Kane County has adopted a Countywide Stormwater Management Ordinance (KCSMO) that establishes the minimum stormwater management requirements for developments in Kane County. The Ordinance establishes standards for construction site runoff control. As a certified community, the Village will continue to enforce the Kane County Ordinance throughout the Village.

D.1 Regulatory Control Program

The Village will enforce the Kane County Stormwater Management Ordinance.

Measurable Goals: *The Village will continue to enforce the Ordinance.*

D.2 Erosion and Sediment Control BMPs

The Village requires erosion and sediment control BMPs.

Measurable Goals: *The Village will continue to require sediment and erosion control BMPs.*

D.4 Site Plan Review Procedures

The Village reviews site plans for conformance with the Kane County Ordinance.

Measurable Goals: *The Village will continue to review site plans for conformance to the Ordinance.*

D.5 Other Waste Control Program

The Village has procedures in place for addressing reports from residents related to construction site runoff.

Measurable Goals: *The Village will continue to address the reporting of problems related to construction site runoff.*

D.6 Site Inspection/Enforcement Procedures

The Village has inspected construction sites and enforced the Kane County Ordinance.

Measurable Goals: *The Village will continue to inspect construction sites and enforce the Kane County Ordinance.*

5. Post-Construction Runoff Control

As described above, the Kane County Countywide Stormwater Management Ordinance (KCSMO) establishes the minimum stormwater management requirements for developments in Kane County. The KCSMO establishes standards for post-construction site runoff control. The Village will continue to enforce the KCSMO.

E.2 Regulatory Control Program

The Village will enforce the KCSMO.

Measurable Goals: *The Village will continue to enforce the KCSMO.*

E.3 Long Term O&M Procedures

The Village has enforced the KCSMO which requires long term O&M procedures.

Measurable Goals: *The Village will continue to enforce the KCSMO.*

E.4 Pre-Construction Review of BMP Designs

The Village reviews BMP designs prior to construction.

Measurable Goals: *The Village will review BMP designs prior to construction.*

E.5 Site Inspections During Construction

The Village has inspected sites during construction.

Measurable Goals: *The Village will continue to inspect sites during construction.*

E.6 Post-Construction Inspections

The Village has inspected sites after construction.

Measurable Goals: *The Village will continue to inspect sites after construction.*

6. Pollution Prevention/Good Housekeeping

This minimum control measure involves the development and implementation of an operation and maintenance program to reduce the discharge of pollutants from municipal operations. This program must include a training program for municipal employees. The Village will perform BMPs under BMP numbers F.1, F.2 and F.3 as described below.

F.1 Employee Training Program

The Village will continue provide the training and other presentations that provide guidance and procedures for employees to reduce or eliminate the discharge of pollutants from Village owned facilities and activities to the storm sewer system.

Measurable Goals: *The Village will continue to educate Public Works employees of current practices that contribute to storm water pollution and/or to develop new procedures and make revisions to existing procedures that will curtail the discharge of pollutants to storm sewer systems by Public Works employees, annually.*

The Village will continue the pollution prevention and good housekeeping program to reduce or prevent the discharge of pollutants from municipal activities to the storm sewer system.

F.2 Inspection and Maintenance Program

The Village has procedures and inspection forms for the routine inspections of ponds, stream channels and storm sewer outfalls. The Village typically completes the inspection cycle once every three years or as funding allows.

Measurable Goals: *The Village will continue the inspection and maintenance program to identify and repair any stormwater issues with the municipal separate storm sewer system and provide information about individual BMP performance.*

The Village will continue with the inspection and maintenance program.

F.3 Municipal Operations Stormwater Control, F.4 Municipal Operations Waste Control and F.6 Other Municipal Operations Control

The Village has a formalized program to prevent stormwater pollution from municipal operations at the Public Works facility. This program encompasses a wide array of activities such as fleet maintenance, salt storage, and recycling. The Village also has procedures and policies to require the appropriate of municipal generated wastes. Lastly the Village performs a variety of activities that reduce or prevent pollutants including pesticides, herbicides, fertilizers and trash from entering the storm sewer system and to minimize exposure. These activities are part of the Villages municipal operations controls and include proper storage and handling, certification, spill and leak prevention, and response procedures, street sweeping and waste recycling.

Measurable Goals: *The Village will implement the formal program and evaluate the effectiveness of the program annually and update the program as needed.*

The Village will continue the municipal operations control program.

F.5 Flood Management/Assessment Guidelines

The Village has adopted the Kane County Ordinance that specifically addresses the Federal Emergency Management Agency requirements regarding flood-prone areas.

Measurable Goals: *The Village will continue to enforce the ordinance regarding potential uses of the special flood hazard area to limit potential for the discharge of contaminants to the storm sewer system.*

The Village will continue the special flood hazard area development and use requirements.

Part C. Information and Data Collection Results

The Village is developing the formal receiving stream monitoring program to evaluate the effectiveness of the program BMPs at removing pollutants and protecting downstream receiving waters. Results are anticipated during Permit Year 15.

Part D. Summary of Year 15 Stormwater Activities

The following table summarizes the BMPs committed to for Year 15. Specific BMPs and measurable goals for Year 15 Stormwater Management Program development activities are presented in the sections following the table.

Note: X indicates BMPs committed to for Year 15.

1. Public Education and Outreach

The Village is committing to conduct Public Education and Outreach as part of its permit. Public Education and Outreach requires implementation of a program to distribute educational material to the community or conduct equivalent outreach activities about the impacts of storm water discharges on water bodies and the steps that the public can take to reduce pollutants to stormwater runoff. The Village commits to implementation of BMPs related to A.1, A.3, and A.6 as described below.

A.1 Distributed Paper Material

The Village will publish stormwater pollution prevention articles in “The Village Journal”.

Measurable Goals: *The Village will annually publish stormwater pollution prevention articles in “The Village Journal.”*

The Village continues to publish stormwater pollution prevention articles.

A.3 Public Service Announcement

The Village will include a storm water and/or ambient water quality related article once a year in the Village’s newsletter.

Measurable Goals: *The Village will include a storm water and/or ambient water quality related article in the Village newsletter each year.*

The Village continues to distribute stormwater articles in the Village newsletter.

A.6 Other Public Education

The Village has created website links on the Public Works website to information on protecting water quality from urban runoff.

Measurable Goals: *The Village will continue to monitor website links and update as new information becomes available.*

The website links, “A Citizen’s Guide for Stormwater Runoff and Pollution Prevention” and Stormwater Pollution Prevention Tips” provide residents and businesses with information for preventing pollution and using water resources appropriately.

2. Public Participation/Involvement

The Village will perform activities and services related to the Public Participation/Involvement minimum control measure. BMPs will be implemented under BMP number B.2, B.5, B.6, and B.7 as described below.

B.2 Educational Volunteer, B.6 Program Coordination

The Village has coordinated with and directly supported volunteer activities throughout the Village. These activities have included stream monitoring, clean-up of ditches, trash pickup and supplying of material and services to groups such as the Huntley Jaycees, the Sierra Club, the Water Sentinels, etc. These activities directly reduce the amount of pollutants reaching receiving waters and provide valuable data for enhancement programs.

Measurable Goals: *The Village will coordinate with the groups on future enhancement projects and activities.*

The Village will continue with the clean up activities and work to increase participation.

B.3 Stakeholder Meeting

The Village participates and coordinates with watershed planning groups associated with the Eakin Creek and/or the South Branch of the Kishwaukee River watersheds.

Measurable Goals: *The goal of participation in a watershed group is to identify best management practices that are most appropriate and cost effective for the region to be used by municipalities and includes an element for chloride reduction.*

The Village will continue to participate in the stakeholder meetings.

B.4 Public Hearing

The Village holds public meetings to discuss topics including steps the public can take to reduce pollutants to stormwater runoff or the impacts of stormwater runoff on local water bodies.

Measurable Goals: *The goal is to increase public education and involvement regarding the Village's stormwater management and NDPEs program and their knowledge on ways they can help.*

The Village will continue to hold a public meeting at least once a year.

B.6 Program Involvement

The Village coordinates with local groups to perform clean up activities. These activities directly reduce the amount of pollutants entering the Village's storm sewer system.

Measurable Goals: *This activity has the goal of encouraging active public participation in ambient water quality programs and increasing the visibility of water quality issues.*

The Village will continue with the clean up activities and work to increase participation.

B.7 Other Public Involvement

The Public Works Department provides contact information on the Village website to allow residents to report stormwater or water quality related issues. The Village also has advised Home Owner Associations (HOAs) and Community Association Management (CAM) regarding maintenance of streams after stream restoration projects are completed.

Measurable Goals: *The goal of this program is to provide active citizen participation in detection of illicit discharges to the storm sewer system and problems with drainage features. This program will also aid the Public Works Department in the detection of illicit discharges and inspection of drainage features.*

The Village will continue to provide the appropriate contact information to report illicit discharges or other stormwater issues and work with groups to reduce pollution.

3. Illicit Discharge Detection and Elimination

The Village commits to performing some activities related to the Illicit Discharge Detection and Elimination minimum control. BMPs will be implemented under BMP numbers C.1, C.2, C.4, C.5, C.7 and C.10 as described below.

C.1 Storm Sewer Map Preparation

The Village regularly updated its storm sewer map.

Measurable Goals: *The Village will complete a biennial review of the storm sewer map and update as needed.*

The Village continues to review and update the storm sewer map as needed.

C.2 Regulatory Control Program

The Village has adopted an Illicit Discharge Detection and Elimination Ordinance.

Measurable Goals: *The Village will enforce the Illicit Discharge Detection and Elimination Ordinance*

The Village continues to enforce the Ordinance.

C.4 Illicit Discharge Tracing Procedures and C.5 Illicit Source Removal Procedures

The Village has developed illicit discharge tracing and elimination procedures.

Measurable Goals: *The Village will annually trace and remove all illicit discharges detected by resident reporting, dry weather screening, or regular storm sewer maintenance.*

The Village continues to trace and remove illicit discharges.

C.7 Visual Dry Weather Screening

The Village has screened storm sewer structures as part of its regular storm sewer maintenance.

Measurable Goals: *The Village will annually screen all outfalls within the Village limits. The Village will annually screen 20% of storm sewer structures including manholes, catch basins and inlets.*

The Village continues annually screen the outfalls and storm sewer structures in the Village. Due to budget constraints, the number of outfalls and other structures inspected is approximately 50-100 per year. This process will continue until all structures and outfalls are screened and the process will repeat.

C.10 Other Illicit Discharge Controls

The Village performs annual monitoring of the receiving waters upstream and downstream of all MS4 discharge points. The Village monitors the progress of watershed work groups and the establishment of any applicable TMDLs or other Watershed Management Plans. The Village current monitoring program plan is to evaluate the effectiveness of the program's BMPs for the removal of pollutants.

Measurable Goals: *The goal of this activity is to monitor receiving streams for potential changes due to the discharge of stormwater and ensure compliance with applicable TMDLs and Watershed Management Plans to reduce waste loads.*

The Village will formally develop the monitoring program including BMP evaluation methodology to determine the effectiveness of the removal of pollutants.

4. Construction Site Runoff Control

Kane County has adopted a Countywide Stormwater Management Ordinance (KCO) that establishes the minimum stormwater management requirements for developments in Kane County. The Ordinance establishes standards for construction site runoff control. The Village will continue to enforce the Kane County Ordinance.

D.1 Regulatory Control Program

The Village will enforce the Kane County Stormwater Management Ordinance.

Measurable Goals: *The Village will continue to enforce the Ordinance.*

The Village continues to enforce the Ordinance.

D.2 Erosion and Sediment Control BMPs

The Village requires erosion and sediment control BMPs.

Measurable Goals: *The Village will continue to require sediment and erosion control BMPs.*

The Village continues to require the erosion and sediment control BMPs.

D.3 Other Waste Control Program

The Village Building Department enforces an ordinance that requires construction site operators to control wastes that may adversely impact water quality.

Measurable Goals: *The Village will continue to require construction site operators to control wastes.*

The Village continues to require construction site operators to control wastes.

D.4 Site Plan Review Procedures

The Village reviews site plans for conformance with the Kane County Ordinance.

Measurable Goals: *The Village will continue to review site plans for conformance to the Ordinance.*

The Village continues to review site plans for conformance with the Kane County Ordinance.

D.6 Site Inspection/Enforcement Procedures

The Village has inspected construction sites and enforced the Kane County Ordinance.

Measurable Goals: *The Village will continue to inspect construction sites and enforce the Kane County Ordinance.*

The Village continues to inspect construction sites and enforce the Kane County Ordinance.

5. Post-Construction Runoff Control

As described above, the Kane County Countywide Stormwater Management Ordinance (KCSMO) establishes the minimum stormwater management requirements for developments in Kane County. The KCSMO establishes standards for post-construction site runoff control. The Village will continue to enforce the KCSMO.

E.2 Regulatory Control Program

The Village will enforce the KCSMO.

Measurable Goals: *The Village will continue to enforce the KCSMO.*

The Village continues to enforce the KCSMO.

E.2 Long Term O&M Procedures

The Village has enforced the KCSMO which requires long term O&M procedures.

Measurable Goals: *The Village will continue to enforce the KCSMO.*

The Village continues to enforce the KCSMO.

E.4 Pre-Construction Review of BMP Designs

The Village reviews BMP designs prior to construction.

Measurable Goals: *The Village will review BMP designs prior to construction.*

The Village continues to review BMP designs prior to construction.

E.5 Site Inspections During Construction

The Village has inspected sites during construction.

Measurable Goals: *The Village will continue to inspect sites during construction.*

The Village continues to inspect sites during construction.

E.6 Post-Construction Inspections

The Village has inspected sites after construction.

Measurable Goals: *The Village will continue to inspect sites after construction.*

The Village continues to inspect sites after construction.

6. Pollution Prevention/Good Housekeeping

This minimum control measure involves the development and implementation of an operation and maintenance program to reduce the discharge of pollutants from municipal operations. This program must include a training program for municipal employees. The Village will perform BMPs under BMP numbers F.1, F.2 and F.3 as described below.

F.1 Employee Training Program

The Village will continue provide the training and other presentations that provide guidance and procedures for employees to reduce or eliminate the discharge of pollutants from Village owned facilities and activities to the storm sewer system.

Measurable Goals: *The Village will continue to educate Public Works employees of current practices that contribute to storm water pollution and/or to develop new procedures and make revisions to existing procedures that will curtail the discharge of pollutants to storm sewer systems by Public Works employees, annually.*

The Village will continue the pollution prevention and good housekeeping program to reduce or prevent the discharge of pollutants from municipal activities to the storm sewer system.

F.2 Inspection and Maintenance Program

The Village has procedures and inspection forms for the routine inspections of ponds, stream channels and storm sewer outfalls. The Village typically completes the inspection cycle once every three years or as funding allows.

Measurable Goals: *The Village will continue the inspection and maintenance program to identify and repair any stormwater issues with the municipal separate storm sewer system and provide information about individual BMP performance.*

The Village will continue with the inspection and maintenance program.

F.3 Municipal Operations Stormwater Control, F.4 Municipal Operations Waste Control and F.6 Other Municipal Operations Control

The Village has a formalized program to prevent stormwater pollution from municipal operations at the Public Works facility. This program encompasses a wide array of activities such as fleet maintenance, salt storage, and recycling. The Village also has procedures and policies to require the appropriate of municipal generated wastes. Lastly the Village performs a variety of activities that reduce or prevent pollutants including pesticides, herbicides, fertilizers and trash from entering the storm sewer system and to minimize exposure. These

activities are part of the Villages municipal operations controls and include proper storage and handling, certification, spill and leak prevention, and response procedures, street sweeping and waste recycling.

Measurable Goals: *The Village will implement the formal program and evaluate the effectiveness of the program annually and update the program as needed.*

The Village will continue the municipal operations control program.

F.5 Flood Management/Assessment Guidelines

The Village has adopted the Kane County Ordinance that specifically addresses the Federal Emergency Management Agency requirements regarding flood-prone areas.

Measurable Goals: *The Village will continue to enforce the ordinance regarding potential uses of the special flood hazard area to limit potential for the discharge of contaminants to the storm sewer system.*

The Village will continue the special flood hazard area development and use requirements.

Part E. Notice of Qualifying Local Program

The Counties of Kane and McHenry will serve as a Qualifying Local Programs (QLP) for the Village of Huntley. Part E of the Annual Report details the activities performed by the Qualifying Local Programs and is outlined in the attached Annual Report.
