## American Legion to Construct New Addition

The American Legion, located 11712 Coral Street, is constructing an addition that will add 722 square feet to the existing building. The addition will be located along the east side of the existing building and will allow for reconfigured bathrooms and an expanded bar area. The addition would also provide a handicap accessible ramp to the rear parking lot and a 3'-10" tall brick wall to enclose the future honor garden. The building materials will include a brick base to match the existing building, hardi-board siding, and Hunter Green colored standing seam metal roof. The brick wall enclosing the honor garden will be constructed of the same brick used on the building addition and the light fixtures will match the fixtures used at the BBQ King building to the east. The design for the interior of the honor garden has yet to be determined and will be presented to the Village Board at a later date. Until such time, the honor garden will remain as lawn.
