RESOLUTION NO. 19-10-95

A RESOLUTION OF THE VILLAGE COUNCIL OF ISLAMORADA, VILLAGE OF ISLANDS, FLORIDA, APPROVING THE RECOMMENDATION OF THE RFP 19-13 EVALUATION COMMITTEE FOR REMOVAL OF A DUPLEX VACUUM PUMP CONTROL PANEL AND REPLACEMENT WITH A DUPLEX CONTROL PANEL AT VACUUM COLLECTION STATION NO. 2; AUTHORIZING THE VILLAGE MANAGER AND VILLAGE ATTORNEY TO NEGOTIATE AND ENTER INTO A PROFESSIONAL SERVICE AGREEMENT FOR THE REQUESTED SERVICES; AND PROVIDING FOR AN EFFECTIVE DATE

WHEREAS, on August 19, 2019, Islamorada, Village of Islands (the “Village”) advertised a Request for Proposals for removal of a duplex vacuum pump control panel and replacement with a duplex control panel at Islamorada Vacuum Pump Station No. 2 (“RFP 19-13”) through September 19, 2019 (Exhibit “A”); and

WHEREAS, the Village Manager created an Evaluation Committee (the “Committee”) to review responsive proposals and make a recommendation to the Village Council for the selection of a supplier/contractor; and

WHEREAS, the Committee reviewed the one (1) proposal received using the selection criteria and point system detailed in the RFP; and

WHEREAS, the Committee has recommended Champion Controls, Inc. for selection; and

WHEREAS, the Village Council of Islamorada, Village of Islands (the “Village”) desires to approve the recommendation and select Champion Controls, Inc. for the project; and

WHEREAS, the Village Council has determined that the procurement and utilization of these services is in the best interest of the Village and its residents.

NOW, THEREFORE, BE IT RESOLVED BY THE VILLAGE COUNCIL OF ISLAMORADA, VILLAGE OF ISLANDS, FLORIDA, AS FOLLOWS:
Section 1. Recitals. The above recitals are true and correct and incorporated into this Resolution by this reference.

Section 2. Approval of Ranking. The Village Council hereby approves the Committee's recommendations and selects Champion Controls, Inc. to remove a duplex vacuum pump control panel and replace it with a duplex control panel at Islamorada Vacuum Collection Station No. 2; and

Section 3. Authorization of Village Officials. The Village Manager and/or his designee and the Village Attorney are authorized to enter into and negotiate the terms and conditions of an Agreement with Champion Controls, Inc., to complete the project at a cost not-to exceed $124,200.00.

Section 4. Effective Date. This Resolution shall take effect immediately upon adoption.

Motion to adopt by Mayor Deb Gillis, second by Councilman Ken Davis.

FINAL VOTE AT ADOPTION

VILLAGE COUNCIL OF ISLAMORADA, VILLAGE OF ISLANDS

Mayor Deb Gillis
Vice Mayor Mike Forster
Councilman Ken Davis
Councilwoman Cheryl Meads
Councilman Jim Mooney

PASSED AND ADOPTED ON THIS 10th DAY OF OCTOBER, 2019.

DEB GILLIS, VILLAGE MAYOR

ISLAMORADA, VILLAGE OF ISLANDS
REQUEST FOR PROPOSALS TO
REMOVE DUPLEX VACUUM PUMP CONTROL PANEL AND REPLACE WITH A
DUPLEX CONTROL PANEL AT ISLAMORADA VACUUM COLLECTION STATION
No. 2 IN ISLAMORADA, FLORIDA
(RFP 19-13)

Issue Date: August 19, 2019

Islamorada, Village of Islands (the “Village”) will receive formal Proposals to remove a duplex vacuum pump control panel and replace with a duplex control panel at Islamorada’s Vacuum Collection Station #2 located in North Plantation Key for the Village’s wastewater system in Islamorada, Florida until 3:00 p.m. on September 19, 2019. Proposal Packages will be opened by the Village Clerk or her designee immediately following the closing of the RFP.

Interested firms must submit sealed Proposal packages by certified mail or in person to:

Islamorada, Village of Islands
Attn: Village Clerk
86800 Overseas Highway
Islamorada, Florida 33036

It is the sole responsibility of the firm to ensure that their submittal is received in a timely manner. Any Proposal package submitted past the deadline and/or submitted to other locations or offices shall be deemed non-responsive and will be rejected.

I. PURPOSE
The purpose of this Request for Proposals (RFP) is to solicit sealed proposals from contractors to remove one (1) duplex vacuum pump control panel and replace it with a duplex control panel for the Village’s wastewater system. Proposals are solicited pursuant to the Village’s adopted Purchasing Policy.
II. DESCRIPTION OF THE VILLAGE

The Village was incorporated as a municipality on December 31, 1997. Located in the Upper Florida Keys, the Village is approximately 18 linear miles in length with a land area of approximately 3,900 acres. The Village consists of four islands: Plantation Key, Windley Key, and Upper Matecumbe Key and Lower Matecumbe Key, which are all part of the Florida Keys' chain of islands. The Village boundaries extend from Mile Marker 90.939 to Mile Marker 72.658. The Village has an approximate population of 6,211.

Legislation passed by the Florida Legislature mandated higher wastewater treatment and disposal standards for the Florida Keys, and required that all wastewater treatment systems in the Florida Keys be upgraded and/or replaced to meet Advanced Wastewater Treatment (AWT) or Best Available Technology (BAT) capabilities. The Legislation established a mandatory compliance date of December 31, 2015.

In response to the State's mandate, the Village built and operates a Village wide central wastewater system. The Village Wastewater system includes a vacuum collection system with vacuum pump stations located in Lower Matecumbe Key, Upper Matecumbe Key, South Plantation Key, Middle Plantation Key, and North Plantation Key (2). In areas of the Village where wastewater service cannot be served with vacuum collection systems, low pressure collection systems are utilized. Once collected, all wastewater from the Village’s collection system is transmitted via a conveyance force main to the Key Largo Water Treatment District for treatment and disposal.

III. PROJECT DESCRIPTION

The Village requires general contracting services to remove one (1) duplex vacuum pump control panel, supply and install a duplex control panel at Islamorada’s vacuum collection station #2, located in North Plantation Key in Islamorada, Florida.

IV. SCOPE OF SERVICES

Task 1 - Removal of Existing Vacuum Pump Control Panel

In order to properly remove the existing duplex vacuum pump control panel and install the duplex control panel described on Task 2 below, Contractor shall:

- Conduct a Site inspection of the existing control panel and its condition, verify and trace existing wiring.
- Verify the integrity of existing as-built-drawings.
- Disconnect and remove the existing control panel.
- Pour a new concrete pad to mount panel.

Request for Proposals to Remove a Duplex Vacuum Pump Control Panel and Replace with a Duplex Control Panel at Islamorada's Vacuum Collection Station No. 2 in Islamorada, Florida (RFP-19-13)

Page 2 of 6
• Allow sufficient time for concrete to cure.
• Mount new panel in place.
• Field the terminations of previously disconnected wiring.
• Configure variable frequency drives, instrument signal loop checks and commission services.

Task 2- Supply and Install new Duplex Control Panel

A. Contractor shall supply and install a Duplex Control Panel containing the following components/parts:

• ENCLOSURE NEMA 12 PAINTED STEEL- FREE STANDING
• MAIN CIRCUIT BREAKER W/DISCONNECT HANDLE
• POWER DISTRIBUTION BLOCK
• 480VAC SURGE PROTECTION
• 120VAC SURGE PROTECTION
• MOTOR CIRCUIT PROTECTION CIRCUIT BEAKERS
• CONTROL CIRCUIT BREAKERS
• PROGRAMMABLE LOGIC CONTROLLER W/ I/O & ACCESSORIES (COMPACTLOGIX)
• HMI SCREEN (PANELVIEW PLUS 1500)
• CHART RECORDER
• PRESSURE TRANSMITTER
• VARIABLE FREQUENCY DRIVE (QTY. 4 EA)
• UNMANAGED ETHERNET SWITCH
• UNINTERRUPTIBLE POWER SUPPLY WITH BATTERIES & ACCESSORIES
• POWER SUPPLY 24VDC
• RADIO WITH POLYPHASER
• SOLID STATE CONTROL RELAYS
• MINIATURE CONTROL RELAY WITH SOCKET
• CONTROL RELAY WITH SOCKET
• CONTROL TIMER WITH SOCKET
• FUSES WITH FUSE HOLDERS
• SIGNAL SURGE PROTECTION
• DUPLEX RECEPTABLE
• INTERIOR PANEL LIGHTING WITH TOGGLE SWITCH
• PANEL HEATER WITH THERMOSTAT
• TERMINAL BLOCK WITH ACCESSORIES
• GROUND BAR/LUGS
V. ELIGIBILITY CRITERIA

To be eligible for selection consideration, interested consultants/firms must submit one (1) original printed package, five (5) printed copies, and one (1) electronic copy on CD. The CD or electronic copy should be identical to the original printed package, in natively converted PDF format. The Proposal Documents shall be enclosed in a sealed envelope and be plainly marked on the upper left-hand corner with the name and address of the Proposer and bear the following title: Islamorada, Village of Islands “Request for Proposals to Remove Duplex Vacuum Pump Control Panel, Supply and Install a Duplex Control Panel at Islamorada’s Vacuum Collection Station No. 2 in Islamorada, Florida (RFP-19-13)”

Proposal packages must contain the following information:

1. **Cover Letter**: Provide a cover letter introducing your firm and proposal.

2. **Company Overview**: Provide an overview of the company detailing the total number and expertise of professional staff, describing staff credentials, and identifying office locations and staff assigned to those offices throughout the Florida Keys or the nearest locations to the Florida Keys. Please note that the Village prefers to contract directly with prime entities and the use of sub-consultants in your submission may affect proposal scoring.

3. **Project Management Experience / Project Examples**: Provide at least three examples of successfully implemented projects that demonstrate experience with the services described in the scope of work, preferably in a local government setting. Include the client name, project name, project location and summary of services performed.

4. **Project Timeline**: Provide a timeline for the areas identified in the Scope of services section of this RFP.

5. **Fee Schedule**: Provide a lump sum fee for each task. Provide a lump sum fee for the duplex control panel.

6. **State Authorization to Transact Business**: Provide proof of authorization to transact business in the State from the Florida Secretary of State.

7. **Certificate of Authorization**: Provide certificate of authorization to offer professional services through the Florida Department of Professional Regulation, as applicable.

8. **Statement of Preference for Local Business**: Any business seeking certification as a local business shall provide an executed affidavit, in the Firm’s own form, certifying that it meets the criteria established in Village Code Section 2-327(e) for a determination as a local business.
VI. INSURANCE REQUIREMENTS

Proposers shall provide with their Proposal evidence of insurance acceptable to the Village and in compliance with the requirements set forth in Exhibit A, attached to this RFP.

VII. EVALUATION SCORING

An Evaluation Committee will convene after the opening of the proposals to evaluate them for responsiveness to the RFQ and rank them for recommendations to the Village Council for selection. The highest-ranking proposal will be recommended for selection to the Village Council. Upon selection by the Village Council, the Village Attorney and Village Manager will negotiate with the selected firm the fee schedule.

The point system for the evaluation and scoring of responsive proposals will be as follows:

<table>
<thead>
<tr>

</table>

The Village reserves the right to accept or reject any or all Proposals; to waive irregularities, technical errors and formalities; and to select a qualified firm(s) to provide the Services as it deems will best serve the interest of the Village.

All inquiries and requests for clarification or interpretation regarding this Request for Qualifications shall be made in writing to the attention of the Procurement and Grants Administrator by mail to 86800 Overseas Highway, Islamorada, Florida 33036; by email to ana.hernandez@islamorada.fl.us; or by fax to (305) 664-6464 no later than September 12, 2019.

The Village shall issue appropriate addenda as necessary via DemandStar at https://www.demandstar.com/ and on the Village’s website at http://www.islamorada.fl.us/. No oral change or interpretation of the provisions contained in this Request for Proposals is valid. Written addenda shall be issued when changes, clarifications or amendments to the Request for Proposals...

document are deemed necessary. The issuance of a written addendum is the only official method whereby interpretation, clarification or additional information can be given.
EXHIBIT A

REQUIRED INSURANCE
FOR
THE VILLAGE OF ISLAMORADA

Contractor shall, at its own expense, procure and maintain throughout the duration of the Agreement, with insurers acceptable to the Village, the types and amounts of insurance conforming to the minimum requirements set forth herein. With respect to the Professional/Pollution policy(ies), Contractor shall provide to the Village a certified copy of the insurance policy or policies which provide the coverage described below. With respect to all other coverages, as evidence of compliance with the insurance required herein, Contractor shall furnish the Village with:

(a) a fully completed satisfactory Certificate of Insurance evidencing all coverage required herein. Also, a copy of the actual additional insured endorsement as issued on the Commercial General Liability policy, signed by an authorized representative of the insurer(s) verifying inclusion of the Village and the Village's council members, officials, officers and employees as additional insureds in the Commercial General Liability coverage;
(b) the original of the policy(ies); or
(c) other evidence satisfactory to the Village.

Until such insurance is no longer required by this Agreement, Contractor shall provide the Village with renewal or replacement evidence of insurance at least thirty (30) days prior to the expiration or termination of such insurance.

If requested to do so by the Village, Contractor shall, within thirty (30) days after receipt of a written request from the Village, provide the Village with a certified, complete copy of the policies of insurance providing the coverage required.

Workers' Compensation/Employer's Liability Insurance
Such insurance shall be no more restrictive than that provided by the Standard Workers' Compensation Policy, as filed for use in Florida by the National Council on Compensation Insurance, without restrictive endorsements. In addition to coverage for the Florida Workers' Compensation Act, where appropriate, coverage is to be included for the Federal Employer's Liability Act and any other applicable Federal or State law. The policy must be endorsed to provide the Village with 30 days' notice of cancellation. The minimum amount of coverage (inclusive of any amount provided by an umbrella or excess policy) shall be:

<table>
<thead>
<tr>
<th>Part One: &quot;Statutory&quot;</th>
<th>Part Two:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Each Accident</td>
<td>$1,000,000</td>
</tr>
<tr>
<td>Disease - Policy Limit</td>
<td>$1,000,000</td>
</tr>
<tr>
<td>Disease - Each Employee</td>
<td>$1,000,000</td>
</tr>
</tbody>
</table>
The Workers’ Compensation Policy must be endorsed to waive the insurer’s right to subrogate against the Village, and its members, officials, officers and employees in the manner which would result from the attachment of the NCCI Waiver Of Our Right To Recover From Others Endorsement (Advisory Form WC 00 03 13) with the Village, and its council members, officials, officers and employees scheduled thereon.

Commercial General Liability Insurance
Such insurance shall be no more restrictive than that provided by the most recent version of standard Commercial General Liability Form (ISO Form CG 00 01) as filed for use in the State of Florida without any restrictive endorsements other than those required by ISO or the state of Florida or those described below. The coverage may include restrictive endorsements which exclude coverage for liability arising out of:

- Mold, fungus, or bacteria
- Terrorism
- Sexual molestation

The Village and the Village’s council members, officials, officers, agents and employees shall be included as an “Additional Insureds” on a form no more restrictive than ISO Form CG 20 10 (Additional Insured - Owners, Lessees, or Contractors). The policy must be endorsed to provide the Village with 30 days’ notice of cancellation. The minimum limits (inclusive of amounts provided by an umbrella or excess policy) shall be:

<table>
<thead>
<tr>
<th>Limit</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>$1,000,000</td>
<td>General Aggregate</td>
</tr>
<tr>
<td>$1,000,000</td>
<td>Products/Completed Operations Aggregate</td>
</tr>
<tr>
<td>$1,000,000</td>
<td>Personal and Advertising Injury</td>
</tr>
<tr>
<td>$1,000,000</td>
<td>Each Occurrence</td>
</tr>
</tbody>
</table>

Automobile Liability Insurance
Such insurance shall be no more restrictive than that provided by Section II (Liability Coverage) of the most recent version of standard Business Auto Policy (ISO Form CA 00 01) without any restrictive endorsements, including coverage for liability contractually assumed, and shall cover all owned, non-owned, and hired autos used in connection with the performance of the work. The policy must be endorsed to provide the Village with 30 days’ notice of cancellation. The minimum limits (inclusive of any amounts provided by an umbrella or excess policy) shall be:

<table>
<thead>
<tr>
<th>Limit</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>$1,000,000</td>
<td>Each Occurrence - Bodily Injury and Property Damage Combined</td>
</tr>
</tbody>
</table>

Professional Liability Insurance
Such insurance shall be on a form acceptable to the Village and shall cover Contractor for liability arising out of the rendering or failure to render professional services in the performance of the services required in the Agreement including any hold harmless and/or indemnification agreement. The policy must be endorsed to provide the Village with 30 days’ notice of cancellation. The minimum limits (inclusive of any amounts provided by an umbrella or excess policy) shall be:

<table>
<thead>
<tr>
<th>Limit</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>$1,000,000</td>
<td>Each Claim</td>
</tr>
<tr>
<td>$1,000,000</td>
<td>Annual Aggregate</td>
</tr>
</tbody>
</table>
The insurance provided by Contractor shall apply on a primary basis. Any insurance, or self-insurance, maintained by the Village shall be excess of, and shall not contribute with, the insurance provided by Contractor.

Except where prior written approval has been obtained hereunder, the insurance maintained by Contractor shall apply on a first dollar basis without application of a deductible or self-insured retention. Contractor shall pay on behalf of the Village or the Village's council members, officials, officers, agents and employees any deductible or self-insured retention applicable to a claim against the Village or the Village’s council, officials, officers, agents and employees.

Compliance with these insurance requirements shall not limit the liability of Contractor. Any remedy provided to the Village by the insurance provided by Contractor shall be in addition to and not in lieu of any other remedy (including, but not limited to, as an indemnitee of Contractor) available to the Village under the Agreement or otherwise.

Neither approval nor failure to disapprove insurance furnished by Contractor shall relieve Contractor from responsibility to provide insurance as required by this Agreement.

Certificates of Insurance must be completed as follows:

1. **Certificate Holder**  
The Village of Islamorada  
86800 Overseas Highway  
Islamorada, Florida 33036

2. **Additional Insured for Commercial General Liability**  
The Village of Islamorada and its Council members, officials, officers and employees
PROPOSAL
FOR
REMOVE DUPLEX VACUUM PUMP CONTROL PANEL AND
REPLACE WITH A DUPLEX CONTROL PANEL AT
ISLAMORADA VACUUM COLLECTION STATION NO. 2 IN
ISLAMORADA, FLORIDA (RFP 19-13)

ISLAMORADA, VILLAGE OF ISLANDS

86800 Overseas Highway
Islamorada, Florida 33036

Attention: Village Clerk

Contract ID#: RFP 19-13

Reference: Remove Duplex Vacuum Pump CP & Replace with Duplex CP

Champion Controls, Inc. is pleased to offer you the following proposal for the above-mentioned project. All control systems provided under this contract will be integrated, tested, and certified to Champion Controls' highest standards in compliance with the specifications and requirements.

Champion Controls is a leading control systems supplier providing system integration and engineering design services, as well as manufacturing of custom control panels for a variety of markets. We hold Underwriters Laboratory (UL) 508A & 698A certifications for the USA and Canada. We are also State of Florida certified unlimited electrical contractors, State of Florida registered women and minority WMBE, State of New York DBE, and New York City women and minority WMBE.

Champion Controls also provides motor and drive testing services. Our ISA certified electric motor dynamometer is designed to load test and certify the capabilities of horizontal 230V AC or 460V AC electric motors. The system supports motors ranging from small fractional HP up to 100 HP and up to 600 lb-ft continuous torque (900 lb-ft intermittent).

Should you have any questions regarding this proposal, please contact me any time at your convenience.

Sincerely,

Marc Drillick
Estimator
Tel: 954-318-3090

About Us

Champion Controls is a leading control systems supplier providing system integration and engineering design services, as well as manufacturing of custom control panels for a variety of industrial and municipal markets including the water, waste-water and renewable energy segments. These systems include programmable logic controllers (PLC), remote telemetry units (RTU), supervisory control and data acquisition (SCADA) systems, and data logging solutions.

The company's engineers have a breadth of experience with field instrumentation equipment for measuring flow, pressure, temperature, level, pH, turbidity, etc., as well as stand-alone analyzer products.

Highest Quality Products & Services

In 2018, Champion Controls was awarded National Manufacturing Firm of the Year by the U.S. Department of Commerce's Minority Business Development Agency (MBDA).

https://content.govdelivery.com/accounts/USMBDA/bulletins/214b1fc

The award is the highest level of national recognition that a U.S. minority-owned firm can receive from the Department of Commerce. It is presented to a firm that has achieved significant success in employing new and innovative techniques that led to a significant increase in market share, job growth and customer satisfaction. Previously Champion Controls received the same distinction at the statewide level.

Champion Controls was also twice selected as the runner-up for the (2014 and 2016) Manufacturer of the Year by the South Florida Manufacturers Association (SFMA). The award is a culmination of judging process lasting several months wherein a panel of judges reviewed each nominee's business processes and manufacturing operations, eventually narrowing the field to a small group of finalists. The panel of judges then visited each of the finalist companies to evaluate their practices against six judging criteria.

http://www.prweb.com/releases/2014/05/prweb11854321.htm

The SFMA award captured the attention of Governor Rick Scott whom congratulated the company for providing “high-skilled, high-paid jobs for Florida Families.”

Most Qualified Supplier
Champion Controls is the most qualified to perform the work on this project. With many successfully completed projects throughout Florida since 2003, Champion Controls has earned a solid reputation for producing quality control systems and for providing excellent aftermarket support on our projects. Our staff is factory trained and experienced in various PLC products and the SCADA software including Allen-Bradley PLC's and HMI/SCADA. In addition, our factory is located in Broward County within reasonable commuting distance from Islamorada, and can best provide timely after-installation support for this project.

**Local Presence**

Champion Controls has a 15,000 sq. ft. facility nearby to Islamorada in which we design and manufacture UL certified control systems. The facility has ample space and sufficient utilities to support staging and testing of portions of the completed control systems prior to installation in the plant. Our close proximity to the Islamorada will facilitate greater interaction of the company's personnel with our staff during the implementation phase of the project. Our local proximity will also reduce the overall cost of implementation of the project by reducing freight and acceptance testing costs.

**Familiarity with the Electrical Standards**

We employ degreed electrical engineering who are trained and certified in the design of our control systems. Our company holds Underwriters Laboratory (UL) 508A & 698A certifications for the USA and Canada as a manufacturer of industrial control panels. We are also State of Florida certified unlimited electrical contractor.

**Familiarity with the Waste/Wastewater Standards**

Since inception, Champion Controls has held the Broward County Water & Wastewater Services department contract to manufacture and supply new lift station control panels as well as remove old and install the new ones. As a result, Champion's field electricians have amassed thousands of man-hours of electrical contracting experience in the municipal wastewater market.
Our key staff members have experience in implementing control systems for many water and wastewater municipalities in Florida, including several in the Keys (e.g., KLWTD, Key West, KWRU, and FKAA).

Champion Controls also has won several large contracts to provide process control systems for the wastewater and water plants for the City of Miramar, STOF Hollywood and for Broward County.

Installation and Field Services

Champion Controls is a licensed Florida Unlimited Electrical Contractor. We have a team of master and journeyman level electricians that are available to support installation of the new control system. Champion Controls also has a fleet of support vehicles that will enable our staff to provide timely field services and startup work for this project.

Warranty & Support

As noted earlier, Champion Controls staff is trained and experienced in the various products specified for this project. Champion's personnel are located in Broward County and will be made available to provide the warranty as noted in the RFP.

Key Staff Members

Below are selected personnel that Champion Controls expects to make available for this project.

Major Milestones

- Delivery of new control panel will be six (6) to eight (8) weeks after receipt of approved submittal/purchase order
- Champion Controls will commence field work within one (1) week of delivery of the panel
- Removal of existing equipment will take approximately one (1) week
- Installation of new equipment will take approximately two (2) weeks
- Startup & Commissioning Services of Control Panel are included for one (1) day (excluding commissioning of any optional PLC programming)

Our Implementation Plan

Champion Controls will replace the existing duplex vacuum pump control panel and replace it with a new duplex control panel at Islamorada’s vacuum collection station #2 located in North Plantation Key in Islamorada, Florida. The new panel will be provided with new Variable Frequency Drives to power the pump motors and pump control system based on Allen Bradley (AB) CompactLogix PLC platform with a PanelView Plus 1500 HMI Screen and chart recorder as the operator interface devices. Champion Controls will furnish and install all PLC hardware and (customer to load its PLC program) place the system back into proper control and monitoring operation. The base bid assumes that the existing PLC program can be reloaded and reused. Champion Control has included an optional price for us to re-program the new PLC.
As noted in the bid documents, upgrading of the pump station to accommodate the new systems will require demolition of the existing control system in the plant. Scheduled downtime will be kept to a minimum to the extent possible. Champion Controls will work closely with the City with regard to scheduling any deactivation of the station and will notify the City prior to any work.

Task 1: Removal of Existing Vacuum Pump Control Panel

Champion Controls plans to conduct a site inspection of the existing control panel and its condition, verify and trace the existing wiring, as well as verify the integrity of the City’s existing as-built drawings prior to removing the existing control panel.

Champion will disconnect and remove the existing control panel and make the area ready for the installation of the new panel.

Task 2a: Supply New Duplex Control Panel

Champion Controls will design, manufacture and test the new duplex control panel prior to shipment. Panel design will be based on UL508 and good engineering practices. Submittal drawings will be generated and sent to the City to approve prior to manufacturing the panel. Panel will include the components/parts as noted on Page 3 of 6 of the RFP.

The following documentation will be provided to the City as part of the design process:

A. Engineering Submittals
B. O&M Manuals
C. As-built Drawings

Task 2b: Install New Duplex Control Panel

Champion Controls will pour a new concrete panel to mount the new panel and allow sufficient time for the concrete to cure prior to installing the new control panel in place. The new control panel will then be mounted in place and the previously disconnected wiring will be terminated to the new panel. Champion Controls will then configure the variable frequency drives, perform instrument signal loop checks, and finally commission the new system prior to turning it over to the City. Training will be provided to City personnel on the new panel.

Optional PLC Programming Services

If this option is selected, Champion Controls will provide a functioning CompactLogix PLC program based on the current CompactLogix PLC program in use by the Islamorada Wastewater Utility Department. The City shall provide the existing PLC program to Champion Controls in electronic format (actual PLC code) for modification and implementation at Vacuum Collection Station #2. The optional programming services must be selected by the City prior to the start of Champion's field demolition and installation work so as not to impact the planned schedule.

Equipment & Manufacturer Warranty

One (1) year from startup not to exceed eighteen (18) months from delivery

General Notes

A. Freight Included
B. Quote is based on a five (5) day business week, Monday through Friday. Each business day consists of eight (8) hours.
C. Champion Controls will only install equipment supplied by Champion Controls as part of this RFP.
D. Professional Engineering Services if required are not included
E. No services or materials, other than those described herein are included in this proposal
F. Proposal is valid for 30 days from the date of this proposal

G. Payment terms are 2% 10, Net 30 days with zero percent retainage

H. Progress Payments
   a. Engineering submittals will be invoiced upon submission at the amount of 15% of the project total
   b. 60% of project total upon shipment
   c. 25% of project total on startup of Control Panel
STATEMENT OF PREFERENCE FOR LOCAL BUSINESS
Champion Controls is headquartered in Fort Lauderdale, FL and has an office in the Northeast (Ronkonkoma, NY). We do not have an office in the Keys and are therefore NOT seeking certification as a local business.

**DETACH AND POST THIS RECEIPT IN A CONSPICUOUS PLACE**

- This Receipt is issued for the period commencing October 1st and ending September 30th of the years shown above.

- If you have moved out of the city, please email businesstax@fortlauderdale.gov and include the Business ID #.

- A transfer of business location within the city limits is subject to zoning approval. Complete a Business Tax Transfer Application and bring it to our office to obtain the necessary approval.

- If you have sold your business, please provide us with a copy of the Bill of Sale.

- A Transfer fee of 10% of the annual business tax fee applies. The fee shall not be less than $3.00, nor greater than $25.00.

Please be advised that this issuance of a Business Tax Receipt establishes that the business you intend to conduct is a use permitted by the City Zoning Code for the location at which you intend to operate. The issuance of a Business Tax Receipt in no way certifies that the property located at this address is in compliance with other provisions of the City Code of Ordinances.
