RESOLUTION NO. 15-07-60

A RESOLUTION OF THE VILLAGE COUNCIL OF ISLAMORADA, VILLAGE OF ISLANDS, FLORIDA APPROVING THE PROJECT AGREEMENT BETWEEN THE WEILER ENGINEERING CORPORATION AND ISLAMORADA, VILLAGE OF ISLANDS, TO PROVIDE A STORMWATER EVALUATION FOR VENETIAN SHORES NEIGHBORHOOD; AUTHORIZING VILLAGE OFFICIALS TO IMPLEMENT THE TERMS AND CONDITIONS OF THE AGREEMENT; AUTHORIZING THE VILLAGE MANAGER TO EXPEND BUDGETED FUNDS; AUTHORIZING THE VILLAGE MANAGER TO EXECUTE THE AGREEMENT; AND PROVIDING FOR AN EFFECTIVE DATE

WHEREAS, Islamorada, Village of Islands (the “Village”) has retained the services of The Weiler Engineering Corporation (“Weiler”) for stormwater engineering; and

WHEREAS, Weiler has prepared a Project Agreement (the “Agreement”) to provide a Stormwater Evaluation for the Venetian Shores Neighborhood (the “Evaluation”); and

WHEREAS, the intent of the Evaluation is to perform a preliminary analysis of fourteen (14) public streets in the Venetian Shores Neighborhood to assess stormwater pooling and produce a preliminary engineering report with alternatives and cost analysis for stormwater improvements; and

WHEREAS, Weiler has agreed to provide the services described in the Agreement; and

WHEREAS, the Village Council finds that approval of the Agreement between Weiler and the Village attached hereto is in the best interest of the Village.

NOW, THEREFORE, BE IT RESOLVED BY THE VILLAGE COUNCIL OF ISLAMORADA, VILLAGE OF ISLANDS, FLORIDA, AS FOLLOWS:

...
Section 1. Recitals. The above recitals are true and correct and incorporated into this Resolution by this reference.

Section 2. Approval of Agreement. The Village Council hereby approves the Agreement between Weiler and the Village to provide stormwater evaluation services, a copy of which is attached as Exhibit “A,” together with such non-material changes as may be acceptable to the Village Manager and approved as to form and legality by the Village Attorney.

Section 3. Authorization of Village Officials. The Village Manager and/or his designee and the Village Attorney are authorized to take all actions necessary to implement the terms and conditions of the Agreement.

Section 4. Authorization of Fund Expenditure. Notwithstanding the limitations imposed upon the Village Manager pursuant to the Village’s Purchasing Procedures Ordinance, the Village Manager is authorized to expend funds from the Stormwater Enterprise Fund to implement the terms and conditions of the Agreement.

Section 5. Execution of Agreement. The Village Manager is authorized to execute the Agreement on behalf of the Village, to execute any required agreements and/or documents to implement the terms and conditions of the Agreement and to execute any extensions and/or amendments to the Agreement, subject to the approval as to form and legality by the Village Attorney.

Section 6. Effective Date. This Resolution shall take effect immediately upon adoption.
APPROVED AS TO FORM AND LEGALITY FOR THE USE AND BENEFIT OF ISLAMORADA, VILLAGE OF ISLANDS:

ATTEST:

PASSED AND ADOPTED this 9th day of July, 2015.

Motion to adopt by Councilman Jim Mooney, second by Councilman Dennis Ward.

FINAL VOTE AT ADOPTION

Mayor Mike Forster  YES
Vice Mayor Deb Gillis  YES
Councilman Jim Mooney  YES
Councilman Chris Sante  YES
Councilman Dennis Ward  YES

PASSED AND ADOPTED this 9th day of July, 2015.

Work Authorization No. 6

STORMWATER EVALUATION OF VENETIAN SHORES NEIGHBORHOOD

Pursuant to the provisions contained in the “Continuing Services Agreement” between ISLAMORADA, VILLAGE OF ISLANDS, FLORIDA (the “OWNER”) and The Weiler Engineering Corporation, (“CONSULTANT”) dated October 16, 2008, this Project Agreement authorizes the CONSULTANT to provide the services as set forth below:

The OWNER and CONSULTANT agree as follows:

SECTION 1. SCOPE OF SERVICES

1.1 The CONSULTANT shall provide engineering services to the OWNER for the Project as described in the “Project Description” attached as Exhibit “1.”

1.2 The “Scope of Services and Project Schedule” and tasks to be provided by the CONSULTANT for this Project are those services and tasks as listed in Exhibit “2.”

1.3 The OWNER may request changes that would increase, decrease, or otherwise modify the Scope of Services. Such changes must be contained in a written change order executed by the parties in accordance with the provisions of the Continuing Services Agreement, prior to any deviation from the terms of the Project Agreement, including the initiation of any extra work.

SECTION 2. DELIVERABLES

As part of the Scope of Services and Project Schedule, the CONSULTANT shall provide to the OWNER the following Deliverables:

Preliminary analysis of the Venetian Shores Neighborhood Study Area inclusive of the sixteen (16) streets listed in Exhibit 'I' and depicted in Exhibit '5' herein. WEC will produce a preliminary engineering report with alternatives and cost analysis for stormwater improvements.
SECTION 3. TERM/TIME OF PERFORMANCE/DAMAGE

3.1 **Term.** This Project Agreement shall commence on the date this instrument is fully executed by all parties and shall continue in full force and effect for two years from date of execution, unless otherwise terminated pursuant to Section 6 or other applicable provisions of this Project Agreement. The Village Manager, in his sole discretion, may extend the term of this Agreement through written notification to the CONSULTANT. Such extension shall not exceed 60 days. No further extensions of this Agreement shall be effective unless authorized by the Village Council.

3.2 **Contract Time.** Upon the commencement of the term of this Agreement, the CONSULTANT shall commence services to the OWNER on the Commencement Date, and shall continuously perform services to the OWNER, without interruption, in accordance with the time frames set forth in the “Project Schedule,” a copy of which is attached and incorporated into this Agreement as Exhibit “2”. The number of calendar days from the Commencement Date, through the date set forth in the Project Schedule for completion of the Project or the date of actual completion of the Project, whichever shall last occur, shall constitute the Contract Time.

3.3 **Liquidated Damages.** Unless otherwise excused by the OWNER in writing, in the event that the CONSULTANT fails to meet to the contract time for completion of services as determined by the Project Schedule, the CONSULTANT shall pay to the OWNER the sum of dollars identified below per day for each and every calendar day unexcused delay beyond the completion date, plus approved time extensions, until completion of the project: $ N/A per day. The CONSULTANT may claim extension if the factors involved are not under their direct control.

Any sums due and payable hereunder by the CONSULTANT shall be payable, not as a penalty, but as liquidated damages representing an estimate at or before the time of executing this Agreement. When the OWNER reasonably believes that completion will be inexcusably delayed, the OWNER shall be entitled, but not required, to withhold from any amounts otherwise due the CONSULTANT an amount then believed by the OWNER to be adequate to recover liquidated damages applicable to such delays. If and when the CONSULTANT overcomes the delay in achieving completion, or any part thereof, for which the OWNER has withheld payment, the OWNER shall promptly release to the CONSULTANT those funds withheld, but no longer applicable, as liquidated damages.

3.4 All limitations of time set forth in this Agreement are of the essence.

SECTION 4. AMOUNT, BASIS AND METHOD OF COMPENSATION

4.1 **Hourly, Not to Exceed Compensation.** OWNER agrees to pay CONSULTANT as compensation for performance of all services described in Exhibit “2” $ 12,660.00.

4.2 **Reimbursable and Travel Expenses.** Reimbursable and travel expenses shall be pursuant to Sections 1.2 and 1.5 of the Continuing Services Agreement.
SECTION 5. BILLING AND PAYMENTS TO THE CONSULTANT

5.1 **Compensation and Reimbursable Expenses.** CONSULTANT shall submit invoices which are identified by the specific project number on a monthly basis in a timely manner. These invoices shall identify the nature of the work performed, the phase of work, and the estimated percent of work accomplished in accordance with the Payment Schedule set forth in Exhibit “3”, to this Project Agreement. Invoices for each phase shall not exceed amounts allocated to each phase of the Project plus reimbursable expenses accrued during each phase. The statement shall show a summary of fees with accrual of the total and credits for portions previously paid by the OWNER. The OWNER shall pay CONSULTANT within thirty (30) calendar days of approval by the Village Manager of any invoices submitted by CONSULTANT to the OWNER.

5.2 **Disputed Invoices.** In the event that all or a portion of an invoice submitted to the OWNER for payment to the CONSULTANT is disputed, or additional backup documentation is required, the OWNER shall notify the CONSULTANT within fifteen (15) working days of receipt of the invoice of such objection, modification or additional documentation request. The CONSULTANT shall provide the OWNER with additional backup documentation within five (5) working days of the date of the OWNER’S notice. The OWNER may request additional information, including but not limited to, all invoices, time records, expense records, accounting records, and payment records of the CONSULTANT. The OWNER, at its sole discretion, may pay to the CONSULTANT the undisputed portion of the invoice. The parties shall endeavor to resolve the dispute in a mutually agreeable fashion.

5.3 **Suspension of Payment.** In the event that the OWNER becomes credibly informed that any representations of the CONSULTANT, provided pursuant to Subparagraph 5.1, are wholly or partially inaccurate, or in the event that the CONSULTANT is not in compliance with any term or condition of this Project Agreement, the OWNER may withhold payment of sums then or in the future otherwise due to the CONSULTANT until the inaccuracy, or other breach of Project Agreement, and the cause thereof, is corrected to the OWNER’s reasonable satisfaction.

5.4 **Retainage.** The OWNER reserves the right to withhold retainage in the amount of ten percent (10%) of any payment due to the CONSULTANT until the project is completed. For projects that are divided into several phases, any retainage shall be withheld and released individually for each phase of the project. Said retainage may be withheld at the sole discretion of the Village Manager and as security for the successful completion of the CONSULTANT’S duties and responsibilities under the Project Agreement.

5.5 **Final Payment.** Submission of the CONSULTANT’S invoice for final payment and reimbursement shall constitute the CONSULTANT’S representation to the OWNER that, upon receipt from the OWNER of the amount invoiced, all obligations of the CONSULTANT to others, including its consultants, incurred in connection with the Project, shall be paid in full. The CONSULTANT shall deliver to the OWNER all documents requested by the OWNER evidencing payments to any and all subcontractors, and all final specifications, plans, or other
documents as dictated in the Scope of Services and Deliverable. Acceptance of final payment shall constitute a waiver of any and all claims against the OWNER by the CONSULTANT.

SECTION 6. TERMINATION/SUSPENSION

6.1 For Cause. This Project Agreement may be terminated by either party upon five (5) calendar days written notice to the other party should the other party fail substantially to perform in accordance with its material terms through no fault of the party initiating the termination. In the event that CONSULTANT abandons this Project Agreement or causes it to be terminated by the OWNER, the CONSULTANT shall indemnify the OWNER against any loss pertaining to this termination. In the event that the CONSULTANT is terminated by the OWNER for cause and it is subsequently determined by a court of competent jurisdiction that such termination was without cause, such termination shall thereupon be deemed a termination for convenience under Section 6.2 of this Project Agreement and the provision of Section 6.2 shall apply.

6.2 For Convenience. This Project Agreement may be terminated by the OWNER for convenience upon fourteen (14) calendar days’ written notice to the CONSULTANT. In the event of termination, the CONSULTANT shall incur no further obligations in connection with the Project and shall, to the extent possible, terminate any outstanding subconsultant obligations. The CONSULTANT shall be compensated for all services performed to the satisfaction of the OWNER and for reimbursable expenses incurred prior to the date of termination. The CONSULTANT shall promptly submit its invoice for final payment and reimbursement and the invoice shall comply with the provisions of Paragraph 5.1 of this Project Agreement. Under no circumstances shall the OWNER make any payment to the CONSULTANT for services which have not been performed.

6.3 Assignment upon Termination. Upon termination of this Project Agreement, a copy of all of the CONSULTANT’s work product shall become the property of the OWNER and the CONSULTANT shall, within ten (10) working days of receipt of written direction from the OWNER, transfer to either the OWNER or its authorized designee, a copy of all work product in its possession, including but not limited to designs, specifications, drawings, studies, reports and all other documents and data in the possession of the CONSULTANT pertaining to this Project Agreement. Further, upon the OWNER’S request, the CONSULTANT shall assign its rights, title and interest under any subcontractor’s agreements to the OWNER.

6.4 Suspension for Convenience. The OWNER shall have the right at any time to direct the CONSULTANT to suspend its performance, or any designated part thereof, for any reason whatsoever or without reason, for a cumulative period of up to thirty (30) calendar days. If any such suspension is directed by the OWNER, the CONSULTANT shall immediately comply with same. In the event the OWNER directs a suspension of performance as provided for herein through no fault of the CONSULTANT, the OWNER shall pay to the CONSULTANT its reasonable costs, actually incurred and paid, of demobilization and remobilization, as full compensation for any such suspension.
SECTION 7. INCORPORATION OF TERMS AND CONDITIONS OF CONTINUING SERVICE AGREEMENT

7.1 This Project Agreement incorporates the terms and conditions set forth in the Continuing Services Agreement dated __________ between the parties as though fully set forth herein. In the event that any terms or conditions of this Project Agreement conflict with the Continuing Services Agreement, the provisions of this specific Project Agreement shall prevail and apply.

EXHIBITS
Exhibit “I”

Project Description

The Venetian Shores neighborhood within the Village of Islamorada has been the subject of insufficient stormwater management. The Village Council and staff have asked WEC to provide a proposal for services including the preliminary evaluation of conceptual alternatives and cost estimates for stormwater improvements for this area which includes the following sixteen (16) streets (Study Area):

1. Venetian Boulevard
2. Palermo Drive
3. San Remo Drive
4. Leoni Drive
5. Valencia Drive
6. Palo De Oro Drive
7. Stomboli Drive
8. Giardino Drive
9. Milano Drive
10. Severino Drive
11. Villa Bella Drive
12. Bayview Isle Drive
13. San Marco Drive
14. Venetian Way
15. Gulf Side Drive
16. San Juan Drive

Detailed descriptions of the proposed services to be provided by WEC are included below:

i. Kick off meeting - meeting with the Village Project Manager to refine scope.
ii. Site visit - visit each street (preferably following rain event) to determine standing water location.
iii. Obtain publically available LIDAR elevation data for each site location.
iv. Review any available topographic information for each site obtained from Village sewer project.
v. Based on information in items 3 and 4 above, delineate basin (contributing) area for each site.
vi. Summarize alternatives for each site and indicate which ones are more probable given elevation and contributing area. Alternatives include exfiltration trench, gravity injection well, pump-assist injection well.
vii. Develop concept model to determine applicability of alternatives.
viii. Estimate costs for probable alternatives for the Study Area.
ix. Coordinate with SFWMD regarding preliminary engineering and permit requirements.
x. Recommend location and type of geotechnical investigation for each site to be performed prior to design phase and estimate geotechnical costs.
xi. Estimate engineering design, permitting and CEI costs and additional survey costs.
xii. Develop feasibility report incorporating above items.

In order to best serve the Village of Islamorada WEC strongly recommends that this evaluation be conducted during the rainy season. Should this evaluation be conducted during the dry season, there will be valuable information lost as to how the Study Area behaves during an actual storm event.

For the purpose of this study, it is assumed that the stormwater improvements for Study Area will be constructed as a single project rather than individual systems. As such, multiple streets may share stormwater management system components which will reduce cost over a design which treated each street as an individual system.

</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Evaluation of Study Area Existing Conditions</td>
<td>WEC will gather all available data regarding existing site conditions. This includes site visits to the study area, obtaining publicly available LIDAR data for each location, and review of topographic data available from the Islamorada sewer project at each location. WEC will also delineate contributing area for each site.</td>
<td>$4,710.00</td>
</tr>
<tr>
<td>2</td>
<td>Analysis of Site Conditions</td>
<td>WEC will analyze site data to determine which alternatives are best suited for a stormwater system for the study area. WEC will develop a concept model to determine the effectiveness of alternatives. WEC will summarize alternatives and indicate which ones are more probable given elevation and contributing area. Alternatives include exfiltration trench, gravity injection well, pump-assist injection well.</td>
<td>$4,665.00</td>
</tr>
<tr>
<td>3</td>
<td>Feasibility Report &amp; Cost Estimation</td>
<td>WEC will estimate costs for the recommended stormwater management system as well as coordinate with SFWMD regarding preliminary engineering and permit requirements. A recommend location and type of geotechnical investigation for each site to be performed prior to design phase as well as estimated geotechnical costs will be given to the Village. WEC will estimate engineering design, permitting and CEI costs and additional survey costs. Finally a feasibility report incorporating above items will be developed and given to the Village.</td>
<td>$3,285.00</td>
</tr>
</tbody>
</table>

$12,660.00

TOTAL PROJECT HOURLY NOT TO EXCEED AMOUNT $12,660.00
**Phase 1 – Evaluation of Existing site Conditions**

After consultation with the OWNER and inclusion of any specific modifications or changes in the scope, extent, character, or requirements of the Project desired by the OWNER, and upon written authorization from OWNER, CONSULTANT shall performed the following tasks:

A. Kick off meeting - meeting with Village Staff to refine scope and visit Study Area.

B. Site visit - visit each site (preferably following rain event) to determine standing water location.

C. Obtain publically available LIDAR elevation data for each site location.

D. Review topographic information for each site obtained from Village sewer project.

E. Based on information in C and D above, delineate basin (contributing) area for each site.

**Phase 2 – Analysis of Site Conditions**

Once all site conditions are understood, an evaluation of the Study Area will be conducted in order to determine the recommended stormwater management system components. This evaluation will take an in depth look at each alternative available and how it would affect the Study Area as a whole. A conceptual model will be developed in order to determine the recommended system. This phase includes the following tasks:

A. Summarize alternatives and indicate which ones are more probable given elevation and contributing area. Alternatives include exfiltration trench, gravity injection well, pump-assist injection well.

B. Develop concept model to determine applicability of alternatives.

**Phase 3 – Feasibility Report & Cost Estimation**

WEC will provide the Village with a feasibility report as well as a cost estimation for the recommended stormwater management system. The tasks for this phase include:

A. Estimate costs for probable alternative.

B. Coordinate with SFWMD regarding preliminary engineering and permit requirements.
C. Recommend location and type of geotechnical investigation for to be performed prior to design phase and estimate geotechnical costs.

D. Estimate engineering design, permitting and CEI costs and additional survey costs.

E. Develop feasibility report incorporating above items.

In the event that the Work designed or specified by ENGINEER is to be performed or furnished under more than one prime contract, or if ENGINEER’s services are to be separately sequenced with the work of one or more prime Contractors (such as in the case of fast-tracking), OWNER and ENGINEER shall, prior to commencement of the Final Design Phase, develop a schedule for performance of ENGINEER’s services during the Final Design, Bidding or Negotiating, Construction, and Post-Construction Phases in order to sequence and coordinate properly such services as are applicable to the work under such separate prime contracts. This schedule is to be prepared and included in or become an amendment to Exhibit A whether or not the work under such contracts is to proceed concurrently.

The number of prime contracts for Work designed or specified by ENGINEER upon which the ENGINEER’s compensation has been established under this Agreement is one.
